Key Message from the Chairman

Dear valued shareholders, customers and stakeholders,

It is my pleasure to present to you the annual financial report of Faysal Bank Limited (FBL), a leading Islamic financial institution, for the year 2024. This is our second report after having been licensed as an Islamic financial entity. This report highlights the Bank's achievements, challenges, and future prospects, demonstrating its commitment to overall excellence, innovations in different segments and Shariah-compliant banking.

Our transformative journey has been a continuous process marked by significant milestones. Our Total assets have grown by 14% to reach Rs1,565 billion, which is Alhamdulillah a decent accomplishment. Our Profit Before Tax also showed a substantial rise of 22%, reflecting our focus on operational efficiency, cost optimisation, and innovative financial solutions. The Bank has achieved significant growth in customer loyalty as reflected in our business success and the strong improvement in Net Promoters Score (NPS).

The Bank has been recognised by the State Bank of Pakistan (SBP) as the fastest-growing Bank in the country's remittance market under its Pakistan Remittance Initiative (PRI). The award was presented at the 4th Pakistan Remittance Summit, held in the second week of December 2024, in Rome, Italy. This award highlights our excellence and growing leadership in the remittance sector, reflecting the trust and confidence placed in the Bank by its valued customers both in Pakistan and abroad.

The Bank's network of branches expanded to 855, with the addition of 133 branches during the year 2024. That is MashaAllah an overall addition of 279 branches in the last 5 years, and we are hopeful of reaching the mark of 1000 branches in the near future. Working with an expansionary strategic model, the objective is to simultaneously achieve strong growth in volumes and revenues, with cost discipline, and maintenance of efficiency ratios.

Committed to excellence, we continue to strengthen our position in the industry through dedicated efforts and a strong market presence. With continued blessings of Allah Subhanahu Wa Ta'ala, we hope to reach the top 5 mark with consistent effort of our diligent teams.

The year 2024 has also been a year of change for the banking sector as a shift from deposit-led to asset-led business model was witnessed. Crucial challenges were faced by the banks, which included subdued economic growth, low Foreign Direct Investment (FDI) and policy rate reduction from 22% to 13% in December 2024. Despite these challenges, the Bank achieved

its 2024 strategy/ budget targets. The ADR was comfortably above 50%.

As a pioneering Islamic Bank, we remain dedicated to upholding the principles of Shariah in all our transactions, ensuring that our operations are not only financially rewarding but also socially responsible and ethically sound. Our Shariah Supervisory Board continues to provide guidance and oversight, ensuring that our products and services meet the highest standards of Shariah compliance.

During the year, we launched several key initiatives aimed at enhancing customer experience, expanding our digital presence, and strengthening risk management framework. These efforts have positioned us for sustained growth and improved competitiveness in the market.

We continued to invest in digital transformation, upgrading our online banking platform, mobile applications, and payment systems to provide a seamless and secure experience for our customers. Our digital channels have seen significant growth, with 66% increase in internet & mobile banking transactions and 34% rise in mobile banking subscribers.

Faysal Bank remains committed to promoting financial inclusion and economic development in our communities. Our SME programmes have empowered numerous business owners, while our Islamic finance training programmes have enhanced capacity building and knowledge retention / sharing.

Over the year, our risk management framework has been significantly strengthened by enhancing credit risk assessment, liquidity management, and compliance systems. Risk management strategies have enabled the Bank to navigate challenging market conditions and maintain a strong capital adequacy ratio.

Guided by our Islamic values, we prioritised initiatives that benefit communities and promote sustainability. We managed to allocate PKR 141 million, to support educational, health and other corporate social responsibility programmes and initiatives, and hope to do more in the years ahead. The Bank has partnered with charitable organisations to deliver relief to the less privileged segment of the society. To further consolidate our initiatives, and enhance impact, we set up Board's Sustainability and Development Committee (BSDC). BSDC will define/review the sustainability strategy and framework, and align it with national sustainability strategy for future.

As we celebrate another successful year, we reaffirm our commitment to Islamic banking principles and our role in promoting financial inclusion and economic development along

with the achievement of prime objectives pertaining to Climate & Environmental Social Governance (ESG).

Looking ahead, strategic goals have been prepared in the Strategy document for the period of 2025-2028. We are optimistic about the future prospects of the Bank, with our strategic focus on further diversifying our product offerings. Conforming to the digital age, we will continue to invest in technology, and expand our presence in key markets.

Keeping in view the challenges of policy rate reduction, narrowing margin, and an increased minimum profit rate for depositors, the Bank remains committed to creating long-term value for its shareholders while making a positive impact on the communities it serves.

I extend my deepest gratitude to our shareholders and employees for their confidence and unwavering support. To our customers, I sincerely extend my gratitude for their loyalty and trust in our services. My appreciation also goes to the Shariah Supervisory Board for their wisdom and guidance, ensuring our adherence to Islamic principles. Lastly, I also thank my fellow Board members for their guidance and oversight.

Thank you.

Sincerely Yours,

Mian Muhammad Younis
Chairman, Board of Directors
Faysal Bank Limited

Vision

To be the best customer centric Islamic bank, driven by passion and belief.

Mission

Achieve leadership in providing Shariah compliant financial services with customer care and employee focus, at the heart of our business ethos together with innovation and technology being the pillars of our growth.

Core Values

Code Of Conduct on Corporate Website

<https://www.faysalbank.com/assets/documents/Code-of-Conduct.pdf>

Code of Ethics

FBL's Code of Ethics establishes the expected standards of conduct for all employees, guiding them in fulfilling their professional obligations. Aligned with Faysal Bank's Core Values, the Code aims to fortify FBL's Vision by fostering behaviors consistent with ethical principles.

The Code serves to prevent workplace misconduct and promote ethics by:

- Adhering to FBL's policies, regulatory instructions and applicable Shariah guidelines.
- Demonstrating integrity and honesty in all circumstances.
- Treating others with care and respect.
- Avoiding conflicts of interest.
- Respecting confidentiality and safeguarding sensitive information.

The comprehensive Code of Ethics, which requires staff acknowledgment, is accessible to all employees through FBL's Intranet and Learning Management System. Covering various ethical themes, the Code outlines FBL's expectations regarding customer and employee interactions. It also provides guidelines for handling and raising voice against the situations including harassment, discrimination, bribery and corruption. Code further promotes the diversity, equity and inclusion, workplace safety, corporate social responsibility, social media usage etc.

Additionally, the Code specifies Speak Up channels within FBL, offering employees a confidential platform to report misconducts and wrongdoings without any fear and maintaining the secrecy.

Ownership Structure

Ithmaar Bank

Ithmaar Bank B.S.C. (closed) ("Ithmaar Bank") is a Bahrain-based Islamic retail bank that is licensed and regulated as an Islamic Bank by the Central Bank of Bahrain as is focused exclusively on serving corporate customers. is committed to providing innovative and reliable services for seamless money transfers. Through our global and long-term relationships with dedicated partners, our customers enjoy the convenience of instant fund transfer facilities via a variety of secure and efficient payment modes.

- Cash-over-Counter payments for walk-in customers at Faysal Bank
- Instant Account Credit to Faysal Bank account holders
- Instant Account Credit to 1Link member bank account holders through IBFT including wallet payouts
- Same Day Account Credit to other bank account holders via PRISM / RTGS

Strategic Initiatives:

Faysal Bank is one the leading innovative Banks in the country, with a strong commitment towards digitization of customer experiences. The Bank's focus has been on creating a continuous innovation cycle especially in the payments landscape through digital solutions, products and platforms with the aim of asserting its position as the #MostInnovativeIslamicBank.

Retail Banking

Faysal Bank provides customers with a wide range of Islamic Deposit Products for their daily banking requirements that comply with Shariah Principles. Our products are designed keeping in view customer needs and requirements for personal and business banking needs. From simple day-to-day accounts to high value investments, you can choose the product that suits your needs the best to get attractive halal returns. Retail Liability Products also provide you maximum flexibility, transactional convenience and easy access to your funds through our Nationwide Online Faysal Islami branches, ATM network, Debit/Virtual Cards and through Faysal Digibank.

Islamic Current Deposit Account

Our value-added Islami current account products enable you to derive benefits from your deposits. Current Account products are a suitable solution for individuals as well as business entities looking for a checking account based on Islamic Financing Principles. Islami Current Accounts are based upon Qard, (Loan on demand) and Remunerative Mudarabah principles which make products free of Riba (interest) and the principle is guaranteed to you, the depositor.

Islamic Savings Accounts

Our Islamic Savings accounts are opened on the basis of 'Mudarabah', where Faysal Islamic Banking is the 'Mudarib' (manager of the funds) and you, the customers are the 'Rabb-ul-Maal' (owner of funds). These deposits are deployed in Shariah compliant modes such as Ijarah, Murabaha and Musharakah, etc. The rate of profit on your deposit will be determined through Shariah approved mechanism for calculation of weightages which will be announced at the beginning of each calendar month and shall be applicable for

that month only. Faysal Islamic Saving deposits will share in the profit earned by the Islamic Banking Branches of Faysal Bank. Losses, if any, will be shared in the proportion of investment by each depositor. Monthly weightages for profit distribution shall be calculated and displayed at all Faysal Islamic Banking branches as well as our website.

Term Deposit Products

Faysal Islami Investment Certificates offer you convenient financial solutions under the arrangement of 'Mudarabah', where Faysal Banking is the 'Mudarib' (manager of the funds) and you, the customers, are the 'Rabb-ul-Maal' (owner of the funds). These deposits are deployed in Shariah-compliant modes such as Ijarah, Murabaha, and Musharakah. The rate

of profit on your deposit will be determined through a Shariah approved mechanism for calculation of weightages which will be announced at the beginning of each calendar month and shall be applicable for that month only. Faysal Islami Investment Certificates will share in the profit earned through financing in different Islamic modes of financing. Losses, if any, will be shared in the proportion of investment by each depositor.

Monthly weightages for profit distribution shall be calculated and displayed at all Faysal Islamic Banking branches as well as our website.

Faysal Islami provides an extensive range of Current, Saving, and Term Deposit products tailored to meet the diverse transactional and investment needs of our customers. The following section outlines the details of our Islamic Banking products, designed to cater to various customer segments.

Bank Guarantee

A bank guarantee issued at the request of a customer may be defined as an obligation of the issuing bank to pay a sum of money in the event of non-performance or non-fulfillment of stated obligation by its customer. The guarantee is a separate obligation independent of the principal or the contractual relationship between the creditor and the principal debtor. Bank Guarantees are generally payable on first demand from the beneficiary made within the validity of the guarantee.

FBL offers the facility of issuance of guarantees to its customers generally in the following forms:

1. Bid Bonds (GBB)

A Bid Bond substantiates the financial standing of a person submitting a bid. It is issued in connection with submission of a tender for supply of goods or services and its normal characteristic is an undertaking to pay to the beneficiary a fixed amount, generally a small percentage of the total value of the Order, within a stated period on his simple written demand if the applicant withdraws his obligations after acceptance of his bid.

2. Performance Guarantee (PBG)

In a performance guarantee the Bank undertakes on behalf of a customer to pay a fixed amount, generally a higher percentage than the Bid Bond, in case the customer fails to discharge his obligations under a particular Order or contract. Upon issuance of Performance Guarantee the Bid Bond issued earlier for the same contract is returned and cancelled.

3. Advance Payment Guarantee (GAP)

Contracts, particularly those awarded by government departments, agencies and autonomous bodies such as Water and Power Development Authority (WAPDA), K-Electric (KE) etc., sometimes provide for an advance payment to be made to contractors for purposes such as mobilizing manpower, material, and equipment and infra-structure facilities on site. In order to obtain this payment, the contractor is required to produce an advance payment bank guarantee. This advance payment is generally deducted proportionately from proceeds paid to the applicant for work done during the contract period.

4. Shipping Guarantees (SGS & SGU)

A shipping guarantee is required by a customer (importer) when the ship carrying the consignment reaches the port of destination and discharges the goods before the Bills of Lading & other shipping documents are received at importer's bank.

5. Financial Guarantee – Others (BGO)

Bank guarantees whose main characteristic is that it is an undertaking by the issuing bank to meet any claim from the beneficiary up to a fixed sum on simple demand stating that the named customer, on whose behalf the Guarantee is issued, has defaulted in timely payment or discharge of his specified liabilities. Other financial guarantees may be issued for the release of Retention money to the contractor before completion of a contract.

6. Financial Guarantee - Financial Institutions Outside Pakistan (FGT)

A Guarantee to Financial Institutions outside Pakistan in the shape of a Bid Bond or Performance Bond issued by the Bank on behalf of customers dealing in exports, an Engineering or consultancy firm etc. to make good a loss incurred by the beneficiary abroad as a result of non-fulfillment of the contract obligations by the applicant within the specified period.

7. Financial Guarantee - Financial Institutions within Pakistan (FGT)

A guarantee issued in favor of a financial institution within Pakistan to make good on first simple demand a default of the customer due to non-repayment of the finance extended by the financial institution within the specified period as incorporated in their mutual

agreement up to a fixed sum.

Imports

1) Letter of Credit

A Letter of Credit is an obligation taken by a bank (as the issuing bank) on behalf of a buyer of goods & services (the applicant) to pay a certain sum of money to the seller of such goods & services (beneficiary) if the documents called for in the letter of credit are presented strictly in compliance with the terms and conditions of the Letter of Credit.

Letters of Credit activities are presently governed by International Chamber of Commerce Uniform Customs and Practices for Documentary Credits Publication No. 600 (2007 revision).

2) Documentary Collection

Documentary collection is a form of trade finance in which an exporter is paid for its goods by an importer after the two parties' banks exchange the required documents. The exporter's bank collects funds from the importer's bank in exchange for documents releasing title to the shipped merchandise, usually after the goods arrive at the importer's location

3) Import Advance Payment

Advance payment is a payment method in which the price of goods is collected in advance prior to the shipment of the goods which are subject to import and the exporter ships the goods, the payment of which is already made, to the importer later on.

4) Open Account

An open account is an arrangement between a business and a customer, where the customer can buy goods and services on a deferred payment basis. The customer then pays the business at a later date.

5) Import Financing

Import financing is a specialized Trade Finance Solution used to finance the purchase of goods which are being exported from one country for the purpose of being imported into another country.

The Treasury Department at Faysal Bank exemplifies a client-centric approach rooted in Shariah principles, leveraging deep market expertise and a comprehensive understanding of Islamic financial instruments to deliver bespoke balance sheet solutions. The department offers a wide range of Shariah-compliant Fixed Income and Foreign Exchange products, thoughtfully crafted to address the diverse and dynamic financial needs of its extensive clientele. By seamlessly integrating innovation and Shariah compliance, the Treasury Department ensures its offerings empower clients to achieve their financial objectives within an ethical framework.

In addition to these products, the Equity Capital Markets desk within the Treasury Department plays a pivotal role in enhancing capital base by generating risk-adjusted returns through a proprietary equity trading business under a measured risk focus and a Shariah-compliant framework.

Aligned with its vision of embracing digital transformation and enriching customer experience, Faysal Bank proudly offers Faysal – Self Invest, a cutting-edge Shariah-compliant online trading platform designed exclusively for Faysal Digibank customers. This platform empowers customers to independently manage their IPS investments while adhering to Islamic banking principles.

Such innovations, alongside the robust management of a proprietary equity portfolio, highlight Faysal Bank's dedication to delivering cutting-edge, Shariah-compliant financial solutions. The Bank continues to foster trust, excellence, and ethical values in Islamic digital banking while meeting the evolving needs of its customers.

Commercial & SME

Faysal Bank Limited (FBL) has made substantial progress in Commercial Banking and SME financing over the past five years, driven by a focused agenda within its Commercial Banking and SME (CBSME) department. This growth has been achieved through strategic models such as the **Branch Led Model (BLM)** and the **Hub and Spoke Model**.

The **BLM model** empowers selected branches to actively manage SME/Commercial -related activities (asset booking & trade services). In addition, the **Hub and Spoke Model** allows for creation of hubs in major commercial markets across the country to handle SME/Commercial Business concentrations. These hubs, which are strategically placed in key areas across the country, are staffed with dedicated Unit Heads and Relationship Managers. Through these strategic initiatives, FBL has enhanced the market presence, facilitated structural penetration, and improved team building, all contributing to a more effective service to the SME sector.

In terms of **SME Product Suite**, FBL continues to focus on innovation and customization for SMEs. The bank is working on introducing new financing products, such as program-based financing, cluster based financing, trade finance solutions, value-chain financing and Digital Financing Solutions.

FBL distinguishes itself by being one of the few banks in the market to create a product program model revolving around **Supply Chain Finance (SCF)**. FBL emphasizes on strengthening the backbone of SME supply side of the value chain.

Moving forward, FBL will focus on executing a robust growth strategy which includes expanding product offerings, deepening its market reach, and ensuring SMEs have access to the right tools for growth and success.

Financing Facilities for Commercial & SME Enterprises

1. Working Capital Solutions

Short-term financing facilities are generally used by the businesses to finance their working capital requirements. These short term finance are intended to finance inventory, account receivable and seasonal business needs.

The short-term finance comprises of the following;

- Trade Finance Solution (Sight LC Initiative)
- Faysal Fleet Financing
- Islamic Share Financing - for Stock Brokerage House
- Faysal Roshni – Solar Financing (subject to availability of SBP limit)

III. Supply Chain financing

Supply Chain financing entails providing a structured finance facility to a SME based on the support of a parent/corporate entity. This facility is usually made available to businesses where stand-alone financing might not be warranted. However, an underlying credit support (a letter of support or an effective stop sale agreement) from a parent company/corporate entity, a structured facility could be granted to SME.

The structured supply chain financing may involve one or more following arrangements:

- Letter of Comfort / referrals from the parent company/corporate entity
- Support of parent company/corporate entity on routing of cash flows (payments being made to suppliers) through us – assignment of receivables
- Support by the parent company/corporate entity through delisting of defaulted supplier and helping banks in recovery efforts

IV. Digital Financing Solution

Considering the importance of Digital Supply Chain Finance (DSCF) to strengthen SMEs to strengthen SMEs FBL took the initiative of launching digital solutions for managing the SME Financing & Value Chain Financing. Faysal Bank is going to introduce the "Faysal Digital Financing Platform" for the following:

- Digital Supply Chain Financing Solution (Distributor Financing/Vendor Financing)
- Stand Alone SME Digital Financing. Faysal Bank Limited's digital financing platform is strategically designed to cater target market:
- The platform will engage clients who are already utilizing Faysal Bank's supply chain financing programs
- NTB's whose data has been provided by the fintech.
- Commercial/Small and Medium Enterprises (SMEs)

Agri Banking

Faysal Khushaal Kisan

Faysal Bank offers a comprehensive range of Shariah Compliant financing products under its "**Faysal Khushaal Kisan Scheme**" to cater to all types of Farm and Non-Farm agricultural activities. As a result of its focused approach and sustained financing policies, FBL has established its identity as a market leader among its peers in the area of agricultural financing. All branches of FBL located in agricultural areas of Pakistan are well equipped to provide the best services to local farmers in order to improve the yield and methods of farming, by offering timely and affordable financing for agricultural purposes.

- Faysal Bank received two prestigious awards at the 10th Islamic Retail Banking Awards, securing recognition as the Best Islamic Retail Bank for Consumer Financing and Best Islamic Digital Banker in Pakistan for 2024.
- FBL's Consumer Finance team won two prestigious awards, Market Leader in Affluent Credit and Top Issuer of Cards in Pakistan at Mastercard East Arabia Business Forum 2024.

Significant Changes from Prior Years

In 2024, Faysal Bank Limited launched its own exchange company. Faysal Islami Currency Exchange Company (Private) Limited was incorporated in Pakistan on 16 January 2024 as a private limited company under the Companies Act, 2017. The Company is required to operate in accordance with the rules and regulations laid down by the State Bank of Pakistan (SBP) through F.E. Circular No. 9 dated 30 July 2002. The Company obtained license for commencement of operations from the State Bank of Pakistan (SBP) on 26 March 2024 and started its operation on 17 May 2024. The Company operates as an exchange company and is engaged in the business of dealing in foreign exchange. The Company operates with 10 currency exchange booths currently having footprint in 10 major cities of Pakistan. The company intends to enhance its' network presence going forward in other cities and remote areas. FICEC's registered office is situated at ST-02, Faysal House, Sharah-e-Faisal, Karachi.

A warm, golden-toned photograph of a desk at night. A black desk lamp with a brass base is lit, casting a soft glow. On the desk are several papers, some with tables and text, and a white mug. The background is blurred, showing bookshelves. The bottom of the image features a dark geometric pattern.

Strategy & Resource Allocation

Strategic Objectives and Strategies for Achieving Goals

In 2023, Faysal Bank successfully became the first commercial bank in Pakistan to fully convert into an Islamic bank. This was the largest conversion of its type globally and reflects our unwavering commitment to Islamic banking principles.

This conversion is just the starting point of our vision which is to become the leading customer-centric Islamic bank, driven by passion and belief. Our entire corporate strategy is built around this vision and emphasizes product enhancement, operational efficiency, digital innovation, customer satisfaction, sustainability initiatives, employee development and financial inclusion, all in complete adherence to Islamic principles.

Key Strategic Initiatives and Achievements in 2024

During 2024, there are several notable achievements including the successful expansion of the branch network to 855 branches in 350 cities, the upgradation of the Core Banking System and the incorporation and operationalization of Faysal Islami Currency Exchange Company (Private) Limited.

Network expansion and optimization remains a key tenet of FBL's growth strategy. This increase in physical presence allows Faysal Bank to target a broader customer base throughout the country with its comprehensive banking solutions. The Bank is now present in most key markets and is well positioned to capture a share of the economic value chain wallet across the same. By prioritizing areas with significant economic potential, Faysal Bank has positioned itself to drive inclusive financial access, aligned with its vision for sustainable growth and development.

In 2024, Faysal Bank also focused on further enhancing customer experience through product and service augmentation. The Bank expanded priority banking services and rolled out advanced wealth management solutions. Key initiatives included the modernization of Priority Lounges in Karachi, Islamabad, and Multan, offering exclusive access to luxury banking facilities. The launch of the Faysal Islami Priority World Debit Card provided high-net-worth customers with global access in more than 200 countries/territories worldwide, enhanced transaction limits, exclusive discounts, and complimentary travel insurance along with a dedicated helpline ensuring personalized customer support. Complimentary travel coverage and daily hospitalization coverage up to PKR 100,000 were also introduced to offer comprehensive protection. Furthermore, wealth management services were strengthened by assigning dedicated Relationship Managers and offering a range of Shariah-compliant investment and Takaful products tailored to

clients' financial goals. These initiatives underline Faysal Bank's commitment to delivering exceptional banking experiences, fostering long-term relationships, and supporting the financial well-being of its valued clients.

Faysal Bank focused on the expansion of BancaTakaful solutions, with new saving and protection plans developed in partnership with leading life Takaful providers. Additionally, the introduction of Health Takaful and Life Takaful products addressed critical needs for health and life coverage, including the launch of the Industry's First Dental Plan. Faysal Bank partnered with Oladoc to provide a comprehensive digital health platform for easy access to medical consultations, appointments, and healthcare services from a pool of more than 25,000 doctors. Furthermore, Faysal Bank expanded its investment offerings through Shariah-compliant mutual funds, in collaboration with Faysal Funds, enabling clients to diversify their portfolios based on their risk profiles and investment goals, while also offering tax benefits. These initiatives underscore Faysal Bank's commitment to providing innovative wealth management solutions that align with customers' financial objectives and secure their long-term well-being.

On the Retail Financing side, Faysal Bank enhanced its Islamic Home Finance solutions, offering flexible financing options such as Home Buyer, Home Builder/Plot + Construction, Home Renovation, and Home Refinance solutions. These products help customers achieve homeownership through joint asset ownership, where they gradually purchase the Bank's share. Additionally, FBL also introduced new innovative Islamic Car Finance products, offering customers the opportunity to finance their vehicles through Residual Value Financing and 1-year and 2-years rent-only plans. The Bank also launched Secured Islamic Personal Finance, a limit-based financing option that leverages cars as collateral, offering a Riba-free solution for diverse personal needs such as education, medical, and marriage expenses.

Faysal Bank observed continued innovation and expansion of its range of unsecured Islamic financing products in 2024, catering to diverse customer needs. A standout achievement was the continued success of the Faysal Islami Noor Card, Pakistan's first Shariah-compliant card, which offers advanced Tawarruq based features such as chip and contactless technology, widespread acceptance, and an exclusive Instant Reward Redemption program. The Bank also continued to improve the value proposition for its entire suite of cards which target various income levels through alliances, discounts and loyalty programs.

Faysal Bank also continued to lead the way in digital banking innovation, reinforcing its position as the #MostInnovativeIslamicBank. Faysal Bank's commitment to a continuous innovation cycle was evident in several initiatives, most notably the launch of Peer-to-Peer (P2P), Peer-to-Merchant (P2M) QR payments via WhatsApp, a first in Pakistan's banking industry, Faysal Bank Cash Deposit / Digital Kiosks, Internet Payment Gateway services and Faysal Tap and Pay.

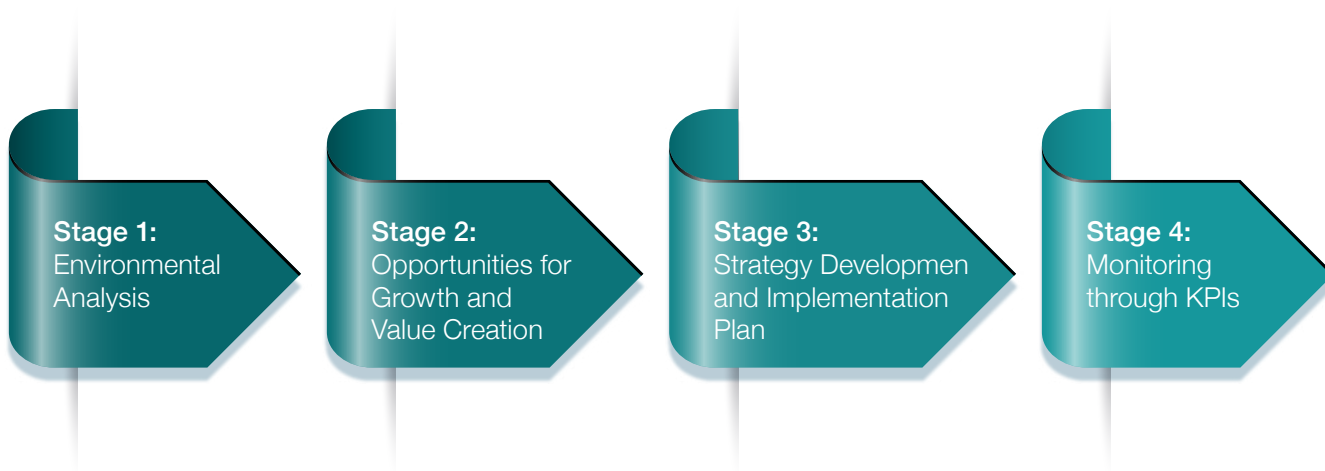

A groundbreaking milestone in 2024 was the introduction of Faysal Bank's expansion into Merchant Acquiring and Point-of-Sale (POS) solutions. The Bank empowered MSMEs (Micro, Small, and Medium Enterprises) by providing them with digital payment acceptance solutions, including QR payments, POS terminals, and an Internal Payment Gateway, enabling businesses to expand their operations and be part of the growing cashless ecosystem.

Strategy Development Process

Faysal Bank's strategic direction has been shaped by a comprehensive five-year corporate strategy, initially formulated for the period 2018–2023, through which the bank achieved targeted results. Building upon the foundation of this plan, a revised five-year strategy has been developed in collaboration with local and international consultants which covers the period 2024–2028. This strategy outlines the bank's medium and long-term priorities, sets clear operating frameworks and their associated financial objectives. Additionally, it highlights key organizational priorities and introduces a phased, milestone-based implementation approach, accompanied by well-defined key performance indicators (KPIs) to ensure effective execution and measurability of progress.

Faysal DigiBank processed over PKR 1.5 trillion in transactions during FY24, marking a 35% increase in transactional volume. This growth highlighted Faysal DigiBank as the platform of choice for customers seeking seamless digital banking experience, embracing digital empowerment providing real-time card activation facility for our Debit and Noor Card customers through WhatsApp banking and DigiApp. Faysal Bank further solidified its commitment to accessibility by becoming the first bank in the industry to open Digital Facilitation Centers in commercial markets. The Bank's ATM network was upgraded to include advanced ATMs featuring biometric-based card-less withdrawals and NFC Tap & Transact, allowing customers to access their funds with just a tap of their NFC-enabled cards. Faysal Bank was recognized both locally and internationally, winning the 'Black Dragon Award' for its digital campaign, the Pakistan Digital Technology Award for its WhatsApp Banking solution, and receiving accolades from UK-based ATMIA for its service innovation in ATM & CDM experiences.

The implementation of the corporate strategy is carried out through a well-defined four-stage process. This begins with a comprehensive environmental analysis to assess external and internal factors influencing operations. Opportunities for growth and value creation are then identified, laying the foundation for informed decision-making. Execution of the implementation phase is conducted meticulously, ensuring that strategies are effectively translated into actionable initiatives. Progress is closely monitored using pre-defined Key Performance Indicators (KPIs), enabling the Bank to track outcomes and make timely adjustments to achieve its objectives efficiently. This structured approach underscores Faysal Bank's commitment to sustainable growth and operational excellence.

Stage 1: Environmental Analysis

Faysal Bank analyzes its internal and external environments to navigate the dynamic financial landscape effectively. The bank capitalizes on its strengths while strategically analyzing market trends, customer behaviors, economic dynamics, and regulatory developments. This thorough analysis enables Faysal Bank to uncover growth opportunities, address potential risks, and to proactively align strategic and operational initiatives with evolving market conditions.

Stage 2: Opportunities for Growth and Value Creation

Faysal Bank works closely with its existing and potential customers to identify areas of opportunity in terms of increased coverage, product augmentation, branch expansion, service enhancement, and channel optimization. Through this process, the bank ensures customer-centricity and innovation so that opportunities are not only identified but the value associated with these opportunities are properly assessed.

Stage 3: Strategy Development and Implementation Plan

Once the environmental analysis is complete and opportunities are identified, Faysal Bank's BoD and Management align on strategic objectives that drive value creation and capitalize on key opportunities. Our strategy development process sets clear goals, leverages data-driven insights, and ensures stakeholder buy-ins at every level. Through a structured implementation plan, we optimize resources, establish key performance indicators (KPIs), and foster cross-functional collaboration to ensure seamless execution. We continuously monitor progress and adapt strategies to stay ahead in dynamic market conditions.

Stage 4: Monitoring through KPIs

We actively monitor Key Performance Indicators (KPIs) through a structured framework that includes real-time dashboards, periodic reviews, and detailed reporting. Quality is ensured by adhering to best practices, conducting regular audits, and implementing a robust quality assurance process at every stage. Insights from KPI tracking and quality assessments are systematically analyzed to identify areas for improvement. These findings feed into a continuous improvement cycle, enabling us to refine strategies, enhance processes, and drive sustainable, high-impact results. This approach ensures that we not only meet but consistently exceed performance expectations.

Strategic Objectives Linked with overall Mission, Vision & Values

Short Term

- Become an employer of choice
- Enhance operational efficiencies
- Increased market share in deposits, SME, consumer lending and digital penetration

Medium Term

- Develop strong brand loyalty
- Leading customer service

Long Term

- Leading Islamic bank of Pakistan

PESTEL Analysis

Political:

Pakistan went through the process of general elections in 2024, resulting in a smooth transfer of power and improved political stability. Although the banking sector has demonstrated resilience, the overall sectoral performance remains closely tied to the broader economic climate. Key decisions by stakeholders on economic reforms, particularly those relating to banking regulation, fiscal policies, and tax reforms, have a direct impact on the bank's operations. Faysal Bank, like other financial institutions, continuously adjusts its strategies to accommodate shifts in policymaking.

Economic:

Pakistan's economy in 2024 was marked by a recovery phase after it successfully signed the 25th IMF EFF of US\$7 Billion. Inflation recorded year on year decreased from 29.40% in June 2023 to 12.57% in June 2024, reaching 4.1% in Dec 2024. Inflation has now been in single digits for the past couple of months, which has also resulted in monetary easing by the SBP from an interest rate of 22% to 13%, a significant reduction in policy rate of 900 basis points. Measures by the SBP to curb illicit foreign exchange flows and establishment of the Special Investment Facilitation Council (SIFC) to promote Foreign Direct Investment (FDI) were positive steps that have helped stabilize the economy. By December 2024, Pakistan's overall foreign exchange reserves have risen to USD 16 billion, and the PKR has maintained stability at around Rs 277-279 per USD.

While the decrease in policy rate directly impacts Faysal Banks spreads, the Bank is focusing on its core strengths and continues to drive operational efficiencies, ensuring continued resilience. The Bank remains ready to capitalize on emerging opportunities which are now surfacing with the improvement in business sentiment and will continue to position its balance sheet in an optimal manner given the external environment.

Social:

Pakistan has a young population, however rapid and sustained increase surpassed the population, challenges pertaining to education, health, employment and skill development all hinder efforts to fully realize the benefit of a large and young population. Faysal Bank recognizes the critical role of human capital in sustaining long-term economic progress and is committed to addressing these socio-economic challenges within its ambit of influence. The bank places a strong emphasis on sustainability, environmental responsibility, and ethical governance in its core business practices. By fostering social well-being through its operations, Faysal Bank remains dedicated to supporting initiatives that empower individuals and communities.

significantly driven demand for Shariah-compliant banking products. Faysal Bank is well-positioned to meet this demand by expanding its Islamic banking services, offering Sharia Compliant Consumer Finance Solutions to customers seeking ethically aligned financial options. Furthermore, Faysal Bank has capitalized on the focus on financial inclusion in Pakistan, extending its reach into regions previously unserved by the bank. This strategic expansion targets areas bustling with business activities, enabling the bank to tap into diverse markets across various sectors and industries. This approach not only aids market penetration but also supports local economic development by providing essential banking services in these areas.

In alignment with Pakistan's broader socio-economic goals, Faysal Bank actively engages in community outreach programs, aiming to drive positive social change and contribute to national development. Through these initiatives, Faysal Bank plays a pivotal role in strengthening the socio-economic foundation of Pakistan and supporting a more resilient and inclusive society.

Technological:

The ongoing global technological revolution has transformed how individuals and businesses interact with financial services. Digital transformation has become a key driver, enhancing access to banking services, payments, investments, and financial management. These advancements have opened new revenue streams and created opportunities for cost savings, while also reshaping organizational structures and business models.

In response to this shift, the Bank invested extensively in technology and related HR strength to churn a constant stream of innovative digital solutions, products and platforms. Faysal Bank has embraced digital innovation to remain competitive in an increasingly technology-driven landscape. The bank has integrated mobile banking solutions, advanced technologies such as AI, big data, and machine learning into its operations focusing on continuous encouragement through Strategic Fintech collaborations and partnerships. Faysal Bank has adopted a transformative outlook with a clear-cut focus on innovation and digitization of customer experiences. These technologies have enhanced the bank's operational efficiency, improved customer engagement, and created new revenue opportunities.

Pakistan's youthful and tech-savvy population comprising of 2/3 of the country, is poised to fully leverage the potential of digital transformation. Faysal Bank is actively supporting this shift by expanding its mobile banking offerings and digital payment solutions, which enhances the accessibility and efficiency of financial transactions, particularly for underserved

The increasing popularity and trust in Islamic finance have

and remote communities. Faysal Bank's continuous enhancement of its mobile app and integration of WhatsApp Banking, including live support, has redirected traffic from call centers to WhatsApp, boosting customer satisfaction and solidifying its position in this growing segment.

However, these technological advancements also bring new challenges, particularly in the realm of cybersecurity. As banks become prime targets for cyberattacks, safeguarding client data and maintaining service integrity is a top priority. Faysal Bank remains committed to continuously investing in cutting-edge security technologies to protect against cyber threats, ensuring a seamless and secure user experience. By staying at the forefront of technological innovation and addressing cybersecurity risks, Faysal Bank is positioning itself to drive growth and contribute to Pakistan's digital future.

Environmental:

Pakistan faces significant environmental risks, including frequent natural disasters such as floods, droughts, and earthquakes, which are exacerbated by climate change. The country is highly vulnerable to the effects of global warming, including rising temperatures and water scarcity. These challenges not only affect the achievement of development goals but also pose direct risks to financial institutions, threatening stability, solvency, and profitability. For financial institutions such as Faysal Bank, these risks can manifest in both physical and transition risks.

Physical risks include damage to assets, infrastructure, and land, potentially leading to increased defaults in loan portfolios and diminished asset values. Pakistan, while a minor contributor to global carbon emissions, faces some of the most severe impacts of climate change, such as erratic weather patterns, rising temperatures, and frequent natural disasters like floods and droughts, all of which disrupt businesses and financial systems. As Pakistan is gradually adopting stricter

environmental regulations, Faysal Bank focusses on ensuring that its operations and lending activities comply with these regulations. The bank's efforts are in line with Pakistan's National Adaptation Plan (NAP) and contribute to the national agenda for climate resilience.

As global awareness of climate change rises, Faysal Bank is proactively addressing these environmental risks by integrating sustainability into its business model by exploring opportunities to fund green projects and offer eco-friendly financial products aligning with international sustainability trends such as solar financing and new energy vehicle financing solutions.

Faysal Bank has also reinforced its commitment to society by driving impactful initiatives across health, education, and poverty alleviation. These efforts supported community uplift, enhanced access to essential services and aligned with global SDGs including good health and well-being, quality education, reduced inequalities, and clean water and sanitation. Faysal Bank was honored with the PICG ESG Stewardship Award, recognizing its commitment to environmental, social, and governance (ESG) practices.

Legal & Regulatory:

Pakistan's banking sector operates within a well-defined legal and regulatory framework, primarily governed by the State Bank of Pakistan (SBP). This framework ensures the stability of the financial sector, promotes transparency, and upholds high corporate governance standards. It provides clear guidelines for financial institutions, including Faysal Bank, to operate in compliance with national and international standards, fostering confidence among investors, customers, and stakeholders. Faysal Bank is fully compliant with all applicable rules and regulations and fully adheres to the legal framework established by the SBP, and the Foreign Exchange Regulation Act of 1947.

Competitive Landscape and Market Positioning

Threat of New Entrants and Substitute Products/Services

The banking industry in Pakistan faces significant barriers to entry, such as stringent regulatory requirements set by the State Bank of Pakistan (SBP) and high capital thresholds. However, new entrants are entering different verticals of the business in the form of EMI's, PSO/PSP's as well as Retail Digital Banks. This has increased competition amongst specific verticals and customer / product segments which adds to the already competitive landscape.

Faysal Bank remains resolute in addressing these challenges by offering a diverse range of financial services tailored to meet the needs of corporate clients and everyday banking and lifestyle requirements of various customer segments. The bank's consumer products include personal loans, credit cards, and mortgages, while retail options cater to daily banking needs through an extensive network of branches and digital platforms. For high-net-worth individuals, Faysal Bank provides priority banking services that offer personalized financial advice and exclusive benefits. Additionally, the bank offers an extensive suite of Wealth Management solutions and continues to innovate to enhance customer experience, making them more enjoyable, convenient, and hassle-free. Competitive market rates are also part of Faysal Bank's strategy to increase switching costs for customers and foster long-term sustainable relationships by partnering closely with them.

Bargaining Power of Customers

In Pakistan's banking sector, customers/depositors wield high bargaining power due to low switching costs and the availability of numerous alternatives. Customers are increasingly drawn to banks that offer better digital experiences, competitive rates, and personalized services. This power is particularly pronounced among high-net-worth individuals, whose larger deposits and transactions significantly impact a bank's profitability. Mass retail customers, while having lower individual influence, collectively drive demand for user-friendly services and efficient banking solutions. Faysal Bank counters this by continuously improving its digital offerings, such as mobile and online banking, and by tailoring its products to meet the specific needs of its diverse customer base. Through loyalty programs, personalized service, and innovative products, the bank aims to retain its customers and become a preferred choice for the segments it operates in.

Bargaining Power of Suppliers

In the banking industry, suppliers primarily include technology providers and employees, both essential for maintaining operational efficiency. Faysal Bank relies on a range of technological solutions, such as core banking systems and cybersecurity services, to support its operations. Additionally, the contribution of employees is vital to the bank's functionality. These suppliers typically have no bargaining power due to the availability of alternatives in the market.

Intensity of Competitive Rivalry

Competition within Pakistan's banking sector is intense, driven by the dominance of large players with significant resources and extensive well-seasoned branch networks and well-established brands. The low switching costs for customers further increases the importance of differentiation, as banks compete to offer unique and innovative solutions including tailor-made products. Rapid advancements in digital technology and evolving customer preferences are disrupting traditional banking models, prompting financial institutions to adopt new strategies to remain relevant. Faysal Bank differentiates itself by leveraging its leadership in Islamic banking while investing in digital platforms to enhance and improve customer convenience, ultimately increasing customer satisfaction. These efforts enable Faysal Bank to maintain its competitive edge and thrive in a rapidly evolving industry.

Strategies in Place

From a customer service perspective, Faysal Bank is committed to enhancing service quality and ensuring consistent service standards across all channels and outlets. By integrating these standards, the bank aims to provide seamless and uniform customer experience that meets the expectations of its diverse customer base. Faysal Bank envisions a future whereby it will continue to be a catalyst for positive change, fostering modern financial well-being, globally. Our key driving elements have been the 'go-green' philosophy, encouraging customers to adopt digital channels and reduce reliance on traditional paper-based instruments and traditional modes of transactions. Special emphasis is also placed on credit quality to deliver value across retail, corporate, and SME segments while maintaining robust asset growth.

As part of the bank's strategic plan, geographical expansion is a key focus, complemented by exploring innovative business models, processes, and delivery channels. This approach ensures the provision of 24/7 customer services. Recognizing the growing significance of technology for customers, the bank is leveraging cutting-edge solutions to meet evolving expectations while prioritizing cybersecurity to protect both customers and bank assets.

Efforts are also directed toward refining systems and processes to ensure efficient and effective operations. This includes identifying and addressing operational pain points to enhance performance. Upholding good governance and ethical conduct through a focus on sustainability, balancing economic, social, and environmental objectives, is integral to Faysal Bank.

Ultimately, these strategies are designed to enhance Faysal Bank's brand image, reflecting a positive perception among existing and potential customers, as well as other stakeholders. By offering a diverse suite of tailored financial services, innovative solutions, and competitive rates, the bank positions itself as a reliable and forward-thinking institution. This strategic positioning not only strengthens customer loyalty but also attracts new clients, positioning Faysal Bank well in an increasingly competitive market.

Method and Assumptions in Compiling Indicators

Faysal Bank's KPIs are aligned with our strategic objectives, ensuring a focused approach to measuring the right outcomes. This well-structured KPI framework facilitates data-driven decision-making, empowers goal alignment across teams, and ensures the tracking of high-impact metrics that drive

sustainable growth and performance excellence. Quantitative aspects encompass the financial base, fund generation capabilities, and their deployment in profitable avenues. Qualitative aspects focus on customer satisfaction and retention, service delivery, brand identity, loyalty, innovation, employee satisfaction, governance, and risk management.

Factors Impacting Strategy and Resource Allocation

Factors	Effects on Strategy & Resource Allocation	Current Resources	Future Allocation Plans
Customer Expectations and Continuous Enhancement of Service Quality Standards	Addressing the increasing demand for personalized Shariah-compliant banking experiences by enhancing customer service, improving accessibility, and boosting operational efficiency to optimize resource allocation.	Standardized Shariah-compliant banking systems, ensuring seamless and efficient financial services for its customers. Focus on automated monitoring platforms across various channels and products to enhance customer satisfaction and enhance quality of service.	Enhancing operational efficiencies and reducing service delivery timelines while ensuring continuous 24/7 availability of real-time services and expanding self-service options. Exploring new revenue streams and refining service quality assessment models to enhance customer experiences, alongside hosting seminars and webinars on Islamic Banking. Leveraging artificial intelligence for personalized customer experiences, improved fraud detection, and operational automation.
Technological Changes and Evolving Consumer Behavior	Managing costs through centralization and monitoring, automating manual systems, continuously investing in digital platforms, and developing comprehensive information security policies to ensure data integrity and confidentiality. Enhancing Islamic digital banking platforms for seamless experiences while strengthening cybersecurity frameworks to protect data and comply with Islamic financial standards.	Integrated mobile banking solutions, fintech partnerships, and advanced technologies such as AI, big data, and machine learning into operations to enhance banking services. Continuously investing in cutting-edge security technologies to protect against cyber threats and ensure a seamless and secure user experience.	Investing in advanced analytics and data integration tailored to Islamic banking and enhancing cybersecurity measures to safeguard operations and improve service execution. Enhancing operational efficiencies and customer experiences through Robotic Process Automation (RPA), while implementing robust risk assessment, identification, monitoring, and mitigation strategies to streamline customer service experience for the customers.
Resource Optimization	Enhancing the bank's capabilities in Islamic finance by attracting top talent and offering extensive professional development opportunities for maintaining leadership in the competitive banking sector.	The bank employs a dedicated workforce of over 9,800 individuals actively engaged in robust upskilling programs. Supported by a diverse and inclusive culture and a strong management team, the organization is well-equipped to drive innovation and growth.	Enhancing Learning & Development programs to include advanced training in AI, technology, regulatory updates, and skill enhancement, ensuring employees remain proficient and adaptable in the evolving financial industry. This proactive approach is aimed at maintaining the bank's competitive edge and fostering innovation.

Competitive advantage in resources/capabilities.

Faysal Bank's capabilities, including its skilled workforce, expertise in Islamic banking, diverse product portfolio and advanced digital infrastructure, combined with its resources such as financial stability, extensive network, and strong regulatory compliance, provide the bank with a sustainable competitive advantage. By leveraging these strengths, Faysal Bank creates significant value for its customers and stakeholders, ensuring long-term growth and profitability. The

bank's investment in technology and human capital enhances its service delivery, operational efficiency, and compliance with Shariah principles, fostering long-term customer satisfaction and loyalty. Through its comprehensive range of Shariah-compliant products and digital banking initiatives, Faysal Bank continues to strengthen its market position and drive customer loyalty, contributing to overall value creation and a growing market share.

Board Strategy to Overcome Liquidity Problems.

Faysal Bank's Board implements a proactive strategy to manage liquidity challenges, ensuring the bank's financial stability and operational resilience. Additionally, Faysal Bank employs a formal Asset-Liability Committee (ALCO) process, which plays a significant role in the regular monitoring and

management of the bank's liquidity. This structured approach ensures that all aspects of the bank's liquidity are consistently reviewed and managed, aligning with regulatory requirements and internal risk thresholds. The ALCO process enables the bank to maintain financial equilibrium and respond proactively to market changes and liquidity demands.

Business Rationale for Major Capital Expenditure/Projects

Faysal Bank realizes the importance of capital expenditure and in view of this has adopted in-depth evaluation procedures to assess all types of capital expenditure requirements before obtaining final endorsements from the Board.

During the year, the bank's capital expenditure amounted to over Rs. 20.2 billion and was primarily directed towards acquisition of land & building for business expansion, renovation, improvement of digital framework and strengthening of IT infrastructure. A detailed disclosure of fixed asset is given in the financial statements.

Capital Expenditures Planned for Next Year

The Bank has budgeted capital expenditure of Rs. 12.4 billion for calendar year 2025. This would primarily be invested in expanding our branch network, continuous improvement in our IT platforms, safeguarding our existing infrastructure / relationships from growing threats on cyber security front along with routine upgrades and replacements to ensure smooth operations.

Risks and Opportunities

Section 3

Key Risks	52
Internal Risks and Opportunities	52
External Risks and Opportunities	53

Risk and Opportunity Report

Risk and opportunity management is one of the key activities managed by the Bank through a Board approved Integrated Risk Management framework. All major risks are monitored regularly by various management committees such as Country Credit Committee (CCC), Enterprise Risk Management Committee (ERMC), Assets and Liabilities Committee (ALCO), Investment Committee (IC), IT Steering Committee (ITSC) and Compliance & Fraud Risk Committee (C&FRC) within their respective areas.

Key Risks

Banks are generally exposed to various risks emanating from both internal and external factors, including credit risk, liquidity risk, market risk, capital adequacy risk, operational risk, cybersecurity risk, legal & regulatory risk, compliance risk, country risk, reputational risk, strategic risk, and environmental & social risk. With Faysal Bank's transformation into a full-fledged Islamic Bank, the risk of Shariah non-compliance has become a significant concern in its day-to-day operations.

In 2024, Pakistan witnessed continuity in the political setup following the general elections which were held in February. While economic vulnerabilities persisted, stability in the global commodity market and easing supply chain disruptions kept import costs under check which supported domestic recovery efforts. The State Bank of Pakistan (SBP) adopted an easing stance on the monetary policy, reducing its benchmark discount rate from 22% to 13% over the year to stimulate growth—an adjustment facilitated by a decline in inflation. Meanwhile, the PKR/USD exchange rate consolidated, supported by improved remittances inflows and financial assistance from multilateral partners, due to which SBP's foreign exchange reserves increased to \$11.73 bln (increasing from \$8.2 bln as of Dec-23). Overall Fx reserves increased to \$15.93 bln from \$12.67 bln a year earlier, providing a reasonable buffer against external shocks.

Despite these developments, structural challenges persist. Limited export diversification, delays in public-sector reforms, high external debt obligations, and the ongoing privatization process under the IMF facility continue to test the government's economic strategy.

Against this backdrop, Faysal Bank adopted a prudent growth strategy, successfully expanding its deposit and financing base while growing its branch network nationwide. In the pursuit of growth over the past year, our emphasis stayed on actively monitoring assets by keeping abreast with changing economic trends and market scenario. The Bank effectively implemented capital and liquidity management tools, managed Shariah non-compliance risks, introduced new products with focus on digitization and enhanced service quality.

Going forward, on a macroeconomic level, sustaining economic stability will require a careful balance between monetary easing and fiscal consolidation to manage inflationary pressures and external vulnerabilities. Structural reforms in taxation, energy pricing, and governance will be critical in strengthening investor

confidence and attracting foreign direct investment. However, given limited fiscal flexibility, GDP and large-scale manufacturing growth are expected to remain subdued in the near term.

One of the key concerns of today's era is climate change, which presents both risks and opportunities for Faysal Bank. Physical risks, including extreme weather events and resource scarcity, can impact asset valuations and operational resilience. Additionally, transition risks—arising from regulatory shifts, technological advancements, and evolving market preferences—may necessitate a review of financing and investment strategies. However, these challenges also present opportunities, such as expanding green financing, supporting climate-resilient businesses, and integrating sustainability into product offerings.

In the year 2025, with these challenges in mind, Faysal Bank aims to further strengthen its risk management framework, enhance digital banking capabilities, and drive financial inclusion through innovative Shariah-compliant products. Moreover, by embedding climate risk considerations in decision-making, the Bank aims to mitigate climate risks, navigate evolving regulatory landscapes and contribute to a low-carbon, climate-resilient economy. The Bank will continue to align its strategic direction with evolving regulatory requirements and market dynamics while fostering sustainable growth and long-term value creation.

Internal Risks and Opportunities

The bank continuously managed internal risks while seizing opportunities to enhance its operational efficiency and market position. Key internal risks include process inefficiencies that disrupt service delivery and impact on customer satisfaction, as well as posing challenges in maintaining a skilled workforce in a competitive talent market. On the opportunity side, the bank focused on leveraging technology to improve process automation and data analytics, which enhanced decision-making and customer engagement. Additionally, by fostering a culture of continuous learning and development, the bank mitigated the risk of skill gaps and positioned itself as an attractive employer, attracting top talent and driving innovation from within.

Faysal Bank is strategically positioned to capitalize on digital transformation opportunities by investing in AI technologies, which promise to enhance operational efficiency, improve customer service, and expand market share, thus driving increased profitability and capital availability. The bank is also diversifying its product portfolio with green financing and innovative digital banking solutions to attract new demographics and build sustainable revenue streams. Concurrently, the bank faces inherent risks in these endeavors, including the rapid pace of technological change that could outpace its adoption capabilities, and the potential regulatory challenges associated with new financial products. By continuously investing in employee training and development, Faysal Bank aims to bolster its workforce's ability to navigate these challenges, thereby improving overall operational performance and capital efficiency.

External Risks and Opportunities

Economic downturns and increasing competition from fintechs present challenges to Faysal Bank which can impact market share and profitability. However, these challenges also drive innovation within the bank, leading to opportunities for growth and differentiation. Geopolitical risks and environmental changes prompt the bank to strengthen its crisis management capabilities and sustainability initiatives, further solidifying its commitment to corporate responsibility.

Faysal Bank is well-positioned to seize opportunities in the burgeoning field of sustainable and green financing. By offering ESG-focused products, the bank not only attracts a broader range of institutional investors and eco-conscious customers but also aligns itself with global sustainability goals, enhancing its corporate image. Regulatory incentives for green investments reduce costs and improve profitability, while partnerships with fintech firms and tech startups allow Faysal Bank to tap into cutting-edge technologies and expand into new customer segments.

Sustainability & CSR Report

As an Islamic financial institution, our business practices are aligned with the principles of Shariah, which emphasize social justice, environmental stewardship, and ethical responsibility. Guided by these principles and aligned with global frameworks such as the United Nations Sustainable Development Goals (SDGs), we are strongly committed to drive meaningful impact across the economic, social, and environmental spheres.

The principles of Shariah not only guide our financial operations but also form the foundation of our commitment to create long-term value for our customers, communities, and the Planet. With a deep-rooted belief in social justice, equitable resource distribution, and environmental preservation, we are privileged to share the initiatives taken by the Bank in line with our sustainability agenda for the year 2024.

Through this report, we aim to provide a transparent account of our sustainability governance framework and initiatives, showcasing our efforts to build an inclusive, resilient, and responsible institution. This document reflects our dedication to balance financial growth with societal well-being and environmental preservation—an ethos that forms the essence of Islamic banking.

Governance Structure

Recognizing the importance of integrating sustainability into its core business strategy, the Board of Directors established the Board Sustainability & Development Committee (BSDC) during the year. The BSDC is responsible for providing strategic direction and oversight on the Bank's sustainability initiatives, ensuring alignment with regulatory frameworks, Islamic principles, and global standards.

Board Sustainability & Development Committee (BSDC)

Composition and Leadership

The BSDC comprises of five members, including two Independent Directors who bring diverse expertise and perspectives. The Chairperson is a Non-Executive Director, highlighting the Bank's commitment to robust governance and sustainable growth.

Name	Role	Designation
Mian Muhammad Younis	Chairperson	Non-Executive Director
Mr. Abdulelah Ebrahim Mohamed AIQasimi	Member	Non-Executive Director
Ms. Fatima Asad Khan	Member	Independent Director
Ms. Sadia Khan	Member	Independent Director
Mr. Yousaf Hussain	Member	Executive Director

Roles & Responsibilities

The BSDC plays a pivotal role in shaping the Bank's sustainability agenda by overseeing the development and implementation of its Environmental, Social, and Governance (ESG) framework. Responsibilities of the Committee include defining and reviewing the Bank's sustainability strategy, ensuring alignment with the United Nations Sustainable Development Goals (SDGs), and steering the development of ESG metrics for the Bank. The Committee also provides strategic oversight for key initiatives such as reducing the Bank's environmental impact, promoting diversity and inclusion, advancing Corporate Social Responsibility (CSR) programmes, and supporting climate action through innovative financial products and partnerships. It also ensures stakeholder engagement, compliance with regulatory guidelines, and integration of ESG considerations into our decision-making processes.

Authority and Independence

The BSDC operates with full independence, deriving its authority from the Board of Directors. It has the discretion to engage with regulatory authorities, external experts, and internal teams to fulfill its mandate. The Committee's work underscores our dedication to embed sustainability into governance and operational frameworks, fostering a culture of responsibility, accountability, and innovation.

Management-Level ESG Committee

To ensure seamless execution of sustainability initiatives, a Management-Level ESG Committee has also been constituted. Chaired by the Chief Risk Officer, this Committee plays a crucial role in operationalizing the Bank's sustainability agenda and aligning it with regulatory requirements, stakeholder expectations, and the Bank's strategic priorities. Other members include Head of Corporate & Investment Banking, Chief Compliance Officer, Head of Operations, Head of HR, and Chief Financial Officer.

The Management-Level ESG Committee is further responsible for implementing the Bank's Environmental, Social, and Governance (ESG) framework by driving key initiatives, conducting gap analyses, and ensuring compliance with the sustainability guidelines issued by regulatory authorities. It facilitates cross-departmental collaboration, tracks progress on ESG initiatives, and integrates ESG considerations into the Bank's financing, investment, and operational decisions. Additionally, the Committee ensures that the Bank's sustainability efforts are aligned with the State Bank of Pakistan's Green Banking Guidelines.

Green Banking Policy

In alignment with the State Bank of Pakistan's (SBP) Green Banking Guidelines, our Green Banking Policy demonstrates a commitment to embed sustainable practices across our operations and financing activities. The policy is structured around three main pillars: **Green Business Facilitation, Own Impact Reduction, and Environmental & Social Risk Management (ESRM)**. These pillars serve as the foundation for fostering a responsible banking framework, ensuring that environmental and social considerations are integrated into decision-making processes at all levels.

1. **Green Business Facilitation:** Encourages financing for sustainable projects, including renewable energy, energy efficiency, and climate-resilient infrastructure, promoting a green economy while supporting Pakistan's commitments under the Paris Agreement.
2. **Own Impact Reduction:** Focuses on minimizing the Bank's carbon footprint by adopting energy-efficient technologies, reducing resource consumption, and incorporating green practices in daily operations.
3. **Environmental & Social Risk Management:** Establishes a comprehensive ESRM framework, ensuring that environmental and social risks are systematically identified, assessed, and mitigated in financing decisions.

Through the Green Banking Policy, the Bank is not only addressing its regulatory responsibilities but also fostering long-term value creation by aligning its operations with sustainable development goals. The structured involvement of our BSDC and ESG Committee in these initiatives further underscores the Bank's commitment to achieve sustainable growth while reducing environmental and social risks.

Environmental & Social Risk Management Procedures

To further our commitment towards sustainability and environmentally sound business practices, the Bank has developed comprehensive Environmental & Social Risk Management (ESRM) procedures, which are aligned with the ESRM Implementation Manual for Financial Institutions issued by the State Bank of Pakistan (SBP). These procedures have been designed to ensure that environmental and social considerations are integrated into the Bank's financing processes, effectively managing potential risks while contributing to sustainable development.

The ESRM procedures provide detailed guidance for conducting environmental and social assessments and due diligence across the financing portfolio. The procedures include an applicability matrix, exclusion criteria, and a checklist to help Business and Risk teams evaluate potential environmental and social issues associated with financing

activities. Additionally, the inclusion of an E&S rating model helps classify transactions by their risk level, ensuring that higher-risk cases receive appropriate attention and scrutiny.

For higher-risk financing activities, our procedures define a clear escalation matrix. The processes also offer step-by-step guidance for Business and Risk teams to conduct thorough E&S assessments throughout the financing lifecycle, ensuring continuous alignment with regulatory standards and the Bank's sustainability goals.

Corporate Social Responsibility (CSR)

Understanding 'Care' in Islamic Thought

Islamic tradition reflects a profound philosophy of Khidmat (Care), emphasising service to both the Creator and His creation. Rooted in this principle, we integrate the value of Care into our operations, ensuring ethical practices that address modern economic needs while remaining true to our values. At Faysal Bank, the value of Care lies at the heart of everything we do. Care signifies compassion, responsibility, and commitment to the well-being of individuals and communities. It drives us to go beyond financial services and contribute meaningfully to society. Whether it is through empowering communities, supporting education, promoting environmental sustainability, or advancing financial inclusion, we believe that Care serves as the foundation for long-term, positive impact. By embedding this principle into our culture and operations, we aim to create an ecosystem that fosters trust, inclusivity, and shared prosperity for all.

CSR Philosophy - Strategic Approach to Sustainable Development

The Bank's CSR strategy represents a holistic approach to catalysing positive societal transformation. By aligning with Islamic principles and global sustainable development frameworks – including United Nations Sustainable Development Goals, we embed a commitment to environment friendly principles into our operations. Our environmental sustainability initiatives include solar infrastructure projects which help save energy and reduce CO2 emissions. Healthcare accessibility is enhanced through mobile health clinics and funding paediatric cardiac surgeries. Community development projects, such as the installation of a solar-powered water filtration plant, address infrastructure challenges by promoting clean water and sanitation. The Bank's CSR philosophy prioritises transparency and measurable impact, integrating the Islamic principle of Khidmat with contemporary sustainable development practices. By fostering accountability and ethical conduct, we have set a benchmark for responsible corporate behaviour.

Faysal Bank: A Legacy of Impact

Through focused initiatives in education, environmental sustainability, and healthcare, we exemplify how corporate responsibility drives nationwide progress. Our impactful partnerships are not merely acts of philanthropy but investments in a sustainable future for Pakistan. The Bank continues to address critical societal challenges through strategic partnerships that integrate social responsibility into its core values, fostering progress in underserved communities.

Our commitment to education is reflected in the contributions that enable deserving students to pursue degree programmes

while supporting infrastructure enhancements, such as new blocks and seminar halls. These efforts benefit thousands of students annually and transform academic engagement by providing a conducive learning environment. The Bank's environmental initiatives include solar panel installations in schools, reducing carbon emissions and creating better learning environments. Our healthcare investments highlight a dedication to enhancing medical infrastructure, including contributions to initiatives that provide critical care, mobile health services, and life-saving treatments for underserved populations.

Employee Volunteering at FBL

For the Bank, CSR is not just a commitment—it is a way of life that drives meaningful impact in the communities we serve and beyond. Our Employee Volunteering Programme channels the skills, passion, and dedication of our employees to foster sustainable development, social well-being, and financial inclusion. The programme is designed to align with our corporate values and mission, focusing on financial inclusion and literacy, education and youth empowerment, health and wellness, and environmental sustainability. Each pillar represents a strategic area where our employees contribute their time and expertise to create lasting change.

Financial inclusion and literacy address the challenges of Pakistan's largely undocumented economy and a significant unbanked population. Through financial literacy workshops, community members gain insights into basic banking, savings, and fiscal management. Our mentorship programmes enable employees to guide students from underserved communities, offering career development advice and life skills training. Skill development workshops in schools and colleges further enhance students' capabilities, equipping them for brighter futures. In health and wellness, we partner with healthcare providers to organise health camps offering free medical check-ups and awareness sessions, alongside regular blood donation drives. Environmental sustainability efforts include tree plantation drives and clean-up campaigns to combat deforestation and foster a sense of stewardship for the planet.

Aligned with the State Bank of Pakistan's National Financial Literacy Programme, we have conducted educational camps across multiple districts in Pakistan. Furthering this initiative under the Faysal Islami Financial Literacy Programme, the Bank has partnered with The Citizen's Foundation to conduct workshops for its students. These workshops empower students with an understanding of Riba-free and Shariah-compliant banking products. Monitoring and evaluation are integral to our approach, which we ensure through a robust framework to assess the impact of initiatives and gather feedback for continuous improvement. Recognition and incentives for outstanding volunteers further motivates employees, with success stories highlighted in internal and external communications.

Through our employee volunteering programme, we aim to achieve sustainable development, strengthen community relations, boost employee satisfaction, and enhance our reputation as a socially responsible organisation. By empowering our employees to volunteer their time and skills, we aim to create a ripple effect of positive change that extends beyond the workplace and into the communities we serve.

Sustainability Performance

Our commitment to sustainability translates into targeted investments that generate social, economic, and environmental benefits. By prioritising these areas, the Bank sets a precedent for corporate leadership, ensuring long-term positive change.

Driving Positive Change Through Partnerships

Grounded in the values laid down under Islamic beliefs and ethics, the Bank has created a lasting impact through CSR that goes beyond specific areas. Furthering our cause via impactful partnerships, we have embedded sustainability into our operations, directly corresponding with UN Sustainable Development Goals that promote the greater good of society at large.

In 2024, the Bank focused its CSR strategy on five key pillars: health and well-being, education empowerment, environmental sustainability, financial inclusion, and employee volunteering. The central concept revolves around forging strategic partnerships, raising awareness, and creating opportunities for lasting change across communities. Our initiatives and the impact they created were recognised at various local and international stages as the Bank received 12 Global Diversity, Equity & Inclusion Benchmark (GDEIB) Awards along with the PICG ESG Stewardship Award for 2024.

Following is an overview of some of our CSR activities from 2024 the positive change they created and UN SDGs these initiatives targeted:

Healthcare

We recognise the vital importance of health as a cornerstone of community well-being and strive to ensure accessible, high-quality healthcare for all. The Bank's efforts focus on funding the acquisition of medical equipment, essential medications, and enhancement of healthcare infrastructure. By strengthening the capacity of healthcare institutions, we aim to empower them to provide exemplary care to patients across all strata of society. This year, health initiatives accounted for a significant portion of the CSR focus, reflecting a steadfast commitment to fostering a healthier society. The Bank's efforts align with Islamic welfare principles, championing equitable and compassionate healthcare.

Indus Hospital & Health Network (IHHN)

Indus Hospital provides quality healthcare free of cost to millions of deserving patients through its countrywide network of hospitals in Pakistan. We are honoured to be a donation partner for IHHN, supporting its not-for-profit healthcare system that relies on public donations. The Bank also collaborates with IHHN to organise voluntary blood donation drives.

Saylani Welfare International Trust

Saylani Welfare is engaged in over 63 areas of social welfare, including food distribution, medical assistance, clean water provision, and education. In 2024, the Bank's support contributed to the provision of sustainable livelihoods through the Rozgar Scheme while complementing other ongoing initiatives.

National Institute of Cardiovascular Diseases (NICVD)

NICVD operates as the first tertiary cardiac care institute in South Asia and collaborates with the Government of Sindh to run a network of healthcare centres. Our contributions help NICVD maintain its excellence in cardiac health and improve critical infrastructure in the emergency unit to serve patients effectively.

Pink Ribbon

Pink Ribbon raises awareness and provides treatment for breast cancer patients, emphasising early detection and access to care. Our collaboration with Pink Ribbon facilitated impactful awareness campaigns and enhanced infrastructure support at the Pink Ribbon Hospital in Lahore to ensure treatment reaches those in need.

Afzaal Memorial Thalassemia Foundation (AMTF)

AMTF operates Pakistan's first state-of-the-art Thalassemia Intensive Care Unit. The Bank's support ensures critical care for patients suffering from Thalassemia, furthering the foundation's mission of providing accessible treatment. Additionally, the Bank supports a DayCare Center for Thalassemia patients, ensuring they receive consistent care and treatment in a dedicated environment.

Patient Aid Foundation

Patient Aid Foundation is a charity, operating in Karachi, Pakistan, committed to providing free quality healthcare for all, independent of caste, ethnicity or religion. The Bank has been a long standing partner of the Foundation to offer better access to quality healthcare for patients through support for Thalassemia patients at the JPMC and upgrading infrastructural facilities at the institution.

Pakistan Children's Heart Foundation

Faysal Bank has partnered with Pakistan Children's Heart Foundation (PCHF) to enable them to enhance their healthcare facilities, reach more patients in need, and uphold our shared mission of healing and hope. As part of this partnership, the Bank has also supported the establishment of the OPD facility at PCHF's new premises in Lahore, ensuring improved accessibility and care for children in need of treatment.

Education

Education remains a key focus of our CSR efforts, reflecting the Islamic principle that "learning is mandatory for all Muslims." In 2024, the Bank dedicated significant resources to improving access to quality education, corresponding with the global SDG for inclusive and equitable education. Scholarship programmes in leading universities offered essential financial support to deserving students, while partnerships with educational institutions enhanced infrastructure and learning resources. These efforts bridged educational disparities and created opportunities for underserved communities, fostering a brighter future for all.

Lahore University of Management Sciences (LUMS)

The Bank supports the LUMS National Outreach Program (NOP), which provides sponsorships for students who qualify on merit but lack resources. This initiative ensures deserving students can access top-tier education and opportunities for advancement. Additionally, the Bank supports infrastructure development to complement an environment conducive to learning, further enhancing the academic experience for students.

Institute of Business Administration (IBA)

Our longstanding partnership with IBA extends to both supporting deserving students and enhancing campus facilities. The renovation of Faysal Block at IBA is a key initiative that has transformed academic spaces, creating a modern and dynamic learning environment. In 2024, the Bank also collaborated with IBA's CEIF IMSciences to promote Islamic finance education through seminars, capacity-building programmes, and content creation targeting universities, colleges, and madaris nationwide.

Habib University

Habib University imparts academic excellence with a goal to bring transformational change and raise standard of higher education in the country. The University offers a unique intellectual experience to students, enabling them to develop critical thinking skills to become thoughtful leaders who will contribute towards the nation's progress. For the past few years, we have constantly facilitated Habib University through scholarships for deserving students and uplift of infrastructural facilities to offer a learning space that nurtures positivity and productivity.

Developments in Literacy (DIL)

Developments in Literacy
Educating Children • Empowering Communities

For nearly three decades, DIL has provided low-cost, high-quality education to underserved children. We supported the organisation to help educate 100 children for a year, paving the way for them to become productive members of society.

Women Empowerment

Recognising that nearly half of Pakistan's population comprises women, we are committed to empowering them through experiential learning and entrepreneurial opportunities. We collaborated with Circle Women Association to train underserved women in professional skills through the Faysal Khudmukhtar Internship programme. As a result, many women gained permanent employment at the Bank, advancing economic empowerment.

Social Upliftment

The Bank actively advances social welfare by partnering with NGOs devoted to poverty alleviation, health, diversity, and inclusion. Our initiatives focus on creating a conducive environment for training and skill-building to enable individuals to earn a decent living and contribute to society.

Zaman Foundation

The Bank supported Zaman Foundation's initiatives in healthcare and clean water provision through contributions that included installing a water filtration plant to provide safe drinking water for underserved communities in Tharparker and its surroundings.

Special Olympics Pakistan

This year, our partnership with Special Olympics Pakistan continued as we supported sports training for differently-abled individuals across all age groups. This collaboration ensures equal opportunities for individuals with special needs, fostering an inclusive community and empowering athletes to achieve long-term success.

LABARD

Lahore Businessmen Association for Rehabilitation of the Disabled is a non-profit, with an objective to rehabilitate the disabled persons and help them lead an independent life. The Bank supported LABARD's mission by facilitating critical vocational training and rehabilitation assistance for numerous differently abled individuals.

Behbud Association

The Bank takes pride in its contribution to the Behbud Association, an organisation that works to empower and uplift marginalised communities in underserved areas. This year, we supported women trained by Behbud to bring their skills to the market, facilitating poverty alleviation and enabling underprivileged members of society to achieve financial independence and support their families.

Karachi Down Syndrome Programme – KDSP

KDSP is one of the foremost associations in Pakistan providing one-stop solutions advocating for the value, acceptance and inclusion of individuals with Down Syndrome. We have partnered with the organisation to conduct 'Lehr', a handicraft workshop where children with Down Syndrome creating beautiful products that were sold to raise funds for various objectives that KDSP supports.

Karachi Vocational Training Center – KVTC

KVTC is a unique institution offering essential training and skill development opportunities for intellectually challenged people with special needs. This year, our support enabled KVTC to facilitate the vocational training and rehabilitation of multiple individuals providing them the resources to become functional members of the society.

The Hunar Foundation

The Hunar Foundation is a not-for-profit organisation dedicated to empowering marginalized youth by providing vocational and technical training. Our support has enabled them to continue providing vocational and technical training, as well as student scholarships.

Akhuwat Foundation

With the objective of offering small business owners and individuals across the country to meet certain needs, The Bank has partnered with the Akhuwat Foundation in extending financing facilities across the country for installation of solar panels in underserved communities. Through this support, we are enabling an objective of easing energy bills for underprivileged households and reducing Pakistan's carbon footprint as well.

Refurbishment of Mosques

In 2024, undertook the refurbishment of mosques at Allama Iqbal International Airport and Jinnah International Airport, providing travellers with well-maintained spaces for prayer and reflection, embodying the Islamic value of facilitating worship.

Through its structured CSR philosophy and initiatives, the Bank is dedicated to fostering a sustainable, inclusive, and ethically driven future. Driven by meaningful collaborations and strategic initiatives, we continue to make significant contributions in education, healthcare, environmental sustainability, and community development. Our belief in the power of partnerships and collective action remains central to our mission of driving societal progress.

Staff Welfare

The well-being of staff, including contractual employees, is integral to the Bank's values as an Islamic financial institution. In 2024, we focused on holistic staff welfare, supporting education, medical emergencies, and social causes. By fostering a supportive environment, the Bank ensured that its workforce remained motivated and engaged.

Looking ahead, we will build on these efforts to create even greater impact. Guided by Islamic principles and a commitment to excellence, we will work tirelessly to ensure a brighter and more equitable future for all. Together with our partners, employees, and stakeholders, we strive to create enduring change that uplifts communities and supports long-term development.

Diversity, Equity & Inclusion (DEI)

At the Bank, we recognise that the strength of our organisation lies in the diversity of our people and the values we uphold. Our commitment to Diversity, Equity, and Inclusion (DEI) underscores our belief that our strength lies in the diversity of our people. This commitment is reflected in various initiatives:

Vision of Diversity, Equity, and Inclusion

"With the belief in core Islamic Values of equality, Faysal Bank values diversity and inclusivity as its primary driving force to become the 'employer of choice', where we hold gender diversity, equitable opportunities and differently abled inclusion as the cornerstone of our DEI strategy."

This vision of DEI rests on four strategic pillars that supports all the work we do in promoting workforce diversity, equity and inclusion, implementing DEI Initiatives in the markets and communities we operate in as well as advocating for the cause of equality to support our business. Across the Bank DEI leaders are actively engaged in strategically driving the implementation of inclusive business and work practices.

DEI Pillars

Diversity, Equity, and Inclusion (DEI) is a core agenda at the Bank, monitored through key metrics that are regularly reported to the Sub-Management Committee on DEI and reviewed by the Board's Human Resource Committee. Our leadership actively advocates for DEI initiatives, reflecting its importance as a strategic priority. with a 19% Gender Diversity on the Board of Directors being integral to our agenda.

Gender Diversity

Women represent 20% of our workforce, supported by targeted programmes to foster their growth and ensure equal opportunities. The Naya Safar Returnship Programme facilitates the reintegration of women into the workforce after career breaks, with 16 participants hired in 2024.

Gender Pay Gap

The Bank constantly implements policies that ensure gender pay parity is maintained.

Following is gender pay gap circulated for the year ended 2024:

- 1. **Mean Gender Pay Gap:**
Male : Female = 1.76 : 1
- 2. **Median Gender Pay Gap:**
Male : Female = 1.35 : 1

The Bank constantly implements policies that ensure gender pay parity is maintained. See table below

Management Level	Male : Female Ratio	
	Median	Mean
Senior Management	0.94 : 1	0.95 : 1
Middle Management	0.98 : 1	1.01 : 1
Junior Management	1.20 : 1	1.26 : 1

Inclusive Policies to Support Culture

Policies such as childcare allowance, grief leave, and flexible working hours promote employee retention and support work-life balance. Thanks to these initiatives, our **maternity return rate** has increased from 54% in 2022 to 93% in 2024, reflecting the success of these measures.

Back from Maternity Rate

Driving Gender Diversity and Serving our People and Community

The **Faysal Islami Khudmukhtar Programme**, initiated in partnership with CIRCLE Women Association, was designed to empower women from diverse backgrounds by providing them with essential work readiness skills. The programme offered a robust curriculum covering areas such as financial literacy, digital skills, communication, and professional conduct. The first cohort was held in Lahore with 42 women and upon completion of the internship, approximately 47% of the participants were successfully hired by the Bank, marking a significant achievement in the programme's goal to enhance employability and support for women in their career journeys.

FAYSAL BANK COLLABORATES WITH CIRCLE

Faysal Bank is pleased to announce a collaborative partnership with CIRCLE through MOU signing for the **Faysal Islami Khud Mukhtar Internship Program**. The program aims to empower women from diverse areas with the necessary skills and knowledge to enhance their economic prospects and foster digital literacy.

Naya Safar Returnship Programme

Naya Safar has facilitated the creation of a structured platform that eases the re-entry of women on career breaks into the workforce. Through this initiative, Faysal Bank has been able to tap into talent pools that might have otherwise been overlooked offering unique opportunities to homemakers and recognising their contributions to society. 16 women were hired in 2024 through the Naya Safar programme.

Mothers & Managers Wellness Programme

The Mothers & Managers Wellness Programme is a holistic initiative designed to support mothers returning to work after maternity leave. It aims to provide mothers with the necessary tools to balance their professional responsibilities and motherhood while also equipping respective managers with effective strategies to offer support. This programme reflects the Bank's commitment to fostering an inclusive environment where both personal and professional growth can thrive simultaneously.

Mothers and Managers Wellness Program

Because Your Well-being Matters!

A wellness initiative aimed at supporting mothers as they return to work after maternity and equipping managers to assist them in this crucial transition.

Here's what's inside:

- **Post-Natal Wellness:** Specialized workshops to support your journey after childbirth.
- **Return-to-Work Support:** Guidance and strategies for easing back into the workplace after maternity leave.
- **Manager Training:** Equip managers with the tools to provide the best support for returning mothers.
- **Peer Support Groups:** Share and grow together with others who understand your journey.

For any queries or assistance, kindly reach out to junellaernest@faysalbank.com

MBA Scholarship Programme

On International Women's Day, our President & CEO Mr. Yousaf Hussain made a significant announcement, offering 10 Executive MBA scholarships exclusively for female staff members. This gesture underscores the Bank's dedication to empowering women in the workforce, providing them with valuable opportunities for advanced education and career growth. The scholarship initiative aligns with our ongoing commitment to fostering gender equity and supporting the professional development of its female employees. This year 17 women graduated from Amal Leadership Development Programme who went through an extensive 9-month training programme including exclusive mentoring sessions with senior leaders in the Bank.

Disability Inclusion

The Bank has taken a number of initiatives in our journey towards disability inclusion. Our pioneer programme that provides opportunities to differently abled members of the society “Qabil Programme” has played a pivotal role in the last 3 years to introduce diverse candidates to the pool for our varied hiring needs.

We have consistently maintained a strong upward trajectory in hiring Persons with Disabilities, achieving an impressive 389% growth over the past five years. This underscores our unwavering commitment to fostering a diverse, inclusive, and equitable workplace.

Our collaboration with ConnectHear and JAWs also ensures that inclusive technologies are available for staff to provide accessible work space and reasonable accommodation. These applications promote accessibility for staff and managers alike. We also ensure that all our hiring practices are inclusive hence all hiring documents are accessible to visually impaired candidates and are in Braille. We continuously review our workspaces to make them more accessible to differently abled staff.

Partnerships created in 2024 to support DEI Goals

Our DEI Partnerships are created to support the workforce, community at large and advocate the cause of underserved communities. This year we are proud to have collaborated with multiple impact partners to support different causes.

1. **Circle Women Association:** Khudmukthar Internship Programme

2. **NOWPDP:** PWD Buddy Programme & Sensitisation Session

3. **CONNECTHEAR:** Interpretation Device for hearing impaired staff and sensitisation sessions

4. **Boltay Harroof:** Accessible Braille internal documents for visually impaired staff

5. Sensitisation & Immersive experiences partnership

Employee DEI Resource Networks

Faysal Women Connect operates as an active network within the Bank, supporting women employees and connecting them with Faysal Women Ambassadors to provide guidance and access to support forums wherever needed. The PWD Buddy Programme is designed to ensure a robust support system for all Persons with Disabilities (PWD) at the Bank, ensuring that assistance is readily available whenever required.

Person with Disabilities Buddy Program

We are thrilled to launch our **Person with Disabilities Buddy Program** at **Faysal Bank**, in collaboration with **NOWPDP**. This groundbreaking initiative connects our dedicated employees with colleagues who have disabilities, establishing a dynamic support network that drives inclusion, empathy, and collaboration across our organization.

Creating a diversified and Inclusive culture through Sensitisations, Communication and Training

The Bank offers a number of sensitisation sessions to build a culture to support diversity, equity and inclusion. These special session such as Dining in the Dark with Khaas Foodz offer a unique experience to participants to immerse themselves in the world of people with visual impairments, fostering empathy and understanding.

Dining in the Dark Event in Collaboration with Khaas Foodz

Special Days to drive awareness around the cause are also celebrated such as the International Women Day, Breast Cancer Awareness Month, International Disability, Mother's Day, Earth Day and International Disability Day etc. where our leadership leads from the front.

Women's Day at Faysal Bank

Faysal Bank celebrated International Women's Day with a powerful event dedicated to empowerment and equality.

President & CEO Mr. Yousaf Hussain made a notable commitment, offering 10 scholarships for women staff, underlining the vital role women play in line with Islamic principles. The event featured inspiring power stories from distinguished speakers such as Jehan Ara - CEO of Katalyst Lab and Dr. Irum Saba.

Faysal Bank remains committed to championing women's rights and opportunities, cultivating a culture of inclusivity and support.

faysalbank

The Bank's unwavering dedication to fostering a diverse workforce and cultivating an inclusive workplace culture is exemplified through its recognition on various platforms.

• Global Diversity Equity and Inclusion Benchmarks Awards 2024:

The Bank earned 12 Global Diversity, Equity & Inclusion Benchmarks Awards 2024, distinguishing it as the sole Islamic bank honored for its inclusive practices and ranked among the top 10 most inclusive organisations across various industries.

• EFP Women Empowerment & Gender Equality Silver Award:

The Bank was also recognised by the Employers Federation of Pakistan, with the prestigious EFP Women Empowerment and Gender Equality Silver Award 2024.

• HR Pinnacle Award 2024:

The Bank received the Employer of Choice Gender Diversity Award 2024 for Best Inclusion Practices, recognising our unwavering dedication to fostering an inclusive workplace where diversity thrives.

• Employer of Choice Gender Diversity Awards 2024:

We also accepted the Employer of Choice Gender Diversity Award 2024 for Best Inclusion Practices by Pakistan Business Council and International Finance Corporation, reaffirming our commitment to creating an equitable and empowering workplace for all.

Faysal Bank Earns Silver for Gender Equality

Faysal Bank is honored to be recognized by the Employers Federation of Pakistan, with the prestigious EFP Women Empowerment and Gender Equality Silver Award 2024.

This award underscores our unwavering dedication to creating gender-inclusive workplace and promoting Diversity and Inclusion within our organization.

We are profoundly grateful for this acknowledgment and remain committed to advancing gender equality and diversity across all facets of our operations.

faysalbank

SUSTAINABLE DEVELOPMENT GOALS

SDG 1 & 10 – No Poverty & Reduced Inequalities

Initiatives like the Khudmukhtar and Qabil programmes focus on upskilling individuals in underserved areas and provide direct employment opportunities. Our inclusive hiring practices ensure equal opportunities for all, without discrimination.

SDG 3 – Good Health & Well-Being

Employee well-being is central to our HR activities, promoting a healthier and more productive workforce.

SDG 5 – Gender Equality

Through our DEI Vision and HR frameworks, we drive gender equality and economic empowerment, aiming to uplift almost half of Pakistan's adult population that is women.

SDG 8 – Decent Work & Economic Growth

Our diverse, equitable policies as well as learning and development initiatives foster professional growth, enabling decent work and economic progress for employees and stakeholders.

SDG 17 – Partnerships for the Goals

We collaborate with various partners to amplify community outreach and contribute meaningfully to societal & workforce development.

Financial Inclusion

Our financial inclusion strategy is deeply aligned with the United Nations Sustainable Development Goals (SDGs), focusing on providing accessible, affordable financial services to underserved communities. By fostering economic empowerment, promoting gender equality, and driving innovation, we aim to create sustainable growth and ensure financial resilience for all.

Women Banking

Faysal Bank understands the importance of women and their contribution to society. The financial needs of women from all walks of life are taken care of by Faysal Bank where products are categorically designed to help achieve the following:

- Increasing access to financing by offering discounted rates
- Reducing gender-based barriers in the business environment
- Creating opportunities for women

Amal Women Account

Faysal Islami Amal Women Priority Plus Account is a Shariah Compliant Account that provides women financial independence by offering Transactional Convenience, Health Benefits, Financing Facilities, Payment Solutions and Takaful Coverages all under one roof.

Amal Asaan Account

Faysal Bank has designed Amal Women Asaan Account (Current and Savings) which caters to the women of lower income segment or housewives who have no financial proof by bringing them into the financial net via quick account opening with minimum documentation and no initial deposit requirements. The product comes with multiple other features catering to the needs of women.

Faysal Islami facilitates Amal account holders not only with saving and transactional convenience but also offers discounted financing products to unlock their dreams i.e. autos, home, personal finance and Noor card.

The Bank also emphasizes on empowering women by engaging them in the workforce to make informed choices for themselves and their families with Agriculture financing products and Small Medium financing particularly for women.

Women Banking Awareness Sessions

Women banking awareness sessions on financial literacy are regularly held to focus on the significance of owning a bank account, various saving and investment options and introduction to financing. These sessions are organized by visiting schools, colleges, universities, hospitals and offices or inviting females at Faysal Bank branches.

Revolutionized Banking for Agriculturists Khushaal Kisaan Account

Faysal Islami Khushaal Kisaan Account is a Shariah-compliant tailor-made account to meet the specific needs of farmers, commission agents and traders associated with the agriculture segment. This account intends to cater to the changing transactional needs of small to large-scale producers,

processors & traders while offering interest-free Shariah-compliant banking based on the Islamic principle of Mudarabah.

Awareness Sessions on Agri-banking

In 2024, the retail and agri teams at Faysal Bank have actively engaged with farming communities across Pakistan, raising awareness and providing essential education. Through successful roadshows in Sindh and Punjab, we facilitated seamless account openings, ensuring accessibility and convenience for all.

These efforts aimed to connect agriculturists with growth opportunities and enhance their financial wellbeing.

Persons with Disabilities (PWD)

Faysal Islami focuses on providing seamless services to all its customers without any discrimination therefore, when accessing financial services, we promote inclusivity for Persons with Disabilities (PWD). To make banking easy, convenient and accessible for all PWD's, the Bank has taken certain initiatives.

Supportive Physical Infrastructure:

- 16 PWD branches revamped nationwide in terms of infrastructure (ramps availability, low height adjusted counters, wheelchair friendly areas, talking ATM's) for accessibility in our branches

Assistive Technologies:

- Faysal Islami promotes an easy way to communicate in collaboration with Connecthear's mobile application that comes with a live sign language interpreter to communicate with its deaf members within and outside the organization
- Access to easy communication has been in place in all PWD branches in collaboration with Boltay Huroof to provide the convenience of banking products and services in the form of stationary (braille account opening forms, brochures and sign-language posters)

Climate Smart Agriculture

FBL entered into an arrangement with a tech-based service provider for Agri portfolio namely M/s. Agrilift to extend Agricultural extension services to empower small and medium scale farmers and to enhance their productivity and profitability. This project was launched in Sahiwal, Depalpur and Okara. Initially 160 farmers benefitted from this initiative.

Agrilift took soil samples from the selected Agri farms and tested the soil fertility levels (Macro & micronutrients) to assign farm credit score and to generate reports. They conducted multiple drone flights and combined it with satellite imagery for the farms. Upon conclusion, they completed farmer profiling which covered a comprehensive view of the farm, farming practices and distinguished between progressive / non-progressive farmers and farms. It helped the farmers in assessment of their farming activities, identification of areas of improvement and ultimately improving their productivity and profitability.

Farmers Financial Literacy Programs:

Faysal Bank as a part of its Business Strategy, conducts regular awareness sessions / financial literacy programs across the country for farmers in order to provide them essential education, facilitate the seamless account openings etc. and ensuring accessibility & convenience.

Financial Inclusion Initiatives:

Faysal Bank has launched an innovative and exclusive deposit product 'Khushaal Kisaan Account' for Farming Community in order to increase financial inclusion. Faysal Islami Khushaal Kisaan Account is a Shariah-compliant tailor-made account to meet the specific needs of farmers and traders associated with the agriculture segment. This account intends to cater to the changing transactional needs of small to large-scale producers, processors & traders while offering interest-free Shariah-compliant banking based on the Islamic principle of Mudarabah. Faysal Islami Khushaal Kisaan Account offers comprehensive solutions with a host of benefits.

Digital Banking Group

Strategic Initiatives:

Faysal Bank is one the leading innovative Banks in the country, with a strong commitment towards digitization of customer experiences. The Bank's focus has been on creating a continuous innovation cycle especially in the payments landscape through digital solutions, products and platforms with the aim of asserting its position as the #MostInnovativeIslamicBank.

Faysal Bank's Digital Positioning

During FY24 Faysal Bank has embraced a transformative approach in digital-banking, positioning itself amongst the industry leads, not only within the Islamic banking but also as a key digital player in the broader industry.

The driving force behind FBL's digital-strategy is the 'go-green' philosophy, promoting the adoption of paperless payment solutions via digital channels reducing reliance on the traditional modes of payments. Faysal Bank's digital offerings extend beyond the retail banking customers, encompassing consumer banking and small and medium business (SMEs) for payments as well as acceptance solutions.

'Faysal WhatsApp Banking': #Bestinclass

Inarguably the industry leader in WhatsApp Banking, with the best-in-class CX and service menu. Faysal Bank revolutionized WhatsApp banking with features like real-time card activation, Funds Transfers, Donation Payment, Mobile top-ups and even Raast QR payments!

A groundbreaking milestone was the launch of Peer-to-Peer (P2P) and Peer-to-Merchants (P2M) QR payments via WhatsApp, a first in Pakistan's banking industry. Faysal Bank's WhatsApp banking platform has achieved remarkable success surpassing PKR 2.5 billion in transaction processing.

Expanding the Cashless Ecosystem: POS Merchant Acquiring:

In FY24 Faysal Bank entered into the Merchant Acquiring, Point-of-Sale (POS) segment. With the expansion into this segment Faysal Bank is now empowering MSMEs to expand their business by accepting digital payments with embedded solutions covering QR, POS Terminals and even Internal Payment Gateway, thus enabling businesses to go online as well!

As of FY24 Faysal Bank is the fastest growing merchant acquiring solution provider and also boasts the largest Fintech Partnership in the industry, with its successful partnership with OPay in this space.

‘Faysal DigiBank’: Leading the Digital Banking Revolution

Faysal Bank’s flagship digital platform, ‘Faysal DigiBank’ mobile app, is designed to meet the evolving expectations of modern customers. DigiBank leverages cutting-edge technology to offer a comprehensive suite of services the likes of ‘Tap-to-Pay’ tokenized transactions where your ‘phone becomes your wallet! Whether its card activation or even Payments via Noor Card, everything can be managed at a click of a button.

In FY24 Faysal DigiBank witnessed a transactional volume growth of over 35% processing over PKR 1.5 Trillion in the year, making it the platform of choice for FBL customers.

www.faysalbank.com | 021 111 06 06 06
 f faysalislami faysalbankitd faysalbanklimited

‘Empowering Digital Payments: Internet Payment Gateway (IPG):

Building on the success of our Internet Payment Gateway (IPG), Faysal Bank has enabled countless SME businesses for ecommerce, allowing them to enter into the digital space and increase their customer universe. This secure, multi-card solution—supporting Visa, Mastercard, and UnionPay—has expanded our influence in the e-commerce sector by simplifying digital payments and making onboarding like a plug-n-play solution.

Faysal Bank Cash Deposit / Digital Kiosks:

Living up to its reputation of being the most rapidly growing innovative & progressive Islamic bank, Faysal Bank launched Digital Kiosks, promoting the self-serve digital concept thereby allowing customers to walk-in to the Branch and deposit their cash without having to wait at the counter. The service was immensely successful and in the 12 months of its launch, over PKR 16 Billion deposited through these Digital Kiosks..

Digital Facilitation Centers:

In FY24 Faysal Bank became the first bank in the industry to open up Digital Facilitation Centers in commercial markets. The whole concept has been to take banking to the customers! Hence by providing real-time deposit and withdrawal solutions, making it easy for the SMEs to #gocashless and at the same time reduce their cash holding risk

FBL ATM & CDM HMR Waterfront Karachi

FBL ATM & CDM Gul Plaza Karachi

FBL ATM & CDM Gulf Market Clifton Karachi

Faysal Bank ATMs:

With a footprint of over 800+ ATMs, the bank expanded its network by introducing advanced ATMs with modernized features including biometric based card-less withdrawal, NFC Tap & Transact where customers only need to tap their NFC cards to access the FBL ATM. Other market first and unique features include, Smart Withdrawal and Enhanced User Interface making FBL ATMs the best user-experience in the industry.

Bridging Global Connections: Roshan Digital Account (RDA):

The Roshan Digital Account (RDA) has become a cornerstone of Faysal Bank's strategy, bridging the gap between overseas Pakistanis and their need to access Banking in their home country. This fully digital onboarding solution has simplified access to banking for Non-Resident Pakistanis (NRPs), allowing them to manage their finances with ease from any location worldwide. The RDA offers comprehensive services, from digital payments and Shariah-compliant investments to philanthropic contributions and property ownership in Pakistan.

Innovating Local Banking: Burraq Digital Account:

Faysal Bank's focus on innovation is also evident in the launch of the Burraq Digital Account, facilitating a hassle-free, fully digital account opening process for resident customers. This platform eliminates the need for branch visits, delivering a seamless customer experience. A key features of the Burraq platform is the Freelancer Account's and AMAL Women's Account, designed to financially empower women with specialized benefits. This initiative highlights our dedication to inclusivity and reflects Faysal Bank's commitment to fostering financial well-being for all demographics.

Digital Customer Care

With one of the industry's best customer care / call center units, Faysal Bank's DCC is one of the most efficient touchpoints, going beyond traditional interaction mediums and goes on to include social media management live chat services via WhatsApp. With over 50,000 interactions monthly via WhatsApp live chat alone FBL ensures 24/7 availability for its customers across all channels.

Faysal Bank is also recognized as one of the most socially responsible, DEI (Diversity, Equity, and Inclusion) Digital Banking Teams in the industry, with 15 specially-abled individuals contributing to its workforce.

Future Outlook

with its well defined focus on technology and digital experience, Faysal Bank is carving out a niche for itself as the #MostInnovativeIslamicBank in Pakistan. In 2024, Faysal Bank's Digital Banking was recognized locally and internationally; with winning streaks including the 'Black Dragon Award' for digital campaign, Pakistan Digital Award (PDA) Digital Technology Award for its WhatsApp Banking, recognition by the UK based 'ATMIA', for FBL service innovation in the ATM & CDM experience.

Amongst its upcoming initiatives the Bank is optimistic that the Raast Person to Merchant (P2M) solutions that it is developing for retail-merchants will go hand-in-hand with the State Bank of Pakistan's (SBP's) agenda of driving cashless payments at the retail level.

Business Continuity Management

Faysal Bank believes there is no greater value than the one to place our stakeholders on priority who make our business successful. This includes all our employees and associates, customers, vendors and shareholders. It is the policy of Faysal Bank to maintain a BCM program and Business Continuity plans to ensure the prompt and efficient recovery of critical operations of its product and services from any incident or physical disaster which the organization may face, from time to time. To ensure that the program fully meets the current and changing needs of Faysal Bank, all Business Continuity plans are regularly reviewed, updated and tested, and results are presented to Board of Directors.

Faysal Bank strongly values its stakeholders, recognizing their essential role in the organization's success. These stakeholders include employees, associates, customers, vendors, and shareholders. Demonstrating its commitment, the bank has established a Business Continuity Management (BCM) program and associated Business Continuity Plans to ensure the timely and efficient recovery of critical operations, products, and services in the face of any incident or physical disaster. To ensure the program remains responsive to the bank's current and evolving needs, the Business Continuity Plans are consistently reviewed, updated, tested, and reported to the Board of Directors.

Health & Safety

Faysal Bank's Management remain committed to fostering a culture of health and safety in Faysal Bank. This includes promoting awareness, through Trainings to our staff, ensuring compliance with relevant standards and local regulations, and embedding safety as a core operational value. Our approach reflects the Bank's dedication to safeguarding stakeholders while supporting long-term organizational sustainability."

Sustainable Operations

As responsible member of the society, we understand the impact of climate change on our environment and factors on which it depends. The Bank continues to strengthen focus on the sustainability agenda by driving initiatives that reduce carbon emissions and other greenhouse gases, and enhance energy efficiency. Key measures include the installation of solar energy systems, optimizing fuel management strategies, and prioritizing the procurement of energy-efficient equipment and environment friendly products. We emphasize investments aligned with lower carbon emissions, ensuring that sustainability remains a key consideration in our decisions.

Seed paper is placed at the end of this Annual Report.

Directors' Profile

Mian Muhammad Younis

Chairman

Mian Mohammad Younis' distinguished professional journey spans over 39 years, career. He, after completing his Master's degree in economics joined the civil service of Pakistan. During his public service in Government, he further enhanced his knowledge, skill and expertise, by attending various educational and professional courses/workshops, which include, "Project Appraisal & Risk Management course" at Duke University USA. , Assessing Financial System Stability (IMF Institute, Singapore), Promotion of Direct Foreign Investment (Osaka, Japan), Promotion of Agro Based Industry (Manila Philippines), Islamic Banking (Kuala Lumpur, Malaysia), Anti-Money Laundering and Corporate Governance & Leadership Skills from National Institute of Banking & Finance (NIBAF) Pakistan Institute of Corporate Governance (PICG) respectively.

Mian Younis during his public service remained closely associated with reforms carried out in Public Finance, Banking and Financial Sector, Corporate Sector Governance, Rules, Regulations and Audit Procedures. He was also Head of Inter-Governmental Finance Wing (IGF), Regulation Wing (RW), and Human Resource Wing (HRW) of Finance Division as Additional Finance Secretary (AFS). He was also Secretary to National Finance Commission (NFC) from 2003 to 2010 and was the first Chief Operating Officer (COO) of Khushal Pakistan Fund Limited (KPFL) under Finance Division. He supervised not only the Expenditure budget of the Federal Government but also implemented Public Sector Development Programs (PSDP) of Finance Division from 2001 to 2011,

Affected recovery of loans extended to Provincial Governments and other Public Sector entities by the Federal Government, and assisted State Bank of Pakistan (SBP) in managing the overdraft financing position of provinces, AJK, and various Public Sector Corporations from 2003 to 2011. Therefore, has in depth understanding of economic policies, fiscal matters and governmental procedures. In this context, he worked in different governmental, semi-governmental

departments and Autonomous Bodies i.e. FBR, Economic Affairs Division (EAD), M/O Food & Agriculture, Board of Investment (BOI), Pakistan Software Export Board (PSEB) and Finance Division. He played a pivotal role in establishing various funds including "Relief Funds" and was instrumental in framing their accounting procedures, Financial / Investment Rules in consultation with Controller General of Accounts (CGA) and Auditor General of Pakistan's Office (AGP). He completed the process of liquidation of Federal Bank for Cooperative (FBC) and Agriculture Marketing and Storage Limited (AMSL) as liquidator. He contributed towards policy formulation as a member of boards of various Corporate Sector entities and banks.

Mian Younis was on the Board of Directors of Meezan Bank Limited and remained Chairman, Board Audit Committee & Member Risk Management Committee, for about three years. He has been a member on the Board of Directors of Faysal Bank Limited (FBL) since April 2014 and elected as Chairman of FBL on July 17, 2023. He is also the Chairman, Board Strategy Committee (BSC) & Board Sustainability and Development Committee (BSDC) of FBL. He also served as a Chairman, Board Audit and Corporate Governance Committee (BACGC), Member, Recruitment, Nomination and Remuneration Committee (RNRC) and Member, Board Risk Management Committee (BRMC). He, as director & Chairman of BOD of FBL, is providing valuable insights and strategic direction contributing to the bank's growth, Audit, compliance with Islamic finance principles and overall success in the financial sector. He possesses strong leadership qualities, strategic thinking and expertise in financial matters, navigated complex economic landscapes and formulating policies that balance financial prudence with social corporate responsibility.

**Mr. Ahmed Abdulrahim Mohamed
Abdulla Bucheery**

Vice Chairman

Mr. Ahmed Abdulrahim Bucheery holds MBA from the University of Glamorgan, Wales (UK), and is a Fellow Member of the Institute of Financial Accountants, London (UK) and the Institute of Public Accountants, Australia. He also holds Executive Management Diploma from the University of Bahrain and Advance Banking Diploma from the Bahrain Institute of Banking and Finance. He is also a certified Director from the Pakistan Institute of Corporate Governance.

Till 30 September 2022, Ahmed Bucheery was the Chief Executive Officer of Ithmaar Group, including Ithmaar Bank, and retired on 1 October 2022. He started his career in the Accounting Department with Aluminum Bahrain followed by Chase Manhattan Bank (currently J.P. Morgan) as Head of Financial Control. He then joined National Bank of Bahrain in 1978 where he served for 28 years in various executive levels and in different capacities, including Manager Foreign Exchange and Funding, Chief Internal Auditor and Assistant General Manager of Corporate Services Group.

Ahmed Bucheery held simultaneously dual roles of Deputy Chief Executive Officer at Shamil Bank and Chief Operating Officer at Ithmaar Bank for approximately four years. In 2013 he was appointed as CEO, Ithmaar Bank. Currently, Ahmed Bucheery serves as Vice Chairman of Faysal Bank Limited (Pakistan) and a member of the Board of Trustee of Wasf Fund for the Islamic Bank (Bahrain).

Mr. Yousaf Hussain

President & CEO

Mr. Yousaf Hussain, President & CEO Faysal Bank since 2017, has around 31 years of rich professional experience. He has been associated with Faysal Bank since August 2008 and previously held senior management positions within Corporate & Investment Banking, Special Assets Management and Risk Management Groups.

His earlier assignments have primarily been with ABN AMRO Bank, where he held multiple senior managerial positions, mainly within Corporate Banking.

Under his leadership, Faysal Bank has been able to fully transform from a conventional interest-based bank to a full-fledged Islamic bank. The transformation has been independently validated by the International Islamic Rating Agency as the World's largest Islamic Banking transformation to date.

Additionally, over the past five years, the Bank successfully implemented a customer-focused growth plan which was based on significant expansion of its branch network, introduction of a diverse range of Islamic banking products, and launch of user-friendly digital channels utilizing the latest technology platforms. As a result of its conversion and ongoing growth, Faysal Bank is now positioned as a leading Islamic bank in Pakistan, with a widespread network of 700 branches spread across 270 cities.

Yousaf is an Electrical engineer with an MBA from LUMS. He is a member of the Executive Committee of Pakistan Banking Association, a Council Member of the Institute of Bankers-Pakistan, Director at Pakistan Business Council and Pakistan Institute of Corporate Governance. He is also a member of the Management Committee of IBA- CEIF (Centre for Excellence in Islamic Finance).

Mr. Abdulelah Ebrahim Mohamed AlQasimi

Director

Mr. Abdulelah AlQasimi has more than 45 years of diversified management experience. His previous positions include Chief Executive of the Labor Fund (Tamkeen), from which he resigned in May 2010, Deputy Chief Executive Officer of Labor Fund Project at the Bahrain Economic Development Board, Assistant Undersecretary for Training at the Bahrain Ministry of Labor and Social Affairs, Director of Engineering and Maintenance at the Bahrain Ministry of Health. He has also served as the Chairman of the Bahrain Qualifications Framework Steering Committee and the Steering Committee of Career Expo and was a Board member of the Bahrain Society of Engineers and the Bahrain Consumer Protection Society.

He is currently a Chairman of Ithmaar Dilmunia General Partner Co. and Member of the Board of Ithmar Dilmunia Company and Faysal Bank Limited (Pakistan).

Abdulelah AlQasimi holds a BSc in Civil Engineering from Queen Mary College University of London, UK, and MSc in Health Facility Planning from the University of North London, UK, and a Diploma in Health Care Management from the Royal College of Surgeons in Ireland, Bahrain. He is also a certified Director from the Pakistan Institute of Corporate Governance.

Mr. Ali Munir

Director

Mr. Ali Munir has a BA degree from Government College Lahore and an LLB Degree From The University of Punjab, Lahore. He has over thirty years' experience as a Chartered Accountant. He is a member of the Institute of Chartered Accountants in England and Wales and the Institute of Chartered Accountants of Pakistan. He was also a member of Investment Management Regulatory Organisation and the Securities Association (now known as the SFA) in England. He joined MCB Bank Ltd. in 1999 and has previously held senior positions at Citibank, Saudi American Bank and Habib Bank. In 2005, he was awarded the M.A Mozaffar Memorial Gold Medal from the SBP and Institute of Bankers in relation to his services to banking reforms in Pakistan and Agriculture Finance. He was previously the Chairman of the SBP Committee for Agricultural Finance and also the Chairman of the SBP Committee for Islamic Banking.

Mr. Juma Hasan Ali Abul

Director

Mr. Juma Hasan Ali Abul is a fellow member of the Association of Chartered Certified Accountants, England, certified Director from the Pakistan Institute of Corporate Governance and holds a bachelor's degree in accounting, from Cairo (1980).

Mr. Imtiaz Ahmad Pervez

Director

Mr. Imtiaz Ahmad Pervez has over 35 years' work experience in the field of banking in the United Kingdom, Bahrain and Pakistan. His last position was that of the Chief Operating Officer of the Faysal Islamic Bank of Bahrain BSC., till 1994. He was also the first CEO of the former Faysal Investment Bank Limited, Pakistan (later merged with Faysal Bank Limited, Pakistan). Additionally, he has served on the boards of banks including the Ithmaar Bank BSC, Bahrain, AlBaraka Bank Pakistan Limited, Faysal Islamic Bank of Bahrain BSC, Faysal Investment Bank of Bahrain EC and the Faysal Investment Bank Limited, Pakistan. He holds B.A. degree from the University of the Punjab and fellowship of the Institute of Islamic Banking and Insurance, London, U.K.

Mr. Mohsin Tariq

Director

Mr. Mohsin Tariq is a seasoned business leader with over 14 years of experience in the Petrochemical and Chemical Industries. As the Executive Director of Nimir Chemicals Pakistan Limited, he has been instrumental in implementing strategic initiatives that have significantly enhanced the company's operational performance and market competitiveness. Under his visionary leadership, Nimir Chemicals has achieved sustainable growth and financial excellence, cementing its position as an industry leader.

Mr. Tariq holds a Bachelor of Science in Business Management from Brunel University, West London, and a Master of Science in International Management from School of Oriental and African Studies (SOAS), London. His strong academic foundation, coupled with his extensive professional experience, equips him with a global outlook on business strategy and operational efficiency.

In May 2020, Mr. Tariq was appointed as an Independent Director on the Board of Faysal Bank Limited, where he brings expertise in corporate governance, strategic planning, and financial oversight. His prior board experience includes a successful tenure (2015–2018) with Nimir Industrial Chemicals Ltd. Currently, he serves as a director on the boards of Nimir Trading (Pvt) Ltd., Nimir Chemicals Pakistan Limited, and Nisar Synthetic Ltd.

Mr. Tariq has also completed the Directors' Training Program at Lahore University of Management Sciences (LUMS).

Beyond his professional endeavors, Mr. Tariq is deeply passionate about contributing to society. He actively supports multiple charitable initiatives, demonstrating his dedication to fostering positive change and uplifting underserved communities.

With a proven track record of leadership, strategic foresight, and an unwavering commitment to excellence, Mr. Mohsin Tariq continues to make a significant impact in both the corporate and social spheres.

Ms. Fatima Asad Khan

Director

Fatima Asad-Said, CEO of Abacus, an international technology, outsourcing, and consulting firm, drives digital transformation for businesses across various industries and geographies. With over 26 years of experience, she has advanced progressive solutions in corporate governance, digital transformation, AI, data and cloud services, human capital management, enterprise solutions, and project leadership across multiple sectors.

Ms. Asad-Said's professional journey began at Coopers & Lybrand International, followed by Pricewaterhouse Coopers, after completing her MBA from LUMS. Her leadership journey includes serving on various Boards such as Lahore University of Management Sciences (LUMS), Faysal Bank, Kashf Foundation, Interloop Limited, Bata Pakistan, Kaarvan Crafts Foundation, and Pakistan Center for Philanthropy. She is also a certified Corporate Director from Harvard Business School and a member of the Diversity & Inclusion Hub Leadership Council as well as the Women Executives of Boards Forum.

Recognized as a champion for impactful change, Ms. Asad-Said has earned prestigious accolades, including the Top IT Female Export Award from the President of Pakistan and the Platinum Award for Top Women Entrepreneur in Tech at the IT & ITES Exporters Awards 2024. She also contributes as a member of the IT & Telecom Advisory Committee, tasked with boosting IT exports by aiding the government in developing a strategic, long-term roadmap for the sector. These achievements demonstrate her relentless commitment to advancing Pakistan's IT landscape and delivering IT excellence across four different continents.

Ms. Sadia Khan

Director

Sadia Khan is a seasoned fintech executive with over twenty years of industry experience largely on the product development and technology side. Out of the total experience, 12 years have been at COO, CEO, and board level roles. Most recently, Sadia was CEO of AutoSoft Dynamics, a Made-In-Pakistan product-based company providing globally competitive core banking and related software.

Under Sadia's leadership AutoSoft's customer base has grown and today its solutions power both leading local banks within Pakistan and global banks in South Sudan, Zambia, Bahrain, and Afghanistan. She has led several successful core banking and lending system migrations (Faysal Bank, Al Baraka Bank, Sindh Bank, PMRC), mobile wallet implementations (Finca Microfinance Bank, Allied Bank), and treasury system installations (Bank of Punjab, National Bank of Pakistan, Askari Bank).

Sadia has extensive experience in managing large scale software development and technology projects. Under her leadership, AutoSoft Dynamics developed the digital banking technology for Pakistan's first smartphone based mobile wallet (SimSim) and subsequently, Allied Bank's mobile wallet solution.

In 2022, Sadia led AutoSoft's acquisition by Contour Software (Private) Limited, an indirect subsidiary of Constellation Software, Inc., a publicly traded company on the Toronto Stock Exchange (TSX: CSU) with a market capitalization of \$36 Billion and over 16,000 employees.

Sadia has a bachelor's degree in Computer Science from Rutgers University, USA. She serves on the board of directors of Kashf Foundation, Naseeb Online Services (Rozee.pk), Naseeb Networks and Digital Devices Impex (Pvt) Ltd.

Senior Management Profiles

Mr. Yousaf Hussain

Board Meetings held outside Pakistan

No meetings were held outside Pakistan during the year 2024.

Role of the Board of Directors

The Board of Directors (BOD) is responsible for the oversight of Management, risk management, human capital management and overall strategy along with setting goals and targets for the profitability and growth of Faysal Bank Limited (the Bank). It accomplishes this function by setting the annual budgets, various other initiatives and targets and monitoring the same on a periodic basis. The Board has formed various Board Committees for a specialized and focused approach. It provides business and strategic leadership and direction for the Management within a framework of prudent and effective controls. The Board has set the Vision and Mission Statement of the Bank and promotes the collective vision of the Bank's purpose, its culture, its values and also demonstrates ethical leadership. The collective wisdom of the Board is translated into its decisions which form the basis for Management to achieve its targets. One of the primary roles of the Board is to enhance the shareholder value.

The Board is concerned with strategic matters and overseeing the business of the Bank in light of emerging risks and opportunities, on a regular basis and also involved in establishing and reviewing the strategies, yearly targets and financial objectives of the Bank. All the strategic decisions of the Bank have been taken by the Board.

Significant Issues/Matters discussed/approved by the Board of Directors:

During the year 2024, the Board of Directors deliberated upon and/or approved the following Significant Issues / Matters:

- Annual General Meeting of the Bank and drafting, supervising and disseminating various reports and communications to the Shareholders of the Bank.
- Focus on Environmental Social and Governance (ESG) targets and forming a Board Committee for continued oversight on ESG targets.
- Periodic Dividend payout and continued oversight on various performance indicators of the Bank to ensure a robust return to the shareholders.
- Annual Budget for the year 2025.
- Bank's Policies including periodic reviews and amendments thereto.
- Formulation and Implementation of the Bank's Growth and Strategic Plan.
- Budget for FY 2024 and its implementation status.
- Periodical review of Terms of Reference ("TORs") of Board's Sub-Committees.
- Un- Consolidated and Consolidated Financial Statements of the Bank on Quarterly, Half-yearly and Annual basis together with Directors' and Auditors' Reports along with Statement of Compliance of the Code of Corporate Governance.
- Related Party Transactions of the Bank.
- Oversight and supervision of the HR and staffing of the Bank.
- Management Letter issued by the External Auditors of the Bank and its compliance status.
- Performance evaluation of the Board's Sub-Committees.
- Matters as recommended by Board's Sub- Committees.
- Appointment of External Auditors of the Bank for the year 2024.
- Various SBP Inspection Reports along with Action Plan thereon.
- Performance Evaluation of the Board and its Sub-Committees.
- Various strategic equity investments by the Bank.
- Oversight on Fraud & Forgery matters..
- Profitability of various Business Functions of the Bank.
- Oversight and performance review of the Bank's group companies.
- Write-offs/Waivers approved at Different Authority Levels and recoveries thereto.
- Status and implications of all material law suits filed by and against the Bank.
- Annual Branch Expansion Plan of the Bank; Keeping up-to-date on significant Laws, Rules and Regulations and taking necessary decisions in respect thereof as required.
- Implementation status of the significant regulations issued by the State Bank of Pakistan or the Securities & Exchange Commission of Pakistan.
- Oversight and performance review of the Bank's group companies.
- Write-offs/Waivers approved at Different Authority Levels and recoveries thereto.
- Status and implications of all material law suits filed by and against the Bank.
- Annual Branch Expansion Plan of the Bank; Keeping up-to-date on significant Laws, Rules and Regulations and taking necessary decisions in respect thereof as required.
- Implementation status of the significant regulations issued by the State Bank of Pakistan or the Securities & Exchange Commission of Pakistan.

Role of the President and CEO

In the dynamic eco-system of Islamic Banking, the President and CEO of Faysal Bank serves as a visionary architect and leader, extending the role of the position beyond conventional leadership and management, and is critical in charting a course towards the growth, sustainability, and unparalleled excellence of the Bank as the Best Islamic Bank in the industry. The President and CEO's position demands an individual of exceptional caliber and character, equipped with a profound level of understanding of the financial eco-system, unwavering dedication to the Vision, Mission, and Values of the Bank, the ethos and principles of Islamic Banking and corporate governance, and the adeptness to lead the organization through the challenges and opportunities of a tough economic and competitive environment, rapidly changing technological eco-system, and stringent, multifaceted regulatory frameworks.

- The President and CEO leads as the linchpin of the organization. The position converts the strategic blueprints of the Board of Directors into actionable and impactful agendas and leads the establishment of strategic, business, operational, and regulatory compliance objectives of the organization, in order to ensure the growth and sustainability of the Bank's profitability, market share, regulatory standing, and unique identity in the market as the Best Islamic Bank.
- The President and CEO embodies the fundamental and strong level of trust between the Bank and its stakeholders, which include the Bank's sponsors, its customers, and a diverse range of stakeholders. The position must lead by example, ensuring that the Bank's business and operational mandates establish high benchmarks for excellence in a customer-centric business.
- Fundamental to the President and CEOs mandate is the nurturing and inculcation of a corporate ethos and culture based upon the divine guidance of the Shariah, and reflected through the implementation of policies, procedures, and Islamic values across the organization, thereby cultivating a culture of transparency and accountability that creates a strong internal foundation upon which the organization can grow, and establishes a unique Islamic identity of the Bank in the market. This oversight extends to all spheres of interaction, encompassing the Bank's rapport with its Board, shareholders, employees, clientele, stakeholders, and regulatory entities. The President and CEO is a staunch advocate for a culture that focuses on ethical conduct, defined by its core values of Faith & Belief, Integrity, Teamwork, Innovation, and Care, whilst staunchly promoting diversity, equity, inclusion, and belonging across the organization, ensuring that these principles are integral components of the organisation's fabric.
- The President and CEO must also lead the development and achievement of the executive team's performance objectives, establishing rigorous performance metrics, conducting periodic evaluations to evaluate performance across the board, and providing leadership and guidance, to drive performance excellence, and ensure alignment of Group specific objectives with the overarching strategy of the Bank.
- In safeguarding the Bank against multiple risks emanating from a rapidly changing environment, the President and CEO meticulously lead the curation of strategies that mitigate financial, business, operational, technological, and reputational vulnerabilities and establish the risk appetite of the Bank. The position is also instrumental in crafting and executing crisis management protocols that adeptly navigate unforeseen adversities that affect the performance, regulatory strength, and market image of the Bank. The CEO also facilitates external oversight assignments, collaborating with external specialists in a range of disciplines as required.
- The President and CEO is also at the forefront of increasing a culture of innovation across the organization, through driving emphasis on continuous innovation and optimization initiatives that enable organizational agility, transactional convenience, internal process optimization, cost-efficiencies, transition to digital solutions, and enable the delivery of an exceptional customer experience, thereby ensuring that the Bank remains equipped to deal with the challenges of a rapidly changing technological eco-system, and challenging customer expectations.
- The President and CEO also has a pivotal role in sustaining the regulatory strength of the Bank, by driving the criticality of regulatory compliance across the organization and engaging with multiple stakeholders and regulatory authorities in order to accentuate the regulatory soundness of the Bank. This entails spearheading initiatives that provide assessments related to the Bank's level of Shariah compliance, risk mechanisms, internal audit, and regulatory compliance. This facet of the position takes on added prominence in light of the Islamic regulatory framework, which has a profound impact on the identity, operations, and sustainability of the organization.
- The President and CEO also leads as the public relations and social responsibility ambassador of the Bank. The position leads the development and execution of a wide range of initiatives that proliferate and strengthen the corporate and Islamic identity of the Bank in the market, whilst ensuring that the Bank contributes to the development of the nation and its people. As the leader of the only full-fledged conversion to an Islamic Bank, the President and CEO also serves as an ambassador and advocate of this strategic initiative for the Banking industry.
- The President and CEO of Faysal Bank stands as a central figure in propelling the organization towards a future marked by adherence to the fundamental principles and values of Shariah, sustainable growth, business and operational excellence, and stringent regulatory adherence. The position requires a forward-thinking luminary, poised to tackle emerging challenges, whilst steadfastly upholding the Bank's legacy of excellence and integrity.

Annual Evaluation of the Board of Directors

In line with the best practices of the corporate governance FBL's Board since 2012 has conducted self-evaluation exercise on an annual basis by engaging Pakistan Institute of Corporate Governance (PICG) as an external facilitator which is the lead on Corporate Governance and has a team of consultants to conduct Board evaluations for companies and banks.

SBP Guidelines on Performance Evaluation of Board of Directors were implemented in August 2016 and accordingly, the FBL's Board in compliance thereof has conducted its self-evaluation to comply the same.

The evaluation covered various aspects of the performance of the Board including but not limited to: Board's role, Committees' performance, Training, Strategy, Risk Management, and Board Meetings. The evaluation covered:

- The Board as a whole
- Individual Director (Independent, Non-Executive and CEO)
- Board Committees

The evaluation was carried out using quantitative method based on subjective assessment, and was conducted via questionnaire developed by the consultants in conformance with the State Bank of Pakistan's Guidelines on Performance Evaluation of Board of Directors. The quantitative technique has the advantage of being specific and measurable. Measurement scale used in FBL's board evaluation is the summated rating on a scale of 1-10 depending on how strongly they agree or disagree with a given statement. The use of this method ensures specific and measurable data that can be benchmarked over time.

Director's Orientation

As and when new Director is elected or appointed on the Board, the Company Secretariat provides an orientation pack consisting on below mention documents:

1. Minutes of Board of Directors Meeting during the one year
2. Minutes of Board Committees during the one year
3. Minutes of Annual General Meeting during the last three years
4. Memorandum and Articles of Association of the FBL
5. Terms of Reference of Board Committees
6. Code of Conduct of FBL
7. Banking Companies Ordinance, 1962
8. Prudential Regulations

9. Companies Act, 2017
10. Code of Corporate Governance 2019
11. Corporate Governance Regulatory Framework 2021
12. Rule Book of Pakistan Stock Exchange
13. Any other relevant document if required

If desired by the incoming Director, we also arrange meetings with the Group Heads.

At the start of every three years Board of Director terms, we conduct the Directors Orientation Workshop through Pakistan Institute of Corporate Governance (PICG).

The Bank arranged Directors Orientation Workshop for newly elected Board Members through PICG on September 27, 2023.

Director's Training

As of December 31, 2024 the Bank is compliant in respect of the Directors' Training Requirement as laid down in the Code of Corporate Governance.

Out of Ten (10) Directors, the following Nine (9) Directors are certified and have completed mandatory Directors Training Program:

- 1 Mian Muhammad Younis
- 2 Mr. Ahmed Abdulrahim Mohamed Abdulla Bucheery
- 3 Mr. Yousaf Hussain – President & CEO
- 4 Mr. Ali Munir
- 5 Mr. Juma Hasan Ali Abul
- 6 Mr. Abdulelah Ebrahim Mohamed AlQasimi
- 7 Ms. Fatima Asad Khan
- 8 Mr. Mohsin Tariq
- 9 Ms. Sadia Khan

Mr. Imtiaz Ahmed Pervez has attended the Directors' Training, however his final test is pending.

Additionally, the Bank also arranged the following Training for the Board of Directors during the year 2024:

- 1 Driving Environmental, Social and Governance (ESG) conducted by Pakistan Institute of Corporate Governance on April 25, 2024
- 2 Islamic Investment Areas i.e, SUKUKS Structure, it's model for GOP, Ijara, and other areas/opportunities for investment in Islamic Banking in Pakistan and at International level by Chairman Shariah Board of Faysal Bank Limited on October 24, 2024

Oversight over Internal Controls & Systems

The Internal Audit (IA) in Faysal Bank limited (FBL) is an independent, objective assurance and consulting services activity designed to add value and improve the Bank's internal control environment. It helps the bank to accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of governance, risk management and control processes.

Human Resources

At Faysal Bank, we strongly believe that our employees are our greatest asset and are at the heart of our success. Our commitment to their growth, well-being, and engagement reflects our vision of creating a thriving, high-performance culture.

The Human Resource (HR) function at the Bank is structured into specialised units, each playing a vital role in supporting our strategic objectives. These units work both independently and collaboratively to ensure that our initiatives align with the Bank's broader goals. By focusing on areas such as recruitment, training, performance management, rewards, and employee well-being, HR helps drive the Bank's culture of excellence, ensuring to build an empowered team ready to meet the challenges of a rapidly evolving financial environment.

Our Culture

We are committed to fostering a culture that is not only **safe and inclusive** but also firmly aligned with **Shariah principles**. This ensures that every employee feels respected, valued, and guided by ethical and professional standards in their daily work.

- **Faith & Belief** guides us in upholding Islamic values across all aspects of our work, emphasising honesty, humility, and trust in Allah's plan.
- **Care** helps us create a compassionate and supportive environment by fostering empathy, active listening, and trust.
- **Integrity** is the foundation of our culture. We prioritise transparency, steer clear of misleading practices, and uphold accountability, fairness, and honesty in all our interactions.
- **Teamwork** strengthens our believe in open, respectful communication and collaboration.
- **Innovation** enables us to foster a culture of creativity and idea-sharing.

Our values shape our actions, promoting a culture of excellence, respect, and continuous improvement. HR serves as the driving force behind this culture, grounded in the belief that greater staff engagement leads to superior business outcomes. Our employee engagement strategy is built upon three strategic pillars, each deeply rooted in our core values, to promote and sustain a culture of growth and success.

HR Advisory & Employee Engagement

Our HR Advisory serves as a key strategic partner in navigating the complex landscape of talent management. By focusing on critical areas such as employee retention, succession planning, strategic alignment with business goals, engagement, retention, and comprehensive career development programmes, we are building a workplace culture that not only attracts and retains top talent but also drives us toward sustained success and growth.

We understand that a strong workforce is essential for long-term achievement, and as such, our HR Advisory plays a vital role in shaping strategies that ensure the right talent is in place at every level of the Bank. Through proactive management of employee turnover and creating clear paths for career advancement, we are ensuring that our team members remain engaged, motivated, and committed to their roles. Additionally, our emphasis on succession planning ensures that we are continuously preparing future leaders to take on critical positions, contributing to the long-term success and sustainability of the Bank.

Business Strategy - Design and Implementation:

In close partnership with the businesses, our HR advisory team has successfully translated organisational objectives into practical HR initiatives. This alignment ensures that our workforce is not only equipped with the necessary skills and expertise but also positioned to play a pivotal role in driving the Bank's success.

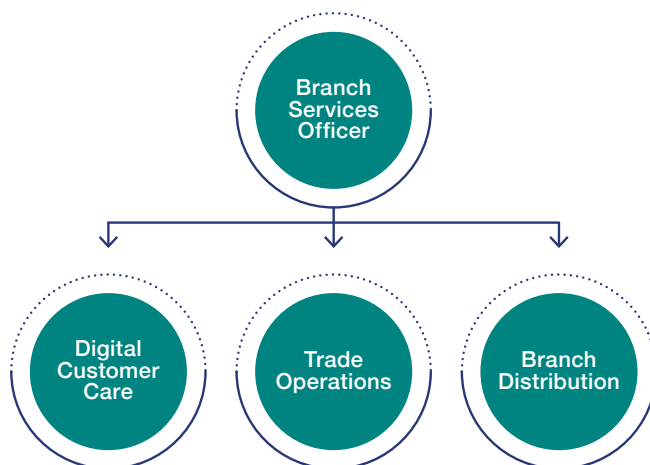

By integrating HR strategies with our broader goals, we ensure that every element of talent management—from recruitment to employee development—is directly aligned with business objectives. Our HR initiatives are designed to enhance the skills, capabilities, and performance of our employees, empowering them to make meaningful contributions to the Bank's growth and long-term vision.

Career Development Programmes:

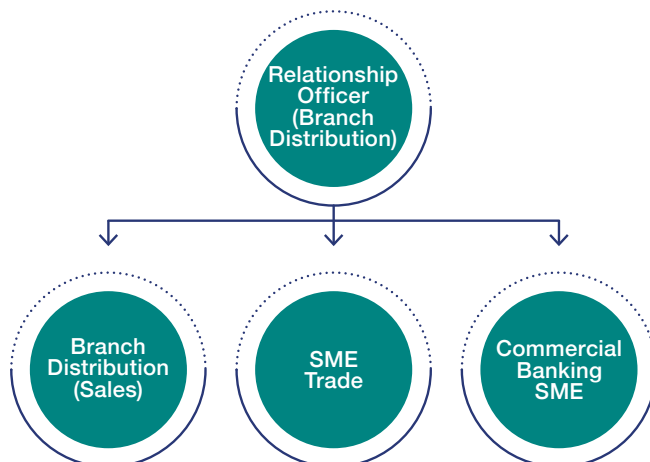

To empower our employees in shaping their career trajectories, we have launched a range of comprehensive career development programmes. These initiatives include skill-building workshops, mentorship opportunities, and a wealth of educational resources designed to support continuous growth. In 2024, we proudly promoted 1,920 employees as part of our commitment to fostering career advancement. By investing in the professional development of our team, we not only support their personal growth but also strengthen the capabilities critical to the Bank's ongoing success.

To further enhance career progression, we offer cross-functional pathways, providing employees with the opportunity to diversify their skills and explore new roles within the Bank. A few examples of these pathways include:

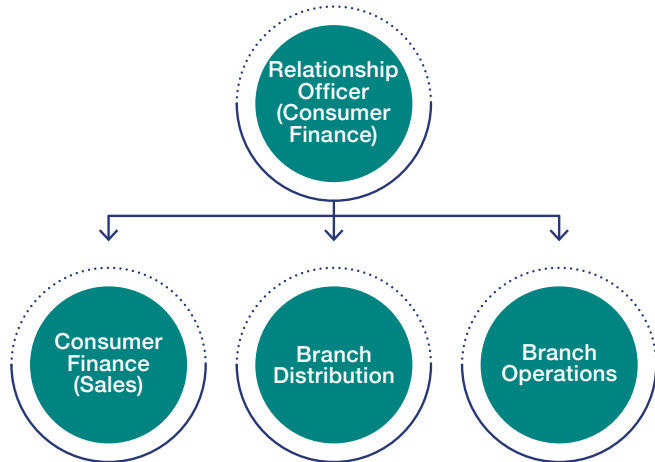

Branch Operations:

Branch Distribution:

Consumer Finance (CF):

Retention Strategies:

Our HR Advisory team has played a crucial role in developing and executing effective attrition control strategies. By conducting thorough analyses and engaging with employees through various activities, we have identified key factors contributing to attrition and implemented targeted interventions to address these challenges. As a result of these focused efforts, we have been able to achieve lower than industry voluntary attrition rate over the years .

Employee Engagement:

At the Bank, creating a positive and transparent work environment is a central focus of our Human Resources strategy. We recognize our employees as vital stakeholders and are dedicated to cultivating an environment where they feel empowered to express themselves openly and contribute to our growth. To ensure continuous improvement and assess the strength of our culture, we regularly evaluate employee engagement through an independent survivor, providing ample opportunities for our staff to share their feedback and insights.

Following are few initiatives conducted during 2024

Building High-Performance Teams: Ittehad Summit:

As part of our continued commitment to fostering a high-performance culture, the HR Function successfully launched "Ittehad Summits" across multiple regions of Pakistan. This strategically designed programme focused on cultivating highly synergised and unified teams among our Branch network. The Summits were hosted in key cities, including Quetta, Hyderabad, Sukkur, Bahawalpur, Lahore, Rawalpindi, Abbottabad, and Gujranwala, creating an engaging platform for employees from diverse locations to come together and collaborate.

The 'Ittehad Summit' is a powerful reflection of our core values and our commitment to excellence. Anchored by the slogan (اتحاد سے منزل تک), the Summit underscored the vital role of unity, collaboration, and collective achievement in driving the Bank's success. The positive impact on our corporate culture has been remarkable, and we are excited to continue these transformative sessions in 2025.

Value in play: Teamwork, Faith & Belief

Back to School Donation Drive:

We believe that all school children should have access to school essentials. In light of our strong commitment and desire to give back to the community, a donation drive was organised from August 1, 2024 for one week in Karachi, Lahore, Islamabad & Multan region in collaboration with Indus kai Sitaray.

The donation that was collected through Back-to-School drives span Pakistan at our branches and regional offices. Donations were made to Indus Kai Sitaray, a noble initiative under the Indus Hospital & Health Network (IHHN).

Value in play: Care

Giving Back to the Community: Faysal Bank Limited's Blood Drive Initiative

As part of our ongoing commitment to corporate social responsibility (CSR), the Bank had the privilege of organising blood drives across key cities, including Karachi, Lahore, and Islamabad. This heartfelt initiative underscored our core values of care, compassion, and community well-being. In collaboration with reputable hospitals and Thalassemia centers, we ensured that our efforts directly benefited those in urgent need of blood, making a tangible and meaningful impact on countless lives.

The Blood Drive initiative not only highlighted our dedication to giving back to the community, but also inspired a strong sense of social responsibility among our employees. It served as a powerful reminder of the difference we can make when we come together for a greater cause. We take immense pride in the positive difference we have made and are committed to continuing these initiatives in the future.

Value in play: Care

Cricket Tournament: Embodying Core Values through Sportsmanship

Following the overwhelming success of last year's event, the Bank took the 'Cricket Champions League' to new heights, expanding it across different regions. This exciting initiative was designed to ignite teamwork and camaraderie amongst our employees, while celebrating the essence of our core values. Teams were formed across various departments, each creatively named after one of our core values, turning the tournament into a vibrant celebration of collaboration, competition, and excellence. More than just a sporting event, it became a platform to reawaken and embody these values in a dynamic, spirited environment, engaging both new and seasoned staff. The Champions League was not just about cricket—it was about fostering a unified culture of shared purpose and unwavering commitment to our Bank's ideals.

Values in play: Faith & Belief and Teamwork

Go Karting: Embodying Team Building and Stress Management

As part of our ongoing commitment to providing unique and engaging experiences for our staff, the Bank organised an exclusive Omni Go-Karting event in Lahore this year. This carefully curated event was designed to offer an exciting break from the daily routine while serving as a valuable team-building opportunity. It allowed staff members to step outside the workplace, unwind, and engage in friendly competition on the track. The event not only provided a thrilling experience but also fostered collaboration, strengthened interpersonal connections, and reinforced the spirit of teamwork within the Bank. It was an ideal blend of professional development and recreation, contributing to a more cohesive and motivated workforce.

Values in play: Faith & Belief and Teamwork

Integrative Physical & Emotional Health

A comprehensive training programme, held in Islamabad, was designed to raise awareness about the importance of detoxifying from the various factors that influence our daily lives, including dietary habits, exercise routines, stress management, and sleep patterns. By incorporating evidence-based practices and promoting positive behavioral changes, the session equipped participants with practical tools to enhance their overall well-being. Delivered as an engaging, interactive workshop, the event featured insightful presentations, dynamic group discussions, and hands-on demonstrations, ensuring a highly interactive experience that fostered meaningful learning and personal growth.

Values in play: Care and Teamwork

Empowering Women through Sports: Faisalabad Women's Throwball Tournament

A cross-functional "Throwball Tournament" for females was organised in Faisalabad, aiming to promote teamwork and collaboration across different departments. We strongly believe that employee engagement activities like these offer a valuable opportunity for staff members to interact outside of their usual work settings. Such initiatives help strengthen relationships, improve communication, and foster a sense of unity among colleagues from diverse functions. By encouraging participation in sports and team-building events, we create an environment where employees can connect, collaborate, and enhance their overall work dynamics, ultimately contributing to a more cohesive and engaged workforce.

Values in play: Care

Celebrating Team Spirit and Culture: Mango Fiesta Event

To infuse the workplace with joy and create a festive atmosphere, we celebrated the mango season by hosting a Mango Party in August for the Consumer Finance and Risk staff. This vibrant, fun-filled event was designed to boost morale and foster stronger connections among employees. By coming together to enjoy this seasonal treat, we not only created a lighthearted and enjoyable environment but also provided an opportunity for staff to engage in a relaxed, friendly setting. The event helped strengthen team bonds, enhance collaboration, and contribute to a positive, inclusive workplace culture.

Values in play: Care and Teamwork

Children's Day Celebration

The Bank marked Children's Day by offering a special opportunity for employees to connect with their children in a meaningful and memorable way. The event provided children with the chance to interact with our management team, creating a truly unique experience. The celebration focused on bringing Islamic stories to life through fun, interactive methods that were designed to inspire, educate, and captivate the children's imaginations. It was an event that not only strengthened bonds within families but also fostered an environment where learning and enjoyment flourished together.

Values in play: Care

Team Building Activities – Breaking Silos

This event, organised for the female staff of Digital Customer Care, was a challenging and dynamic exercise aimed at fostering unity and collaboration. It provided participants with valuable opportunities to connect on a deeper level, strengthening relationships and breaking down silos within the team.

Values in play: Care, Teamwork

Performance Management: *Aligning Compensation with Excellence*

Our reward strategy is grounded in the 'pay for performance' philosophy. To support this approach, we have developed a comprehensive Remuneration Policy that is carefully aligned with the regulations and guidelines established by the State Bank of Pakistan.

Spot Rewards

To foster a culture of immediate recognition and appreciation, the Bank has a 'Spot Rewards' policy in place. This initiative empowers us to acknowledge and reward our employees' for their outstanding achievements, promptly. It offers a dynamic platform to celebrate exceptional performance on a 'one-off' basis, ensuring that noteworthy contributions are recognised without delaying the annual performance review cycle.

CEO's Club

The 'CEO's Club' is a prestigious recognition programme at the Bank, exclusively designed to honor employees who achieve a '5' (highest) rating in their annual appraisals. Membership in this elite club is a testament to the recognition of highest performance levels and is valid for one year up until the next performance appraisal cycle. This programme recognises exceptional achievements and inspires continual excellence among our staff.

Talent Management: Acquisition to Development

Talent Acquisition:

Talent Acquisition has played a pivotal role in driving the Bank's strategic growth and ensuring its continued success by attracting top-tier talent that aligns with our core values and long-term objectives. This year, the team leveraged innovative recruitment strategies and utilised various platforms to enhance both the efficiency and quality of the hiring process, further cementing its contribution to the Bank's operational success and future growth.

A key focus for the Talent Acquisition team in 2024 was the execution of targeted diversity and inclusion hiring programmes. These initiatives were designed to foster a more diverse and equitable workforce while ensuring that recruitment efforts reached a broad spectrum of talent. The team has made significant progress in gender diversity, with female hires representing 21.82% of the total hires. In addition to this, we are proud to announce that we have successfully onboarded 18 talented individuals from our **Qabil Internship Programme**. Through this initiative, we aim to create a more diverse, inclusive, and supportive workplace where every individual, regardless of ability, has the opportunity to thrive and succeed. This achievement reflects the Bank's continued commitment to creating a more inclusive and diverse workplace, aligning with its strategic diversity goals. Additionally, campus outreach campaigns were intensified, with the team visiting prominent universities such as LUMS, NED University, SZABIST, IBA, IoBM, and Iqra University, among others, to engage with emerging talent at career fairs. These university visits were an integral part of the recruitment strategy, helping the Bank tap into a wide pool of potential candidates from various academic backgrounds.

The recruitment efforts also included hiring for a variety of roles across different levels, from entry-level positions to specialised and leadership roles. Specific batches recruited included Trainee Branch Services Officers, Service Ambassadors, Trade and SME specialists, among others. However, one of the most notable accomplishments was the successful onboarding of the Management Trainee batch, launched under the **Faysal Islami AGHAZ – Management Trainee Programme**. This milestone is significant, as the MTO programme plays a crucial role in identifying and nurturing our future leaders, ensuring a steady flow of talent ready to step into management positions.

In addition to recruitment, the Talent Acquisition team placed a strong emphasis on building and strengthening the Bank's employer branding. By ensuring a positive and seamless candidate on-boarding experience throughout the hiring process, the team attracted and retained top talent who resonate with our values and vision. This approach has resulted in a steady pipeline of skilled professionals,

well-equipped to support the Bank's operational excellence and its readiness for future growth.

Through its focus on innovation, diversity, and a commitment to the candidate experience, the Talent Acquisition function has not only filled critical positions but has also contributed significantly to the Bank's ongoing transformation and its ability to adapt to a rapidly evolving financial landscape. This strong foundation will continue to support our strategic goals and ensure that it remains competitive and well-positioned for future success.

Learning and Organisational Development (L&OD) at Faysal Bank: A Catalyst for Growth in 2024

As we grow and transform, the Learning and Organisational Development (L&OD) function plays a central role in equipping employees with the skills, knowledge, and mindset to navigate the evolving financial landscape. In 2024, L&OD at the Bank continued to build on its strong foundation, fostering a culture of continuous learning, innovation, and inclusivity while strategically aligning with our business goals.

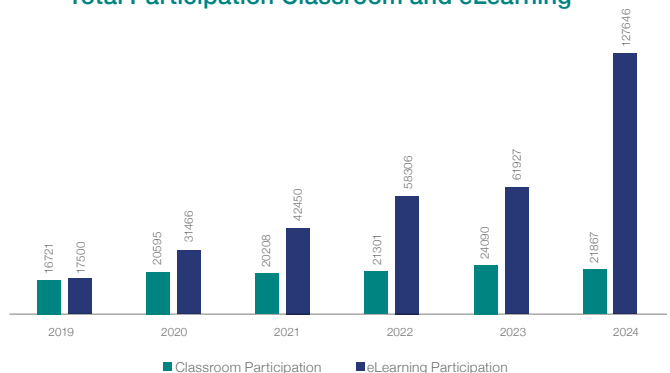

Learning and Development offers a diverse range of learning formats to foster comprehensive development, including classroom training, e-learning, blended learning programmes, on-the-job training, coaching, and mentoring initiatives. These approaches ensure holistic learning opportunities for our staff.

This year, leveraging our new app-based Learning Management System (LMS), **Faysal eCademy**, we trained over 100,000 participants—a remarkable increase compared to last year. The LMS has significantly enhanced accessibility and convenience, enabling a more than 40% increase in our training outreach this year.

Training Participation Trend

Total Participation Classroom and eLearning

Overall our learning strategy focuses on enhancing professional expertise, fostering leadership development, and promoting a culture of continuous improvement to empower employees and drive organisational success. We have divided our learning offerings into six key pillars, closely aligned with the Bank's strategic business objectives. This year, a new pillar on digital literacy and machine learning has been introduced to address emerging technological trends and capabilities

Islamic Skill Development. A strategic business objective to enhance Islamic banking expertise through a comprehensive training programme to bridge the knowledge gap in Islamic finance and ensure participants are well-versed in

Sharia-compliant banking principles and practices. Through collaborations with esteemed institutions like **IBA-CIEF** and **the National Institute of Banking & Finance**, we provide comprehensive certifications to enhance our employees' understanding of Islamic finance. Over 3700 employees attended the in-class Islamic refresher programmes and certifications demonstrating our commitment to mastery of Islamic banking services.

Role-Based & Regulatory Trainings at the Bank aim to equip employees with a comprehensive understanding of regulatory requirements relevant to their specific roles and the overall industry standards. The signature **Jumpstart Induction Program** remained a cornerstone of our onboarding strategy, complemented by e-learning modules offering 24/7 accessibility where more than 2000 new hires were trained this year. In 2024, significant progress was made in equipping staff with the knowledge and skills required to deliver exceptional customer service. Signature organisational development initiatives such as the Emerging Branch Service Manager Programme was also launched this year where 200 BSOs across the country are now part of a trained pool to become Branch Service Managers. Such programmes provide clear career pathways for front-line staff, fostering both functional expertise and leadership development.

Batch hiring and training are pivotal to our strategy, ensuring a robust talent pipeline for the Bank. This year, we successfully re-launched the **Management Trainee Programme – Faysal Aghaaz**, to meet strategic talent needs, with 20 Management Trainees joining the team. This initiative underscores our commitment to nurturing future leaders for middle and senior management roles while offering graduates an exciting opportunity in a stable, fast-growing industry. Additionally, the **Trainee Branch Service Ambassador Programme** was strategically enhanced to align with and support the Bank's service agenda.

Sales & Service Transformation aims to revolutionise the sales and service operations within FBL through strategic transformation initiatives. The programme aims to elevate customer satisfaction, streamline processes, and boost sales performance by integrating advanced technologies, innovative strategies, and customer-centric approaches. **Faysal Bank Sales Leadership Academy** for branch distribution team was launched this year to support the way of life in branch network and has been the corner stone in transforming the sales leadership of the branch network. More than 500 branch managers attended the programme and adopted this as a way of life. Initiatives like **Serving with Joy** and **Elevating Customer Care** brought teams together to foster collaboration and break silos where about 2000 front line employees attended the service culture programme. Initiatives like the *Kaun Banega Service Champion* competition celebrated talent and product knowledge, reflecting our dedication to fostering a culture of continuous improvement.

Managerial and leadership development focuses on cultivating high-performing managerial and leadership capabilities among potential and current managers. The programme focuses on enhancing strategic thinking, decision-making, and team leadership. Programmes like the **Faysal Bank LUMS Leadership Programme (FLDP)** equipped middle and senior managers with skills to navigate dynamic challenges, while the **Manager Development Boot Camp (MDBC)** honed the capabilities of supervisors. Other signature programmes like **Leadership Stalwarts** (Competency Based Leadership Development Programme) and collaborations with institutions like South East Asia Leadership Academy (SEALA) reflected our focus on leadership development, ensuring our leaders are prepared to guide the Bank towards sustained growth.

DEI & Culture trainings focuses on our strategic objective to build an inclusive and diversified working environment, our focus is on educating and equipping our employees with the knowledge and skills needed to embrace diversity, foster inclusivity, and cultivate a sense of belonging for all. Platforms like the **Amal Women Leadership Mentoring Programme** supported the career progression of high-potential women employees, with structured mentoring and career monitoring to ensure impactful outcomes. **Mindfulness workshops, motivational speaking sessions, and engagement activities** created a culture of well-being and inclusivity, while initiatives like the **Ittehad Summit** emphasized teamwork and collaboration across business and operations teams.

Digital Literacy, AI & Machine Learning has been introduced as a new learning pillar in the Bank to focus on advancing digital literacy, artificial intelligence (AI), and machine learning competencies to nurture a forward-thinking and dynamic workforce.

Digitalisation of the Learning at Faysal Bank: E- Academy:

Deploying the Moodle Learning Management System (LMS) — named as **Faysal eCademy** — at the Bank has significantly transformed how employees' access and engage with learning resources. Unlike the previously used system, Moodle's cloud-based platform enables employees to access training materials anytime, anywhere through both its mobile application and browser interface. Furthermore, Moodle's user-friendly interface, customisable features, and robust tracking capabilities empower the Bank to efficiently deliver, manage, and monitor training programmes, fostering a culture of continuous learning and professional growth. With advanced learning technologies such as interactive content, online assessments, and gamified e-courses, the effectiveness and impact of digital learning at the Bank have increased significantly.

The use of Faysal eCademy for the **Blended Jumpstart** Programme for new hires has proven highly effective in delivering courses to new employees in a structured and engaging manner. As a versatile LMS, Moodle seamlessly integrates both online and offline learning components, ensuring a smooth and efficient onboarding experience. New hires now benefit from accessing structured learning modules, interactive content, quizzes, and essential resources at their convenience through Moodle's mobile app or browser. This flexibility accelerates the onboarding process, ensuring employees transition smoothly into their roles while centralising and streamlining training delivery. Consequently, the platform ensures consistency in learning outcomes while reducing administrative overhead.

Faysal eCademy also offers extensive advantages in managing classroom learning services and enhancing the overall training experience. The platform has enabled the learning managers to efficiently schedule, organise, and track classroom-based sessions while ensuring participants come prepared with pre-class materials. Classroom Learning Team has supplemented the in-person sessions with online activities, assignments, and assessments, creating a cohesive blended learning environment. Furthermore, the system supports the Bank's commitment to environmental sustainability by promoting a paperless approach in alignment with its accelerated ESG vision.

By leveraging Faysal eCademy, the Bank can now monitor learner progress and evaluate course effectiveness in real-time. Learning is now consistent, scalable, and engaging that also aligns with our staff development goals.

Workplace Integration & Benefits:

We believe in contributing to our staffs' better lifestyle. For this reason, HR has formulated following policies to provide monetary benefits to staff:

Policy Development and Implementation:

The unit is instrumental in the development and implementation of comprehensive HR policies that serve as a guiding framework for all employees. We aim to ensure that these policies are in-line with the industry's best practices by constantly keeping in touch with regulatory requirements as well as the evolving employee needs.

At Faysal Bank, we place the utmost importance on the health, job satisfaction, and work-life balance of our employees. To further support their well-being, we have introduced significant updates to our HR policies this year. These changes reflect our continuous commitment to creating a workplace where employees feel valued, supported, and empowered to succeed both personally and professionally. By implementing these updates, we are reaffirming our dedication to the care and satisfaction of our staff, while fostering an environment that prioritises their overall happiness and work-life balance. Some of our policies are detailed as under:

New Flexible Benefit: Bank Provided Cars

We firmly believe that the path to success is built upon the well-being and satisfaction of our employees. As our most valuable asset, we are always exploring innovative ways to demonstrate our commitment to their growth and happiness. By offering flexible, dynamic, and premium benefits, we strive to position the Bank as the "Employer of Choice" in the industry.

In line with our ongoing dedication to enhancing employee welfare, we are excited to introduce a significant new benefit that empowers our team. As part of our continuous efforts to support our employees' professional and personal needs, we introduced "Bank-Provided Cars" for employees in RVP to EVP grades. This initiative underscored our commitment to providing a range of benefits that enhance the work-life balance and convenience of our valued staff members.

Education Subsidy for Children:

The Bank understands the vital role education plays in shaping the future of our employees' children. To support our staff in managing their children's educational expenses, we have implemented a policy that ensures the quarterly payment of educational fees. In response to the rising cost of living and the growing impact of inflation, we have recently doubled the subsidy amount to help ease the financial burden on our employees. This year, approximately 1,600 employees have benefited from this initiative, underscoring our commitment to the well-being of our employees and their families. By investing in their futures, we aim to foster a supportive, caring environment that extends beyond the workplace.

Staff Personal Finance – Enhanced limits:

To better support employees during emergencies or significant life events, the Bank has increased the entitlement for Islamic Personal Finance. This enhanced benefit offers greater financial flexibility for situations like medical emergencies, family responsibilities, or major life changes, ensuring employees have access to necessary resources without added stress. By expanding this benefit, we aim to provide greater security and ease, reinforcing our commitment to the financial well-being and stability of our staff during challenging times.

Enhanced Limits for Staff Auto Finance:

To better support our employees' transportation needs and improve their overall quality of life, the Bank has implemented significant updates to the staff auto finance policy for employees in grades OG III to AVP. These changes are aimed at offering greater financial assistance and flexibility, making it easier for staff to acquire vehicles and enjoy the convenience and reliability of dependable transportation.

Hospitalisation Takaful:

The Bank is deeply committed to ensuring the well-being of its employees and their families by providing enhanced healthcare benefits. In line with this commitment, the management has raised the age limit for unmarried dependent male children to 25 years, extending coverage to support their health needs for a longer period. Furthermore, female children will now be covered under the healthcare plan until marriage. These improvements reflect our ongoing dedication to the welfare of our employees and their families, ensuring they have access to comprehensive healthcare support when they need it most.

Education Assistance Programme:

We are committed to the continuous professional growth and development of our employees. We actively encourage our full-time, confirmed staff to pursue further education while balancing their careers with us. To support this, we offer a reimbursement programme for course and examination fees for part-time evening courses at accredited local universities, business schools, and institutes. This initiative highlights our

dedication to fostering lifelong learning, empowering our employees to enhance their skills and advance in their careers, while strengthening our talent pool for the future.

Childcare Allowance:

Faysal Bank provides a monthly childcare allowance as part of our continued efforts to support our female workforce, particularly working mothers. This allowance helps cover daycare expenses for their children. In 2024, this initiative benefited 200 of our female employees, underscoring our commitment to fostering an inclusive and supportive work environment, especially for women at the bank.

Staff House Finance - Step-up facility:

In our commitment to providing unparalleled financial solutions to staff, we have designed a House Finance Policy that not only meets but exceeds industry standards with its unique features of **One-Year Repayment Holiday**. Providing homeowners with the flexibility to defer house finance allows individuals and families to settle into their new homes without the immediate burden of mortgage payments. Moreover, our commitment to provide long-term financial well-being extends beyond the first year. From the second year onward, our employees benefit from **subsidised repayments** that are tailored to make homeownership more affordable and sustainable.

Haji Offering:

The Bank annually awards Hajj packages to its employees, continuing our tradition of spiritual support. This year, as in previous years, we are honoured to have sponsored 10 fortunate employees including 1 PWD to undertake this blessed journey, reflecting our commitment to the holistic well-being of our team. In recognition of the unique needs and considerations of our employees with disabilities, we have extended this offer also to their caregivers.

Health Benefits:

We are concerned about the welfare of our employees as well as their family members. For this, the Bank has the following health care policies that cover our employees and well as their family members:

- Group Life Takaful
- Pay continuation to deceased staff's family for 2 years
- Group Hospitalisation Takaful
- Mammography for female staff
- Executive Check-ups

Leave Policies:

- The Bank is committed to providing work-life balance in all aspects. The principal intent of the Leave policy is to provide employees time off for recovery, relaxation, and recreation purposes. The Bank is providing leaves to its employees in the following categories:
- Annual Leaves: To provide a reasonable break from work for a healthy work-life balance.
- Casual Leaves: To meet any emergency need.
- Sick Leaves: To support in case of any medical exigencies.
- Hospitalisation Leaves: Staff is entitled over and above of their sick leave to avail hospitalisation leave, in case of any medical emergency/hospitalisation.
- Maternity Leaves: Maternity Leave are granted to a female employee for a period of 90 (Ninety) calendar days, with full pay.
- Iddat Leaves: To facilitate employees w.r.t an unforeseen incident, "Iddat Leave" is available.
- Pilgrimage Leaves: On account of performing Hajj for Muslims and respective "holy places" for staff practicing other religions.

Digital HR

At the Bank, we are continuously integrating cutting-edge technology with our HR processes to provide employees with a seamless, agile platform for all their HR needs. This on-the-go solution ensures that our staff can access essential HR services anytime, anywhere, empowering them to manage their tasks efficiently and with ease.

HR Connect:

The Bank is committed to driving innovation and operational excellence by taking a strategic step toward enhancing our service offerings through the implementation of HR Connect, our cutting-edge HR software. This advanced platform has not only streamlined internal processes but has also significantly elevated the overall service experience for our employees.

HR Connect empowers employees to efficiently manage their HR-related activities with ease and autonomy. From accessing salary details and taxation information to updating personal profiles, employee confirmation, submitting leave requests, applying for internal job postings, processing transfers, claiming reimbursements, applying for financing, opting for Bank provided car facility, and managing resignations, the software provides a centralised, user-friendly platform for all HR functions. By reducing turnaround times and offering a transparent, real-time workflow, HR Connect ensures a seamless and responsive experience, allowing employees to track the status of their requests with clarity. This system covers the entire employee lifecycle, from onboarding to final settlement, reflecting our commitment to supporting our team at every stage of their journey with Faysal Bank.

HR Operations & Employee Relations:

The HR Function at Faysal Bank is supported by a dedicated Operational Risk Unit, responsible for overseeing day-to-day risk mitigation activities in accordance with regulatory

requirements and the Bank's internal Standard Operating Procedures (SOPs). This unit plays a critical role in ensuring operational compliance and minimising risk. Furthermore, it actively contributes to the development of staff policies, drawing on industry best practices to ensure that Faysal Bank remains aligned with evolving market dynamics. Through these efforts, the unit helps position the Bank as an employer of choice, fostering a work environment that attracts and retains top talent

Operational Risk:

Our HR Operational Risk and Policies Unit is equipped with a comprehensive risk management framework, meticulously designed to identify, assess, and mitigate potential risks within human resources operations. This proactive approach ensures that our HR processes are fully aligned with industry best practices, regulatory requirements, and the Bank's internal policies. By fostering a strong culture of compliance and accountability, the unit plays a crucial role in maintaining operational integrity and safeguarding the Bank's interests.

HR Service Desk:

Our 'HR Service Desk' acts as a centralised hub of support, offering a comprehensive range of services designed to address employee queries, resolve concerns, and streamline communication between staff and the HR department. Whether it's answering questions about policies, assisting with benefits, or providing guidance on HR-related matters, our HR Service Desk ensures that employees receive timely, accurate, and efficient assistance.

This initiative is a cornerstone of our commitment to creating an exceptional employee experience, offering personalised support that fosters trust and transparency. By providing easy access to HR services and acting as a direct link between our employees and HR, the Service Desk enhances operational efficiency and reinforces our dedication to the well-being of our staff. Ultimately, it reflects our broader mission to cultivate a supportive, responsive, and engaging work environment where every employee feels valued and empowered

Employee Relations:

Our unwavering commitment to fostering workplace excellence is reflected in our comprehensive Employee Relations strategy, which is built on the principles of fairness, transparency, and continuous improvement. Over the past year, this approach has been instrumental in aligning with our CODE & Values, ensuring that every employee experiences fairness, ethical development, ongoing learning, and actively contributes to our collective success. Rather than focusing solely on punitive actions, our strategy serves as a catalyst for professional growth, demonstrating our dedication to the well-being of our team. In addition, our diverse range of employee enrichment initiatives, including professional development workshops, highlights our commitment to nurturing a positive workplace culture. By emphasising open communication, learning, and holistic well-being, we strive to create an environment where every employee can thrive, driving our organisation towards sustained excellence underpinned by strong ethical principles.

For Diversity, Equity & Inclusion (DEI) refer to Section 4, Sustainability Reporting and Corporate Social Responsibility (CSR) page 69

Disclosure Relating to Remuneration Policy

Purpose And Scope

The Bank has developed a fair, objective, transparent and sound Remuneration Policy that is aligned with risks and responsibilities of Financial Intermediation.

The scope of Remuneration Policy covers all employees across the Bank who are materially responsible for risk taking or risk controlling activities.

Objectives

Following are the main objectives of Remuneration Policy:

- To promote and be consistent with sound and effective risk management and not encourage risk-taking that exceeds the risk thresholds of the Bank.
- To ensure that the remuneration practice is in line with the Bank's objectives, taking into consideration all major risks that the Bank may face, and promotes and supports long-term sustainable performance.
- To align remuneration with risk appetite and with the conduct expectations of the Bank, regulators and stakeholders; and
- To attract, retain and motivate highly qualified employees, but also reward those who promote corporate values with incentives correlated to the long-term value generation.

Governance Framework

The Bank's Governance Framework with respect to the aforementioned Guidelines, aims at guaranteeing an appropriate control on remuneration practices, ensuring that decisions are taken with sufficient independence and in an informed way, by such authorities and functions, to which different responsibilities are delegated.

The Board of Directors (BOD) reviews, approves and monitors implementation of the Bank-wide remuneration policy, based on the recommendations of Recruitment, Nomination and Remuneration Committee (RNRC). In addition, the BOD through RNRC, shall review remuneration structure including composition of fixed and variable remuneration of President & CEO, Chief Operating Officer (COO) and Senior Management (excluding Head Internal Audit). Whereas BOD through Board Audit & Corporate Governance Committee (BACGC) reviews Head Internal Audit's remuneration structure including composition of fixed and variable remuneration.

The RNRC oversees the Bank's remuneration program along with its other approved Terms of Reference. One of its key responsibilities is to approve the list of employees identified as MRTs and MRCs, in accordance with the specified criteria.

The President & CEO provides support to HR in the development and implementation of Remuneration policy amid review and recommend compensation structures of the Senior Management Team and approve structures for other MRTs/MRCs. The President & CEO also reviews and recommends to RNRC, malus application for withholding deferred compensation of MRTs/MRCs (including Senior Management), in case of any event resulting in loss to the Bank that is directly attributable to the respective MRT/MRC.

The Business groups and support functions provide adequate support to HR in implementation of this policy.

HR bears primary responsibility for the development, dissemination, coordination and consistent application of the Remuneration policy. Some of its key responsibilities include; Determination of compensation structures, deferrals percentages and periods for all MRTs and MRCs; and Finalization of the deferral pool mechanism through an established Fund and ensuring close coordination with the Trustees of Fund, for deferral compensation management.

MRT/MRC Inclusion Criteria

The inclusion criteria have been developed in accordance with the Guidelines and applicable best practices, and comprise of two sections, namely, the Qualitative and Quantitative MRT/MRC criteria.

Qualitative Inclusion Criteria

The following qualitative criteria has been applied for identification of MRTs and MRCs:

- President & CEO and COO;
- Heads of critical functions responsible for managing business amid risks and controls; and
- Members of the Senior Management;
- CEO of Faysal Asset Management Limited (a subsidiary of FBL).
- Members of critical Management Committees;

Quantitative Inclusion Criteria

The Bank has carried out detailed assessment of individuals subjecting the Bank to significant risks. The materiality of significant risks has been determined through the quantitative criteria for each major risk type i.e., i) Credit Risk; ii) Market Risk; iii) Operational Risk; iv) Liquidity Risk; and v) Financial Expenditure Approval Authority.

Annual MRT/ MRC Assessments

HR conducts risk assessments for identification of MRTs and MRCs as per the quantitative and qualitative criteria and present to the President & CEO for review and recommending to the BACGC/RNRC for onward submission to BOD for approval.

Compensation Structure

The Bank offers a compensation structure with a balanced mix of fixed and variable elements, in order to encourage behaviors focused on the achievement of long-term sustainable results, as detailed below: -

Fixed Remuneration

Fixed remuneration comprises of base salary (including annual increment therein) and role-based fixed allowances, if applicable. Fixed remuneration shall not vary with performance and is payable, in accordance with HR Policies.

Variable Performance Based Remuneration Variable remuneration takes into account Bank's performance, Group's performance, business unit/ product's performance and individual's performance. Underachievement of financial performance, taking excessive or undue risks, customer experience, audit/internal controls/compliance issues etc. are generally considered for determining risk-adjusted variable remuneration.

Other Benefits

Other benefits are awarded on the basis of individual employment contracts and local market practices. These may include staff financing, expense allowances/ reimbursements, life takaful, medical care and relocation allowances etc. These benefits shall not be subject to deferment requirements for MRTs and MRCs.

Performance Measurement of MRTs And MRCs

Performance management is a core people management process at FBL which aligns individual performance objectives with the Bank's strategy and priorities, to achieve sustainable and successful performance. Significant points of Performance Management are given below: -

Risk-adjusted Balanced Scorecards for Performance Evaluation of MRTs/ MRCs FBL has developed risk-adjusted balanced scorecards for all MRTs and MRCs for their performance measurement, which ensures establishing a correlation between and alignment of risks and rewards. These risk-adjusted balanced scorecards are prepared at individual levels, incorporating various financial, non-financial/ qualitative and risk-adjusting factors.

The performance measurement through risk-adjusted balanced scorecards is also subject to application of an overriding/adjusting factor by the relevant scoring authorities/

assessors to account for any circumstances not in control of the individual MRT/MRC whose performance is being assessed.

Further, the assessor may also consider reducing, or zero rising the variable compensation of the individual MRT/MRC, in case the individual does not achieve reasonable minimum/hurdle score in any of the critical factor, category or on an overall basis. In addition to reducing or zero rising variable compensation, disciplinary action may also be initiated in case of significant adverse performance against any risk adjusting factor.

Deferral Mechanism

A certain portion of variable compensation of the MRTs and MRCs is subject to mandatory deferrals for a defined period, thus creating alignment between the employees' and stakeholders' interests and reinforcing that compensation is appropriately linked to longer-term sustainable performance.

Deferral Period & Percentages

The deferred amount is withheld for a defined period whereas remaining portion of the variable compensation is paid upfront to the MRT/MRC. The deferred remuneration vests proportionately over the deferral period following the year of variable remuneration award. The deferred portion of the variable remuneration along with the interest accrued shall be paid to the MRT/ MRC on vesting, proportionally through yearly installments, during the deferred period in case no malus triggers are applicable. In case of malus and where accountability has been determined, the entire or certain portion of the deferred remuneration is withheld and not paid to the MRT/MRC on it becoming due.

Settlement of Deferred Remuneration

As mentioned above, the amount withheld shall be paid proportionately during the deferral period, even if that individual is no more an employee of the Bank. The Bank continues to make payment of the deferred amount proportionately for the remaining deferral period, regardless of whether the employee has resigned, or has been retired or terminated, except in case of malus. However, the entire deferred remuneration shall be paid immediately in the event of death.

Shariah Board Members' Remuneration

The services of Shariah Board members have been acquired on fixed period contract basis. They are provided a fixed remuneration comprising of monthly honorarium and allowances/other benefits along with award of Bonus based on their performance, as per their respective contracts. The Other Benefits may include expense allowances / reimbursements, medical care, life takaful, etc.

Policy for Security Clearance of Foreign Directors

Foreign Directors elected on the Board of Bank requires security clearance from Ministry of Interior through SECP. All legal formalities and requirements have been met in this regard.

Governance Practices Exceeding Legal Requirements

FBL respects the country's laws and ensures meticulous compliance of applicable laws, rules & regulations. We have successfully adapted our practices to reflect the changing standards of evolving governance regulations. We are committed to the highest standards of corporate governance. We meet corporate governance legal requirements in Pakistan, as well as the best practices recommended by PSX and SECP.

Following are some of the practices of the Bank which exceed the minimum legal requirement:

- The Board has constituted 5 board Sub- Committees vis-à-vis the requirement of having 4 board committees and has also from time to time formed board committee(s) for specific assignments along with specific targets in order to carryout different roles & responsibilities.
- The Bank has only one Executive Director (President & CEO) though permitted two executive directors by SBP and four (one third of the Board as executive directors) under Listed Companies (Code of Corporate Governance) Regulations – 2019.
- The Board receives and accordingly, reviews the detailed performance report of each Board Committee on a periodic basis.
- The Board receives and considers a detailed report on every meeting of the Board Committees from the Chairmen of the Board Committees.
- The Bank has a comprehensive Code of Conduct along with mechanism for implementing and monitoring the same and has taken necessary steps to disseminate it throughout the Bank along with its supporting policies and procedures.
- The Board has given specific mandate with requisite authorities and powers to the Board Audit & Corporate Governance Committee to monitor and oversee the corporate governance practices, procedures, ethical standards and controls along with legal and regulatory compliances in the Bank.

Conflict of Interest

The Bank has adopted robust policies and procedures with respect to identifying, reporting and managing conflicts of interests, and the situations that may lead to it. The directors hold fiduciary duties of care and loyalty to the Bank and to protect the shareholders. One of the key duties includes not placing oneself in a position where the directors' personal interest may possibly conflict with their duty to the company.

Conflict of interest may arise in several situations, and in order to identify, report and manage any possible conflict the Board has adopted several measures which include:

- A policy and procedural framework.
- Board Members and Executive Management disclose their interests, including their interests in other entities, on a periodic basis.
- Board Members at the start of every meeting confirm to the Chairman whether or not they have any conflict with respect to any agenda item to be discussed in the Board Meeting.
- A Board Member in a conflict of interest situation exits the Boardroom when such a matter is being deliberated upon and refrains from deliberating and discussing on the said issue.
- Any other measure which may be appropriate in light of legal and regulatory guidelines.

Director's Interest in Significant Contracts and Arrangements

None of the Directors have any [direct/personal] interest in significant contracts and arrangements of the Bank. However, every director of the Bank who is in any way, whether directly or indirectly concerned or interested in a contract or arrangement, either ongoing or forthcoming, discloses the

details of her or his involvement during a Board meeting, adhering to regulatory guidelines. A director with such an interest refrain from participating or voting during the deliberations of the Board meeting related to that particular contract or arrangement.

Related Party Transactions

The Board of Directors has approved Policy for Related Party Transactions. The Bank's policy is to conduct all the related party transactions on an arm's length basis in the normal course of business. If a transaction is not conducted on arm's length basis, then specific approvals or ratifications are required by the Board on recommendation of the Board Audit & Corporate Governance Committee (BACGC) of the Bank in order to avoid any potential conflict of interest.

The policy specifies that all transactions entered into with related parties shall require Board's approval on the recommendation of the BACGC of the Bank, which is chaired by an independent director of the Bank except for those held with employees as per their terms of employment or a policy of the Bank.

Every director (including their relatives) of the Bank who is in any way, whether directly or indirectly, concerned or interested in any contract or arrangement entered into, or to be entered into, by or on behalf of the Bank shall provide information about the nature of his concern or interest in the form specified and shall cause it to be disclosed at the meeting of the board held immediately after the date of the notice. No director of the Bank shall, as a director, take any part in the discussion of, or vote on, any contract or arrangement entered into, or to be entered into, by or on behalf of the Bank, if he/ she is in any way, whether directly or indirectly, concerned or interested in the contract or arrangement, nor shall his/ her presence count

for the purpose of forming a quorum at the time of any such discussion or vote.

During the year, the Bank has entered into transactions and contracts with the related parties i.e. subsidiary company, associates, post-employment benefit plans for the Bank's employees, Key Management Personnel (KMPs), close family members of KMPs and other related entities. Those transactions include financing to , and deposits from the related parties, , acceptances and off balance sheet transactions and provision of other banking and financial services that are carried out in the ordinary course of business on an arm's length basis at commercial rates, except for the transactions that KMPs have availed under HR policy of the Bank. Contributions to and accruals in respect of staff retirement benefits and other benefit plans are made in accordance with the actuarial valuations / terms of the contribution plan. Remuneration to the executives / officers is determined in accordance with the terms of their appointment.

During the year, no contract or arrangement has been entered into with related parties other than in the ordinary course of business on an arm's length basis.

The Bank has made detailed disclosures about related party transactions in its financial statements annexed with this annual report.

Policy for Safety Records of the Company

Record management is a methodological approach to controlling the maintenance and disposition of an organization's records. Record management ensures that valuable records evidencing an organization's activities that have legal, financial, administrative, or historical value are protected and accessible, while expired records are systematically destroyed. Thus, for this purpose, Faysal Bank has signed an agreement with a service provider to put in place comprehensive processes, controls, and guidelines as per ISO-15489 standard for handling, protection, retention, retrieval and disposition of recorded business information generated daily, which are of ongoing importance to FBL's

overall service capability and regulatory compliance. In addition, we take the safety and security of our customers' records very seriously. We have implemented a number of policies and procedures to ensure that all bank records are kept confidential and secure at all times. These measures include the use of secure servers and databases, frequent password updates, and strict access controls for employees. In addition, we have trained all of our staff on the proper handling and protection of sensitive information. We are committed to ensuring the safety of our customers' bank records and taking all necessary steps to protect their privacy.

Whistle Blowing Policy

FBL is committed to maintain a culture of the highest ethics, integrity, transparency and competence in its business & customer handling and ensures compliance with its Code of Conduct & Code of Ethics. FBL provides open and safe workplace environment for employees & third parties and encourages any other person who has a genuine concern about any wrongdoings or misconducts to raise through dedicated whistle blow channels, thereby maintaining public trust and confidence in the integrity and professionalism of the services provided by the Bank.

Reportable Matters

FBL does not want to condone and become party to the inappropriate conduct, unethical behavior, fraudulent activities. If an employee, customer or any third party forms a reasonable suspicion; that any of the criminal and unethical conducts have taken place / is taking place / intend to carry out any wrongdoing in the future, then they should immediately speak up.

During the year, 05 cases were reported through Whistle Blow channels.

Whistle Blow Channels

FBL provides, employees & third parties with access to specific, independent, confidential and secure means to Speak Up.

- Email: whistleblowdesk@faysalbank.com
- Whistle Blow Hot Line: 021-38733000

- Intranet: <https://www.faysalbank.com/en/whistle-blowing/>
- Postal address: "Whistle Blow Desk Faysal House, Business Compliance, Compliance Function, 2nd Floor, ST02 Shahr-e-Faisal Karachi, Pakistan"

All Speaking Up disclosures are recorded, reviewed and independently investigated by concerned Functions. It may also be noted that of based on false statements and facts are not entertained.

Protection For Whistle Blowers

Faysal Bank will take all reasonable steps to protect whistleblowers from any retaliation, victimization, harassment or penalization that might arise because of whistle blowing and sharing substantial evidences. Speaking Up disclosures, including the identity of the whistle blower and the subject of the Speaking Up disclosure, will be kept confidential.

Reporting To EC & C&FRC & BACGC

The Ethics sub-Committee (EC), Compliance & Fraud Risk Committee (C&FRC) and Board Audit & Corporate Governance Committee (BACGC) have an oversight on issues related to unethical conduct and whistleblowing complaints. For EC & C&FRC & BACGC consumption, whistle blow complaints along with update on investigations/resolution is quarterly reported.

Enterprise Resource Planning

How it is designed to manage and integrate the functions of core business processes/modules like finance, HR, supply chain and inventory management in a single system;

An ERP system consists of software components, or modules, each of which focuses on a distinct business process. ERP is distinguished from standalone applications by its central database that records information from the business transactions and other actions carried out in the modules, and by integration that allows the modules to communicate with each other and with the common database. In Faysal Bank we are using ERP for procure to pay cycle, fixed assets recording and corporate financial reporting.

Management support in the effective implementation and continuous updation;

Faysal Bank management continuously reviews process flows for effective implementation and updates are incorporated as and when required.

Details about user training of ERP software;

Training employees to use ERP system effectively, is critical to the success of any implementation or upgrade project. FBL conducts user training session to ensures the efficient and effective use of the ERP system by the employees. Training gives users the opportunity to understand their work's relation to other functional areas.

How the company manages risks or control risk factors on ERP projects;

The impact of risks on project outcome are determined with the involvement of the representatives of both project team as well as the ERP implementation partner. They devised mitigating strategies for each risk through brainstorming, which are conducted by the project manager. The project manager has overall responsibility for managing all risks and discussing closing actions, due dates, priorities and risk impacts to ensure that risks are being actively managed. High probability and high impact risks are escalated to be analyzed and resolved.

How the company assesses system security, access to sensitive data and segregation of duties.

Segregation of Duties are achieved by restricting user access to conflicting activities within the application. It is essential to rely on a reliable information system and to ensure security of the data. In FBL user management and roles assignment are managed by an independent team. Any activity with respect to user management is duly approved by concerned authority. In FBL Oracle E Business Suite is operated on private network to prevent access of financial data from outside.

Evaluation at the Board Level External Consultant

Evaluation at the Board level is carried out on annual basis through M/s Pakistan Institute of Corporate Governance (PICG) which is an external independent evaluator

Investors' Grievances Policy

The Board of Directors, President & CEO and Company Secretary ensure that all the Material and price-sensitive information is disclosed in compliance with the regulatory requirements which includes Financial Results, entitlement of corporate information, significant change in financial conditions, current and expected business performance etc.

With respect to shareholder related matters the Bank has appointed a reputable and experienced share registrar services. In addition, contact details of the designated personnel of the Bank for assisting the shareholders and handling their requests and complaints are also prominently displayed in the relevant section of the Bank's website.

Details of Executive Director is serving as Non-Executive Director

Mr. Yousaf Hussain, P&CEO serving as non-executive director on the following companies:

- Pakistan Institute of Corporate Governance.
- The Institute of Bankers Pakistan
- Pakistan Business Council
- Pakistan Banks' Association
- Faysal Assets Management Limited - Chairman
- Overseas Investors Chamber of Commerce & Industry (OICCI) - President.

Presence of the Chairman of the Audit Committee at the AGM

All Board of Directors along with the Chairman Audit Committee presented in the AGM held on March 6, 2024

Report of the Board Audit and Corporate Governance Committee

The Board Audit and Corporate Governance Committee (“BACGC or Committee”) of Faysal Bank Ltd (“FBL or Bank”) comprises four directors having experience and knowledge of Banking, Corporate Governance, Corporate Social Responsibility, Finance, Asset Management, Audit & Accounting. Out of the four members, two are Independent Directors and two are Non-Executive Directors. The Chairman of BACGC is an independent director. The Terms of Reference of BACGC (“TORs”) have continuously been revised and updated as and when required by regulatory guidelines and/or best international practice with the approval of the Board of Directors (“BOD or Board”) of FBL. Accordingly, in 2024 the TORs were reviewed and approved by the BOD.

The Committee focused on FBL's financial statements, related party transactions, effectiveness of FBL's Internal Control Environment, Compliance Risk Management, Operational Risk Management Framework and application of Regulatory & International Accounting and Auditing Standards as well as compliance requirements of Corporate Governance best practices, controls over risk areas of provisions and risk of fraud in revenue recognition. The Committee also supervised and monitored the status and implementation of IFRS No. 9, by the management of FBL and showed its satisfaction to the progress during the year as per SBP's guidelines. The Committee reviewed and approved the Internal Audit Strategy, Audit Charter, Annual Internal Audit plan, Internal Audit Manual, , and the Annual Compliance Plan, as per requirements of SECP's Code of Corporate Governance (“COCG”), SBP's Guidelines on Internal Audit Function and Compliance Risk Management Framework. The Committee ensured proper allocation of sufficient resources to both the Internal Audit and the Compliance functions, to enable both functions to successfully implement their annual plans and other activities. The Chief Audit Executive was given unrestricted access to approach BACGC to ensure proper and timely reporting in all concerned audit & compliance matters. The Committee convened four mandatory meetings and one additional meeting on need basis, during the year 2024.

Major activities undertaken by the BACGC to improve the overall performance of FBL during 2024 were as follows:

- BACGC reviewed and examined the unconsolidated and consolidated quarterly, semi-annual and the yearly Financial Statements for 2024, along with Director's review report of FBL, which were approved by the Board on its recommendation. BACGC reviewed all categories of related party transactions with assurance from management that all transactions were undertaken at arm's length basis and reviewed them and reported the same for Board's consideration, which were approved by the Board. The Committee also reviewed quarterly updates on capital expenditures against budget.
- BACGC also held detailed discussions with the external auditors on audit scope for the year 2024 as well as on major observations made in their management letters and reviewed management's response thereto. The Committee ensured independence of the external auditors and their unrestricted access to FBL. The appointment of external auditors for the year 2024 and their fees were recommended to the Board and approved by the shareholders during its AGM held in March 2024 on its recommendation. BACGC also reviewed the Long Form Report on Shariah Compliance Environment as of December 31, 2023, issued by the external auditors.
- BACGC ensured that the management establishes and maintains adequate and effective Internal Control systems and processes and reviewed and monitored the implementation of the Annual Internal Audit Plan for the year 2024 and the Internal Audit Department's (“IAD”) high risk observations along with the management's corrective action plan in accordance with targeted dates. The Committee also reviewed and approved the changes in the IAD Strategy for the period 2024-28 and aligned it with the overall strategy of FBL. The BACGC also reviewed the independence, adequacy and quality of IAD resources.
- BACGC reviewed and monitored the implementation of the Annual Compliance Plan for the year 2024 on a quarterly basis. The Committee also updated itself on AML/CFT procedures as per SBP regulations and Financial Action Task Force (“FATF”), recommendations along with quarterly review of the Foreign Account Tax Compliance Act (“FATCA”), Whistle Blowing Committee (“WBC”) cases, and internal investigation findings and timely actions taken by the management. BACGC ensured that a proper and effective system for compliance with the laws, regulations of the State Bank of Pakistan and other regulatory authorities, exists at FBL.

- BACGC reviewed updates of Fraud and Forgery cases quarterly during the year, including fraud trends. Major findings of internal investigations in this area were deliberated upon and noted with satisfaction that appropriate measures were taken by the management in a timely manner.
- BACGC reviewed the implementation of effective Internal Controls over Financial Reporting (“ICFR”) program across the Bank. An assurance was also given to BACGC that Policies adopted by the Bank were sufficient and appropriate, while information provided by the management is reliable. The Conduct Assessment Framework of the Bank as of December 31, 2023, was also reviewed.
- BACGC reviewed the quarterly Compliance of the SBP’s inspection report and thematic review reports along with monitoring the compliance status of these reports.
- BACGC reviewed updates on the Bank’s framework on Environmental, Social and Governance (“ESG”) compliance and Corporate Social Responsibility (CSR) in the first quarter of 2024 and thereafter a separate subcommittee of the board was constituted for its oversight.
- BACGC also reviewed the report by the Company Secretary on conflict of interest, status of major lawsuits and update on new laws and regulations.
- BACGC conducted self-assessment of its performance for the year to comply with its TORs as per SECP Code of Corporate Governance, SBP guidelines and presented it to the Board. The Board appreciated the performance of the BACGC in their evaluation for that year.

Mr. Ali Munir

Chairman - BACGC

Independent Auditor's Review Report

To the members of Faysal Bank Limited

Review Report on the Statement of Compliance contained in Listed Companies (Code of Corporate Governance) Regulations, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of Faysal Bank Limited ('the Bank') for the year ended 31 December 2024 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Bank. Our responsibility is to review whether the Statement of Compliance reflects the status of the Bank's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Bank's personnel and review of various documents prepared by the Bank to comply with the Regulations.

As part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Bank's corporate governance procedures and risks.

The Regulations require the Bank to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Bank's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Bank for the year ended 31 December 2024.

Report of Shariah Board

For the year ending December 31, 2023

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

الحمد لله رب العالمين، والصلاة والسلام على خاتم الأنبياء والمرسلين محمد المصطفى الصادق الأمين وعلى آله وصحبه أجمعين

الحمد لله, Faysal Bank Limited ("the Bank") has completed second year of successful operations of being a full-fledged Islamic Bank.

During the year, the Shariah Board held four meetings to consider, deliberate, decide and supervise various Shariah related affairs of the Bank including review of various existing and new products, transactions, processes, policies, standard operating procedures and agreements. In compliance with Shariah Governance Framework, the Shariah Board ("SB") also met with Board of Directors ("BoD") twice this year to have a detailed briefing on Shariah compliance environment.

Following are the key developments for the year 2024:

Product Development

Under the guidance of SB, Product Development (PD) has worked for the enrichment of its product menu. On the liability side, Shariah Board approved products i.e. 'Khushaal Kisaan Current & Saving Accounts' based on 'Qardh' and 'Mudarabah', 'Special FCY Account for Hajj Group Organizer & Munazzam Companies' based on 'Qardh' and 'IT Exporter & Freelancer current account' based on 'Qardh'.

Shariah Structuring of Investment Banking Transactions

Shariah Board reviewed and approved 09 Investment Banking transactions whereby the Bank's Shariah Board served as the Shariah Advisor of these transactions. These transactions were structured on Shirkat-ul-Milk (Diminishing Musharakah - DM), Shirkat-ul-Milk (DM - Sale & Lease Back), Shirkat-ul-Aqd (Running Musharakah) and Istisna basis.

Shariah Compliance and Advisory (SCA)

To ensure the compliance of regulatory and SB's guidelines, under the guidance of SB, SCA reviewed Trade Finance and Business Services, Corporate and Investment Banking, Commercial & SME, Digital Banking, Consumer Financing (Auto, Mortgage, Takmeel), Agri Financing. Further, SCA reviews Tawarruq based products including Noor Card and Islamic Personal Finance on quarterly basis. SCA reviewed more than 200 branches excluding branches reviewed by Shariah audit across different regions of the bank. Moreover, SCA also reviewed the Pool management & Profit distribution mechanism on monthly basis.

During this period, all Bank-wide policies and procedures (new and renewal) presented, were reviewed by SCA and approved by Shariah Board.

During the year, in addition to standard general approved products, SCA obtained SB approvals on more than 700 customized process flows of various Islamic financing structures including Murabaha, Istisna, Tijarah, Running Musharakah, Diminishing Musharakah, Salam, etc. including that of SBP schemes like Islamic Export Re-Finance (IERF), Islamic long Term Financing Facility (ILTF) and Islamic Finance for Renewable Energy (IFRE) etc.

Shariah Audits

Internal & external Shariah Audits were undertaken as per the requirement of Shariah Governance Framework. Internal Shariah Audit Unit carried out Shariah audits during the period for following functions i.e. SME and Commercial Banking, Branch Banking, Corporate and Investment Banking Group, Trade Business and Services, Human Resource, Special Assets Management, Tawarruq, Agri Tawarruq, Trade Finance and on quarterly basis Profit distribution and Pool Management calculations. Further, external Shariah audit was also carried out covering all relevant functions of the Bank.

Charity

In accordance with SBP guidelines and Shariah Non-Compliance Risk Management Framework following is the treatment the charity amount:

The cumulative opening balance of the charity fund was PKR 279.974 Mn and during the year an additional amount of PKR 223.950 Mn is added to the charity fund:

Charity Detail as follows	Amount in Million
a. Delayed payment	PKR 177.933
b. Shariah non-Compliant income	PKR 2.405
c. Ring fenced Charity	PKR 27.926 (Including dividend purification income)

During this period, an amount of PKR 295.300 Mn was distributed to various charitable organizations. Details are available on Note 20.2.2.

Treatment of Ring-fenced portfolio

After conversion some residual conventional portfolio was carried forward and as per the transformation plan this conventional portfolio was ring fenced to avoid any comingling with Islamic portfolio. This portfolio is monitored by the Shariah Board also in accordance with the regulatory requirement. Accordingly, Shariah Board has issued guidelines for the portfolio management and is updated about the status on regular basis.

Capacity building and Awareness Sessions

For the growth in capacity building and awareness of human resource of the bank, various Islamic banking training programs were conducted by Learning and Development ("L&D").

Members of Shariah Board, PD, SCA facilitated in improvement of training material besides conducting various training and awareness sessions for Bank's staff. During the year, L&D organized more than 240 training sessions across the country to enhance the Shariah knowledge of Islamic products and services, wherein more than 9345 employees were trained under various online and classroom training programs. Further, specialized training programs for Islamic Banking - Level III, Ethica Certification and Islamic Banking International Trainings was also organized. In addition to in-house training programs, L&D also nominated staff for training programs including Certified Professional Trainer CPT by IAPPD, Islamic Finance Certified Practitioners (IFCP) by IBA and Revolutionize Banking with Artificial Intelligence and sponsored Certified Shariah Adviser and Auditor (CSAA) certifications from Accounting and Auditing Organization for Islamic Financial Institutions ("AAOIFI") Bahrain.

Additionally, in order to strengthen the overall Shariah compliance environment of the Bank, Shariah support officers have been associated with business (CIBG, CBSME, Agri etc.) and support functions (CAD, Trade, etc.).

Promotion and Marketing of Islamic banking products & services

During this period, various marketing promotional materials including printed and electronic brochures, TVCs were reviewed and approved by the SB.

Opinion of Shariah Board

While the Board of Directors and Executive Management are solely responsible to ensure that the operations of Faysal Bank Limited are conducted in a manner that comply with Shariah principles at all times, we are required to submit a report on the overall Shariah compliance environment of Faysal Bank Limited.

To form our opinion as expressed in this report, the Shariah Board has reviewed the Shariah Compliance review reports, internal and external Shariah audit reports.

Based on above, we are of the view that:

1. The Bank by and large complied with the Shariah rules and principles in the light of resolutions / Fatawa, rulings and guidelines issued by the SB.
2. During review, matters requiring corrective measure have been noted and were resolved by the Management or ensured to be rectified in future. Subject to the foregoing, in our opinion, the affairs of the Bank have been carried out in accordance with the directives, regulations, instructions and guidelines related to Shariah compliance issued by the SBP.
3. The Bank has a comprehensive mechanism in place to ensure Shariah compliance in their overall operations.
4. Bank has a well-defined system in place in the form of Shariah Compliance Review and Internal Shariah Audit to ensure that the earnings realized from sources or means prohibited by Shariah are credited to charity account and properly utilized for charitable purposes.
5. The allocation of funds, profit and loss distribution and pool management is generally in accordance with Shariah Rules & Principles and Pool Management guidelines of SBP.
6. Learning and development unit of the Bank is actively pursuing the training and development of human capital on Islamic Banking & Finance through various training programs to enhance the awareness of staff, Management and BOD for the products and processes of the Bank and importance of Shariah compliance.
7. Shariah Board was provided unhindered access of all required information along with adequate resources, enabling it to discharge its duties effectively.
8. The bank may explore integration of technology into its products and services to enhance customer experiences, improve efficiency, and strengthen operational agility.

And Allah Subhanahu wa ta'ala knows the Best.

شریہ بورڈ رپورٹ

برائے اختتام پذیر سال 31 دسمبر 2024

بسم اللہ الرحمن الرحیم

الحمد لله رب العالمین والصلوة والسلام علی خاتم الانبیاء والمرسلین محمد المصطفیٰ الصادق الامین وعلیٰ آلہ واصحابہ اجمعین۔

فیصل بینک لمیٹڈ ("بینک") نے ایک مکمل اسلامی بینک ہونے کے کامیاب آپریشنز کا دوسرا سال مکمل کر لیا ہے۔ سال کے دوران شریہ بورڈ نے بینک کے مختلف شرعی امور پر غور و فکر اور ان کی نگرانی کے لیے چار اجلاس منعقد کئے جن میں متعدد موجودہ اور نئی مصنوعات، معاملات، اعمال، پالیسیوں، آپریشنز کے معیاری طریقہ کار اور معاہدات کا جائزہ لیا گیا۔ اس سال شریہ بورڈ نے شریہ گورننس فریم ورک کے تحت، بورڈ آف ڈائریکٹرز ("BoD") سے دو بار ملاقات کی۔ جس میں شریہ کمپلائنس کے ماحول کے بارے میں تفصیل سے آگاہ کیا۔

سال 2024 کی اہم پیش رفت درج ذیل ہیں:

پروڈکٹ ڈیولپمنٹ (مصنوعات کا ارتقاء)

شریہ بورڈ کی رہنمائی میں پروڈکٹ ڈیولپمنٹ، (PD) نے اپنے پروڈکٹس کی فہرست میں اضافہ کی طرف پیش رفت کی ہے جس میں لائسنس سائٹ پر، شریہ بورڈ نے قرض و مضاربہ پر مبنی خوشحال کسان کرنٹ و سیونگ اکاؤنٹ اور قرض پر مبنی 'ج' گروپ آرگنائزروں منظم کمپنیز کے لئے اسٹیکل FCY اکاؤنٹ اور 'IT' ایکسپورٹ و فری لانسر کرنٹ اکاؤنٹ پروڈکٹس کی منظوری دی۔

انویسٹمنٹ بینکنگ کے عقود (ٹرانزیکشنز) کا شریہ اسٹرکچر

شریہ بورڈ نے 09 انویسٹمنٹ بینکنگ عقود (ٹرانزیکشنز) کا جائزہ لیا اور ان کی منظوری دی جس میں بینک کے شریہ بورڈ نے ان عقود کے شریہ ایڈوائزر کی خدمات انجام دی۔ یہ عقود، شرکت الملک (شرکت متناقصہ)، شرکت الملک (شرکت متناقصہ - سیل اینڈ لیز بینک) شرکت العقد (رنگ مشارکہ) اور استصناع کی بنیاد پر تشکیل دیے گئے تھے۔

شریہ کمپلائنس و ایڈوائزری (SCA)

ریگولیٹری اور شریہ بورڈ کی ہدایات پر عمل درآمد کو یقینی بنانے کے لیے، شریہ بورڈ کی رہنمائی میں، SCA نے ٹریڈ فنانس اور کاروباری خدمات، کارپوریٹ اور انویسٹمنٹ بینکنگ، کمرشل اور SME ڈیجیٹل بینکنگ، کنزیومر فنانسنگ (آٹو، ہاؤس، تکمیل) اور ایگری فنانسنگ کا جائزہ لیا۔ مزید، SCA نے سہ ماہی بنیادوں پر نور کارڈ اور اسلامک پرسنل فنانس سمیت ترقی پر مبنی مصنوعات کا بھی جائزہ لیا ہے۔ ساتھ ہی ساتھ SCA نے مختلف علاقوں میں شریہ آڈٹ کے ذریعے جائزہ لی گئی بینک کی برانچوں کے علاوہ 200 سے زائد برانچوں کا جائزہ لیا۔ مزید یہ کہ SCA نے ماہانہ بنیادوں پر پول میٹجمنٹ اور منافع کی تقسیم کے طریقہ کار کا بھی جائزہ لیا۔

اس دوران، SCA نے بینک کی تمام پالیسیوں اور طریقہ کار (جدید و تجدید شدہ) کا جائزہ لیا اور شریہ بورڈ نے ان کی منظوری دی۔

دوران سال، SCA نے شریہ بورڈ سے 700 سے زائد "صارفین کے لحاظ سے مخصوص" پر اسس فلوز کی منظوری حاصل کی جو کہ مرابحہ، استصناع، تجارت، رنگ مشارکہ، شرکت متناقصہ، سلم وغیرہ پر مشتمل ہونے کے ساتھ SBP کی اسکیمز جیسے کہ اسلامک ایکسپورٹ ری۔ فنانس (IERF) اسلامک لانگ ٹرم فنانسنگ فیسیلیٹی (ILTF) اور رینیو بل انرجی کے لیے اسلامی فنانس (IFRE) وغیرہ پر مشتمل ہیں۔

شریہ آڈٹ

شریہ گورننس فریم ورک کے تقاضوں کے مطابق اندرونی اور بیرونی شریہ آڈٹ کو انجام دیا گیا۔ انٹرئل شریہ آڈٹ یونٹ نے اس مدت کے دوران درج ذیل شعبوں کے لیے شریہ آڈٹ کو انجام دیا یعنی کہ SME اور کمرشل بینکنگ، برانچ بینکنگ، کارپوریٹ اور انویسٹمنٹ بینکنگ گروپ، ٹریڈ بزنس اینڈ سروسز، ٹریڈری پروڈکٹس، ایگری فنانسنگ، ہیومن ریسورس، اسٹیشنل ایسٹ مینجمنٹ اور سہ ماہی بنیادوں پر منافع کی تقسیم اور پول مینجمنٹ کے حسابات۔ مزید برآں، بینک کے تمام متعلقہ امور پر مشتمل ایکسٹرئل شریہ آڈٹ بھی کیا گیا۔

چیریٹی

SBP اور شریہ نان کمپلائنس رسک مینجمنٹ فریم ورک کی رہنمائیات پر عمل درآمد کے مطابق چیریٹی کی رقم درج ذیل ہے:

چیریٹی فنڈ کی مجموعی ابتدائی رقم 279.974 ملین روپے تھی اور سال کے دوران 223.950 ملین روپے کی اضافی رقم چیریٹی فنڈ میں شامل کی گئی۔

رقم کے اعداد و شمار (ملین میں)	صدقہ کی تفصیل
177.933 روپے	1 ادائیگی میں تاخیر کی وجہ سے
2.405 روپے	2 شرعی اصولوں سے عدم مطابقت کی وجہ سے
27.926 روپے (بشمول ڈیویڈنڈ پیورٹیفیکیشن آمدنی)	3 رنگ فینسڈ چیریٹی

اس عرصے کے دوران، 295.300 ملین کی رقم مختلف خیراتی اداروں میں تقسیم کی گئی۔ جس کی تفصیلات نوٹ 20.2.2 پر دستیاب ہیں۔

رنگ فینسڈ پورٹ فولیو کا انتظام

اسلامی بینکاری کی طرف منتقلی کے بعد باقی ماندہ کنونینشل پورٹ فولیو کو آگے لے جایا گیا تھا اور کنورژن کی منصوبہ بندی کے مطابق اس روایتی پورٹ فولیو کو اسلامی پورٹ فولیو کے ساتھ خطہ ہو جانے سے بچانے کے لیے (رنگ فینس) کر کے الگ کر دیا گیا تھا۔ شریہ بورڈ اس پورٹ فولیو کی نگرانی بھی ریگولیٹری تقاضوں کے مطابق انجام دیتا ہے۔ اسی مناسبت سے شریہ بورڈ اس پورٹ فولیو کے انتظام کے لئے اپنی ہدایات دے چکا ہے اور اس کی صورت حال کے بارے میں اسے مستقل بنیادوں پر مطلع کیا جاتا ہے۔

استعداد کار میں اضافہ اور آگاہی کے سیشنز

بینک کے انسانی وسائل کی استعداد کار میں اضافہ اور آگاہی کے لیے، لرننگ اینڈ ڈیولپمنٹ ("L&D") نے متعدد اسلامی بینکاری تربیتی پروگرام منعقد کیے۔ شریہ بورڈ، PD SCA کے اراکین، بینک کے عملے کے لئے متعدد تربیتی اور آگاہی سیشنز کے انعقاد میں سرگرم عمل رہے اور ساتھ ساتھ تربیتی مواد کو بہتر بنانے میں بھی معاونت فراہم کی۔ دوران سال L&D نے عملے کی اسلامی مصنوعات و خدمات سے متعلق شرعی آگاہی میں اضافے کے لیے ملک بھر میں 240 سے زائد تربیتی سیشنز کا انعقاد کیا جس میں 9345 سے زائد ملازمین کو متعدد آن لائن اور کلاس روم تربیتی پروگرامز کے ذریعہ تربیت دی گئی۔ مزید یہ کہ اسلامک بینکنگ لیول 3، ETHICA سرٹیفیکیشن اور اسلامک بینکنگ

انٹرنیشنل ٹریڈنگز کے لئے خصوصی تربیتی پروگرام منظم کیا گیا۔ داخلی تربیتی پروگرامز کے علاوہ L&D نے IAPPD سے سرٹیفائیڈ پروفیشنل ٹریڈر (CPT) IBA سے اسلامک فنانس سرٹیفائیڈ پریکٹیشنرز (IFCP) اور Revolutionize Banking with Artificial Intelligence اور اکاؤنٹنگ و اسٹینڈرڈز انشورنس فار اسلامک فنانشل انسٹی ٹیوشنز ("AAOIFI") بحریں کی طرف سے اسپانسر کردہ سرٹیفائیڈ شریعہ ایڈوائزر و آڈیٹر (CSAA) سرٹیفیکیشنز کے لیے بھی عملے کو نامزد کیا۔

مزید برآں، بینک کے شریعت سے ہم آہنگ مجموعی ماحول کے استحکام کی غرض سے شریعہ سپورٹ افسران کو کاروبار (CIBG CBSME Agri وغیرہ) اور سپورٹ فنکشنز (CAD Trade وغیرہ) میں تعینات کیا گیا ہے۔

اسلامی بینکنگ پروڈکٹس و خدمات کا فروغ اور تشہیر

اس دورانیہ میں، مختلف مارکیٹنگ پروموشنل مواد بشمول پرنٹ شدہ اور الیکٹرانک بروشرز، TVCs کا جائزہ لیا گیا اور شریعہ بورڈ کی طرف سے منظوری دی گئی۔

شریعیہ بورڈ کی رائے

چونکہ بورڈ آف ڈائریکٹرز اور ایگزیکٹو مینجمنٹ سے اس امر کو اپنے طور پر یقینی بنانے کے ذمہ دار ہیں کہ فیصل بینک لمیٹڈ کے امور کی انجام دہی ہمہ وقت شریعت کے اصولوں سے ہم آہنگ ہو، اس لئے ہم سے فیصل بینک لمیٹڈ کے مجموعی ماحول کے شریعت سے ہم آہنگ ہونے پر ایک رپورٹ پیش کرنے کا تقاضہ کیا جاتا ہے۔ ہماری رائے قائم کرنے کے لئے، جس کی اس رپورٹ سے وضاحت کی گئی ہے، شریعہ بورڈ نے شریعہ کمپلائنس ریویو رپورٹس، انٹرئل اور ایکسٹرنل شریعہ آڈٹ رپورٹس کا تجزیہ کیا۔

مندرجہ بالا بنیاد پر ہمارا نقطہ نظریہ ہے کہ :

1. بینک کے جملہ امور کو شریعہ بورڈ کی طرف سے جاری کردہ قراردادوں، فتاویٰ جات، ہدایات و احکامات کی روشنی میں شریعت کے اصول و ضوابط کے مطابق انجام دیا گیا ہے۔
2. جائزہ کے دوران کسی بھی قابل تصحیح مسئلہ کو نوٹ کیا گیا اور بذریعہ مینجمنٹ اس کو حل کیا گیا یا مستقبل میں اس کی تصحیح کو یقینی بنایا گیا ہے۔ ماقبل سے مربوط ہماری رائے میں بینک کے امور کو شریعہ کمپلائنس سے متعلق اسٹیٹ بینک پاکستان کی طرف سے جاری کردہ قراردادوں، اصولوں، احکامات و ہدایات کے مطابق انجام دیا گیا ہے۔
3. بینک، تمام ترامور میں شریعہ کمپلائنس کو یقینی بنانے کے جامع نظام کا حامل ہے۔
4. بینک، شریعہ کمپلائنس تجزیہ اور انٹرئل شریعہ آڈٹ کی صورت میں اس بات کو یقینی بنانے کا ایک مربوط اور جامع نظام رکھتا ہے کہ غیر شرعی ذرائع اور طریقوں سے حاصل شدہ آمدنی کو چیریٹی اکاؤنٹ میں منتقل اور صحیح طور سے خیراتی مقاصد میں خرچ کیا گیا ہے۔
5. فنڈز کی تعین، نفع و نقصان کی تقسیم اور پول مینجمنٹ، بالعموم شریعت کے اصول و ضوابط اور SBP کی پول مینجمنٹ سے متعلق ہدایات کے مطابق ہوئی ہے۔
6. بینک کا لرننگ اینڈ ڈیولپمنٹ بونٹ متعدد تربیتی پروگرامز کے ذریعہ اسلامی بینکاری و مالیات پر انسانی سرمایہ کی تربیت اور ترقی کے لئے سرگرم عمل ہے تاکہ بینک کی پروڈکٹس و طریقہ کار اور شریعہ کمپلائنس کی اہمیت پر عملے، مینجمنٹ اور BoD کی آگاہی میں اضافہ کیا جاسکے۔

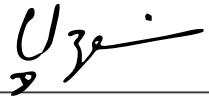

7. شریعہ بورڈ کو اپنی ذمہ داریوں سے بخوبی عہدہ برآں ہونے کے قابل بنانے کے لئے تمام مطلوبہ معلومات تک بلا رکاوٹ رسائی اور مناسب وسائل مہیا کئے گئے ہیں۔

8. بینک کو کسٹمر ایکسپیرینس میں بہتری، کارکردگی میں اضافہ، اور آپریشنز میں سرعت لانے کیلئے اپنی پروڈکٹس اور خدمات میں ٹیکنالوجی کی شمولیت پر غور کرنا چاہیے۔

Statement on Internal Controls

This statement is presented to comply with the instructions of the State Bank of Pakistan (SBP) issued vide BSD Circular No. 07 dated May 27, 2004, "Guidelines on Internal Controls" and OSER Circular No. 01 dated February 07, 2014, "Instructions on Internal Controls over Financial Reporting (ICFR)".

The Management of Faysal Bank Limited is responsible for establishing and maintaining an adequate and effective internal control system in the Bank. In this context, the Management has designed the Bank's Internal Control Program to provide reasonable assurance on the reliability of financial reporting, the effectiveness of operations, and compliance with applicable laws and regulations. Although the Internal Control Program is effectively implemented and monitored, there are inherent limitations in the effectiveness of any system, including the possibility of human error, system failure, circumvention, and overriding of controls. Even an effective internal control system can provide reasonable but not absolute assurance that the system's objectives will be achieved.

Policies and procedures covering diverse business and operational domains are meticulously crafted, continuously updated, and effectively communicated across all relevant levels of the organization. These policies receive formal approval from the Bank's Board of Directors (BoD), while the procedures are sanctioned by the Senior Management. The Bank's internal audit function plays a pivotal role in ensuring adherence to these policies and procedures, conducting rigorous compliance monitoring. Regular updates and compliance reports are provided to the Management and the BoD through the Board's Audit and Corporate Governance Committee, ensuring ongoing oversight and governance.

The Bank's Management has established a dedicated Internal Control Department (ICD) under the Compliance Function, tasked with executing both on-site and off-site evaluations of processes associated with Support Functions and branch operations. The ICD is integral to the ongoing monitoring and identification of operational deficiencies, ensuring that immediate corrective measures are implemented. This department is responsible for enforcing adherence to policies and procedures that have received formal approval from the Board of Directors (BoD) and Senior Management, thus

fostering a robust internal control environment. Additionally, Management proactively addresses any discrepancies identified by regulatory bodies, the ICD itself, as well as internal and external auditors. These remedial actions involve targeted enhancements to the internal control framework to prevent the recurrence of identified issues and are rigorously overseen by the Compliance Committee.

The Bank has completed all stages of the ICFR roadmap, issued vide SBP's BSD Circular No. 05 dated February 24, 2009. The Bank has adopted the "COSO Internal Control Integrated Framework" in relation to its Internal Control Program to ensure consistency in the process of compliance with SBP's Internal Control Guidelines involving documentation, risk assessment, gap analysis, controls testing, controls implementation, and quality assurance/validation. Further, in the year 2017, SBP granted an exemption for submission of Long Form Report (LFR) through external auditors. Moreover, as per SBP's BSD Circular No. 01 dated July 06, 2021, banks were allowed to discontinue the annual submission of LFR or Annual Assessment Report (AAR) on the efficacy of ICFR to SBP. However, banks shall continue the preparation of AAR on the efficacy of ICFR under ICFR instructions/framework, and the Internal Audit Function will review and submit it to the Audit Committee for BoD approval, for the year ended December 31, 2024.

Additionally, the Bank has undertaken various initiatives to further strengthen internal controls, including but not limited to the implementation of continuous training and development programs for staff, and regular internal control reviews.

The Management is confident that through the adoption of these measures, the Bank's internal control environment is maintained at a satisfactory level.

The BoD endorses the above-stated management evaluation of internal controls and the ICFR program.

Yousaf Hussain
President & CEO

Authorisation of Financial Statements by the Board of Directors

The financial statements for the year ended December 31, 2024 were authorised for issuance by the Board of Directors of the Bank on February 20, 2025.

DuPont Analysis is a framework used to evaluate financial performance by breaking down Return on Equity (ROE) into three key components. Following are the main Dupont analysis highlights:

- The bank demonstrates strong profitability, efficiently converting revenue into profit.
- The bank's Asset Turnover highlights excellent use of assets to generate revenue.
- The Equity Multiplier reflects effective leverage, showcasing the bank's ability to deliver high returns for shareholders.
- Overall, the bank's performance is marked by efficiency and strong financial returns.

Share Price Sensitivity Analysis

Below is a list of some key factors that can influence the share price of Faysal Bank Limited. The list is not exhaustive and intends to cover the major areas:

Regulatory / Policy Changes

Any regulatory or policy changes that directly impact the overall banking landscape along with cost and / or revenue drivers are likely to exert a significant influence on the Bank's stock price. For example, any change in monetary policy rate has a direct impact on yields of government securities, spreads made on advances and funding costs; and in turn materially impact profitability and the share price as well. Similarly, any hike in the minimum rate of return on deposits will result in compression in net interest margins earned and can negatively impact the earning and correspondingly the share price of the scrip.

Investor and Market Sentiment

Market sentiment is often subjective which makes it difficult to quantify but a change in sentiments due to the investment climate in general or the stock market in particular can have an impact on the Bank's share price as well. Such a sentiment driven impact on the share price can occur even in the absence of any fundamental development or change in the Bank's business case.

Change in Macro Environment

Political stability and controlled law & order situation is a pre-requisite for any economic development. Any changes in the macro environment, including inflation and / or currency devaluation could see the stock price of the Bank move alongside as market preempts such developments and extrapolates their impact on policy / regulatory changes in the Bank's share price.

Share Price as of December 31, 2024	Rs. 48.48
High Price	Rs. 58.10
Low Price	Rs. 28.50
Average Volume	3,194,903
No. of Trading Days	246

Stock Market Capitalization of the Bank

Rupees in billion

Methods and assumptions used in compiling the indicators

The Bank utilizes a comprehensive set of Key Performance Indicators (KPIs) to evaluate the success of both strategic initiatives and routine operational activities. These KPIs are carefully selected to align with the FBL's objectives, offering a clear and accurate picture of its financial health, operational efficiency, and competitive positioning. The FBL monitors a variety of traditional financial ratios, such as growth in deposits and advances, the non-performing loans (NPL) ratio, and the provision coverage ratio, which help assess asset quality and risk management. In addition, profitability ratios like the net margin, non-markup income to total income, cost-to-income ratio, return on assets (ROA), return on equity (ROE), and earnings per share (EPS) are closely tracked to gauge the FBL's ability to generate income, manage costs, and provide returns to shareholders. Beyond these financial metrics, the FBL also analyzes its market position, comparing its performance to that of competitors and considering broader market conditions, such as regulatory changes and economic trends. This holistic approach enables the FBL to make informed, data-driven decisions that support sustainable growth and maintain a competitive edge in the market.

Sensitivity Analysis due to Foreign Currency Fluctuations

Foreign exchange risk / currency risk is the current or prospective risk to earnings and capital arising from adverse movements in currency exchange rates. It refers to the impact of adverse movements in currency exchange rates on the value of open foreign currency positions. Changes in currency rates affect the value of assets and liabilities denominated in foreign currencies and may affect revenues from foreign exchange dealing.

The Bank undertakes currency risk mostly to support its trade services and maintains overall foreign exchange risk position to the extent of statutory Foreign Exchange Exposure Limit (FEEL) prescribed by the SBP.

Exposure limits such as counterparty, gap, net open position, dealer and bucket-wise currency delta limits are in place in accordance with the Bank's approved policies in order to manage associated risk and concentration at the acceptable tolerance levels.

For details about the Bank's foreign exchange risk refer note 46.2.2 to the accompanying unconsolidated financial statements for the year ended December 31, 2024.

Particulars of Significant / Material Assets and Immovable Properties

The Bank has the following assets as at 31 December 2024.

IT Governance Policy

Information technology has become a foundation of organizational success, particularly in the banking sector, where it drives efficiency, profitability, and competitive advantage. At Faysal Bank, IT is not just a support function but a strategic enabler, underpinning daily operations and long-term initiatives. Recognizing its critical importance, Faysal Bank has allocated substantial resources to IT and emphasized robust governance to maximize the value of these investments while maintaining a strong cybersecurity posture and embracing digital transformation.

Aligning Business, Technology, and Cybersecurity Strategies

Faysal Bank has implemented a comprehensive IT Governance framework that adheres to regulatory requirements and incorporates guidance from the Management IT Steering Committee (ITSC), the Board IT Committee (BITC), and regulatory bodies. This framework ensures seamless alignment between IT strategy, business objectives, and cybersecurity measures as recommended by Bank's Information security. By fostering accountability, promoting effective communication, and adhering to internationally recognized best practices, we are continuously enhancing IT performance, fortifies cybersecurity measures, and advances its strategic goals.

Driving Innovation and Integration in a Secure Digital Ecosystem

The Chief Information Officer (CIO) leads Faysal Bank's IT function, overseeing its strategic alignment with business goals, fostering innovation, and managing critical operations which includes application support & database management, software development, project management and technology infrastructure. Under the CIO's leadership, the IT Group delivers world-class technology solutions, enabling operational excellence and digital innovation while prioritizing cybersecurity and data integrity.

Supported by skilled teams working across specialized units and verticals, the IT function develops and implements innovative solutions aligned with the guidance of the BITC and ITSC. These governing bodies prioritize technology investments, oversee major initiatives, and ensure alignment between technology risks, enterprise risk management, and cybersecurity frameworks. Key responsibilities include:

- Reviewing and prioritizing technology projects.
- Establishing an efficient IT organizational structure.
- Enhancing oversight of the Information Security function to align with the bank's risk appetite.
- Integrating cloud-based solutions with robust security protocols.

- Ensure conducting independent technology audits to ensure compliance and mitigate risks.

Enhancing Technology Operations through Governance, Risk, and Compliance

The IT Governance function plays a pivotal role in fortifying Faysal Bank's IT landscape, particularly in cybersecurity and operational efficiency. Key advancements include:

1. Streamlined Change Management: Enhanced processes ensure controlled and efficient implementation of infrastructure changes, reducing potential disruptions and improving responsiveness to technological advancements.
2. Introduction of the e-Audit Tool: This comprehensive auditing solution automates compliance checks and risk assessments, offering real-time insights for proactive mitigation of cybersecurity risks. The tool strengthens regulatory compliance and bolsters risk management capabilities.
3. Automated Software Quality Assurance (QA): Automation of QA processes accelerate software development cycles, ensures consistent quality, and enhances operational efficiency.

Advancing Digital Transformation and Cyber Resilience

Through these initiatives, Faysal Bank has positioned itself at the forefront of digital transformation, ensuring IT operations are agile, secure, and aligned with strategic goals. The integration of advanced technologies, robust cybersecurity measures, and automated processes enables the bank to swiftly adapt to evolving market demands, maintain regulatory compliance, and deliver innovative financial solutions.

By continuously enhancing IT governance and embracing digital innovation, Faysal Bank reinforces its commitment to excellence in the dynamic and security-sensitive landscape of financial technology.

Cybersecurity

Evaluation and enforcement of legal and regulatory implications of cyber risks and the responsibilities of the board in case of any breaches

The Board remains focused on instigating a culture of cyber resilience as the Bank progress towards the new platforms. This resilience culture is in strict compliance to the pertinent legal & regulatory instructions, as well as leading practices related to cybersecurity risk management. The Board assumes the responsibility of oversight and governance of the cybersecurity risk and ensures that the cybersecurity objectives are met without any major incidents in the Bank.

IT governance and cybersecurity programs, policies and procedures and industry specific requirements for cybersecurity and strategy in place

The Bank is focused on protecting its most critical assets & remains vigilant to evolving cyber threats. The Bank has established a comprehensive information security program, comprising of information security policy, detailed standards & procedures, and an all-inclusive cybersecurity framework. These policies, standards, and frameworks are kept up to date with evolving technology and digital advancements.

Role of cybersecurity in the board's risk oversight function

The Board has the oversight on cybersecurity matters, whereby key risk items and issues are presented to the Board on periodic basis. Concerns and measures relating to evolving threats is also responded to the Board.

Disclosure that at least one board-level committee is charged with oversight of IT governance and cybersecurity matters and how the board administers its IT risk oversight function related to these risks.

The Board has mandated the cybersecurity oversight responsibilities to the following Board Sub Committees:

Board Information Technology Committee (BITC):

- To advise and report to the Board on the status of technology activities and digital initiatives in the Bank. To review and monitor the implementation and compliance of SBP 'Enterprise Technology Governance and Risk Management Framework'.
- To ensure that effective Risk Management strategies are designed and implemented to achieve resilience, including the ability to effectively respond to wide-scale disruptions, cyber-attacks, and attacks on critical infrastructure.

Board Risk Management Committee (BRMC):

- To review the adequacy and effectiveness of the risk management process across the Bank.
- To establish and maintain a risk management framework to identify risks and to evaluate the alignment and effectiveness of risk management activities.

Bank's controls and procedures about an "early warning system" that enables the Bank to identify, assess, address, make timely disclosures and timely communications to the board about cybersecurity risks and incidents.

The Bank has acquired renowned third-party services that provide insights on the activities happening on Surface, Dark, and Deep Web concerning the Bank. Multiple Threat Intelligence (TI) feeds have also been subscribed by the Bank, which assist the cybersecurity function in developing and recommending appropriate controls against risks on the horizon. Using the information from these early warning systems, the Board is apprised of any imminent threat as well as the countermeasures adopted by the Bank.

Policy related to independent comprehensive security assessment of technology environment, including third party risks and when last such review was carried out.

In compliance with regulatory instructions and leading practices, the Bank has a program for comprehensive security assessments of technology environment and third parties, to ensure the maintenance of cyber resilience and desired risk posture. The assessments are undertaken frequently all around the year to ensure that any changes to the technology environment does not pose a challenge to cybersecurity risk of the Bank.

Resilient contingency and disaster recovery plan in terms of dealing with a possible IT failure or cyber breach and details about Bank's cyber insurance.

The Bank has drawn and implemented a comprehensive resilience mechanism that addresses the continuity of service provision to our customers. At the same time, the Bank undertakes frequent drills of a cyber-attack scenario that keep the pertinent staff alert for a real situation.

Advancement in digital transformation on how the organization has leveraged 4.0 Industrial revolution (RPA, Block Chain, AI, Cloud Computing etc.) to improve transparency, reporting and governance.

Digital transformation is critical in today's business landscape to not only improve operational efficiency but also more so to create processes which aid in better serving the customers. In line with this spirit, amongst other initiatives, Faysal Islami Bank has catered to this through the introduction of AI-based Chatbots. The aim is to create an inclusive solution which is based on machine-learning with the ability to respond back in the natural flow of language, providing quick and accurate answers. By implementing AI-based chatbots, Faysal Bank's customer service will be further improved while reducing the workload on their support teams.

Education and training efforts of the Bank to mitigate cybersecurity risks

We continue to develop our internal talent pool and recruit external talent where required to support these critical capabilities. All cybersecurity and IT staff are required to attain training on new technology as well as participate in conferences & seminars to be aware of new trends.

Sources of Information & Assumptions Used for Projections & Forecasts

Faysal Bank's strategic outlook is shaped by a comprehensive analysis of market trends, customer behavior, and financial forecasts. The projections are derived from both internal business data and external economic indicators including industry analysis from various sources. External factors include the discount rate, inflation rate, current and balance of payment accounts position, industry analysis, GDP growth, and other macroeconomic indicators. Internal factors encompass the Bank's strategic objectives, financial performance, Bank's aspiration and competitive advantages. The bank utilizes a combination of internal data analytics and external market research to develop these assumptions, thus establishing the basis for its operational and financial forecasts and projections. Additionally, specialized external consultants provide insights into key focus areas ensuring alignment with industry best practices.

Forecasts are formulated on essential assumptions concerning market trends, industry growth, economic conditions, peer analysis, and regulatory changes. Forecasts are formulated based on essential assumptions about market trends, industry growth, economic conditions, peer analysis, and regulatory changes. These factors include anticipated variations in customer preferences and seasonal choices, opportunities for expansion in promising markets, the progression from traditional to digital banking, targeting affluent areas with emerging potential. Additionally, adapting to changes in consumer financial behavior and regulatory environments is crucial. Incorporating these insights enables Faysal Bank to strategically position itself for informed decision-making and adaptability to future developments. By integrating internal expertise with external insights, Faysal Bank aims to make informed, future-ready strategic decisions.

Forward-Looking Statement

As Faysal Bank forges ahead, it remains steadfast in its commitment to sustained growth while navigating the evolving dynamics of the banking industry. The Bank's strategic priorities are anchored in digital transformation, sustainability, and innovation—pillars essential to ensuring long-term success and resilience.

Looking forward, Faysal Bank is set to optimize its supply chain by refining product offerings, broadening digital solutions, and strengthening strategic partnerships. These initiatives aim to foster a rather efficient, customer-centric ecosystem, promoting sustainable growth and delivering value across all sectors. Recognizing the increasing demand for Islamic banking, Faysal Bank is poised to leverage its commitment to innovation and customer-centricity by expanding its digital banking platform, introducing new Shariah-compliant products, and exploring new market opportunities.

While optimistic about these growth prospects, Faysal Bank remains vigilant against potential risks, such as economic volatility, global geopolitical uncertainties, and local regulatory changes, which have an influence on its strategic direction. To address these challenges, the Bank will continue to monitor the external environment closely and adapt its strategies proactively. Additionally, Faysal Bank foresees increased adoption of digital banking solutions, deeper market penetration in underserved regions, and an enhanced focus on SME and consumer financing. These efforts reflect its dedication to providing innovative, accessible, and compliant financial services, strengthening its position as a leader in the Islamic banking sector.

Steps to Encourage Minority Shareholders Participation in AGM

The Bank organises shareholders' meetings in order to have a proper communication with its shareholders, specially the minority shareholders. Each shareholder, irrespective of holding and voting power is important to the Bank. We value them, their concerns, their suggestions and grievances, if any. At each Annual General Meeting (AGM) or Extraordinary General Meeting (EOGM), we ensure a two-way communication with the shareholders, particularly, the minority shareholders.

The notice of all general meetings is published in leading newspapers (in both Urdu and English languages) having circulation all over the Country, placed on the Bank's website and emailed to all shareholders well before the occurrence of the meeting.

All minority shareholders irrespective of their shareholding can appoint proxy, participate through video conference (VC) and

vote through e-voting. They can suggest, propose, comment, record their reservations during the meeting, and enjoy full rights to propose and second any agenda item presented. Shareholders can also actively participate during general meetings in discussions on operations, objectives and future strategy of the Bank. They can always demand the draft minutes of meeting within stipulated time post the event and are privileged to object on any intended major investments, planned acquisitions, mergers and takeovers or any other corporate / capital restructuring.

The Bank always facilitates and ensures shareholders presence while entertaining their requests if feasible and viable. It values and honors their inputs, records their concerns, prepositions, suggestions in minutes and keeps them abreast on the progress and subsequent actions.

Issues raised in the last AGM, decisions taken and their implementation status

The Twenty Ninth Annual General Meeting, scheduled for March 6, 2024, through physically and virtually in compliance with Circular Letter No. SMD/SE/2(20)/2021 dated December 15, 2021, issued by Securities and Exchange Commission of Pakistan.

1. Transmission of Annual Audited Financial Statements / Annual Report to the Shareholders through QR Enabled Code and Weblink.
2. Approved the amount of remuneration paid to the Non-Executive/Independent Directors of FBL during the year 2023 for attending the Board/Sub-Committees Meetings.

Summary of Analyst Briefing

Regular interactive sessions between the management of the Bank and the investor community are an excellent opportunity for the former to apprise the latter about the business environment of the country, discuss its financial performance, competitive landscape and future prospects.

The sessions are conducted with the objective of ensuring timely and equitable distribution of information to all concerned, and to give the right perspective of the business affairs of the Bank to the investors – existing and potential – to assist in investment decision-making.

The Bank's latest Corporate Briefing Session was held based on December 31, 2024 results. The CFO presented a detailed analysis of Bank's performance along with future outlook. The session was followed by a Q & A session.

The presentation of the CBS can be accessed in the Investor Relations section of the Bank's website.

Redressal of Investors' Complaints

The Bank maintains an Investor Relations page on its corporate website where contact details for the designated officer responsible for assisting and handling shareholders' grievances are provided. The representative is actively involved in addressing complaints received from any regulatory forum, with dedicated resources allocated to

ensure effective and efficient resolution. Investors seeking to address their concerns and complaints can visit the Investor Relations page on our website. The Bank is steadfast in its commitment to resolving grievances within the prescribed statutory timelines.

Directors' Report

Unconsolidated Financial Statements

On behalf of the Board of Directors, we are pleased to present the Directors' Report of Faysal Bank Limited ("FBL" or "the Bank") along with Audited Financial Statements and the Auditors' Report thereon for the year ended December 31, 2024.

Company Profile

FBL was incorporated in Pakistan on October 03, 1994, as a public limited company and its shares are listed on Pakistan Stock Exchange. FBL offers a wide range of Islamic banking services to all customer segments, i.e., Retail, Small & Medium Sized Enterprises, Commercial, Agri-based, and Corporate.

The bank surrendered its conventional banking license on 31 December 2022 and effective 01 January 2023 began operations under an Islamic Banking License issued by the State Bank of Pakistan. Its footprint spreads over 340 cities across the country with 855 branches offering sharia-compliant banking services.

Holding Company

Ithmaar Bank B.S.C (closed), a banking entity regulated by the Central Bank of Bahrain, is the parent company holding directly and indirectly 66.78% (2023: 66.78%) of the Bank's shares. Ithmaar Bank B.S.C. (closed) is a wholly owned subsidiary of Ithmaar Holdings B.S.C. Dar Al-Maal Al-Islami Trust (DMIT) is the holding entity of Ithmaar Holding B.S.C. and the ultimate parent Company of the Bank. DMIT was formed by an indenture under the laws of the Commonwealth of The Bahamas for the purpose of conducting business affairs in conformity with Islamic law, principles, and traditions.

Economic Update

The global economic landscape in 2024 presented a mixed outlook. While growth persisted, it did so at a slower pace. The US economy demonstrated resilience, with solid consumer spending and a healthy job market. However, inflation remained a persistent challenge, with core inflation proving sticky. In Europe, economic growth showed signs of slowing, while concerns over China's economic recovery intensified.

On the domestic front, agricultural credit disbursement saw substantial growth during the first five months of the current fiscal year. This positive trajectory aligns with the ambitious targets set for the fiscal year. Additionally, increase in agricultural machinery imports underscores a clear focus on modernizing farming practices and improving sector efficiency. Meanwhile, the Large-Scale Manufacturing (LSM) sector recorded a marginal decline of 0.64% during Jul-Oct FY2025, a marked improvement compared to the 2.21% contraction in the same period last year.

Inflation trends offered some relief during the second half of 2024. The Consumer Price Index (CPI) averaged 7.3%, a significant reduction from 18.97% in the first half of the year. This improvement was driven by stable food prices, effective fiscal consolidation leading to a fiscal surplus, a current account surplus supported by higher exports and remittances, and an accommodative monetary policy. SBP expects the average inflation to remain between the range of 5.5% to 5.7% in FY 25.

The government's fiscal performance in Q1 FY2025 surpassed expectations, particularly the targets agreed upon with the IMF. The primary budget surplus reached Rs 3,202 billion, significantly exceeding the target of Rs 198 billion. Even excluding a one-time transfer of Rs 2,500 billion from the State Bank of Pakistan, the primary surplus stood at Rs 702 billion, reflecting strong fiscal discipline.

The Monetary Policy Committee (MPC) in its latest announcement reduced the policy rate by 100 bps to 12% in line with market expectations. This was in the backdrop of a continued downward trend in inflation driven by moderate domestic demand conditions, supportive supply-side dynamics and a favorable base effect. The MPC assessed that the impact of the significant reduction by 1,000 bps in the policy rate since June 2024 will continue to unfold and further support economic activity. Risks to the future path of interest rates include missing tax revenues target of the H1-FY25 despite a substantial increase in December tax collection, heightened volatility in global oil prices over the past few weeks and lastly the global economic policy environment has become more uncertain, prompting central banks to adopt a cautious approach. Considering these developments and evolving risks, the Committee viewed that a cautious monetary policy stance is needed to ensure price stability, which is essential for sustainable economic growth. In this regard, the MPC assessed that the real

policy rate needs to remain adequately positive on a forward-looking basis to stabilize inflation in the target range of 5% to 7%.

The stock market has once again shown exceptional performance throughout 2024. The KSE100 Index gained 84% and was recognized as the world's best-performing stock market in 2024 by Bloomberg.

The Current Account also posted a surplus of USD 912 million in CY2024 compared to a deficit of USD 825 million in the previous year, reflecting a significant improvement in trade balance. Exports increased by 10.63%, reaching USD 40.1 billion compared to USD 36.3 billion in the previous year. Imports grew by 14.9% to USD 66.6 billion from USD 57.9 billion. Consequently, the trade deficit widened to USD 26.4 billion from USD 21.6 billion last year. The PKR remained relatively stable, hovering around the 280 mark throughout the year.

Bank's Performance

The bank's success story continued in 2024, being the second year of operations as a full-fledged Islamic bank. The focus remained on expanding branch network to increase customer reach, leverage technology to provide digital solutions to customers, controlling cost to improve return to the shareholders, improving customer service experience and proactively managing risks in challenging economic environments.

In 2023, the Board approved the establishment of Faysal Islami Currency Exchange Company (Private) Limited, a wholly owned subsidiary of FBL. The bank injected initial paid-up capital of PKR 1 billion during the year. The company received its "Certificate of Incorporation" from SECP on January 16, 2024, and obtained an operational license from SBP on March 26, 2024.

Furthermore, the Bank adopted International Financial Reporting Standard (IFRS) 9 "Financial Instruments" effective from January 1, 2024, the impact is given in note 6.4 of financial statements.

A detailed review of the Bank's performance is given in the following paragraphs:

Financial Performance

Key Balance Sheet Numbers

	2024	2023	Growth
	Rs. in million		%
Investment	677,372	589,545	14.9%
Financing – net	633,910	580,711	9.2%

Earnings per share (Rupees)	15.17	13.21	14.9%

Financial Excellence in 2024: A Testament to Resilience

With unwavering commitment to excellence, the Bank has sustained excellent financial performance and achieved unprecedented growth. Despite numerous challenges, the Bank has consistently proven its resilience and strength, celebrating the milestone of reaching the highest-ever profit. On a standalone basis, FBL has achieved a record-breaking Profit Before Tax (PBT) of PKR 50.4 billion, 21.7% higher than PKR 41.4 billion in the last year. The increase in Profit After Tax (PAT) was, however, restricted to 14.9% at PKR 23.0 billion due to the imposition of an additional income tax of 5%, which raised the tax rate from 49% to 54%. Earnings Per Share increased from PKR 13.21 to PKR 15.17.

During the year 2024, the Bank continued its growth trajectory and increased total revenue by 17.5% over 2023. This growth was fueled by balance sheet expansion, despite a steep decline in policy rate, resulting in a 13.1% YoY increase in net spread earned, taking it to PKR 80.4 billion. This growth was further supported by a PKR 81.7 billion (25.0%) increase in current deposits, strengthening the bank's funding base.

Non-Fund income grew by 43.5% over last year and was at PKR 17.4 billion in 2024. Fee income saw an uptick of 23.0%, to PKR 10.5 billion, with significant contributions from trade and remittance business solidifying the Bank's foothold in these key businesses. Trade and remittance volumes registered an exponential increase compared to last year. Consequently, FX income maintained strong momentum, growing by 12.0%, to PKR 5.3 billion. Dividend income also increased by 23.6%, to PKR 0.4 billion, while a positive swing of PKR 3.0 billion YoY in capital gains was achieved, benefiting from the positive trajectory of the PSX.

The bank's total expenses increased by 22.0% over 2023, driven by inflation and an expanding branch network. While non-fund income grew significantly by 43.5%, the growth in net spreads was limited to 13.1% due to a sharp decline in the policy rate. This, in turn, impacted on the cost-to-income ratio, which increased from 49.1% in 2023 to 51.0% in 2024. There is a net reversal of PKR 2.5 billion in provisions compared to a charge of PKR 0.9 billion last year. The NPL ratio continued to reduce and is at 3.6% as compared to 3.8% last year due to an increase in financing. The total coverage stands at 101.2%.

The bank's total assets grew to PKR 1.6 trillion, driven by strong deposit mobilization and increase in financing from Financial Institutions. The positive trend in Current Accounts continued, growing to PKR 408 billion i.e., 25.0% growth over December 2023. Growth in total deposits was restricted to 2.6% over December 2023 due to ADR related tax implications. The Current Account (CA) share strengthened to 39.1% from 32.1% in December 2023 while the CASA mix improved to 85.5% from 75.0% in December 2023.

FBL's net financing increased by 9.2% to PKR 634 billion and ADR strengthening to 60.7% at Dec'24 from 57.0% at Dec'23. The liquidity generated from deposits and Due to FI's was deployed in investments and financing. Investments increased by 14.9% and reached PKR 677 billion.

The Bank remains committed to delivering exceptional results and creating sustainable value for all stakeholders. With a solid foundation and a strategic focus on growth, we are confident in our ability to In Sha Allah, achieve new heights in future.

Business Overview

Retail Banking

Retail Banking showcased robust performance in 2024, maintaining total deposits over PKR 1 trillion. The growth in deposits was deliberately restricted to maintain Assets to Deposits Ratio (ADR) over 50%. FBL expanded its branch network by 133, taking the total to 855 branches, and serving over 1.73 million customers.

In alignment with our retail banking focus, FBL not only launched but also enhanced several innovative, Shariah-compliant products and services to meet evolving customer needs as follows:

1. **Faysal Islami Khushaal Kisaan Account:** Designed for agriculturists; this product offers free transactional banking, financing options, and discounts on lockers and consumer finance. In less than a year, it has gained significant traction, highlighting the untapped potential in this segment.

2. **Faysal Islami IT Exporter and Freelancer Account:** Tailored for freelancers, this account provides exclusive benefits including discounts, a dedicated FCY debit card, access to co-working spaces, and enhanced transactional convenience, catering to a growing segment of Pakistan's workforce.
3. **Roshan Digital Account (RDA):** FBL continued supporting the Government of Pakistan and the State Bank of Pakistan's RDA initiative. In 2024, the RDA portfolio maintained a positive trajectory, with a 8% increase in deposits and 30% growth in financing, reflecting the growing demand for user-friendly digital banking solutions for Non-Resident Pakistanis.
4. **Faysal Priority Banking:** Priority banking achieved significant growth in deposits during 2024, reflecting a strong upward trend. Additionally, the modernization of Faysal Priority Lounges began at flagship branches to provide an elevated and exclusive customer experience.
5. **Wealth Management:** Wealth Management achieved strong growth in Assets Under Management (AUM), driving over 50% revenue growth. The introduction of personalized, Shariah-compliant investment products reinforced FBL's customer-centric approach. Two General Takaful products were launched: Jubilee Takaful Secure Drive, a motor Takaful plan with zero depreciation on auto parts, and EFU Mehfooz Ghar Takaful Plan, a house Takaful, offering high coverage limits.

FBL continued to deepen and strengthen its brand as Pakistan's premier Islamic bank through a focused, multi-faceted marketing strategy. By leveraging innovative campaigns, strategic partnerships, and targeted customer engagement, FBL enhanced its Islamic banking identity while positioning itself as a modern, accessible, and ethical financial institution. A key highlight of the year was the launch of a new thematic corporate advertising campaign, aired during high-impact occasions such as Ramadan, the PSL, and the T20 World Cup. These campaigns resonated strongly with audiences, further solidifying FBL's brand recognition. The Bank's unaided awareness has grown threefold since 2020. The Bank's commitment to building its brand was recognized by the marketing fraternity, earning FBL the prestigious Dragons of Pakistan Advertising Silver Award in the Best Brand Building/Awareness category. Moving forward, we remain focused on building stronger, more inclusive financial solutions to serve every segment of society.

Agriculture Financing

In 2024, Agriculture Financing demonstrated significant progress in promoting financial inclusion and innovation in rural banking. It actively participated in regulatory subsidized schemes including Prime Minister's Youth Business & Agriculture Loan Scheme (PMYB&ALS), Islamic Financing Facility for Storage of Agri Produce (IFFSAP), Markup Subsidy and Risk Sharing Scheme for Farm Mechanization (MSRSSFM). Despite the challenges of higher financial cost and economic volatility, Agri Business portfolio grew by 23% while maintaining the credit quality. FBL also organized regular awareness sessions and financial literacy programs for farmers, facilitating education and account openings. Additionally, the launch of the Khushaal Kisaan Account further reinforced financial inclusion within the farming community.

Commercial Banking and Small Medium Enterprises (CBSME)

FBL has made substantial strides in CBSME over the past few years, driven by strategic initiatives such as the Branch Led Model (BLM) and the Hub and Spoke Model. The BLM model empowers the branches to actively manage SME/Commercial - related activities (asset booking & trade services). In addition, the Hub and Spoke Model allows for creation of hubs in major commercial markets across the country to handle SME/Commercial Business concentrations. Despite prevailing economic conditions, CBSME team on-boarded top-tier clients across key sectors including Chemicals, Automobiles, Electronics, Pharma, FMCG, Commodities and other manufacturing. The trade business grew by 88% and the Asset book surpassed the PKR 100 billion milestone.

FBL continues to prioritize innovation in SME product suite, working on solutions like program-based financing, cluster-based financing, trade finance solutions, value-chain financing, and digital financing solutions. Notably, FBL introduced a Supply Chain Finance (SCF) product program to strengthen SME supply chains. These initiatives have enhanced FBL's market

presence, deepened structural penetration, and boosted its ability to serve SMEs effectively. Moving forward, FBL aims to expand its offerings, increase market reach, and equip SMEs with the tools necessary for sustainable growth and success.

Corporate and Investment Banking Group (CIBG)

CIBG had another good year, marked by sustained growth in its corporate financing book of 6.6% and total trade volumes increasing by 42%. The group upheld its commitment to responsible lending practices, ensuring a well-balanced and diversified portfolio. CIBG also strengthened its portfolio by establishing and enhancing strategic relationships with prominent MNCs, FMCGs, and leading local conglomerates. By offering customized solutions tailored to the unique needs of its corporate clients, CIBG continued to excel in providing corporate and investment banking services, transaction banking products, and specialized tools for managing foreign exchange and market risks.

The remittance business demonstrated outstanding growth, achieving a 71% year-on-year increase, compared to the industry's overall growth of 31%. FBL displayed remarkable resilience in the market, with its market share rising from 4.6% to 6.0%. FBL remains committed to investing in cutting-edge technology and developing human capital to ensure that overseas Pakistanis and their beneficiaries continue to benefit from best-in-class remittance solutions. This commitment will drive the sustained growth of overall remittances into Pakistan through legal channels.

The Transaction Banking segment delivered an outstanding performance in 2024, driven by strong growth in both the Employee Banking and Cash Management businesses. The Employee Banking unit recorded a 16% year-on-year increase in the number of accounts, while its volume more than doubled compared to the previous year. This growth highlights the unit's commitment to offering tailored financial solutions for employees, improving engagement and operational efficiency. Similarly, the Cash Management unit delivered impressive results, with collection and payment throughput volumes increasing significantly. The number of mandates also increased by 27% year-on-year. These achievements reflect the Transaction Banking segment's continued success in delivering innovative and efficient solutions that address the diverse needs of corporate clients and contribute significantly to the Bank's overall growth.

During 2024, FBL investment banking group continued its position as one of the most active market players by successfully leading and closing multiple syndicated and capital market transactions aggregating in excess of PKR 50 billion across various sectors including power, telecommunication, oil and gas exploration, infrastructure, etc. The Bank remains committed towards cleaner environment and exclusively led arrangement and advisory of renewable energy mandates of more than 30 MW. Investment Banking has been awarded two prestigious global awards i.e. Water Deal of the Year – Pakistan and Telecom Deal of the Year – Pakistan by The Triple A Assets.

Consumer Banking

Consumer Banking demonstrated strong resilience in navigating through a challenging business environment, maintaining stability amidst external pressures. The overall consumer portfolio grew by 13% in 2024, a turnaround from the 3% decline in 2023, crossing PKR 50 billion milestone. This performance highlights the Bank's effective management, strategic adaptability, and its ability to drive significant growth despite external challenges.

Noor Card is one of the key contributors in this success. Solicited over 66,000 new customers in 2024, marking a 24% increase. Noor card's popularity is further demonstrated by a remarkable 45% growth in spending, reaching PKR 116 billion. This success highlights the Bank's commitment to providing financial solutions that align with ethical principles.

Treasury

Treasury demonstrated a strong performance across segments during 2024. In the foreign exchange business, volumes and profitability were successfully enhanced by aggressively expanding Trade business. The Bank benefited from expanded clientele, strong client relationships and strategy to provide competitive pricing to obtain volumes. In response to an improving macroeconomic environment and subsequent reduction in interest rates, Treasury prudently positioned its GOP Ijara Sukuk portfolio to maximize accrual income and enhanced allocation towards long term instruments. The equity trading desk leveraged the improving economic and political outlook to rebalance the portfolio and maximize returns.

Information Technology

In 2024, the Bank made significant stride on Information Technology front and enhanced the bank's technological infrastructure. A major highlight was the successful upgrade of the Core Banking System (CBS) to CBS9, which improved system performance, scalability, and functionality. Other milestones included the pilot launch of revamped mobile banking application with advanced security features, an AI powered call center system for improved customer support, and the replacement of the legacy CRM system with a modern and efficient solution. Strategic initiatives such as WhatsApp Banking and Unison CRM, and AI driven tools like intelligent chatbot, further elevated customer engagement and operational efficiency.

The bank has also prioritized adopting best-in-class security practices. It is actively working toward achieving ISO 27001 certification for its Information Security Management System (ISMS) and PCI DSS certification for its Payment Card Platforms. These certifications reinforce the bank's commitment to robust data security and compliance. ISO 27001 Certification ensures enhanced customer confidence by demonstrating strong data security measures, structured risk management practices, compliance with data privacy regulations, and fostering a security-focused culture within the organization. PCI DSS Certification strengthens cardholder data protection, reduces the risk of data breaches, enhances customer trust, ensures legal compliance, and positions the bank as a leader in payment security.

In addition to these initiatives, the bank has maintained full compliance with the SWIFT Customer Security Controls Framework (CSCF) annually, underscoring its dedication to meeting global security standards. Through these advancements and certifications, the bank assures its management and customers of its unwavering commitment to maintaining a secure, efficient, and innovative technological environment.

Digital Banking Group

FBL is a leading innovator in the country, dedicated to enhancing customer experiences through digitization. The Bank focuses on driving continuous innovation in the payments sector with digital solutions, products, and platforms, aiming to establish itself as the #MostInnovativeIslamicBank.

FBL's digital strategy is driven by a 'go-green' philosophy, encouraging paperless payments through digital channels to reduce reliance on traditional payment methods. The bank's digital solutions cater not only to retail customers but also to consumer banking and SMEs, offering both payment and acceptance services.

Faysal Bank's Digital Positioning

During 2024, FBL has embraced a transformative approach in digital-banking, positioning itself amongst the industry leads, not only within the Islamic banking but also as a key digital player in the broader industry.

New initiatives included:

- **"Faysal DigiBank"**, Faysal Bank's flagship app meets the needs of modern customers with advanced features like 'Tap-to-Pay' tokenized transactions, turning your phone into a wallet. From card activation to Noor Card payments, everything is easily managed with a click.
- **"Faysal WhatsApp Banking"**, inarguably the best-in-class WhatsApp Banking solution with an unmatched user-interface and seamless user-journey. A significant milestone was the launch of Peer-to-Peer (P2P) and Peer-to-Merchant (P2M) QR payments via WhatsApp, a first in Pakistan's banking sector. Faysal Bank's WhatsApp banking platform has seen outstanding success, processing over PKR 2.5 billion in transactions.
- **" Internet Payment Gateway (IPG)"**, To support business growth in the eCommerce space, Faysal Bank launched its payment gateway services, allowing retail businesses to accept debit and credit card payments and unlocking new opportunities for growth.

- **“Point-of-Sale (POS) Merchant Acquiring”**, offered point of sale terminals for Retail and SME businesses enabling the acceptance of cash less payments, promoting the regulatory agenda of payment digitization.
- **“Faysal Bank Cash Deposit / Digital Kiosks”**, promoting the self-serve digital concept thereby allowing customers to walk-in to the Branch and deposit their cash without having to wait at the counter. The service was immensely successful and in the 12 months of its launch, over PKR 16 Billion deposited through these Digital Kiosks.
- **“ATMs”**, with a footprint of over 800+ ATMs, FBL offers market-first features like Smart Withdrawal and an Enhanced User Interface, delivering the best user experience in the industry

Human Resource

At FBL, we firmly believe that our employees are the cornerstone of building a sustainable, progressive, and productive organization. In 2024, the Bank maintained its unwavering focus on enhancing customer experiences by emphasizing customer-centricity in all operations. To achieve this objective, FBL introduced two flagship programs, "Serving with Joy" and "Elevating Customer Care", tailored specifically for pan-bank front-end staff. These programs underscored the significance of delivering exceptional service and reinforced the Bank's commitment to providing outstanding customer care across all touchpoints.

Leadership development was a key priority for the Bank in 2024. To strengthen organizational growth and align with global best practices, the senior management team participated in the prestigious Leadership Executive Training Program, internationally. This intensive program equipped FBL's leaders with advanced skills and strategic insights to foster innovation, enhance collaboration, and guide the Bank toward achieving its strategic objectives.

FBL's dedication to learning and development remained strong throughout the year. In 2024, the Bank conducted training sessions for over 149,500 participants through classroom and eLearning platforms. These sessions covered a wide array of topics, including induction programs, technical skill-building for role-specific requirements, Islamic banking expertise, sales and service transformation, and leadership development. To further expand development opportunities, FBL continued its partnerships with LUMS, NIBAF, and the Institute of Business Administration – Center for Islamic Finance (IBA-CIEF). Through these collaborations, the Bank offered initiatives such as the Islamic Finance Practitioner Certification Program and the Future Leaders Development Program, designed to position FBL as a leader in the Islamic banking industry in Pakistan. These programs provided employees with comprehensive knowledge of Islamic finance principles and practices while cultivating future leaders for the bank.

As part of its national growth objectives, FBL remained committed to creating employment opportunities. The expansion of the branch network contributed to an increase in the workforce from 8,787 employees in December 2023 to 9,824 in December 2024, reflecting the Bank's ongoing dedication to growth and job creation. The bank takes pride in its achievement of 20% gender diversity, the highest in the Islamic Banking industry.

Risk Management Framework

Risk Management Group (RMG) is organized under the Chief Risk Officer (“CRO”). CRO has been authorized by the Board of Directors (BoD) to implement a Risk Management Framework across the Bank. Note 46 of the financial statements provide details about the risk management framework and discusses the major risks and uncertainties that the Bank is exposed to as well as the ways in which these are managed. Considering the overall economic scenario during the year, the Bank has regularly reviewed its credit management practices by holding regular committee meetings, ensuring a proactive approach to monitoring the credit portfolio and assessing the potential impact of any emerging stress variables.

Environmental Stewardship

The Bank has developed and implemented a comprehensive ‘Green Banking Policy’ aimed at inculcating environmental & social consciousness both within the Bank and among its clients. The Policy includes:

- **Extending financing facilities** to the customers based on Environmental & Social Risk Management framework.
- Guidelines on adopting environment friendly **policies and practices** across the Bank's operations.
- **Raising awareness** among the customers about the importance of adopting sustainable and environmentally responsible practices.

During the year, the Board of Directors also constituted a Sustainability & Development Committee to oversee and drive the Bank's sustainability agenda, ensuring that environmental and social considerations are integrated into decision-making processes across the Bank.

Environmental and Social Risk Management

FBL has developed and implemented an Environmental & Social Risk Management (ESRM) framework – in line with the Environmental & Social Risk Management Implementation Manual for FIs issued by the SBP. ESRM framework includes implementation of an Environmental & Social Risk Rating (ESRR) model to conduct risk categorization of borrowing customers and gauge the environmental & social impact of financing operations. Additionally, the Bank has conducted a thorough Environmental & Social Risk Assessment of its Corporate financing book and developed sector-specific strategies to guide the approval of advances, ensuring alignment with sustainability goals.

Environmental and Social Consciousness

A training module that explains the concepts of green banking, key pillars of Faysal Bank's green banking policy, and imparts awareness on the environmental & social issues has been included in the orientation pack for new employees to help instill environmental & social consciousness.

Additionally, various training programs have also been launched for senior management, as well as the Business and Risk teams involved in Environmental & Social Risk Assessment. These programs, which include both online and in-person sessions, are designed to build capacity and ensure the smooth roll-out of the Bank's Environmental & Social Risk Management framework.

Paperless Operations

FBL is aggressively promoting Green Banking initiatives such as digital banking services, subscription to e-statements, and the introduction of new digital solutions like digital account opening, installation of Cash Deposit Machines, and WhatsApp banking. The Bank continues to advocate for paperless options by training branch employees, customer service representatives, and other team members to encourage customers to transition to paperless channels.

Energy Conservation – in Operations & Maintenance

FBL continued to prioritize energy conservation as a key component of its sustainability strategy, with an aim to minimize the environmental impact of its operations. The Bank's energy conservation efforts remained focused on reducing energy consumption across its infrastructure, improving operational sustainability, and optimizing the use of resources in its branches and key buildings. To achieve this objective, the Bank adopted energy-efficient technologies and systems, including the transition to energy-saving lighting, efficient HVAC systems, and the integration of renewable energy solutions such as solar power.

Corporate Social Responsibility (“CSR”) – Impacting Lives Positively

FBL's corporate social responsibility program prioritizes health, diversity, and social inclusion as its top three areas of focus. Waqf Faisal is a recognized non-profit organization (NPO) and FBL provides consistent donations to it to support CSR objectives. Waqf Faisal extends out to reputable non-profit organizations that work in the fields of education, social welfare,

environment, and health care. The Bank contributed an amount of PKR 141 million in the year 2024 and is committed to make a positive impact on society, while maintaining sustainable and responsible business practices.

Awards for Excellence – Recognitions that inspire

FBL was named "Employer of Choice – Gender Diversity Award" by International Finance Corporation and the Pakistan Business Council, and "Best Islamic Retail Bank for Consumer Financing" by Islamic Retail Banking Awards. These recognitions and awards are a testament to the strategic brilliance of our Board of Directors, Senior Management and the hard work and perseverance of our employees. This demonstrates that FBL is headed in the right direction toward realizing the goal of becoming Pakistan's premium Islamic bank.

Dividend

The Board of Directors, in the meeting held on February 20, 2025, has recommended a final cash dividend of Rs. 2.5 per share (25%) for the year ended December 31, 2024. This is in addition to Rs. 4.5 already paid during the year bringing the total dividend for the year to Rs. 7 per share (2023: Rs. 4.0/-).

Positioned for a Resilient future: Navigating Challenges with Confidence

Looking forward, we are cognizant of the intense competition in financing and the expected compression in spreads due to decline in the policy rate and introduction of Minimum Deposit Rate (MDR) on saving accounts of Islamic banks. Despite these pressures, through FBL's prudent financial management, Insha'Allah, the Bank will be able to navigate these challenges and sustain growth.

As part of our strategic vision, the Bank is committed to expanding its branch network to drive deposit growth and improve customer reach. Simultaneously, we are focused on improving customer experience through streamlined processes and by investing in cutting-edge digital solutions that will elevate our digital offerings and enrich overall customer journey.

In line with our focus on long term sustainability, we will continue to invest in our workforce, fostering an environment that upholds our core values of Faith, Integrity, Teamwork, Innovation, and Care. Our focus on sustainability goes towards reducing our environmental impact, along with creating a positive difference in the communities we serve. By prioritizing these principles, we aim to strengthen our position in the market and better serve the evolving needs of our customers in the years ahead.

Corporate Governance

The Bank is fully compliant with the requirements of the Listed Companies (Code of Corporate Governance) Regulations, 2019 (hereinafter called 'the Code'). As per the requirement of Regulation 36 of the Code, a Statement of Compliance with the Code, along with the auditor's review report thereon, forms part of this Annual Report.

Change in Directors

Mr. Abdulla Abdulaziz Ali Taleb resigned from the Board of Directors effective March 31, 2024. The Board acknowledges and appreciates his valuable contributions during his tenure.

The Board of Directors

The Bank's Board comprises of a mix of individuals representing shareholding institutions, independent directors and President & CEO of the Bank. All the directors of the Board meet the eligibility criteria laid down under the Companies Act, 2017, the Code, and the Corporate Governance Regulatory Framework, 2021, issued by the State Bank of Pakistan. Directors are elected for a period of three years, upon expiry of which elections are held to appoint a new Board in accordance with the law. Any casual vacancy is filled in as per a well-defined procedure approved by the Board in accordance with the applicable Law.

The total number of the Directors are ten as per the following details:

Gender	Number
Male	8
Female	2

The Board of Directors comprises of the following Members:

Category	Name
Independent Directors	Mr. Ali Munir Ms. Fatima Asad Khan Mr. Mohsin Tariq Ms. Sadia Khan
Non-Executive Directors	Mian Muhammad Younis (Chairman) Mr. Ahmed Abulrahim Mohamed Abdulla Bucheery (Vice Chairman) Mr. Juma Hasan Ali Abul Mr. Imtiaz Ahmad Pervez Mr. Abdulelah Ebrahim Mohamed AlQasimi
Executive Director	Mr. Yousaf Hussain (President & CEO)

1	Ms. Sadia Khan	Chairperson	Independent Director
2	Mr. Abdulelah Ebrahim Mohamed AlQasimi	Member	Non-Executive Director
3	Mr. Yousaf Hussain	Member	Executive Director

Board Sustainability & Development Committee

Recognizing the growing importance of sustainable business practices, the Board of Directors constituted the Sustainability & Development Committee during the year to provide strategic oversight and direction for the Bank's sustainability agenda. The Committee convened twice during the year and has been entrusted with supervising initiatives aimed at advancing the Bank's commitments to environmental, social, and governance (ESG) priorities. These include efforts to reduce the Bank's environmental impact, Corporate Social Responsibility (CSR) programs, Diversity, Equity & Inclusion (DEI) initiatives, and the implementation of the Banking on Equality framework to promote financial inclusion and equitable opportunities.

The Committee comprises of five members, including two independent directors who bring diverse perspectives - reflecting the Bank's commitment to inclusivity and sustainable growth. The Chairperson of the committee is a non-executive director. The Committee comprises of the following Board members:

S. No.	Name	Status	Category
1	Mian Muhammad Younis	Chairman	Non-Executive Director
2	Mr. Abdulelah Ebrahim Mohamed AlQasimi	Member	Non-Executive Director
3	Ms. Fatima Asad Khan	Member	Independent Director
4	Ms. Sadia Khan	Member	Independent Director
5	Mr. Yousaf Hussain	Member	Executive Director

Meetings of the Board

The record of the Board meetings held during the year and attended by the Directors is included separately in this Annual Report.

Shariah Board

The details relating to Shariah Board held during the year and attended by its members is included separately in this Annual Report.

Performance Evaluation of Board of Directors

In line with the best practices of the corporate governance, FBL's Board, since 2012 has conducted self-evaluation exercise on an annual basis by engaging Pakistan Institute of Corporate Governance (PICG), as an external facilitator. PICG is the lead on Corporate Governance and has a team of consultants to conduct board evaluations for companies and banks. SBP's Guidelines on Performance Evaluation of Board of Directors were implemented in August 2016 and subsequently, FBL's Board in compliance thereof conducts its self-evaluation every year by engaging PICG. The evaluation covers various aspects of the performance of the Board including but not limited to: Board's role, Committees' performance, Training, Strategy, Risk Management, and Board Meetings. The evaluation covered:

- The Board as a whole
- Individual Directors (Independent, Non-Executive and CEO)
- Board Committees

The evaluation was carried out using quantitative method, based on subjective assessment, and was conducted via questionnaires developed by the consultants in conformance with the State Bank of Pakistan's Guidelines on Performance Evaluation of Board of Directors. The quantitative technique has the advantage of being specific and measurable. Measurement scale used in FBL's Board evaluation is the summated rating on a scale of 1-10 depending on how strongly they agree or disagree with a given statement. The use of this method ensures specific and measurable data that can be benchmarked over time.

Remuneration Policy

Disclosures relating to Remuneration Policy as required under BPRD Circular 1 of 2017 dated January 25, 2017, are included separately in this Annual Report.

Statement of Internal Control

The Board of Directors fully recognize its responsibility to ensure that a system of sound internal controls is established, fully implemented and maintained at all levels within the Bank. The Board is pleased to endorse the statement made by the management relating to internal controls. The system of internal controls is sound in design and has been effectively implemented and monitored. The management's statement on internal controls is included in this Annual Report.

Pattern of Shareholding

The pattern of shareholding and categories of shareholders of the Bank as of December 31, 2024 is separately presented in this Annual Report.

Related Party Transactions

The related party transactions are shown in note 44 of the financial statements.

Credit Rating:

VIS Credit Rating Company Limited (VIS) and Pakistan Credit Rating Agency Limited (PACRA) have re-affirmed the following entity ratings:

Long-Term AA

Short-Term A1+

PACRA has assigned a 'Stable' outlook, while VIS has upgraded the outlook to 'Positive'.

Auditors

The present auditors, KPMG Taseer Hadi & Co., Chartered Accountants, will retire on the date of the Annual General Meeting and are eligible for re-appointment. The Board's Audit and Corporate Governance Committee in its meeting held on February 18, 2025 has recommended re-appointment of KPMG Taseer Hadi & Co., Chartered Accountants, as the auditor of the Bank for the year 2025. Accordingly, the Board of Directors, on the recommendation of the Board Audit Committee, recommends the re-appointment of KPMG Taseer Hadi & Co., Chartered Accountants, as the auditors of the Bank for the financial year 2025.

Subsequent Events

No material changes or commitments affecting the financial position of the Bank have occurred between the end of the financial year of the Bank and the date of this report, other than disclosed in the financial statements.

Heartfelt Thanks: Acknowledging Our Pillars of Strength

On behalf of the Board and Management, we extend gratitude to our esteemed shareholders for their unwavering support. We are indebted to our customers who continue to trust us with their business. We would like to place on record our appreciation for the Government of Pakistan, the State Bank of Pakistan and the Securities and Exchange Commission of Pakistan for their continued support and guidance and for developing and strengthening the banking and financial services sector through continuous improvement in the regulatory and governance framework.

As always, we would also like to express sincere appreciation for the Shariah Board. We would also like to take this opportunity to recognize and commend the unwavering commitment and exceptional efforts extended by our employees in driving the growth of FBL. We extend our heartfelt thanks to them for their relentless dedication and hard work.

Approval

In compliance with the requirement of the Companies Act, 2017, this Directors' Report, with the recommendations of the Board Audit and Corporate Governance Committee, has been approved by the Directors in their meeting held on February 20, 2025 and signed by the Chief Executive Officer and a director.

بورڈ کے اجلاس

سال کے دوران منعقد ہونے والی بورڈ میٹنگز اور ڈائریکٹرز کی شرکت کا ریکارڈ اس سالانہ رپورٹ میں الگ سے شامل کیا گیا ہے۔

شریعہ بورڈ

اس سالانہ رپورٹ میں شریعہ بورڈ سے متعلق تفصیلات اور سال کے دوران منعقد اجلاس اور اس کے ممبران کی شرکت کی تفصیل دی گئی ہے۔

بورڈ آف ڈائریکٹرز کی کارکردگی کا جائزہ

کارپوریٹ گورننس کے بہترین طریقوں کے مطابق، FBL کے بورڈ نے 2012 سے پاکستان انسٹیٹیوٹ آف کارپوریٹ گورننس (PICG) کو ایک بیرونی سہولت کار کے طور پر شامل کر کے سالانہ بنیادوں پر خود تشخیصی مشق کا انعقاد کیا ہے۔ پی آئی سی جی کارپوریٹ گورننس میں سرفہرست ہے اور اس کے پاس کنسلٹنٹس کی ایک ٹیم ہے جو کمپنیوں اور بینکوں کے لیے بورڈ کی تشخیص کرتی ہے۔ بورڈ آف ڈائریکٹرز کی کارکردگی کی تشخیص سے متعلق SBP کے رہنما اصول اگست 2016 میں نافذ کیے گئے تھے اور اس کے بعد، FBL کا بورڈ اس کی تعمیل میں PICG کو شامل کر کے ہر سال اپنی خود تشخیص کرتا ہے۔ جائزے میں بورڈ کی کارکردگی کے مختلف پہلوؤں کا احاطہ کیا جاتا ہے اس میں بورڈ کا کردار، کمیٹیوں کی کارکردگی، تربیت، حکمت عملی، رسک مینجمنٹ اور بورڈ اجلاس شامل ہیں۔ جائزے میں درج ذیل کا احاطہ کیا گیا:

شمار نمبر	اسماء گرامی	عہدہ	کیٹیگری
1	جناب احمد ابوالرحیم محمد عبداللہ پٹیری	چیئر مین	نان ایگزیکٹو ڈائریکٹر
2	جناب جمعہ حسن علی ابول	رکن	نان ایگزیکٹو ڈائریکٹر
3	جناب محسن طارق	رکن	آزاد ڈائریکٹر
4	محترمہ فاطمہ اسد خان	رکن	آزاد ڈائریکٹر
5	محترمہ سعدیہ خان	رکن	آزاد ڈائریکٹر

اسٹریٹیجی کمیٹی

بورڈ کی حکمت عملی کمیٹی بینک کی اسٹریٹیجک سمت کو ترتیب دینے میں بورڈ اور انتظامیہ کی مدد کرتی ہے اور بورڈ کی منظور شدہ حکمت عملیوں کے نفاذ کی نگرانی کرتی ہے۔ کمیٹی چھ ارکان پر مشتمل ہے اور اس کی صدارت ایک نان ایگزیکٹو ڈائریکٹر کرتا ہے جو بورڈ کا چیئر مین بھی ہوتا ہے۔ کمیٹی مندرجہ ذیل بورڈ ممبران پر مشتمل ہے:

شمار نمبر	اسماء گرامی	عہدہ	کیٹیگری
1	میاں محمد یونس	چیئر مین	نان ایگزیکٹو ڈائریکٹر
2	جناب احمد ابوالرحیم محمد عبداللہ پٹیری	رکن	نان ایگزیکٹو ڈائریکٹر
3	جناب جمعہ حسن علی ابول	رکن	نان ایگزیکٹو ڈائریکٹر
4	محترمہ فاطمہ اسد خان	رکن	آزاد ڈائریکٹر
5	جناب امتیاز احمد پرویز	رکن	نان ایگزیکٹو ڈائریکٹر
6	جناب یوسف حسین	رکن	ایگزیکٹو ڈائریکٹر

آئی ٹی کمیٹی

بورڈ کی آئی ٹی کمیٹی اس بات کو یقینی بنانے کے لیے ذمہ دار ہے کہ بینک کے پاس اپنے صارفین کی خدمت اور موثر طریقے سے کام کرنے کے لیے ایک قابل اعتماد، موثر اور محفوظ IT انفراسٹرکچر موجود ہے۔ کمیٹی کے تین ارکان ہیں اور اس کا چیئر مین ایک آزاد ڈائریکٹر ہے۔ کمیٹی مندرجہ ذیل بورڈ ممبران پر مشتمل ہے:

شمار نمبر	اسماء گرامی	عہدہ	کیٹیگری
1	محترمہ سعدیہ خان	چیئر پرسن	آزاد ڈائریکٹر
2	جناب عبداللہ ابراہیم محمد القاسمی	رکن	نان ایگزیکٹو ڈائریکٹر
3	جناب یوسف حسین	رکن	ایگزیکٹو ڈائریکٹر

بورڈ کی کمیٹیاں:

بورڈ کمیٹیوں کی تفصیلات اور ان کے ممبران کے نام درج ذیل ہیں:

آڈٹ اور کارپوریٹ گورننس کمیٹی

بورڈ آڈٹ اور کارپوریٹ گورننس کمیٹی کے چار ممبران ہیں جن کے پاس مالیاتی انتظام کا وسیع تجربہ ہے۔ کمیٹی کا چیئرمین ایک آزاد ڈائریکٹر ہے۔ کمیٹی مندرجہ ذیل بورڈ ممبران پر مشتمل ہے:

شمار نمبر	اسماء گرامی	عہدہ	کیٹیگری
1	جناب علی منیر	چیئرمین	آزاد ڈائریکٹر
2	جناب احمد ابوالرحیم محمد عبداللہ پجیری	رکن	نان ایگزیکٹو ڈائریکٹر
3	جناب جمعہ حسن علی ابول	رکن	نان ایگزیکٹو ڈائریکٹر
4	جناب محسن طارق	رکن	آزاد ڈائریکٹر

رسک مینجمنٹ کمیٹی

بورڈ رسک مینجمنٹ کمیٹی اس بات کو یقینی بنانے کی ذمہ دار ہے کہ بینک کو لاحق تمام خطرات اور غیر یقینی صورتحال کا مناسب انتظام کیا جائے۔ کمیٹی کے چار ممبران ہیں جن کے پاس بینکنگ اور رسک مینجمنٹ کا وسیع تجربہ ہے۔ کمیٹی کا چیئرمین ایک نان ایگزیکٹو ڈائریکٹر ہے۔ کمیٹی مندرجہ ذیل بورڈ ممبران پر مشتمل ہے:

شمار نمبر	اسماء گرامی	عہدہ	کیٹیگری
1	جناب امتیاز احمد پرویز	چیئرمین	نان ایگزیکٹو ڈائریکٹر
2	جناب عبداللہ ابراہیم محمد القاسمی	رکن	نان ایگزیکٹو ڈائریکٹر
3	جناب علی منیر	رکن	آزاد ڈائریکٹر
4	جناب یوسف حسین	رکن	ایگزیکٹو ڈائریکٹر

ریکروٹمنٹ، ٹریننگ، اینڈ ریمونریشن کمیٹی

بورڈ کی ریکروٹمنٹ، ٹریننگ، اینڈ ریمونریشن کمیٹی بینک کے ہیومن ریسورسز کے نظام کا جائزہ لیتی ہے تاکہ اس بات کو یقینی بنایا جائے کہ انسانی وسائل کی حکمت عملی بینک کی ترجیحات کے مطابق ہے۔ کمیٹی میں پانچ ممبران شامل ہیں جو وسیع تجربہ رکھتے ہیں۔ کمیٹی کا چیئرمین ایک نان ایگزیکٹو ڈائریکٹر ہوتا ہے۔ کمیٹی مندرجہ ذیل بورڈ ممبران پر مشتمل ہے:

ڈائریکٹرز میں تبدیلی

جناب عبداللہ عبدالعزیز علی طالب بورڈ آف ڈائریکٹرز سے 31 مارچ 2024 کو مستعفی ہو گئے۔ بورڈ اپنے دور میں ان کی گراں قدر خدمات کو تسلیم کرتا ہے اور ان کی حوصلہ افزائی کرتا ہے۔

بورڈ آف ڈائریکٹرز

بینک کا بورڈ شیئر ہولڈنگ اداروں کی نمائندگی کرنے والے افراد، آزاد ڈائریکٹرز اور بینک کے صدر اور سی ای او پر مشتمل ہے۔ بورڈ کے تمام ڈائریکٹرز کمپنیز ایکٹ، 2017، کوڈ، اور اسٹیٹ بینک آف پاکستان کے جاری کردہ کارپوریٹ گورننس ریگولیٹری فریم ورک، 2021 کے مقرر کردہ اہلیت کے معیار پر پورا اترتے ہیں۔ ڈائریکٹرز کا انتخاب تین سال کی مدت کے لیے کیا جاتا ہے، جس کی میعاد ختم ہونے پر قانون کے مطابق نئے بورڈ کی تقرری کے لیے انتخابات ہوتے ہیں۔ نافذ قانون کے مطابق بورڈ کی طرف سے منظور شدہ اور طے شدہ طریقہ کار کے مطابق کسی بھی وجہ سے خالی ہونے والی جگہ کو پُر کیا جاتا ہے۔

درج ذیل تفصیلات کے مطابق ڈائریکٹرز کی کل تعداد 10 ہے:

صنف	تعداد
مرد	08
خاتون	02

بورڈ آف ڈائریکٹرز مندرجہ ذیل ارکان پر مشتمل ہے:

سیٹگری	اسمائے گرامی
آزاد ڈائریکٹرز	جناب علی منیر محترمہ فاطمہ اسد خان جناب محسن طارق محترمہ سعدیہ خان
نان ایگزیکٹو ڈائریکٹرز	میاں محمد یونس (چیئر مین) جناب احمد ابوالرحیم محمد عبداللہ بھیر (وائس چیئر مین) جناب جمعہ حسن علی ابول جناب امتیاز احمد پرویز جناب عبداللہ ابراہیم محمد القاسمی
ایگزیکٹو ڈائریکٹر	جناب یوسف حسین (صدر سی ای او)

کارپوریٹ سماجی ذمہ داری ("CSR") - زندگیوں میں بہتری لانا

FBL کا کارپوریٹ سماجی ذمہ داری پروگرام صحت، تنوع اور سماجی شمولیت کو ترجیح دیتا ہے کیونکہ اس کے تین اہم شعبوں میں فوکس کیا جاتا ہے۔ وقف فیصل شدہ نان پرافٹ آرگنائزیشن (NPO) ہے اور FBL اسے CSR مقاصد کے لیے مسلسل عطیات فراہم کرتا ہے۔ وقف فیصل نامور این جی اوز تک پھیلا ہوا ہے جو تعلیم، سماجی بہبود، ماحولیات اور صحت کی دیکھ بھال کے شعبوں میں کام کرتی ہیں۔ بینک نے 2024 میں 141 ملین کی رقم CSR کی مد میں تعاون کیا تاکہ پائیدار اور ذمہ دارانہ کاروباری طریقوں کو برقرار رکھتے ہوئے معاشرے پر مثبت اثرات مرتب کرنے کی کوششیں جاری رہیں۔

برتری کے لیے ایوارڈز - متاثر کن حوصلہ افزائی

FBL کو انٹرنیشنل فنانس کارپوریشن اور پاکستان بزنس کونسل کی طرف سے "ایمپلائر آف چوائس" - صنفی تنوع ایوارڈ اور "اسلامک ریلیٹو بینکنگ ایوارڈز کی جانب سے" کنزیومر فنانسنگ کے لیے بہترین اسلامی ریلیٹو بینک "کا ایوارڈ دیا گیا۔ یہ اعزازات اور ایوارڈز ہمارے بورڈ آف ڈائریکٹرز اور ہمارے ملازمین کی سخت محنت اور سینئر مینجمنٹ کی صلاحیتوں کا ثبوت ہیں۔ اس سے ظاہر ہوتا ہے کہ FBL پاکستان کا پریمیم اسلامی بینک بننے کے ہدف کو حاصل کرنے کی طرف صحیح سمت میں گامزن ہے۔

ڈیویڈنڈ

بورڈ آف ڈائریکٹرز نے 20 فروری 2025 کو منعقد ہونے والے اجلاس میں 31 دسمبر 2024 کو ختم ہونے والے سال کے لیے 2.5 فی شیئر 25% کے حتمی نقد منافع منقسمہ کی سفارش کی ہے۔ یہ سال کے دوران ادا کر دیے گئے 4.5 روپے کے علاوہ ہے، اس طرح سال کا کل ڈیویڈنڈ 7 روپے فی شیئر ہو گیا (2023: 4 روپے)۔

پائیدار مستقبل کے لیے تیار: اعتماد کے ساتھ چیلنجز پر قابو پانا

ہم مالیاتی اعانت میں زبردست مقابلے اور پالیسی ریٹ میں کمی اور اسلامی بینکوں کے سیونگ اکاؤنٹس پر کم سے کم ڈپازٹ ریٹ (MDR) متعارف کرانے کی وجہ سے اسپریڈز میں متوقع کمی سے واقف ہیں۔ ان دباؤ کے باوجود، FBL کے موثر مالیاتی نظام کے ذریعے، انشاء اللہ، بینک ان چیلنجز سے نمٹنے اور ترقی کو برقرار رکھنے کے قابل ہو جائے گا۔

اپنے اسٹریٹجک وژن کے حصے کے طور پر، بینک اپنے برانچ نیٹ ورک کو وسعت دینے کے لیے پرعزم ہے تاکہ ڈپازٹ میں اضافہ ہو اور صارفین کی پہنچ کو بہتر بنایا جاسکے۔ اس کے ساتھ ہی، ہم موثر انداز میں جدید ترین ڈیجیٹل سلوشنز میں سرمایہ کاری کے ذریعے کسٹمر کے تجربے کو بہتر بنانے پر توجہ مرکوز کر رہے ہیں جو ہماری ڈیجیٹل آفرز کو بڑھائیں گے اور صارفین کے مجموعی سفر کو مزید تقویت دیں گے۔

طویل مدتی استحکام پر توجہ کے پیش نظر، ہم اپنی افرادی قوت میں سرمایہ کاری جاری رکھیں گے، ایسے ماحول کو فروغ دیں گے جو ایمانداری، دیانت، ٹیم ورک، جدت اور دیکھ بھال کی ہماری بنیادی اقدار کو برقرار رکھے۔ پائیداری پر ہماری توجہ ہمارے ماحولیاتی اثرات کو کم کرنے کے ساتھ ساتھ ان کمیونیٹیوں میں بہتری لانے کی طرف جاتی ہے جہاں ہم خدمت کرتے ہیں۔ ان اصولوں کو ترجیح دینے کا ہمارا مقصد مارکیٹ میں اپنی پوزیشن کو مضبوط کرنا اور آنے والے سالوں میں اپنے صارفین کی بڑھتی ہوئی ضروریات کو بہتر طریقے سے پورا کرنا ہے۔

کارپوریٹ گورننس

بینک لسٹڈ کمپنیز (کوڈ آف کارپوریٹ گورننس) ریگولیشنز، 2019 (جو "کوڈ" کہلاتا ہے) کے تقاضوں کی مکمل تعمیل کرتا ہے۔ کوڈ کے ریگولیشن 36 کے مطابق، کوڈ کی تعمیل کا بیان، آڈیٹر کی جائزہ رپورٹ، اس سالانہ رپورٹ کا حصہ ہے۔

- بینک آپریشنز میں ماحول دوست پالیسیوں اور طرز عمل کو اپنانے سے متعلق رہنما اصول۔
 - صارفین میں پائیدار اور ماحولیاتی ذمہ دارانہ طریقوں کو اپنانے کی اہمیت کے بارے میں بیداری پیدا کرنا۔
- سال کے دوران، بورڈ آف ڈائریکٹرز نے بینک کے پائیداری کے ایجنڈے کی نگرانی اور اسے چلانے کے لیے ایک سسٹم ایسٹبلشمنٹ اینڈ ڈیولپمنٹ کمیٹی بھی تشکیل دی، تاکہ اس بات کو یقینی بنایا جائے کہ ماحولیاتی اور سماجی تحفظات پورے بینک میں فیصلہ سازی کے عمل میں مربوط ہوں۔

ماحولیاتی اور سماجی رسک مینجمنٹ

FBL نے ایک ماحولیاتی اور سماجی رسک مینجمنٹ (ESRM) فریم ورک تیار کیا ہے اور اس پر عمل درآمد کیا ہے جو SBP کی طرف سے جاری کردہ FIs کے لیے ماحولیاتی اور سماجی رسک مینجمنٹ امپلی مینٹیشن مینول کے مطابق ہے۔ ESRM فریم ورک میں ایک ماحولیاتی اور سماجی رسک ریٹنگ (ESRR) ماڈل کا نفاذ شامل ہے تاکہ قرض لینے والے صارفین کی رسک کی درجہ بندی کی جاسکے اور فنانسنگ آپریشنز کے ماحولیاتی اور سماجی اثرات کا اندازہ لگایا جاسکے۔ مزید برآں، بینک نے اپنی کارپوریٹ فنانسنگ بک کا ایک مکمل ماحولیاتی اور سماجی رسک اسسمنٹ کیا ہے اور ایڈوانسز کی منظوری کی رہنمائی کے لیے سیکٹر کے لیے مخصوص حکمت عملی تیار کی ہے تاکہ پائیداری کے اہداف کے ساتھ ہم آہنگی کو یقینی بنایا جائے۔

ماحولیاتی اور سماجی شعور

ایک تربیتی ماڈیول جو گرین بینکنگ کے تصورات کی وضاحت کرتا ہے، فیصل بینک کی گرین بینکنگ پالیسی کے اہم ستون کی صورت میں ماحولیاتی اور سماجی مسائل کے بارے میں آگاہی فراہم کرتا ہے۔ ماحولیاتی اور سماجی شعور پیدا کرنے میں مدد کے لیے اس ماڈیول کو نئے ملازمین کے اور ٹرینیشن پیک میں شامل کیا گیا ہے۔

مزید برآں، سینئر مینجمنٹ کے ساتھ ساتھ ماحولیاتی اور سماجی رسک اسسمنٹ میں شامل برنس اور رسک ٹیموں کے لیے مختلف تربیتی پروگرام بھی شروع کیے گئے ہیں۔ یہ پروگرام، جن میں آن لائن اور ان پرسن دونوں سیشن شامل ہیں، صلاحیت کو بڑھانے اور بینک کے ماحولیاتی اور سماجی رسک مینجمنٹ فریم ورک کے باقاعدہ رول آؤٹ کو یقینی بنانے کے لیے بنائے گئے ہیں۔

پیپر لیس آپریشنز

FBL گرین بینکنگ کے اقدامات مثلاً ڈیجیٹل بینکنگ سروسز، ای اسٹیمینٹ کی سبسکریپشن اور ڈیجیٹل اکاؤنٹ کھولنے، کیش ڈپازٹ مشینوں کی تنصیب اور واٹس ایپ بینکنگ جیسے نئے ڈیجیٹل سلوشن متعارف کروانے کو تیزی سے فروغ دے رہا ہے۔ بینک برانچ کے ملازمین، کسٹمر سروس کے نمائندوں اور ٹیم کے دیگر ممبران کو تربیت دے کر پیپر لیس آپریشن اپنانے کی کوشش جاری رکھے ہوئے ہے تاکہ صارفین کو پیپر لیس چینلز پر منتقلی کی ترغیب دی جاسکے۔

توانائی کی بچت - آپریشنز اور مینٹننس

FBL نے اپنے آپریشنز کے ماحولیاتی اثرات کو کم کرنے کے مقصد سے اپنی پائیداری کی حکمت عملی کے ایک اہم جز کے طور پر توانائی کی بچت کو ترجیح دینا جاری رکھا۔ بینک کی توانائی کے تحفظ کی کوششیں اپنے انفراسٹرکچر میں توانائی کی کھپت کو کم کرنے، آپریشنل پائیداری کو بہتر بنانے اور اپنی شاخوں اور اہم عمارتوں میں وسائل کے استعمال کو بہتر بنانے پر مرکوز ہیں۔ اس مقصد کو حاصل کرنے کے لیے، بینک نے بجلی کی بچت کرنے والی ٹیکنالوجیز اور سسٹم کو اپنایا جس میں بجلی کی بچت والی روشنی، موثر HVAC سسٹم، اور قابل تجدید توانائی کے حل جیسے شمسی توانائی کا انضمام شامل ہے۔

- ”اے ٹی ایمز“ +800 سے زیادہ ATMs کے ساتھ، FBL مارکیٹ میں بہترین سہولیات پیش کرتے ہوئے رقم نکالنے کی آسانی اور بہتر یوزر انٹرفیس کے ذریعے انڈسٹری میں کسٹمرز کا بہترین تجربہ فراہم کرتا ہے۔

انسانی سرمایہ

FBL میں، ہم پختہ یقین رکھتے ہیں کہ ہمارے ملازمین ایک پائیدار، ترقی پسند اور منافع بخش ادارے کی تعمیر کا سنگ بنیاد ہیں۔ 2024 میں، بینک نے تمام آپریشنز میں کسٹمر کو ترجیح دیتے ہوئے صارفین کے اعتماد کو بڑھانے پر غیر معمولی توجہ کو برقرار رکھا۔ اس مقصد کو حاصل کرنے کے لیے، FBL نے دو فلنگ شپ پروگرام ”خوشی سے خدمت“ اور ”کسٹمر کا زیادہ خیال“ متعارف کرائے جو خاص طور پر بینک کے فرنٹ اینڈ اسٹاف کے لیے تیار کیے گئے تھے۔ ان پروگراموں نے غیر معمولی خدمات کی فراہمی کی اہمیت کو اجاگر کیا اور تمام ٹچ پوائنٹس پر شاندار کسٹمر کیئر فراہم کرنے کے لیے بینک کے عزم کو تقویت دی۔

2024 میں بینک میں لیڈر شپ کی ترقی ایک نمایاں ترجیح تھی۔ ادارے میں ترقی کی ترویج اور عالمی بہترین طریقوں سے ہم آہنگ ہونے کے لیے، سینئر مینجمنٹ ٹیم نے بین الاقوامی سطح پر معروف لیڈر شپ ایگزیکٹو ٹریننگ پروگرام میں حصہ لیا۔ اس زبردست پروگرام نے FBL کے لیڈرز میں جدت کو فروغ دینے، تعاون کو بڑھانے اور کاروباری مقاصد کے حصول کے لیے جدید مہارتوں اور اسٹریٹجک بصیرت سے روشناس کرایا۔

FBL میں سیکھنے اور ترقی کے لیے لگن کا ماحول سال بھر جاری رہا۔ 2024 میں، بینک نے کلاس روم اور ای لرننگ پلیٹ فارمز کے ذریعے 149,500 سے زیادہ شرکاء کے لیے تربیتی سیشن منعقد کئے۔ ان سیشنز میں انڈکشن پروگرامز، خاص اسامیوں کے تقاضوں کے لیے تکنیکی مہارت کی تعمیر، اسلامی بینکاری کی مہارت، سیلز اور سروس کی تبدیلی اور لیڈر شپ ڈیولپمنٹ سمیت متعدد موضوعات کا احاطہ کیا گیا۔ ترقی کے مواقع کو مزید وسعت دینے کے لیے، FBL نے NIBAF LUMS اور انسٹیٹیوٹ آف بزنس ایڈمنسٹریشن، سینٹر فار اسلامک فنانس (IBA-CIEF) کے ساتھ اپنی شراکت داری جاری رکھی۔ ان شراکت داریوں کے ذریعے، بینک نے اسلامک فنانس پر کیٹیشنر سرٹیفیکیشن پروگرام اور فیوچر لیڈرز ڈیولپمنٹ پروگرام جیسے اقدامات آفر کئے، جو FBL کو پاکستان میں اسلامی بینکنگ انڈسٹری میں ایک رہنما کی حیثیت دینے کے لیے ڈیزائن کیا گیا ہے۔ ان پروگرامز نے ملازمین کو بینک کے مستقبل کے لیڈرز تیار کرتے ہوئے اسلامی مالیاتی اصولوں اور طریقوں کے بارے میں جامع معلومات فراہم کیں۔

اپنے قومی ترقی کے مقاصد کے پیش نظر، FBL روزگار کے مواقع پیدا کرنے کے لیے پرعزم ہے۔ برانچ نیٹ ورک کی توسیع نے افرادی قوت میں دسمبر 2023 میں 8,787 ملازمین سے دسمبر 2024 میں 9,824 ملازمین تک اضافے میں اہم کردار ادا کیا جو کہ ترقی اور روزگار کی فراہمی کے لیے بینک کی مسلسل لگن کی عکاسی کرتا ہے۔

رسک مینجمنٹ فریم ورک

رسک مینجمنٹ گروپ (RMG) کو چیف رسک آفیسر ("CRO") کے تحت چلایا جاتا ہے۔ CRO کو بورڈ آف ڈائریکٹرز (BoD) نے پورے بینک میں رسک مینجمنٹ فریم ورک کو نافذ کرنے کا اختیار دیا ہے۔ اس مالیاتی گوشوارے کا نوٹ 46 رسک مینجمنٹ فریم ورک کے بارے میں تفصیلات فراہم کرتا ہے اور ان بڑے خطرات اور غیر یقینی صورتحال سے آگاہ کرتا ہے جن کا بینک کو سامنا ہے اور ساتھ ہی ان پر قابو پانے کے طریقوں کی تفصیل بتاتا ہے۔ سال کے دوران مجموعی معاشی صورتحال پر غور کرتے ہوئے، بینک نے باقاعدگی سے کمیٹی کے اجلاس منعقد کئے، کریڈٹ پورٹ فولیو کی نگرانی کے لیے ایک فعال نقطہ نظر کو یقینی بنانے اور کسی بھی ابھرتے ہوئے مسئلے کے ممکنہ اثرات کا جائزہ لے کر اپنے کریڈٹ مینجمنٹ کے طریقوں کا باقاعدگی سے جائزہ لیا ہے۔

ماحولیاتی ذمہ داری

بینک نے ایک جامع ”گرین بینکنگ پالیسی“ تیار کی ہے اور اسے نافذ کیا ہے جس کا مقصد بینک کے اندر اور کسٹمرز میں ماحولیاتی اور سماجی شعور بیدار کرنا ہے۔ اس پالیسی میں شامل ہیں:

- ماحولیاتی اور سوشل رسک مینجمنٹ فریم ورک کی بنیاد پر صارفین کے لیے مالیاتی سہولیات کی توسیع۔

بینک نے بہترین سیکورٹی اقدامات کو بھی ترجیح دی ہے۔ یہ اپنے انفارمیشن سیکورٹی مینجمنٹ سسٹم (ISMS) کے لیے ISO 27001 سرٹیفیکیشن اور اپنے پیمنٹ کارڈ پلیٹ فارمز کے لیے PCI DSS سرٹیفیکیشن حاصل کرنے کے لیے سرگرم عمل ہے۔ یہ سرٹیفیکیشنز مضبوط ڈیٹا سیکورٹی اور عمل درآمد کے بینک کے عزم کو تقویت دیتے ہیں۔ ISO 27001 سرٹیفیکیشن مضبوط ڈیٹا سیکورٹی اقدامات، اسٹرکچرڈ ریسک مینجمنٹ پریکٹسز، ڈیٹا پرائیویسی ریگولیشنز کی تعمیل اور ادارے کے اندر سیکورٹی پر مبنی کلچر کو فروغ دے کر صارفین کے اعتماد میں اضافے کو یقینی بناتا ہے۔ PCI DSS سرٹیفیکیشن کارڈ ہولڈر کے ڈیٹا کے تحفظ کو تقویت دیتا ہے، ڈیٹا کی خلاف ورزیوں کے خطرے کو کم کرتا ہے، قانونی حیثیت کو یقینی بناتا ہے، کسٹمر کے اعتماد کو یقینی بناتا ہے۔

ان اقدامات کے علاوہ، بینک نے SWIFT کسٹمر سیکورٹی کنزولٹ فریم ورک (CSCF) کی ہر سال مکمل تعمیل کو برقرار رکھا ہے جو عالمی سیکورٹی اسٹینڈرڈز کو پورا کرنے کے لیے بینک کی لگن کو اجاگر کرتا ہے۔

ڈیجیٹل بینکنگ گروپ

FBL ملک میں ایک ممتاز ادارے کی حیثیت میں ڈیجیٹلائزیشن کے ذریعے صارفین کے تجربات کو جدید اور باسہولت بنانے کے لیے پر عزم ہے۔ بینک ڈیجیٹل سلوشنز، پروڈکٹس اور پلیٹ فارمز کے ساتھ پیمنٹ کے شعبے میں مسلسل جدت لانے پر توجہ مرکوز کرتا ہے، جس کا مقصد خود کو MostInnovativeIslamicBank # کے طور پر منوانا ہے۔

FBL کی ڈیجیٹل حکمت عملی ”go green“ فلسفے پر قائم ہے، جو ڈیجیٹل چینلز کے ذریعے پیپر لیس ادائیگیوں کی حوصلہ افزائی کرتی ہے تاکہ ادائیگی کے روایتی طریقوں پر انحصار کو کم کیا جاسکے۔ بینک کے ڈیجیٹل سلوشن نہ صرف ریٹیل صارفین بلکہ کنزیومر بینکنگ اور SMEs کو باسہولت ادائیگی اور قبولیت دونوں خدمات پیش کرتے ہیں۔

فیصل بینک کی ڈیجیٹل پوزیشننگ

2024 کے دوران، FBL نے ڈیجیٹل بینکنگ میں ایک تبدیلی کا طریقہ اپنایا ہے تاکہ خود کو انڈسٹری لیڈرز کے درمیان، نہ صرف اسلامی بینکاری کے اندر بلکہ پوری بینکنگ انڈسٹری میں ایک کلیدی ڈیجیٹل کھلاڑی کے طور پر منوایا جائے۔

اس ضمن میں نئے اقدامات میں شامل ہیں:

- ”فیصل ڈیجیٹل بینک“ فیصل بینک کی فلیگ شپ ایپ صارفین کی جدید ضروریات کو پورا کرتی ہے مثلاً ”ٹیپ ٹو پے“ ٹو کنٹیکٹ لیس ٹرانزیکشنز، آپ کے فون کو والٹ میں تبدیل کرنا۔ اس کے ذریعے کارڈ ایکٹویشن سے لے کر نور کارڈ کی ادائیگیوں تک، سب کچھ آسانی سے ایک کلک کے ساتھ ہو جاتا ہے۔
- ”فیصل واٹس ایپ بینکنگ“ بلاشبہ ایک بے مثال یوزر انٹرفیس اور باسہولت طریقے سے بہترین واٹس ایپ بینکنگ سلوشن ہے۔ ایک اہم سنگ میل بیسز ٹو بیسز (P2P) اور بیسز ٹو مرچنٹ (P2M) سے QR ادائیگیوں کا واٹس ایپ کے ذریعے آغاز تھا جو پاکستان کے بینکنگ سیکٹر میں پہلا قدم رہا۔ فیصل بینک کے واٹس ایپ بینکنگ پلیٹ فارم نے 2.5 بلین روپے سے زیادہ کی ٹرانزیکشن سے شاندار کامیابی حاصل کی ہے۔
- ”انٹرنیٹ پیمنٹ گیٹ وے“: (IPG) ای کامرس کے میدان میں کاروباری ترقی کے لیے، فیصل بینک نے پیمنٹ گیٹ وے سروسز کا آغاز کیا، جس سے ریٹیل بزنسز کو ڈیجیٹل اور کریڈٹ کارڈ کی ادائیگی قبول کرنے اور ترقی کے نئے مواقع پیدا کرنے کی اجازت دی گئی۔
- ”پوائنٹ آف سیل (پی او ایس) مرچنٹ ایکوائزنگ“ ریٹیل اور SME بزنسز کے لیے پیش کردہ پوائنٹ آف سیل ٹرمینلز پر کیش لیس ادائیگیوں کو قبول کرنے کے قابل بنانے کے ساتھ ادائیگی کے ڈیجیٹلائزیشن کے ریگولیٹری ایجنڈے کو فروغ دیتا ہے۔
- ”فیصل بینک کیش ڈپازٹ/ڈیجیٹل کیوسک“ سیلف سروس ڈیجیٹل تصور کو فروغ دے کر صارفین کو برانچ میں جانے اور کاؤنٹر پر انتظار کئے بغیر اپنی نقد رقم ڈپازٹ کرنے کی سہولت دیتا ہے۔ یہ سروس بے حد کامیاب رہی اور اس کے آغاز کے 12 مہینوں میں، ڈیجیٹل کیوسک کے ذریعے 16 ارب روپے سے زیادہ ڈپازٹ کئے گئے۔

نتیجے میں قانونی ذرائع سے پاکستان میں مجموعی ترسیلات زر کی مسلسل ترقی کو آگے بڑھایا جائے گا۔

ٹرانزیکشن بینکنگ نے 2024 میں ایک شاندار کارکردگی پیش کی، جس کی وجہ ایسپلائی بینکنگ اور کیش مینجمنٹ دونوں بزنسز میں مضبوط نمو تھی۔ ایسپلائی بینکنگ یونٹ نے اکاؤنٹس کی تعداد میں سال بہ سال 16 فیصد اضافہ ریکارڈ کیا جبکہ اس کا حجم پچھلے سال کے مقابلے میں دو گنا سے بھی زیادہ ہے۔ یہ اضافہ ملازمین کے لیے موزوں مالیاتی حل پیش کرنے، تعلق کو بہتر بنانے اور آپریشنل کارکردگی کے یونٹ کے عزم کو اجاگر کرتا ہے۔ اسی طرح، کیش مینجمنٹ یونٹ نے متاثر کن نتائج فراہم کئے جس میں وصولی اور ادائیگی کے تھروپٹ کے حجم میں نمایاں اضافہ ہوا۔ مینڈیٹس کی تعداد میں بھی سال بہ سال 27 فیصد اضافہ ہوا۔ یہ کامیابیاں ٹرانزیکشن بینکنگ کی جدید اور موثر حل فراہم کرنے میں مسلسل کامیابی کی عکاسی کرتی ہیں جو کارپوریٹ کلائنٹس کی متنوع ضروریات کو پورا کرتی ہیں اور بینک کی مجموعی ترقی میں اہم کردار ادا کرتی ہیں۔

2024 کے دوران، FBL انویسٹمنٹ بینکنگ گروپ نے مختلف شعبوں بشمول پاور، ٹیلی کمیونیکیشن، تیل اور گیس کی تلاش، انفراسٹرکچر وغیرہ میں 50 ارب روپے سے زائد کے متعدد سنڈیکیٹڈ اور کیپٹل مارکیٹ ٹرانزیکشنز کی کامیابی سے قیادت اور فنانشل کلوز کے ساتھ مارکیٹ کے سب سے زیادہ فعال کھلاڑیوں میں اپنی پوزیشن کو برقرار رکھا۔ بینک آلودگی سے پاک ماحول اور خصوصی طور پر 30 میگاواٹ سے زیادہ کے قابل تجدید توانائی کے انتظامات اور ایڈوائزری کے لیے پرعزم ہے۔ ہماری انویسٹمنٹ بینکنگ کو 2 باوقار عالمی ایوارڈز سے نوازا گیا ہے اور دی ٹریل اے ایسٹس کی طرف سے واٹر ڈیل آف دی ایئر۔ پاکستان اور ٹیلی کام ڈیل آف دی ایئر۔ پاکستان ایوارڈ دیئے گئے۔

کنزرویو بینکنگ

کنزرویو بینکنگ نے بیرونی دباؤ کے باوجود استحکام کو برقرار رکھتے ہوئے ایک چیلنجنگ کاروباری ماحول میں ثابت قدمی دکھائی۔ مجموعی طور پر صارفین کے پورٹ فولیو میں 2024 میں 13 فیصد اضافہ ہوا جو کہ 2023 میں 3 فیصد کمی سے واپس بحال ہوا، بزنس نے 50 ارب روپے کا سنگ میل عبور کیا۔ یہ کارکردگی بینک کے موثر انتظام، کاروباری ہم آہنگی، اور چیلنجز کے باوجود نمایاں ترقی دکھانے کی صلاحیت کو نمایاں کرتی ہے۔

نور کارڈ نے کامیابی کے اہم شرکت داروں میں اہم حصہ برقرار رکھا۔ 2024 میں 66,000 سے زائد نئے صارفین کے ساتھ 24 فیصد اضافہ ہوا۔ نور کارڈ کی مقبولیت کا اندازہ اس کے استعمال میں 45% کے غیر معمولی اضافے سے ہوتا ہے جو کہ 116 ارب روپے تک پہنچ گیا ہے۔ یہ کامیابی اخلاقیات کے اصولوں کے مطابق مالیاتی حل فراہم کرنے کے لیے بینک کے عزم کو اجاگر کرتی ہے۔

ٹریڈری

ٹریڈری نے 2024 کے دوران تمام شعبوں میں مضبوط کارکردگی کا مظاہرہ کیا۔ فارن ایکسچینج بزنس میں، ٹریڈ بزنس کو بھرپور انداز میں پھیلانے سے حجم اور منافع کو کامیابی سے بڑھایا گیا۔ بینک کو کلائنٹس کی بڑی تعداد، کلائنٹ تعلقات کی بہتری اور حجم حاصل کرنے کے لیے مسابقتی قیمت فراہم کرنے کی حکمت عملی سے فائدہ ہوا۔ میکرو اکنامک ماحول میں بہتری اور سود کی شرحوں میں کمی کے جواب میں، ٹریڈری نے اپنے سرکاری اجارہ پورٹ فولیو کو سمجھداری سے پوزیشن میں رکھنا تاکہ زیادہ سے زیادہ آمدنی اور طویل مدتی انسٹرومنٹ میں اضافہ کیا جاسکے۔ ایکویٹی ٹریڈنگ ڈیبک نے پورٹ فولیو میں توازن پیدا کرنے اور زیادہ سے زیادہ منافع حاصل کرنے کے لیے معاشی اور سیاسی نقطہ نظر کو بہتر بنانے کا فائدہ اٹھایا۔

انفارمیشن ٹیکنالوجی

2024 میں، بینک کی انفارمیشن ٹیکنالوجی نے تکنیکی انفراسٹرکچر کو بہتر بنانے میں اہم پیش رفت کی۔ ایک اہم خاص بات کور بینکنگ سسٹم (CBS) کو CBS9 میں اپ گریڈ کرنا تھا، جس نے سسٹم کی کارکردگی، اسکیل ایبلٹی اور فعالیت کو بہتر بنایا۔ دیگر کامیابیوں میں جدید ترین سیکورٹی نیچرز کے ساتھ جدید ترین موبائل بینکنگ ایپلی کیشن کا پائلٹ لانچ، بہتر کسٹمر سپورٹ کے لیے AI سے پاورڈ کال سینٹر سسٹم اور ایک جدید اور موثر حل کے ساتھ پرانے CRM سسٹم کو تبدیل کرنا شامل ہے۔ اسٹریٹجک اقدامات مثلاً واٹس ایپ بینکنگ اور یونین CRM اور AI سے چلنے والے ٹولز جیسے انٹیلی جنٹ چیٹ بوٹ، صارفین کے تعلق میں مزید اضافہ اور آپریشنل کارکردگی شامل ہے۔

پارٹنرشپ اور خصوصی کسٹمرز کا فائدہ اٹھاتے ہوئے، FBL نے اپنے آپ کو ایک جدید، قابل رسائی اور باوقار مالیاتی ادارے کے طور پر پیش کرتے ہوئے اپنی اسلامی بینکاری شناخت کو وسیع کیا۔ سال کے دوران ایک اہم تھیمٹک کارپوریٹ ایڈورٹائزنگ سیمینار کا آغاز کیا گیا جو PSL 20 ورلڈ کپ اور رمضان جیسے اہم مواقع کے دوران آن ایئر کی گئی۔ اس سیمینار نے FBL برانڈ کی پہچان کو مزید مستحکم کیا۔ بینک کی آگاہی میں 2020 سے تین گنا اضافہ ہوا ہے۔ اپنے برانڈ کی تعمیر کے لیے بینک کی کوشش کو مارکیٹنگ برادری نے تسلیم کیا، FBL کو بہترین برانڈ بلڈنگ/آگاہی والی کیئر میں مایہ ناز ڈریگنس آف پاکستان ایڈورٹائزنگ سلور ایوارڈ سے نوازا گیا۔ علاوہ ازیں، ہم معاشرے کے ہر طبقے کی خدمت کے لیے مستحکم اور زیادہ مربوط مالیاتی حل پیش کرنے کے لیے کوشاں ہیں۔

زرعی قرضہ جات (ایگری فنانسنگ)

2024 میں، ایگریکلچر فنانسنگ نے دیہی بینکنگ میں مالی شمولیت اور جدت کو فروغ دینے میں اہم پیش رفت کا مظاہرہ کیا۔ اس نے ریگولیٹری سبڈی والی اسکیموں میں فعال طور پر حصہ لیا جن میں پرائم منسٹرز یوتھ بزنس اینڈ ایگریکلچر لون اسکیم (PMYB&ALS) زرعی پیداوار اسٹور کرنے کے لیے اسلامک فنانسنگ سہولت (IFFSAP) مارک اپ سبڈی اور رسک شیئرنگ اسکیم فار فارم میکینائزیشن (MSRSSFM) شامل ہیں۔ مالیاتی لاگت اور معاشی اتار چڑھاؤ کے باوجود، زرعی کاروبار کے پورٹ فولیو میں کریڈٹ کے معیار کو برقرار رکھتے ہوئے 23 فیصد اضافہ ہوا۔ FBL نے کسانوں کے لیے باقاعدہ آگاہی سیشنز اور مالیاتی خواندگی کے پروگرام بھی منعقد کرتے ہوئے معلومات اور اکاؤنٹ کھولنے میں سہولت فراہم کی۔ مزید برآں، خوشحال کسان اکاؤنٹ کے آغاز نے کاشتکار برادری میں مالی شمولیت کو مزید تقویت دی۔

کمرشل بینکنگ اور اسمال میڈیم انٹرپرائزز (CBSME)

FBL نے گزشتہ چند سالوں میں CBSME میں کافی ترقی کی ہے جو کہ برانچ لیڈ ماڈل (BLM) اور جب اینڈ اسپوک ماڈل جیسے اسٹریٹجک اقدامات کے ذریعے ممکن ہوئی۔ BLM ماڈل برانچوں کو SME/کمرشل سرگرمیوں (اثاثہ جات کی بنگ اور ٹریڈ سروسز) کو موثر انداز میں منظم کرنے کا اختیار دیتا ہے۔ اس کے علاوہ، جب اور اسپوک ماڈل سے ملک بھر کی بڑی کمرشل مارکیٹوں میں SME/کمرشل کاروباری شمولیت کے لیے جب فراہم کرنے کی اجازت دیتا ہے۔ موجودہ معاشی حالات کے باوجود، CBSME ٹیم میں کیمیکلز، آٹو موبائلز، الیکٹرونکس، فارما، FMCG کموڈٹیز اور دیگر اہم شعبہ جات کے کلائنٹس شامل ہیں۔ ٹریڈ بزنس میں 88 فیصد اضافہ ہوا اور اثاثوں کی بک نے 100 ارب روپے کا سنگ میل کو عبور کیا۔

FBL نے SME پروڈکٹ سوٹ میں جدت کو ترجیح دینے کا کام جاری رکھا، پروگرام بیسڈ فنانسنگ، کلسٹر بیسڈ فنانسنگ، ٹریڈ فنانس سلوشن، ویلیو چین فنانسنگ اور ڈیجیٹل فنانسنگ سلوشن فراہم کئے گئے۔ خاص طور پر، FBL نے SME سپلائی چینز کو مضبوط کرنے کے لیے سپلائی چین فنانس (SCF) پروڈکٹ پروگرام متعارف کرائی۔ ان اقدامات نے FBL کی مارکیٹ میں موجودگی، نظام میں شمولیت اور SMEs کو موثر طریقے سے سروس دینے کی صلاحیت دینا شامل ہے۔ اس کے علاوہ، FBL اپنی آفرز میں توسیع، مارکیٹ کی رسائی کو بڑھانے اور SMEs کو پائیدار ترقی اور کامیابی کے لیے ضروری ٹولز سے آراستہ کر رہا ہے۔

کارپوریٹ اور انویسٹمنٹ بینکنگ گروپ (CIBG)

CIBG کے لیے ایک اور اچھا سال گزرا، جس کی نشاندہی اس کی کارپوریٹ فنانسنگ بک میں 6.6% کی ترقی اور کل تجارتی حجم میں 42% اضافہ ہوا۔ گروپ نے ایک متوازن اور وسیع پورٹ فولیو کو یقینی بناتے ہوئے قرض دینے کے احتیاطی طریقوں سے اپنی وابستگی کو برقرار رکھا۔ CIBG نے مایہ ناز FMCGs MNCs اور بڑے اداروں کے ساتھ اسٹریٹجک تعلقات کے قیام اور توسیع سے اپنے پورٹ فولیو کو بھی مضبوط کیا۔ اپنے کارپوریٹ کلائنٹس کی منفرد ضروریات کے مطابق ان کی مرضی کے مطابق حل پیش کرتے ہوئے، CIBG نے کارپوریٹ اور انویسٹمنٹ بینکنگ سروسز، ٹرانزیکشن بینکنگ پروڈکٹس اور زر مبادلہ اور مارکیٹ کے خطرات کے انتظام کے خصوصی ٹولز فراہم کرنے میں بہترین کارکردگی کا مظاہرہ کیا۔

ریٹیمینٹس بزنس نے شاندار نمو کا مظاہرہ کیا، انڈسٹری کی مجموعی نمو 31% کے مقابلے میں سال بہ سال 71% اضافہ حاصل کیا۔ FBL نے مارکیٹ میں قابل ذکر پائیداری کا مظاہرہ کیا، اس کا مارکیٹ شیئر 4.6% سے 6.0% تک بڑھ گیا۔ FBL جدید ترین ٹیکنالوجی میں سرمایہ کاری کرنے اور ہیومن ریورسز کی ترقی کے لیے پرعزم ہے تاکہ اس بات کو یقینی بنایا جاسکے کہ بیرون ملک مقیم پاکستانی اور ان کے سینیفیکیشنز ترسیلات زر کے سب سے بہترین سلوشنز سے فائدہ اٹھاتے رہیں۔ اس کوشش کے

متعلق ٹیکس نافذ کیا گیا۔ کرنٹ اکاؤنٹ (CA) کا تناسب دسمبر 2023 میں 32.1% سے بڑھ کر 39.1% ہو گیا اور CASA کا تناسب دسمبر 2023 میں 75.0% سے بڑھ کر 85.5% ہو گیا۔

FBL کی نیٹ فنانسنگ 9.2% بڑھ کر 634 ارب روپے اور ADR مضبوط ہو کر دسمبر 24 میں 60.7% ہو گئی جو کہ دسمبر 23 میں 57.0% تھی۔ ڈپازٹس سے پیدا ہونے والی لیکوئڈٹی اور FI's کی وجہ سے سرمایہ کاری اور فنانسنگ کی گئی۔ سرمایہ کاری 14.9% فیصد بڑھ کر 677 ارب روپے تک پہنچ گئی۔

بینک اپنے تمام اسٹیک ہولڈرز کے لیے پائیدار منافع کے تسلسل کو قائم رکھنے کے لیے کوشاں ہے اور انشاء اللہ ترقی کا یہ سلسلہ جاری رہے گا اور مستقبل کی مستحکم ترقی کی بنیاد بنے گا۔

کاروباری جائزہ

ریٹیل بینکنگ

ہماری ریٹیل بینکنگ نے 2024 میں مضبوط کارکردگی کا مظاہرہ کرتے ہوئے 1 کھرب روپے سے زیادہ کے کل ڈپازٹس کو برقرار رکھا۔ اثاثہ جات کا ڈپازٹ ریٹو (ADR) 50% سے زیادہ برقرار رکھنے کے لیے ڈپازٹس میں اضافہ محدود کیا گیا تھا۔ FBL نے اپنے برانچ نیٹ ورک میں 133 برانچوں کا اضافہ کیا، اب کل تعداد 855 برانچوں کے ساتھ 1.73 ملین سے زیادہ صارفین کو بینکنگ خدمات فراہم کی جا رہی ہیں۔

ہماری ریٹیل بینکنگ کو ترجیح دینے کے پیش نظر، FBL نے کئی پروڈکٹس کو نہ صرف متعارف کرایا بلکہ کئی جدید اور شرعی پروڈکٹس کی سرورسز کو توسیع بھی دی تاکہ صارفین کی بڑھتی ہوئی ضروریات کو پورا کیا جاسکے، جیسا کہ:

1- **فیصل خوشحال کسان اکاؤنٹ:** کسانوں کے لیے خاص طور پر ڈیزائن کی گئی یہ پروڈکٹ مفت ٹرانزیکشن، قرض کی سہولیات کے ساتھ لاکر ز اور کنزیومر فنانس پر رعایت پیش کرتی ہے۔ ایک سال سے بھی کم عرصے میں، اس پروڈکٹ نے اس طبقے کی غیر استعمال شدہ صلاحیت کو نمایاں طور پر حاصل کرنے میں کافی کامیابی حاصل کی ہے۔

2- **فیصل اسلامی آئی ٹی ایکسپورٹر اور فری لانسر اکاؤنٹ:** فری لانسرز کے لیے تیار کردہ یہ اکاؤنٹ خصوصی فوائد کا حامل ہے جس میں ڈسکاؤنٹس، خصوصی فارن کرنی ڈیبٹ کارڈ، کام کرنے کی مشترکہ جگہوں تک رسائی اور بہتر ٹرانزیکشن کی سہولت، پاکستانی ورک فورس کے بڑھتے ہوئے طبقے کی ضروریات کو پورا کرنا شامل ہے۔

3- **روشن ڈیجیٹل اکاؤنٹ (RDA):** FBL نے حکومت پاکستان اور اسٹیٹ بینک آف پاکستان کے RDA اقدام کی حمایت جاری رکھی۔ 2024 میں، RDA پورٹ فولیو نے مثبت رفتار برقرار رکھی، اس کے ڈپازٹس میں 8% اور فنانسنگ میں 30% اضافہ ہوا جو کہ بیرون ملک مقیم پاکستانیوں کے لیے باسہولت ڈیجیٹل بینکنگ سلویشنز کی بڑھتی ہوئی مانگ کی عکاسی کرتا ہے۔

4- **فیصل پرائمری بینکنگ:** پرائمری (ترجیحی) بینکنگ نے 2024 کے دوران ڈپازٹس میں نمایاں ترقی حاصل کی جو ایک مضبوط رجحان کی عکاسی کرتی ہے۔ مزید برآں، فیصل پرائمری لاؤنجز کو جدید بنانے کا کام اہم برانچز میں شروع کیا تاکہ صارفین کو ایک شاندار اور غیر معمولی تجربہ فراہم کیا جاسکے۔

5- **ویلتھ مینجمنٹ:** ویلتھ مینجمنٹ نے زیر انتظام اثاثہ جات (AUM) میں زبردست ترقی سے آمدنی میں 50 فیصد سے زیادہ اضافہ حاصل کیا۔ ذاتی نوعیت کی، شریعت کے مطابق سرمایہ کاری پروڈکٹس کے تعارف نے FBL کے کسٹمر کو ترجیح دینے والے نقطہ نظر کو تقویت دی۔ تکافل کی 2 جہز پر پروڈکٹس شروع کی گئیں: جوبلی تکافل سیکیورڈرائیو، آٹو پائرس پر صفر ناقدری کے ساتھ ایک موٹر تکافل پلان اور EFU محفوظ گھر تکافل پلان، ایک ہاؤس تکافل جو کہ کوریج کی زیادہ حد پیش کرتا ہے۔

FBL ایک ترجیحی، کثیر جہتی مارکیٹنگ حکمت عملی کے ذریعے پاکستان کے پرمیم اسلامی بینک کے طور پر، اپنے برانڈ کو مستحکم اور مضبوط کرتا رہا۔ جدید کمیونیز، اسٹریٹجک

2024 میں مالیاتی برتری: استحکام کی علامت

برتری کی روایت کو برقرار رکھتے ہوئے، فیصل بینک لمیٹڈ نے کامیابی کا سلسلہ جاری رکھا اور بہترین کارکردگی کا مظاہرہ کیا۔ چیلنجز کے باوجود، بینک نے اپنے استحکام اور پائیداری کو برقرار رکھتے ہوئے، اپنی تاریخ کے زیادہ سے زیادہ منافع کا سنگ میل بھی عبور کیا۔ انفرادی طور پر، بینک نے 21.7% فیصد اضافے سے 50.4 ارب روپے پچھلے سال کے 41.4 ارب روپے سے زیادہ قبل از ٹیکس منافع (PBT) کے ساتھ ریکارڈ ٹوڑنے والی کارکردگی فراہم کی ہے۔ بعد از ٹیکس منافع (PAT) گزشتہ سال اسی عرصے کے مقابلے میں 23 ارب روپے ہو کر 14.9 فیصد کے اضافے تک محدود رہا کیونکہ 5 فیصد اضافی انکم ٹیکس کے نفاذ سے منفی اثر پڑا اور ٹیکس کی شرح کو 49% سے بڑھا کر 54% کر دیا اور فی حصص آمدن 15.17 روپے رہی جو گزشتہ سال 13.21 روپے تھی۔

بینک نے اپنی ترقی کی رفتار کو جاری رکھا اور گزشتہ سال کی اسی مدت کی کل آمدنی میں 17.5% فیصد کا اضافہ ہوا۔ بیلنس شیٹ کی توسیع سے نیٹ اسپرڈ آمدنی 13.1 فیصد کے سال بہ سال اضافے کے ساتھ، مذکورہ مدت میں 80.4 ارب روپے تک پہنچ گئی ہے۔ یہ ترقی مزید مستحکم ہوئی جب کرنٹ ڈپازٹس میں 81.7 ارب روپے 25.0% کا اضافہ ہوا، جس سے بینک کی فنڈنگ ٹیس مضبوط ہوئی۔

نان فنڈ آمدنی میں گزشتہ سال کی اسی مدت سے 43.5% اضافہ ہوا اور سال 2024 میں 17.4 ارب روپے رہی۔ فیس آمدنی بھی 23 فیصد اضافے کے ساتھ 10.5 بلین روپے تک جا پہنچی،زنس ٹریڈ اور ترسیلات زر میں گزشتہ سال اسی عرصے کے مقابلے میں اضافہ دیکھا گیا۔ اسی طرح، فارن ایکسچینج کی آمدنی میں بھی شاندار اضافہ ہوا جو کہ 12.0 فیصد اضافے کے ساتھ 5.3 ارب روپے ریکارڈ کی گئی۔ ڈیویڈنڈ آمدنی میں بھی 23.6 فیصد اضافہ ہوا، جو 0.4 ارب روپے تک پہنچ گئی، جبکہ کیپٹل گینر میں سالانہ بنیادوں پر 3.0 ارب روپے کا مثبت اضافہ حاصل ہوا، جو PSX کے مثبت رجحان سے مستفید ہوا۔

افراط زر کی شرح بڑھنے اور برانچ نیٹ ورک میں اضافہ کی وجہ سے بینک کے اخراجات 2023 کے مقابلے میں 22 فیصد بڑھ گئے، جبکہ پالیسی ریٹ میں تیزی سے گراؤ کے سبب نیٹ اسپرڈ میں 13.1% اضافہ ہوا۔ 2024 کے پروویژنز میں گزشتہ سال کے 0.9 ارب روپے چارج کے مقابلے میں 2.5 ارب روپے کا نیٹ ریورسل ہوا۔ NPL کا تناسب گزشتہ سال کے 3.8 فیصد سے کم ہوتا ہوا 3.6 فیصد پر آگیا جو فنانسنگ میں اضافہ کی وجہ سے ہے۔ مجموعی کوریج کا تناسب 101.2% رہا۔

مضبوط ڈپازٹ موبلائزیشن سے بینک نے اثاثہ جات کو بڑھا کر 1.6 کھرب روپے تک پہنچا دیا۔ گزشتہ چند برسوں سے کرنٹ اکاؤنٹس میں تیزی جاری رہی اور اثاثہ جات 408 ارب روپے تک پہنچ گئے، جو دسمبر 23 سے 25% زیادہ کی عکاسی کرتے ہیں۔ مجموعی ڈپازٹس دسمبر 2023 سے 2.6% تک ہی بڑھے کیونکہ ADR سے

مانیٹری پالیسی کمیٹی (MPC) نے اپنے تازہ ترین اعلان میں مارکیٹ کی توقعات کے مطابق پالیسی کی شرح کو 100 bps سے کم کر کے 12% کر دیا۔ یہ رجحان اعتدال پسند مقامی طلب، معاون سپلائی سائینڈ ڈائنٹیکس اور ایک سازگار بنیادی اثر کی وجہ سے افراط زر میں مسلسل کمی سے پیدا ہوا۔ MPC نے اندازہ لگایا کہ جون 2024 سے پالیسی ریٹ میں 1,000 bps کی نمایاں کمی کے اثرات سامنے آتے رہیں گے اور معاشی سرگرمیوں کو مزید سپورٹ کرتے رہیں گے۔ شرح سود کے مستقبل کے راستے کے خطرات میں دسمبر کی ٹیکس وصولی میں خاطر خواہ اضافے کے باوجود مالی سال 2025 کی پہلی ششماہی کے ٹیکس محصولات کے ہدف میں کمی، گزشتہ چند ہفتوں کے دوران تیل کی عالمی قیمتوں میں اتار چڑھاؤ اور آخر میں عالمی اقتصادی پالیسی کا ماحول مزید غیر یقینی ہو گیا ہے، جس سے مرکزی بینکوں کو محتاط رویہ اپنانے پر مجبور ہونا پڑا ہے۔ اس طرح کی پیش رفتوں اور ابھرتے ہوئے خطرات پر غور کرتے ہوئے، کمیٹی نے قیمتوں کے استحکام کو یقینی بنانے کے لیے ایک محتاط مانیٹری پالیسی کے موقف کی ضرورت کو اپنا یا جو پائیدار اقتصادی ترقی کے لیے ضروری ہے۔ اس سلسلے میں، MPC نے اندازہ لگایا کہ 5% سے 7% کے ہدف کی حد میں مہنگائی کی شرح کو برقرار رکھنے کے لیے حقیقی پالیسی کی شرح کو مستقبل کے اعتبار سے کافی حد تک مثبت رکھنے کی ضرورت ہے۔

2024 کے دوران اسٹاک مارکیٹ نے ایک بار پھر غیر معمولی کارکردگی دکھائی ہے۔ KSE100 انڈیکس میں 84% کا اضافہ ہوا اور اسے بلومبرگ نے 2024 میں دنیا کی بہترین کارکردگی دکھانے والی اسٹاک مارکیٹ کے طور پر تسلیم کیا۔

کرنٹ اکاؤنٹ میں بھی CY2024 میں 912 ملین ڈالر کا سرپلس حاصل کیا گیا جو پچھلے سال میں 825 ملین ڈالر کے خسارے کا شکار تھا، یہ صورتحال تجارتی توازن میں نمایاں بہتری کی عکاسی ہے۔ برآمدات میں 10.63 فیصد اضافہ ہوا جو پچھلے سال کے 36.3 بلین امریکی ڈالر کے مقابلے میں 40.1 بلین امریکی ڈالر تک پہنچ گئیں۔ درآمدات 57.9 بلین امریکی ڈالر سے 14.9 فیصد بڑھ کر 66.6 بلین امریکی ڈالر ہو گئیں۔ نتیجتاً تجارتی خسارہ گزشتہ سال کے 21.6 بلین امریکی ڈالر سے بڑھ کر 26.4 بلین امریکی ڈالر تک پہنچ گیا۔ پاکستانی روپیہ نسبتاً مستحکم رہا، ڈالر سال بھر میں 280 کے ارد گرد منڈلاتا رہا۔

بینک کی کارکردگی:

ایک مکمل اسلامی بینک کے طور پر کام کے دوسرے سال، بینک کی کامیابی کا سفر 2024 میں بھی جاری رہا۔ صارفین کی رسائی کو بڑھانے کے لیے برانچ نیٹ ورک میں اضافے، صارفین کو ڈیجیٹل حل فراہم کرنے کے لیے ٹیکنالوجی سے فائدہ اٹھانے، شیئر ہولڈرز کی قدر کو بہتر بنانے کے لیے اخراجات پر کنٹرول کرنے، کسٹمر سروس کے تجربے کو بہتر بنانے اور مشکل اقتصادی ماحول میں خطرات پر گہری نظر رکھنے پر توجہ مرکوز رکھی گئی۔

2023 میں، بورڈ نے فیصل اسلامی کرنسی ایکسچینج کمپنی (پرائیویٹ) لمیٹڈ کے قیام کی منظوری دی جو کہ FBL کا مکمل ملکیتی ذیلی ادارہ ہے۔ بینک نے سال کے دوران 1 بلین روپے کا ابتدائی ادا شدہ سرمایہ لگایا۔ کمپنی نے 16 جنوری 2024 کو SECP سے اپنا ”سرٹیفکیٹ آف انکارپوریشن“ حاصل کیا اور 26 مارچ 2024 کو SBP سے آپریشنل لائسنس حاصل کیا۔

مزید برآں، بینک نے انٹرنیشنل فنانشل رپورٹنگ اسٹینڈرڈ (IFRS) 9 ”فنانشل انسٹرومنٹس“ کو یکم جنوری 2024 سے لاگو کیا ہے، اس کے اثرات مالیاتی گوشواروں کے نوٹ 6.4 میں دیا گیا ہے۔

ڈائریکٹرز کا جائزہ

ان کنسولیدیٹڈ مالیاتی گوشوارے برائے سال 2024

ہم بورڈ آف ڈائریکٹرز کی جانب سے، فیصل بینک لمیٹڈ ("FBL" یا "بینک") کے 31 دسمبر 2024 کو مکمل ہونے والے سال کے لیے ڈائریکٹر رپورٹ کے ساتھ آڈٹ شدہ مالیاتی نتائج اور آڈٹ رپورٹ پیش کرتے ہوئے اظہار مسرت کرتے ہیں۔

کمپنی پر وفاق:

FBL کا قیام پاکستان میں 3 اکتوبر 1994 کو ایک پبلک لمیٹڈ کمپنی کے طور پر عمل میں آیا اور اس کے حصص پاکستان اسٹاک ایکسچینج میں درج ہیں۔ FBL صارفین کے تمام طبقات جیسے رینٹل، چھوٹے اور متوسط درجے کے کاروباری ادارے، کمرشل، ایگری میسڈ اور کارپوریٹ کو اسلامی بینکنگ خدمات کی ایک وسیع رینج پیش کرتا ہے۔

بینک نے 31 دسمبر 2022 کو اپنا کنوینشل بینکنگ لائسنس واپس کیا اور یکم جنوری 2023 کو اسٹیٹ بینک آف پاکستان کی جانب سے جاری کردہ اسلامی بینکاری لائسنس کے تحت آپریشنز کا آغاز کیا۔ بینک کی ملک بھر کے 340 شہروں میں 855 شاخیں شرعی اصولوں کے عین مطابق خدمات فراہم کر رہی ہیں۔

ہولڈنگ کمپنی:

اتمار بینک (B.S.C. کلوزڈ)، ایک بینکنگ ادارہ ہے جو مرکزی بینک آف بحریں کے ذریعے ریگولیٹ کیا جاتا ہے، یہ مرکزی کمپنی ہے، جو فیصل بینک لمیٹڈ میں بالواسطہ یا بلاواسطہ 66.78% (2023: 66.78%) حصص کی حامل ہے۔ اتمار بینک (B.S.C. کلوزڈ) اتمار ہولڈنگز B.S.C. کا ملکیتی ذیلی ادارہ دار المال اسلامی ٹرسٹ (DMIT) اتمار ہولڈنگ B.S.C. کی ہولڈنگ کمپنی اور گروپ کی سرپرست ہے۔ DMIT کو معاہدے کے ذریعے دولت مشترکہ بہماس کے قوانین کے تحت اسلامی قوانین، اصولوں اور روایات کے مطابق کاروباری امور کو سرانجام دینے کے مقصد سے تشکیل دیا گیا تھا۔

معاشی تازہ کاری:

2024 میں عالمی اقتصادی صورتحال میں ملاحزارحان دیکھا گیا جبکہ ترقی کی رفتار سست روی کا شکار رہی۔ امریکی معیشت میں کچھ استحکام دیکھا گیا، صارفین کے خرچ کرنے کی صلاحیت اور ملازمت کے مواقع میں بہتری دیکھی گئی۔ تاہم، بنیادی افراط زر میں نسبتاً بچنگی کے ساتھ مہنگائی کی شرح ایک مستقل چیلنج بنی ہوئی ہے۔ یورپ میں، اقتصادی ترقی میں کمی کے آثار دکھائی دینے کے ساتھ چین کی اقتصادی بحالی پر تشویش کا اظہار دیکھا گیا۔

ملکی سطح پر، رواں مالی سال کے پہلے پانچ مہینوں کے دوران زرعی قرضوں کی فراہمی میں خاطر خواہ اضافہ دیکھنے میں آیا۔ یہ مثبت رفتار مالی سال کے لیے مقرر کردہ زبردست اہداف کے ساتھ ہم آہنگ ہے۔ مزید برآں، زرعی مشینری کی درآمدات میں اضافہ کاشتکاری کے طریقوں کو جدید بنانے اور شعبے کی کارکردگی کو بہتر بنانے پر واضح توجہ مرکوز کرتا ہے۔ دریں اثنا، لارج اسکیل مینوفیکچرنگ (LSM) کے شعبے میں مالی سال 2025 کے دوران جولائی تا اکتوبر 0.64 فیصد کی معمولی کمی ریکارڈ کی گئی، جو گزشتہ سال کی اسی مدت میں 2.21 فیصد شدید کمی کے مقابلے میں نمایاں بہتری کی علامت ہے۔

افراط زر میں کمی کے رجحانات نے 2024 کی دوسری ششماہی کے دوران کچھ ریلیف فراہم کیا۔ کنزیومر پرائس انڈیکس (CPI) اوسطاً 7.3 فیصد رہا جو سال کی پہلی ششماہی میں 18.97 فیصد سے نمایاں طور پر کم ہے۔ یہ بہتری اشیائے خورد و نوش کی مستحکم قیمتوں، موثر مالی استحکام کی وجہ سے مالی سرپلس، زائد ایکسپورٹس اور ترسیلات زر سے بہتر ہونے والے کرنٹ اکاؤنٹ سرپلس اور ایک موافق مانیٹری پالیسی کی وجہ سے آئی ہے۔ اسٹیٹ بینک کو توقع ہے کہ مالی سال 2025 میں اوسط مہنگائی 5.5% سے 5.7% کے درمیان رہے گی۔

مالی سال 2025 کی پہلی سہ ماہی میں حکومت کی مالی کارکردگی توقعات سے بہتر رہی، خاص طور پر آئی ایم ایف کے ساتھ طے شدہ اہداف پورے کئے گئے۔ بنیادی بجٹ سرپلس 3,202 ارب روپے تک پہنچ گیا جو کہ 198 ارب روپے کے ہدف سے کہیں زیادہ ہے۔ یہاں تک کہ اسٹیٹ بینک آف پاکستان سے 2,500 ارب روپے کی ون ٹائم ٹرانسفر کو چھوڑ کر، بنیادی سرپلس 702 بلین روپے رہا، جو مضبوط مالیاتی صورتحال کی عکاسی کرتا ہے۔

Independent Auditor's Report

To the members of Faysal Bank Limited

Report on the Audit of the Unconsolidated Financial Statements

Opinion

We have audited the annexed unconsolidated financial statements of **Faysal Bank Limited** (the Bank), which comprise the unconsolidated statement of financial position as at 31 December 2024, and the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated cash flow statement for the year then ended, along with unaudited certified returns received from the branches except for 30 branches which have been audited by us and notes to the unconsolidated financial statements, including a summary of material accounting policies and other explanatory information and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the unconsolidated statement of financial position, the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and unconsolidated cash flow statement together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan, and, give the information required by the Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Bank's affairs as at 31 December 2024 and of the profit, the comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the unconsolidated financial statements of the current period. These matters were addressed in the context of our audit of the unconsolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the Key Audit Matter:

S.No.	Key Audit Matter	How the matter was addressed in our audit
1	Credit loss allowance against Islamic financing and related assets and off-balance sheet items: (Refer note 10 & 20.1 to the unconsolidated financial statements)	

S.No.	Key Audit Matter	How the matter was addressed in our audit
	<p>As at 31 December 2024, the Bank's Credit loss allowance against Islamic financing and related assets and off-balance sheet items amounted to Rs. 24,628 million and Rs. 187 million, respectively.</p> <p>As per the BPRD Circular No. 07 of 2023, the Bank adopted requirements of IFRS 9 along with the Application Instructions issued by State Bank of Pakistan (SBP) (hereafter referred as "application instruction of IFRS 9") from 1 January 2024 which requires the Bank to recognize Expected Credit Losses (ECL) on Islamic financing and related assets and off-balance sheet items. The estimation of ECL, involves judgement and complexity.</p> <p>The key areas which are subject to complexity and judgement in the estimation of ECL are:</p> <ul style="list-style-type: none"> Model estimations – judgmental modelling and assumption are used to estimate ECL which involves determining Probability of Default (PD), Loss Given Default (LGD), and Exposure at Default (EAD). Respective models assumptions are key driver of uncertainty, and are required in the application of these model for calculation of the ECL estimate. Economic scenarios – IFRS 9 requires the Bank to measure ECL on an unbiased forward-looking basis reflecting a range of future economic conditions. Complex Statistical methodology is applied in determining the forward-looking economic scenarios used as an input to calculate ECL, the associated scenario probability weightings, and the key economic variables that drive the scenarios. Qualitative criteria – the criteria selected to identify a SICR involves judgment and can lead to unreliable ECL recognized for certain portfolios. <p>In line with the application instructions of IFRS 9, the Bank must compare the ECL for Stage 3 with the provision determined under the Prudential Regulations (PR) issued by the SBP. The PR requires specific provisioning against the Islamic financing and related assets on the basis of time-based criteria</p>	<p>Our audit procedures, amongst others, included the following:</p> <ul style="list-style-type: none"> Performing risk assessment procedures over the credit loss allowance against Islamic financing and related assets and off-balance sheet exposure within the Bank's unconsolidated financial statement. As part of these risk assessment procedures, identifying the elements associated with risk of material misstatement on application including those arising from judgements over the estimation of ECL either due to, methods / models, assumptions or data. Assessing the design, implementation and operating effectiveness of key controls established by the Bank over measurement of ECL and provision calculated as per PR. We involved in-house specialist who assisted in the following: <ul style="list-style-type: none"> Evaluating the Bank's ECL model methodologies for compliance with application instructions of IFRS 9 Assessing the reasonableness of the Bank's methodology for determining the economic scenarios used and the probability weightings applied to them by independently validating and challenging the assumption, methodologies, and outputs of the models; Assessing the reasonableness of macro-economic variable and economic forecasts by comparing these to external sourced data extracted; and Performing independent testing of the Expected Credit Loss (ECL) allowance on a sample basis. Assessing the appropriateness of SICR criteria applied by the Bank by ensuring that the SICR criteria and staging methodology are consistent with the application instructions of IFRS 9.

S.No.	Key Audit Matter	How the matter was addressed in our audit
	<p>which should be supplemented by a Bank's subjective evaluation of credit worthiness of customers. The determination of provision, therefore, involves use of management's judgement, on a case-to-case basis, taking into account factors such as the economic and business conditions, borrowers' repayment behaviors and realizability of collateral held by the Bank.</p> <p>Because of the high degree of estimation uncertainty and complexity involved in the calculation of ECL we considered the area of ECL as a key audit matter.</p>	<ul style="list-style-type: none"> Ensuring relevance and completeness of the key inputs into the ECL calculations with their respective sub-ledgers and general ledgers. Performing testing on sample basis over key inputs into the ECL calculations with their respective source documents. Performing sensitivity analysis on the key assumption, that is probability weighted economic scenarios, to assess reasonableness and the risk of biasness by changing weights assigned to each economic scenario. In accordance with the PR, we sampled at least sixty percent of the total Islamic and financing assets outstanding exposure and performed credit reviews through the following substantive procedures: <ul style="list-style-type: none"> verifying repayments of Islamic financing / profit installments and checked that non-performing Islamic Financing and related assets have been correctly classified and categorized based on the number of days overdue; examining watch list accounts and, based on review of the individual facts and circumstances, discussions with management and our assessment of financial conditions of the borrowers, formed a judgement as to whether classification of these accounts as performing was appropriate; and assessing the accuracy of specific provision made against non-performing Islamic financing and related assets in accordance with the criteria prescribed under the PRs by performing recalculation. Assessing the appropriateness of ECL categorized as Stage 3 by performing a comparison of ECL computed, through the use of methodology and models with the provision required to be computed as required under the

S.No.	Key Audit Matter	How the matter was addressed in our audit
		<p>PR to ensure that an amount which is higher of the ECL and PR requirements is appropriately recognized for these stage 3 customers pursuant to the requirement of application instructions of IFRS 9.</p> <ul style="list-style-type: none"> Evaluating the adequacy of the financial statement disclosures, including disclosures of key assumptions, judgements and sensitivities.

Information Other than the Unconsolidated Financial Statements and Auditor's Reports Thereon

Management is responsible for the other information. The other information comprises the information included in the Bank's Annual Report but does not include the consolidated and unconsolidated financial statements and our auditor's reports thereon.

Our opinion on the unconsolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the unconsolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the unconsolidated financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Board of Directors for the Unconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan, the requirements of Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of directors is responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the unconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these unconsolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the unconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Bank as required by the Companies Act, 2017 (XIX of 2017) and the returns referred above from the branches have been found adequate for the purpose of our audit;
- b) the unconsolidated statement of financial position, the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, unconsolidated statement of changes in equity and unconsolidated cash flow statement together with the notes thereon have been drawn up in conformity with the Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were in accordance with the objects and powers of the Bank and the transactions of the Bank which have come to our notice have been within the powers of the Bank; and
- d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Bank and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

2. We confirm that for the purpose of our audit we have covered more than sixty per cent of the total Islamic financing and related assets of the Bank.

The engagement partner on the audit resulting in this independent auditor's report is Zeeshan Rashid.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

1 STATUS AND NATURE OF BUSINESS

- 1.1** Faysal Bank Limited (the Bank) was incorporated in Pakistan on October 3, 1994 as a public limited company under the provisions of the repealed Companies Ordinance, 1984 (now the Companies Act, 2017). Its shares are listed on the Pakistan Stock Exchange Limited. The Bank is engaged in Shari'ah compliant modern Corporate, Commercial and Consumer banking activities. The Bank is operating through 855 branches (December 31, 2023: 722) including 2 sub-branches (December 31, 2023: 2).

The Registered Office of the Bank is located at Faysal House, ST-02, Shahrah-e-Faisal, Karachi.

Ithmaar Bank B.S.C (closed), a fully owned subsidiary of Ithmaar Holdings B.S.C is the parent company of the Bank, holding directly and indirectly 66.78% (2023: 66.78%) of the shareholding of the Bank. Dar Al-Maal Al-Islami Trust (DMIT), (ultimate parent of the Bank) is the holding company of Ithmaar Holdings B.S.C.

- 1.2** The State Bank of Pakistan has issued the Islamic Banking License No. BL(i) - 01 (2022) dated December 30, 2022 in the Bank's name, effective from January 1, 2023.
- 1.3** The Pakistan Credit Rating Agency Limited (PACRA) and VIS Credit Rating Company Limited have determined the Bank's long-term rating as 'AA' (December 31, 2023: 'AA') and the short term rating as 'A1+' (December 31, 2023: 'A1+') on June 24, 2024 and June 28, 2024 respectively.

2 BASIS OF PRESENTATION

- 2.1** The Bank provides financing mainly through Murabaha, Musawammah, Istisna and other Islamic modes as briefly explained in note 6.8 to these unconsolidated financial statements.

The purchases and sales arising under these arrangements are not reflected in these unconsolidated financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of profit thereon. The income on such financing is recognised in accordance with the principles of Islamic Shari'ah. However, income, if any, received which does not comply with the principles of Islamic Shari'ah is recognised as charity payable if so directed by the Shari'ah Board of the Bank.

- 2.2** The Bank has controlling interest in Faysal Asset Management Limited (FAML) and Faysal Islami Currency Exchange Company (Private) Limited and is required to prepare consolidated financial statements under the provisions of the Companies Act, 2017. These financial statements represent the unconsolidated results of the Bank and a separate set of consolidated financial statements is also being presented by the Bank.
- 2.3** During the year, the Bank established a wholly owned subsidiary, Faysal Islami Currency Exchange Company (Private) Limited (FICEC). FICEC is a private limited company, incorporated in Pakistan with the objective of dealing in foreign exchange and facilitating remittances. The registered office of FICEC is at ST-02, Faysal House, Shahrah-e-Faisal, Karachi.

3 STATEMENT OF COMPLIANCE

- 3.1** These unconsolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for financial reporting. The accounting and reporting standards as applicable in Pakistan for financial reporting comprise of:
- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
 - Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants (ICAP) of Pakistan as are notified under the Companies Act, 2017;
 - Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
 - Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP).

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

The State Bank of Pakistan (SBP) has adopted requirements of IFRS 9 along with the application instructions through BPRD Circular No. 07 of 2023, dated April 13, 2023, but deferred certain requirements. The requirement to carry unquoted securities at fair value has been deferred until January 1, 2025. Furthermore, Islamic banking institutions have been allowed to follow Islamic Financial Accounting Standards (IFAS) 1 & 2 where applicable and continue existing accounting practices for other Islamic products until further instructions. The impact of profit of financing in advance stage is Rs. 1,504 million excluding any Effective yield rate (EIR) effect as the Bank has received deferment of recording income and expense at EIR via letter from SBP till 31 December 2025. Consequently, these deferred requirements of IFRS 9 have not been considered in the preparation of these unconsolidated financial statements. Furthermore, Banks are required to apply modification accounting retrospectively however it will be applied only on the financing modified on or after 1st January 2020 as allowed by SBP.

- 3.2** As per the directive of the SBP through its letter BPRD (R&P-02)/625-99/2011/3744 dated March 28, 2011, gain arising on bargain purchase of Pakistan operations of Royal Bank of Scotland (ex-RBS Pakistan) was credited directly into equity as Non-distributable Capital Reserve (NCR). The SBP allowed the Bank to adjust the amortisation of intangible assets against the portion of reserve which arose on account of such assets identified as a result of such acquisition. Accordingly, during the year ended December 31, 2024, the Bank has adjusted an amortisation of intangible assets net of tax amounting to Rs. 52.650 million (2023: Rs. 68.968 million) from the NCR.
- 3.3** The SBP vide its BPRD Circular No. 04 dated February 25, 2015 has clarified that the reporting requirements of IFAS-3, 'Profit and loss sharing on deposits' for Institutions offering Islamic Financial Services (IIFS) relating to annual, half yearly and quarterly financial statements would be notified by the SBP through issuance of specific instructions and uniform disclosure formats in consultation with IIFS. These reporting requirements have not been notified to date. Accordingly, the disclosure requirements under IFAS 3 have not been considered in these unconsolidated financial statements.
- 3.4** The SBP has deferred the applicability of International Accounting Standard (IAS) 40, 'Investment property' for Banking Companies through BSD Circular Letter No. 10 dated August 26, 2002 till further instructions. Further, the SECP has also deferred the applicability of International Financial Reporting Standard (IFRS) 7, 'Financial instruments: disclosures' through its S.R.O. 633(I)/2014 dated July 10, 2014. Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated financial statements.
- 3.5** The SECP through S.R.O. 56(1)/2016 dated January 28, 2016, has directed that the requirements of IFRS 10, 'Consolidated financial statements' are not applicable in case of investments by companies in mutual funds established under Trust Deed structure. Accordingly, implications of IFRS 10 in respect of investment in mutual funds are not considered in these unconsolidated financial statements.

3.6 Standards, interpretations of and amendments to the published accounting and reporting standards that are effective in the current year

As directed by SBP via BPRD Circular letter no. 7 of 2023 dated April 13, 2023 IFRS 9, (Financial Instruments) is effective in Pakistan for periods beginning on or after January 1, 2024. In addition, due to the application of IFRS 9, SBP vide BPRD Circular No. 02 dated February 9, 2023, has also amended the format of the annual financial statements. Details regarding the aforementioned adoption and amendment, including the impact thereof, are discussed in more detail in note 6.4 to these financial statements. Except for the above, there are certain other interpretations and amendments that are mandatory for the Bank's accounting periods beginning January 1, 2024. However, these are not considered to be relevant or do not have any significant effect on the Bank's operations and therefore have not been detailed in these financial statements.

3.7 Standards, interpretations of and amendments to the published accounting and reporting standards that are not yet effective

- 3.7.1** The following revised standards, amendments and interpretations with respect to the accounting and reporting standards would be effective from the dates mentioned below against the respective standards, amendments or interpretations:

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

Standards, interpretations or amendments	Effective date (annual periods beginning on or after)
- Amendments to IAS 21- Lack of Exchangeability	January 1, 2025
- IFRS S1 - General Requirements for Disclosure of Sustainability - related Financial Information	January 1, 2025
- IFRS S2 - Climate-related Disclosures	January 1, 2025
- Amendments to IFRS 9 Financial Instruments	January 1, 2025
- Amendments to IFRS 10 and IAS 28 - Sale or contribution of assets between an investor and its associates or joint venture	not yet announced

The management of the Bank is assessing the impact of the changes in the above mentioned standards on the Bank's financial statements.

3.7.2 As required under SBP Letter No. BPRD/LD-01/850/28853/2022-13054, the details of the net conventional funded portfolio as at December 31, 2024 are as follows:

	Note	Rupees in '000
Assets		
Investments		550,863
Financing - net		277,886
Liabilities		
Deposits and other accounts		2,239,386
Other Liabilities	20	982,880

All efforts are being put in to convert or dispose- off the residual portfolio and appropriate monitoring mechanisms are in place. Quarterly progress report on the status of the residual portfolio is shared with the Bank's Board of Directors, the Shari'ah Board and the State Bank of Pakistan.

3.7.3 Profitability from residual (ring-fenced) non-shari'ah compliant portfolio

In compliance with the principles of Shari'ah, the Shari'ah Board of the Bank has approved the "Conventional profitability cleansing framework" ("the Framework"). According to the Framework, any income accruing on the ring-fenced portfolio during the year, net-off attributable expenses and charges, is booked as charity payable under other liabilities. The conventional profitability is calculated in light of Shari'ah principles, the guidance of the Shari'ah Board and the understanding available as at the computation date, changes, if any, may be adjusted retrospectively.

3.7.4 Critical accounting estimates and judgments

The preparation of unconsolidated financial statements in conformity with accounting and reporting standards as applicable in Pakistan requires the use of certain accounting estimates. It also requires the management to exercise judgement in the process of applying the Bank's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. These estimates affect the reported amounts of assets, liabilities, income, and expenses. The areas where various assumptions and estimates are significant to the Bank's financial statements or where judgement was exercised in the application of accounting policies are as follows:

- Business combinations (note 6.1);
- Classification of investments (note 6.4.2 and 9);
- Valuation of financial assets and liabilities as per IFRS 9, associates and joint ventures (note 6.4.2 and 6.6);
- Measurement of the expected credit loss allowance (notes 6.4.10);
- Valuation and depreciation of property and equipment (note 6.9 and 11.2);

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

- vi) Taxation (note 6.11 and note 34);
- vii) Valuation of non-banking asset acquired in satisfaction of claims (note 6.12 and 14);
- viii) Valuation of defined benefit plan (note 6.14 and 38);
- ix) Valuation and depreciation of right-of-use assets and their related lease liability (note 6.26, 12 and 18).

Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

4 BASIS OF MEASUREMENT

These unconsolidated financial statements have been prepared under the historical cost convention except for certain fixed assets and non-banking assets acquired in satisfaction of claims which have been carried at revalued amounts, certain investments and derivative contracts which have been marked to market and are carried at fair value, obligations in respect of staff retirement benefits and lease liabilities which have been carried at present value and right-of-use assets which are initially measured at an amount equal to the corresponding lease liabilities (adjusted for any lease payments and costs as disclosed in details in note 6.26 to these unconsolidated financial statements) and depreciated over the respective lease terms.

5 FUNCTIONAL AND PRESENTATION CURRENCY

- 5.1 Items included in these unconsolidated financial statements are measured using the currency of the primary economic environment in which the Bank operates. These unconsolidated financial statements are presented in Pakistani Rupees, which is the Bank's functional and presentation currency.
- 5.2 Figures have been rounded off to the nearest thousand of rupees unless otherwise stated.

6 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies adopted in the preparation of these financial statements are consistent with those followed in the preparation of the financial statements for the year ended December 31, 2023, except as disclosed in note 6.4 and 6.5.

6.1 Business Combination

Business combinations are accounted for by applying the acquisition method. The cost of acquisition is measured as the fair value of assets given, equity instruments issued and the liabilities incurred or assumed as at the date of acquisition. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement, if any. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values as at the acquisition date. The excess of the consideration transferred over the fair value of the Bank's share of identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the net assets acquired in the case of a bargain purchase, the difference is recognised directly in the unconsolidated profit and loss account. However, as more fully described in note 13.3 to these unconsolidated financial statements, the gain on bargain purchase arising on an acquisition made in 2010 has been recognised directly in equity as per the directives of the SBP.

Goodwill acquired in a business combination is measured, subsequent to initial recognition, at its cost less accumulated impairment losses, if any. Goodwill acquired in a business combination is tested for impairment annually or whenever there is an indication of impairment as per the requirements of International Accounting Standard (IAS) 36, 'Impairment of assets'. Impairment charge in respect of goodwill is recognised in the unconsolidated profit and loss account and is not subsequently reversed.

Acquisition of non-controlling interests (NCI) is measured at the proportionate share of the NCI in the fair value of the net assets acquired by the Bank. The excess of the fair value of consideration transferred over the proportionate share of the NCI in the fair value of the net assets acquired is recognised in equity. (Referring to the 'Reserve arising on amalgamation').

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

6.2 Cash and cash equivalents

For the purpose of the cash flow statement, cash and cash equivalents comprise of cash in hand, balances with treasury banks, balances with other banks in current and deposit accounts and overdrawn nostro accounts.

6.3 Due to / Due from financial institutions

(a) Musharaka / Mudaraba placements

In Musharaka / Mudaraba, the Bank (or the counterparty financial institution/ the SBP) invests in the Shari'ah compliant business pools of the counterparty financial institutions/ the SBP (or the Bank) at the agreed profit and loss sharing ratio under musharaka agreements.

(b) Bai Muajjal

In Bai Muajjal, the Bank sells Shari'ah compliant instruments on credit to other financial institutions. The credit price is agreed at the time of sale and such proceeds are received at the end of the credit period. The difference between the sale and the credit price is recognised over the credit period and recorded as income. Bai Muajjal with Federal Government is classified as investment.

(c) Musharaka from the SBP under IERS

Under IERS, the Bank accepts funds from the SBP under Shirkat-ul-aqd to constitute a pool for investment in export refinance portfolio of the Bank under the guidelines issued by the SBP. The profit of the pool is shared as per the agreed weightages between the partners.

(d) Mudaraba investment from the SBP under various long term Islamic refinance schemes

Under various long term Islamic refinance schemes of the SBP, the Bank accepts funds from the SBP which are received on Mudaraba basis for investment in general pool of the Bank. The profit of the pool is shared as per the announced profit sharing ratio of the pool and the weightages assigned to these investments.

6.3.1 These are initially recognised at amount of funds disbursed / accepted (in case of Bai Muajjal, at sale price of the Sukuk net of deferred profit) and subsequently measured at amount receivable / payable under the contractual terms of the underlying agreement (in case of Bai Muajjal, at sale price of the Sukuk net of remaining deferred profit at reporting date, if any), except for Temporary Economic Refinance Facility (TERF) which are measured at amortized cost.

6.4 IFRS 9 - Financial Instruments (Applicable on or after January 1, 2024)

During the period, as directed by the SBP vide its BPRD Circular No. 07 of 2023 dated April 13, 2023, IFRS 9: 'Financial Instruments' (the Standard) as adopted by the SBP became applicable to the Bank.

BPRD Circular No. 03 of 2022 issued by SBP provides detailed instructions on implementation of IFRS 9 (the IFRS 9 Application Instructions) for ensuring smooth and consistent implementation of the standard across banks. Furthermore, SBP vide its BPRD Circular Letter No. 16 of 2024 and SBP wide BPRD Circular Letter No. 01 of 2025 has made further amendments in the application instructions issued. All deferments made through these amendments are disclosed in statement of compliance.

The standard addresses recognition, classification, measurement and derecognition of financial assets and financial liabilities. The standard has also introduced a new impairment model for financial assets which requires recognition of impairment charge based on 'expected credit losses' (ECL) approach rather than 'incurred credit losses' approach as previously followed. The ECL has impact on all the assets of the Bank which are exposed to credit risk.

The Bank has adopted IFRS 9 in accordance with the IFRS 9 Application Instructions from January 1, 2024, using the modified retrospective approach and has not restated comparatives for the 2023 reporting period and the differences in carrying amount of financial assets and financial liabilities resulting from the adoption of IFRS 9 are recognised in retained earnings and reserves as at January 1, 2024, as permitted under the specific transitional provisions in the Standard.

Accordingly, the information presented for 2023 does not reflect the requirements of IFRS 9 and therefore is not comparable to the information presented for 2024 under IFRS 9.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

The effect of this change in accounting policy is as follows:

Financial Assets / Liabilities	Classification under IFRS 9	Balances as of December 31, 2023 (Audited)	Impact due to					Recognition of expected credit losses (ECL)	Total impact - gross of tax	Taxation	Total impact - net of tax	Balances as of January 01, 2024

* This includes management overlay of Rs. 3,607,544 million in Stage 2 ECL.

- a)** Certain equity securities are held by the Bank in separate portfolios and are managed with an objective of realising cash flows through sale. The Bank primarily focuses on fair value information and uses that information to assess the securities' performance and to make decisions. Moreover, certain asset-backed securities have contractual cash flows that are not SPPI. These assets are therefore measured at FVPL under IFRS 9. (AFS to FVPL).
- b)** Certain debt securities are held by the Bank in separate portfolios to meet everyday liquidity needs. The Bank seeks to minimise the costs of managing these liquidity needs and therefore actively manages the return on the portfolio. That return consists of collecting contractual payments as well as gains and losses from the sale of financial assets. The investment strategy often results in sales activity that is significant in value. The Bank considers that under IFRS 9 these securities are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. Moreover, certain equity investments held by the Bank for strategic purposes have been designated under IFRS 9 as at FVOCI. (AFS to FVOCI).
- c)** Corporate debt securities that were previously classified as held-to-maturity are now classified at amortised cost. The Bank intends to hold the assets to maturity to collect contractual cash flows and these cash flows consist solely of payments of principal and profit on the principal amount outstanding. (HTM to AC).
- d)** Islamic financing and related assets except for Temporary Economic Refinance Facility (TERF), staff financing and modified financing are stated at cost. Whereas, Temporary economic refinance scheme, staff financing and modified financing are stated at amortized cost.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

6.4.1 Impact on regulatory capital

In order to mitigate the impact of ECL models on capital, SBP has determined that it may be appropriate for the banks to introduce a transitional arrangement for the impact on regulatory capital from the application of ECL accounting. The transitional arrangement applies only to provisions for stage 1 and stage 2 financial assets. The transitional arrangement must adjust CET1 capital. Where there is a reduction in CET1 capital due to new provisions, net of tax effect, upon adoption of an ECL accounting model, the decline in CET1 capital (the "transitional adjustment amount") must be partially included (i.e., added back) to CET1 capital over the "transition period" of five years.

Had IFRS 9 not been applied then on estimated basis CAR would have been lower by 23 bps from 16.54% to 16.31%.

The Bank has applied the transitional arrangement on Regulatory Capital. Had the transitional arrangement not been applied then CAR would have been higher by 23 bps from 16.54% to 16.77%.

The Bank has applied the transitional arrangement on Regulatory Capital. Had the transitional arrangement not been applied then Leverage Ratio would have been lower by 7 bps from 4.70% to 4.63%.

6.4.2 Classification and measurement

Under the new standard, classification and measurement of financial assets depends on how these are managed based on business model and their contractual cash flow characteristics. Financial assets that do not meet the Solely Payment of Principal and Profit (SPPI) criteria are required to be measured at fair value through profit and loss (FVPL) regardless of the business model in which they are held.

Recognition and initial measurement

Debt securities issued are initially recorded when they are originated. All other financial assets and financial liabilities are initially recognised when the Bank becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at transaction price. The fair value of a financial asset on initial recognition is generally its transaction price. If the Bank determines that the fair value on initial recognition differs from the transaction price then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently, that difference is recognized in profit and loss account on an appropriate basis over the life of the asset but no later than when the valuation is wholly supported by observable market data, or the transaction is closed out. Islamic financing and related assets other than staff financing and Temporary Economic Refinance Facility (TERF) are initially measured at transaction price i.e., the amount of financing disbursed at disbursement date.

Classification of Financial Assets

On initial recognition, a financial asset is classified as either amortized cost, FVOCI, or FVPL where as Islamic financing and related assets except for staff financing, the Temporary Economic Refinance Facility (TERF), and modified financing, are carried at cost.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- "the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI."

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cashflows and selling financial assets; and

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

On initial recognition of an equity investment that is not held for trading, the Bank may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

Islamic financing and related assets are carried at cost, net of expected credit loss allowances, except for Temporary Economic Refinance Facility (TERF), staff financing and modified financing, which are measured at amortized cost.

Financial assets are not reclassified subsequent to their initial recognition unless the Bank changes its business models for managing financial assets, in which cases all affected financial assets are reclassified on the first day of the first reporting period following changes in the business model.

IFRS 9 allows entities to irrevocably designate, at initial recognition, a financial asset as measured at FVPL if doing so eliminates or significantly reduces any 'accounting mismatch' that would otherwise arise from measuring assets or liabilities or recognizing gains and losses on them on different basis. SBP instructions state that banks may apply the fair value option if, in addition to the IFRS 9 criterion, (a) it is consistent with a documented risk management strategy, and (b) fair values are reliable at inception and throughout life of the instrument.

Classification of Financial Liabilities

Financial liabilities are either classified as fair value through profit and loss account (FVPL), when they are held for trading purposes, or at amortized cost. Financial liabilities classified as FVPL are measured at fair value and all the fair value changes are recognized in profit and loss account. Financial liabilities classified at amortized cost are initially recorded at their fair value and subsequently measured using the effective yield rate method. Profit expense and foreign exchange gain and losses are recognised in profit and loss. Any gain or loss on derecognition is also recognised in profit and loss account.

6.4.3 Business model assessment

A financial asset is classified as either Held to collect, Held to collect and sale and Others based on Business model assessment. The Bank makes an assessment of the objective of a business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management. The assessment requires judgement based on facts and circumstances on the date of assessment. The assessment considers the policies and objectives for the portfolio of financial assets, risk affecting, performance evaluation, business manager's compensation and historical sales information.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

6.4.4 Assessment of whether contractual cash flows are solely payments of principal and profit (SPPI)

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Profit' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as profit margin.

The Bank assesses whether the contractual cash flows of a financial asset meet the Solely Payments of Principal and Profit (SPPI) criterion by examining the contractual terms. This includes checking for terms that could alter the amount and timings of cash flows, such as contingent events, leverage, or prepayment features, etc.

A prepayment feature aligns with SPPI if it mainly represents unpaid principal and profit, including reasonable compensation for early termination.

For fixed-rate financings with periodic profit rate resets, the Bank considers these SPPI-compliant as the revised rates reflect time value, credit risk, and other associated risks.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

6.4.5 Subsequent measurement

The following accounting policies apply to the subsequent measurement of financial assets:

Financial assets at FVPL	These assets are subsequently measured at fair value. Net gains and losses, including any profit or dividend income, are recognised in statement of profit or loss account.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective yield method. The amortised cost is reduced by impairment losses. Profit and impairment are recognised in statement of profit or loss account.
Debt investments at FVOCI	These assets are subsequently measured at fair value and is assessed for impairment under the new ECL model. Profit income is calculated using the effective yield method and includes amortization of premiums and accretion of discount and impairment are recognised in profit and loss account. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to statement of profit or loss account.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment, in which case they are adjusted from the carrying value of investment. Other net gains and losses are recognised in OCI and are never reclassified to statement of profit or loss account.
Unquoted Securities	Unquoted equity securities are valued at the lower of cost and break-up value. The break-up value of these securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements. The Bank may also use unaudited or management accounts to determine if any additional deficit needs to be charged.
Islamic financing and related assets at cost	Islamic financing and related assets are carried at cost, net of expected credit loss allowances, except for Temporary Economic Refinance Facility (TERF) and staff financing, modified financing which are carried at amortized cost, net of expected credit loss allowances.

6.4.6 Amortised cost and gross carrying amount

The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective yield method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance (or impairment allowance before 1 January 2024).

The 'gross carrying amount of a financial asset' is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

6.4.7 Calculation of profit income and expense

Income is recorded in accordance with IFAS 1 and IFAS 2. Furthermore, for other Islamic products income is recorded based on the contractual rate in accordance with the Shari'ah principles.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

Profit expense on domestic financial liabilities (comprising deposits and borrowings) is recognized on an accrual basis in the period in which it is incurred, based on their contractual rates.

6.4.8 Derecognition

The Bank derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or
- it transfers the rights to receive the contractual cash flows in a transaction in which either:
 - (a) substantially all of the risks and rewards of ownership of the financial asset are transferred; or
 - (b) the Bank neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognized), and the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognized in OCI is recognized in the profit and loss account, except that in case of the derecognition of equity securities held at FVOCI, cumulative gains or losses are transferred to unappropriated profit.

The Bank derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired. The Bank also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

6.4.9 Modification

Financial assets

The Bank sometimes renegotiates or otherwise modifies the contractual cash flows to its customers. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognized and a new financial asset is recognised at fair value plus any eligible transaction costs.

If cash flows are modified when the borrower is in financial difficulties, then the objective of the modification is usually to maximise recovery of the original contractual terms rather than to originate a new asset with substantially different terms. If the bank plans to modify a financial asset in a way that would result in forgiveness of cash flows, then it first considers whether a portion of the asset should be written off before the modification takes place. This approach impacts the result of the quantitative evaluation and means that the derecognition criteria are not usually met in such cases.

Where derecognition of financial assets is appropriate, the newly recognised residual financing are assessed to determine whether the assets should be classified as purchased or originated credit-impaired assets (POCI).

If the modification of a financial asset measured at amortised cost or FVOCI does not result in derecognition of the financial asset, then the bank first recalculates the gross carrying amount of the financial asset using the original effective yield rate of the asset and recognised the resulting adjustment as a modification gain or loss in profit and loss account.

If such a modification is carried out because of financial difficulties of the borrower then the gain or loss is presented together with impairment losses. In other cases, it is presented as profit income calculated using the effective yield rate method.

Financial liabilities

The Bank derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability recognised and consideration paid is recognised in profit and loss account.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

If the modification of a financial liability is not accounted for as derecognition, then the amortised cost of the liability is recalculated by discounting the modified cash flows at the original effective yield rate and the resulting gain or loss is recognised in profit and loss account. For floating-rate financial liabilities, the original effective yield rate used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs and fees incurred are recognised as an adjustment to the carrying amount of the liability and amortised over the remaining term of the modified financial liability by re-computing the effective yield rate on the instrument.

6.4.10 Impairment

The impairment requirements apply to financial assets measured at amortized cost and FVOCI (other than equity instruments), lease receivables, and certain financing commitments and financial guarantee contracts. At initial recognition, an impairment allowance (or provision in the case of commitments and guarantees) is required for expected credit losses ('ECL') resulting from default events that are possible within the next 12 months ('12-month ECL'). In the event of a significant increase in credit risk, a provision is required for ECL resulting from all possible default events over the expected life of the financial instrument ('lifetime ECL').

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognized and ECL are measured as follows:

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective yield rate of the existing financial asset.

Financial assets where 12-month ECL is recognised are in 'Stage 1'; financial assets that are considered to have experienced a significant increase in credit risk are in 'Stage 2'; and financial assets for which there is objective evidence of impairment, so are considered to be in default or otherwise credit impaired, are in 'Stage 3'.

Non-Performing financial assets

At each reporting date, the Bank assesses whether financial assets carried at amortised cost and debt financial assets carried at FVOCI, and finance lease receivables are credit impaired (referred to as 'Stage 3 financial assets'). A financial asset is 'non-performing', when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred, this includes time based criteria and subjective evaluation of the credit worthiness of the borrower.

A financing that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a retail financing that is overdue for 90 days or more is considered credit-impaired even when the regulatory definition of default is different.

Under the IFRS 9 Application instructions, the Bank is not required to compute ECL on Government Securities and on Government guaranteed credit exposure in local currency. The Bank is required to calculate ECL on its non-performing financial assets as higher of provision under Prudential Regulations (PR) and ECL under IFRS 9.

The Bank calculates the ECL against corporate, commercial & SME financing portfolios as higher of PR and ECL under IFRS 9 at borrower/facility level, whereas against the retail borrowers the Bank calculates the ECL at higher of PR and ECL under IFRS 9 at segment/product basis as instructed by SBP under Annexure-A of BPRD Circular no 16 of 2024.

ECL is the probability weighted estimate of expected cash shortfalls which is determined by multiplying the probability of default (PD) with the loss given default (LGD) with the expected exposure at the time of default (EAD). Based on the

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

requirements of IFRS 9 and Application Instructions, the Bank has performed an ECL assessment considering the following key elements:

Probability of default:

The Probability of Default represents the likelihood that a counterparty will default within a specific timeframe, such as 12 months (12-month ECL for Stage 1) or the lifetime of the financial instrument (lifetime ECL for Stage 2). The Bank calculates PD on Islamic financing and related assets which is further bifurcated into retail and non retail portfolios. Following is the methodology through which non retail and retail PD are calculated:

Non-Retail PD:

The Bank utilizes its internal risk rating system to assign Obligor Risk Ratings (ORR) to borrowers. Bank has used a statistical method, for the estimation of Through The Cycle (TTC) PDs associated with each of its Obligor Risk Rating (ORR).

Retail PD:

Bank has used the roll-rate method for retail portfolios based on its different risk characteristics and historical default trends. Bank has used historical data to estimate TTC PD for its retail segments.

Moreover, the Bank calculates Expected Credit Loss (ECL) on investments and balances with other banks by utilizing Probability of Default (PD) data, which tracks corporate credit rating transitions over time. This historical data helps to assess the likelihood of changes in creditworthiness and defaults.

Incorporation of forward-looking information:

Forward looking information is incorporated to convert TTC PD to Point in Time Probability of Default (PIT) PD. The Bank has estimated the PIT PDs in its PD Model. For this purpose, the Bank incorporated 5-year forecasts obtained from the Macro Economic Variable (MEV) database of the International Monetary Fund (IMF).

Exposure at Default (EAD):

The Bank has defined EAD for financial assets carried at an amortized cost equal to principal plus accrued profit at the default date. Each repayment date is assumed to be a default point in the model, and the ECL is calculated on the EAD at each repayment date and discounted at the effective yield rate to arrive at the discounted ECL under three scenarios, i.e., base, worst, and best-case scenarios. The unutilized exposures are multiplied with Credit Conversion Factors (CCFs) to compute the EAD of revolving facilities. For non revolving facilities, CCF is only applied to unutilized exposures when the Bank doesn't have unconditional right to revoke the undrawn portion. Additionally, cash and cash equivalent collateral the Bank holds against non-retail facilities are adjusted from the EAD, and ECL is calculated on the net amount. The Bank has developed CCF models for its revolving and non revolving facilities based on the historical utilization of credit limits which are currently being applied to the revolving portfolio.

Loss Given Default:

Loss Given Default (LGD) represents the forecasted economic loss in the event of default, calculated independently of credit quality and applied consistently across all stages. LGD is determined as the percentage of loss expected in case of borrower default, incorporating historical data, cash recovery experience (including settlements), costs and time of recoveries, collateral realizations, and recovery projections. For non-collateralized portfolios, the Bank estimates LGD based on actual recoveries from defaulted accounts over a historical period of 3-5 years prior to the assessment date. Forward-looking information is incorporated into the LGD calculation to reflect the impact of macroeconomic factors on the expected recoveries.

Purchase or Originated Credit Impaired Financial Assets

Purchase or Originated Credit Impaired (POCI) financial assets are assets that are credit-impaired on initial recognition. Expected credit loss for these assets is not recognized in a separate loss provision on initial recognition, as the lifetime expected credit loss is inherent within the gross carrying amount of the instruments. Consequently, POCI assets do not

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

carry an impairment allowance on initial recognition. The amount recognized as a loss allowance after initial recognition is equal to the changes in lifetime ECL since the initial recognition of the asset.

Presentation of allowance for Expected Credit Loss in the Statement of Financial Position

Loss allowances for ECL are presented in the statement of financial position as follows:

- Financial assets measured at amortized cost / cost: as a deduction from the gross carrying amount of the assets.
- financing commitments and financial guarantee contracts: as a provision in Other Assets / Liabilities.
- where a financial instrument includes both a drawn and an undrawn component, and the Bank does not identify the ECL on the financing commitment component separately from those on the drawn component and instead presents a combined loss allowance for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as a provision.

6.4.11 Significant increase in credit risk (SICR)

A SICR is assessed in the context of an increase in the risk of a default occurring over the life of the financial instrument when compared to that expected at the time of initial recognition. It is not assessed in the context of an increase in the ECL. The Bank used several qualitative and quantitative measures in assessing SICR. Quantitative measures relate to deterioration of Obligor Risk Ratings (ORR) or where principal and / or profit payments are 60 days or more past due. Qualitative factors include unavailability of financial information and pending litigations. A financial asset is transitioned to a backward stage in line with SBP instructions.

6.4.12 Write-offs

Financial assets are written off (either partially or in full) when there is no reasonable expectation of recovering a financial asset in its entirety or a portion thereof. This is generally the case when the Bank determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. This assessment is carried out at the individual asset level.

Recoveries of amounts previously written off are included in 'impairment losses on financial instruments' in the statement of profit and loss account.

Financial assets that are written off / charge off could still be subject to enforcement activities in order to comply with the Bank's procedures for recovery of amounts due.

6.4.13 Off-setting

Financial assets and financial liabilities are set off and the net amount is reported in the unconsolidated financial statements only when the Bank has a legally enforceable right to set off and the Bank intends to either settle on a net basis, or to realise the assets and to settle the liabilities simultaneously. Income and expense items of such assets and liabilities are also offset and the net amount is reported in the unconsolidated financial statements only when permitted by the accounting and reporting standards as applicable in Pakistan.

6.4.14 Governance, ownership and responsibilities

The Bank has adopted a governance framework requiring multiple functions to effectively work together to ensure input from all business lines. The Risk Department defines the staging criteria for the new impairment model and take ownership of all models, methodologies and the ECL calculation approach.

Additionally, the Risk department also take the ownership of the impact of ECL on bank's capital. The Bank's Finance Division performs ECL calculation. As a result, the department then assess the financial impact, meet the financial reporting requirements and further monitor the impact on the financial ratios.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

As per the Bank's policy, the Bank's Internal Audit function carries out periodic review of IFRS 9 methodology and impacts calculated by the Management.

6.4.15 Undrawn financing commitments and guarantees

Financial guarantees' are contracts that require the Bank to make specified payments to reimburse the holder for a loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument. 'Financing commitments' are firm commitments to provide credit under pre-specified terms and conditions.

When estimating lifetime ECL for undrawn financing commitments, the Bank estimates the expected portion of the financing commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected cash flows if the financing are drawn down, based on a probability-weighting of the three scenarios.

6.4.16 Acceptances

Acceptances arise when the Bank is under an obligation to make payments against documents drawn under letters of credit. Acceptances specify the amount of money, the date, and the person to which the payment is due. After acceptance, the instrument becomes an unconditional liability (time draft) of the Bank and is therefore recognized as a financial liability in the statement of financial position with a corresponding contractual right of reimbursement from the customer recognized as a financial asset.

Acceptances have been considered within the scope of IFRS 9 - Financial Instruments for the purpose of calculation of expected credit loss and are valued at amortized cost and continued to be recognized as a financial liability in the statement of financial position with a contractual right of reimbursement from the customer as a financial asset.

6.4.17 Wa'ad / Promissory Contracts

Wa'ad / promissory contracts are initially recognized at fair value on the date on which the contract is entered into and are subsequently re-measured to fair value using appropriate valuation techniques. All Wa'ad / promissory contracts are carried as assets when fair value is positive and liability when fair value is negative. Any change in the fair value of Wa'ad / promissory contracts is taken to the profit and loss account.

6.5 Revised format of annual financial statements

SBP through its BPRD Circular No. 02 dated February 9, 2023, has amended the format of annual financial statements of banks. All banks are required to prepare their annual financial statements on the revised format effective from accounting year starting from January 1, 2024. Accordingly, the Bank has prepared these annual financial statements on the new format prescribed by the SBP. The adoption of the new format contains additional disclosures and certain changes in the financial statements' presentation, primarily due to the implementation of IFRS 9 as applicable in Pakistan. However, the corresponding figures continue to be classified and disclosed in accordance with the previous financial accounting and reporting framework.

Adoption of revised financial statements format has also resulted in following material changes (due to which the corresponding presentations have also been changed):

- Right-of-use-assets (note 12) amounting to Rs 13,289.601 million (December 31, 2023: Rs 10,713.046 million) which were previously shown as part of fixed assets are now shown separately on the unconsolidated statement of financial position.
- Lease liabilities (note 18) amounting to Rs 15,546.893 million (December 31, 2023: Rs 12,868.103 million) which were previously shown as part of other liabilities (note 20) are now shown separately on the unconsolidated statement of financial position.

6.6 Investment in associates and subsidiaries

Certain mutual funds are managed by Faysal Asset Management Limited (FAML), the subsidiary company of the Bank. As stipulated under Regulation 38 of Non-Banking Finance Regulation, 2008, the Asset Management Company (AMC) is

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

entrusted with fiduciary duties towards the unit holders of the funds. This fiduciary obligation requires AMC to act in the best interests of its unit holders, refraining from exploiting opportunities for its own benefit or that of its related parties, group companies, or employees, to the detriment of the unit holders.

The Bank has significant influence over such mutual funds due to participation in the investee's policy-making processes via FAML and investment in such mutual funds is considered as investment in associates. These are not considered subsidiary due to the legal trust structure of the entity, the Bank does not have the ability to affect returns through its power over the investee. Further, under this trust structure, the trusteeship is separate from the management, and the independent trustees play a key role in overseeing the activities of the AMC. The Bank has significant influence over mutual funds where it has holding percentage of less than 20% due to power to participate in the investee's policy-making processes via the FAML and investment in such mutual funds is considered as investment in associates.

Subsidiaries are all entities over which the Bank has control.

Subsequent measurement of Associates and subsidiaries

Investment in associates and subsidiaries are recorded at cost less accumulated impairment, if any.

Impairment of Investment in associate

In respect of investment in associates, the Bank reviews their carrying values at each reporting date to assess whether there is an indication of impairment. The amount of impairment loss would be determined based on the higher of values in use and fair value less cost to sell. Impairment loss is recognised in the profit and loss account.

6.7 Investments (Applicable before January 1, 2024)

6.7.1 Classification

The Bank classifies its investments as follows:

(a) Held for trading

These are securities, which are either acquired for the purpose of generating profit from short-term fluctuations in market prices, yield rate movements, or dealer's margin or are securities included in the portfolio in which a pattern of short-term profit making exists.

(b) Held to maturity

These are securities with fixed or determinable payments and maturity that the Bank has a positive intent and ability to hold to maturity.

(c) Available for sale

These are investments, other than those, in associates and subsidiaries, that do not fall under either held for trading or held to maturity categories.

6.7.2 Initial recognition and measurement

All purchases and sales of investments that require delivery within the time frame established by the regulations or market convention are recognised at the trade date. Trade date is the date on which the Bank commits to purchase or sell the investment.

Investments other than those classified as held for trading are initially recognised at fair value which includes transaction costs associated with the investments. Investments classified as 'held for trading' are initially recognised at fair value and transaction costs associated with the transactions are expensed through the profit and loss account.

Premium or discount on acquisition of investments is amortised through the profit and loss account over the remaining period till maturity using the effective yield method.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

6.7.3 Subsequent measurement

Held for trading

These are measured at subsequent reporting dates at fair value. Any unrealised surplus / deficit arising on revaluation is taken into profit and loss account.

Held to maturity

These are measured at amortised cost using the effective yield method, less any impairment recognised to reflect irrecoverable amounts.

Available for sale

Quoted securities classified as available for sale investments are measured at subsequent reporting dates at fair value. Any surplus or deficit arising thereon is kept in a separate account shown in the statement of financial position within equity and is taken to the profit and loss account when realised upon disposal or when the investments are considered to be impaired.

Unquoted equity securities are valued at the lower of cost and break-up value. The break-up value of these securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements. The Bank may also use unaudited or management accounts to determine if any additional impairment needs to be charged beyond amounts already changed based on audited financial statements. Investments in other unquoted securities are valued at cost less impairment, if any.

6.7.4 Impairment

Available for sale and held to maturity investments

Impairment loss in respect of investments classified as available for sale and held to maturity is recognised based on management's assessment of objective evidence of impairment as a result of one or more events that may have an impact on the estimated future cash flows of the investments. A significant or prolonged decline in the fair value of a listed equity investment below its cost is also considered an objective evidence of impairment. The determination of significant or prolonged decline requires judgement.

Provision in the value of term finance certificates and sukuk certificates is made as per the requirements of the Prudential Regulations issued by the SBP. In case of impairment of available for sale securities, the cumulative loss that has been recognised in surplus / deficit on revaluation of securities on the statement of financial position within equity is removed therefrom and recognised in the profit and loss account.

6.8 Islamic financing and related assets

6.8.1 Financing is stated net of credit loss allowance and fair value adjustment. The amount of credit loss allowance is charged to the profit and loss account. Financing is written off / charge off in accordance with Bank policy by extinguishing them against the provision held. These write-offs / charge off do not, in any way, prejudice the Bank's right of recovery from these customers. The Bank offers various Islamic financing products the details of which are as follows:

(a) Murabaha

In Murabaha transactions, the Bank purchases the goods and after taking the possession, sells them to the customer on cost plus profit basis either in a spot or credit transaction.

(b) Diminishing Musharaka

It is a form of partnership in which the bank and the customers create co-ownership in the assets by purchasing it jointly. The Bank then rent out its share of the assets to the customer. Beside the payment of the rentals, customers also purchase the assets from the bank in installments. Hence at the end of the tenure, customer become sole owner of the assets.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

(c) Running Musharaka

In Running Musharakah financing, the Bank will enter into financing with the customer based on Shirkat-ul-Aqd (Business Partnership) in the customer's operating business. Under this mechanism the customer can withdraw and return funds to the Bank subject to its Running Musharakah Financing limit during the Musharakah period. At the end of each quarter / period the customer pays the provisional profit as per the desired profit rate which is subject to final settlement based on the relevant quarterly / half yearly / annual audited accounts of the customer.

(d) Ijarah

Ijarah is a contract whereby the owner of an asset (other than consumables) transfers its usufruct to another person for an agreed period and for an agreed consideration.

Ijarah assets are stated at cost less accumulated depreciation and impairment losses, if any. Depreciation is charged from the date of recognition of ijarah assets on a straight line basis over the period of Ijarah. Impairment of Ijarah assets is determined on the same basis as that of property and equipment.

Ijarah rental income is recognised on an accrual basis as and when the rental becomes due. Impairment of ijarah rental is determined in accordance with the requirements of the Prudential Regulations and other directives issued by the SBP from time to time and charged to the profit and loss account.

In Service Ijarah financing, the Bank provides financing by acquiring certain agreed services from the customer. After the purchase of services, the Bank appoints the customer to sell these services in the market over a period and provide a sale confirmation of such sale. The profit is only accrued from the date of receipt of such confirmation.

(e) Istisna

Istisna is a mode of sale at an agreed price, whereby the buyer places an order to or cause to manufacture, assemble or construct anything to be delivered at a future date.

The funds disbursed under Istisna are recorded as 'Advance against Istisna'. On execution of goods receiving note and receipt of manufactured goods, the same are recorded in the statement of financial position as inventories of the Bank at cost price and after sale of goods by customer to its ultimate buyers, Istisna financing is recognised.

(f) Musawamah

In Musawamah financing, the Bank purchases the goods and after taking the possession, sells them to customer either in spot or credit transaction, without disclosing the cost.

(g) Salam / Bai Salam

Salam / Bai Salam is a sale transaction where the seller undertakes to supply some specific goods to the buyer at a future date against an advance price fully paid on spot.

The funds disbursed under Salam / Bai Salam are recorded as advances against Salam / Bai Salam. On execution of goods receiving note and receipt of Salam / Bai Salam goods, the same are recorded in the statement of financial position as inventories of the Bank at cost price and after the sale of goods by customer to its ultimate buyers, Salam / Bai Salam financing is recognised.

(h) Tijarah

Tijarah is a financing mode under which the Bank purchases finished goods from the customer / seller against spot payment and delivery. Thereafter, the Bank appoints customer as an agent to sell the Tijarah goods in the market.

The funds disbursed under Tijarah are recorded as advances against Tijarah. On execution of goods receiving note and receipt of Tijarah goods, the same are recorded in the statement of financial position as inventories of the Bank at cost price and after the sale of goods by customer to its ultimate buyers, Tijarah financing is recognised.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

(i) Tawarruq

Tawarruq means "to sell a commodity at spot after its purchase on deferred basis to the party other than from whom it was purchased."

In practice "Tawarruq is an arrangement in which bank sells a commodity at a higher price from its market value to the Customer on deferred payment at cost plus profit. The customer, then sells the commodity to a third party on cash with a purpose of having access to liquidity".

(j) Government grants (Applicable after January 1, 2024)

Government grants are recognized when there is reasonable assurance of receipt and compliance with attached conditions. Asset-related grants are either recorded as deferred income or deducted from the asset's carrying amount, while income grants are systematically recognized in profit or loss. In line with IAS 20, government financing at below-market rates are treated as grants, with the benefit measured as the difference between the financing fair value and the proceeds received. The State Bank of Pakistan (SBP) has introduced temporary refinancing schemes to provide economic relief, which qualify as government grants. These are accounted for by bifurcating the liability into a financial liability under IFRS 9, measured at fair value, and a deferred grant liability representing the benefit received. The deferred grant liability is recognized in statement of financial position, at inception is initially offset against the fair value loss on below market rate financing provided to customers. The remaining portion is subsequently amortized over the tenure of financing, aligning with the unwinding difference between SBP refinance and customer financing.

6.9 Property and equipment and depreciation

(a) Tangible assets

Property and equipment other than land and buildings are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Buildings are carried at revalued amount less any accumulated depreciation and subsequent impairment losses, if any. Land is carried at revalued amount less any subsequent impairment losses, if any.

Depreciation on property and equipment (excluding land which is not depreciated) is charged using the straight line method in accordance with the rates specified in note 11.2 to these financial statements after taking into account residual value, if significant. The asset's residual values and useful lives are reviewed and adjusted, if required, at each reporting date. Depreciation on additions is charged once the assets become available for use and it stops when the asset is disposed or it is fully depreciated.

Subsequent costs are included in the asset's carrying amounts or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. All other repair and maintenance expenditures are charged to the unconsolidated profit and loss account as and when incurred.

Land and buildings are revalued by professionally qualified valuers with sufficient regularity to ensure that the net carrying amount does not differ materially from their fair value.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains / losses on disposal of property and equipment, if any, are taken to the profit and loss account in the period in which these arise except that the related surplus on revaluation of property and equipment (net of deferred taxation) is transferred directly to unappropriated profit.

Surplus on revaluation of property and equipment (net of associated deferred tax) to the extent of the incremental depreciation charged on the related assets is transferred to unappropriated profit.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

(b) Capital work-in-progress

Capital work-in-progress is stated at cost less accumulated impairment losses, if any. All expenditure connected with specific assets incurred during installation and construction period are carried under this head. These are transferred to specific assets as and when assets become available for use.

(c) Intangible assets

Intangible assets having definite lives are stated at cost less accumulated amortisation and accumulated impairment losses, if any. The intangible assets include directly attributable costs that are capitalised as part of the intangible asset. Amortisation, except for customer relationship, is charged by applying the straight-line method over the useful lives of the assets. Amortisation is calculated so as to write-off the assets over their expected economic lives at rates specified in note 13 to these unconsolidated financial statements. Amortisation is charged from when the asset is available for use and stops when the asset is disposed or its fully amortised. The intangible asset comprising customer relationship is being amortised over the life expectancy of the deposits. The residual values and useful lives of intangible assets are reviewed and adjusted, if appropriate, at each reporting date.

Subsequent costs are included in the asset's carrying amounts or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably.

Intangible assets having an indefinite useful life are stated at acquisition cost less accumulated impairment losses, if any.

Gains and losses on disposals, if any, are taken to the profit and loss account in the period in which these arise.

6.10 Impairment

The carrying amounts of assets are reviewed at each reporting date for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be recoverable. If any such indication exists, and where the carrying value exceeds the estimated recoverable amount, assets are written down to their recoverable amount, except in the case of an intangible asset with an indefinite useful life or an intangible asset not yet available for use and goodwill acquired in a business combination for which impairment is tested annually irrespective of whether there is any indication of impairment. The resulting impairment loss is taken to the profit and loss account except for impairment loss on revalued assets, which is adjusted against related revaluation surplus to the extent that the impairment loss does not exceed the surplus on revaluation of asset.

An impairment loss is reversed except for impairment loss relating to goodwill, if there has been a change in the estimate used to determine the recoverable amount. Such reversals are only made to the extent that the asset's carrying amount does not exceed the amount that would have been determined if no impairment loss had been recognised.

6.11 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current

Provision for current taxation is based on taxable income for the year. Tax charge for the current year is determined in accordance with the prevailing laws for taxation. The charge for the current tax is calculated using tax rates enacted or substantively enacted at the reporting date.

Prior

The charge / reversals for prior years represent adjustments to the tax charge / reversals for prior years, arising from assessments, changes in estimates, and retrospectively applied changes to the law, made during the current year.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

Deferred

Deferred tax is recognised using the balance sheet liability method on all temporary differences between the carrying amounts of assets and liabilities used for financial reporting purposes and amounts used for taxation purposes. In addition, the Bank also records deferred tax asset on available tax losses. Deferred tax is calculated using the rates that are expected to apply to the period when the differences reverse based on tax rates that have been enacted or substantively enacted at the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax asset is reduced to the extent that it is no longer probable that the related tax benefits will be realised.

The carrying amount of the deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised.

6.12 Assets acquired in satisfaction of claims

Non-banking assets acquired in satisfaction of claims are carried at revalued amounts less accumulated depreciation and accumulated impairment, if any. These assets are revalued by professionally qualified valuers with sufficient regularity to ensure that their net carrying values do not differ materially from their fair values. Legal fee, transfer costs and direct costs of acquiring title to the non-banking assets are charged to the unconsolidated profit and loss account and these are not capitalised as part of non-banking assets. A surplus arising on revaluation of non-banking assets acquired in satisfaction of claims is credited to the 'surplus on revaluation of assets' account. Any deficit arising on revaluation is first set off against the surplus account for that particular non-banking asset, if any, or if no surplus exists, is charged to the unconsolidated profit and loss account. These assets are disclosed in other assets as specified by the SBP.

Surplus on revaluation of non-banking assets (net of associated deferred tax) to the extent of the incremental depreciation charged on the related assets is transferred to unappropriated profit.

6.13 Provisions and contingent assets and liabilities

Provisions are recognised when the Bank has a legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimates.

Contingent assets are not recognised and are also not disclosed unless an inflow of economic benefits is probable. Contingent liabilities are not recognised and are disclosed unless the probability of an outflow of resources embodying economic benefits is remote.

6.14 Staff retirement benefits

a) Defined contribution plan

The Bank operates a contributory provident fund for all its permanent employees to which equal monthly contributions at the rate of 10 percent of basic salary are made both by the Bank and the employees.

b) Defined benefit plan

The Bank operates an approved funded gratuity plan for all its permanent eligible employees and eligible employees who are on contractual service and are employed under non-management cadre. Contributions to the fund are made on the basis of actuarial recommendations.

The Bank's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

Projected Unit Credit Method is used for the actuarial valuation.

Amounts arising as a result of "Remeasurements", representing the actuarial gains and losses and the differences between the actual investment returns and the return implied by the net return expense are recognised in the unconsolidated statement of financial position immediately, with a charge or credit to other comprehensive income in the periods in which these occur.

Staff retirement benefits are payable to staff on completion of prescribed qualifying period of service under these schemes.

6.15 Deposits and other accounts

Deposits are generated on the basis of two modes i.e. Qard and Mudaraba.

Deposits taken on Qard basis are classified as 'Current accounts' (non-remunerative) and deposits generated on Mudaraba basis are classified as 'Savings deposits' and 'Term deposits'. No profit or loss is passed on to current account depositors, however the funds of current accounts are treated as equity of the Bank for the purpose of profit calculation. Usually no restriction on withdrawals or number of transactions in current and savings accounts. In case of term deposits, pre-mature withdrawals can be made as per approved terms only.

Profits realised in investment pools are distributed in pre-agreed profit-sharing ratio between Rab-ul-Maal and Mudarib. Rab-ul-Maal share is distributed among depositors according to weightages assigned at the inception of profit calculation period.

Profits are distributed from the pool such that the depositors (remunerative) only bear the risk of assets in the pool during the profit calculation period. In case of loss in a pool during the profit calculation period, the loss is distributed among the depositors (remunerative) according to their ratio of Investments.

Pools are created at the Bank's discretion and the Bank can add, remove or transfer an asset to any other pool in the interests of the deposit holders.

6.16 Pool management

The Bank has maintained the following pools:

- i. 'General Pool' for local and foreign currency deposits;
- ii. 'Islamic Export Refinance Pool';
- iii. 'Interbank Treasury Musharaka Pool' ;
- iv. 'Islamic Investment Pool' (Mudarah based) - LCY & FCY;
- v. 'Islamic Saving Pool' (Mudarah based);
- vi. 'Islamic Equity Pool';
- vii. 'Haji Pool';
- viii. 'Treasury Mudarah Pool';
- ix. 'Pakistan Mortgage Refinance Company Musharakah Pool';
- x. 'Open Market Operation'; and
- xi. 'Mudarah based Financing Facility'

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

Key features and risk & reward characteristics of all pools

- The 'General Pool' for both local and foreign currency is catered for all FBL Islamic depositors and provide profit / loss based on Mudarabah and Musharaka.
- The Islamic Export Refinance Pool caters the 'Islamic Export Refinance' requirements based on the guidelines issued by the SBP.
- The 'Interbank Treasury Musharaka Pool' is to provide Shari'ah compliant mechanism for Interbank Money Market transactions and manage the liquidity position of FBL Islamic statement of financial position by creating individual pools against each FBL Islamic money market deals.
- The 'Islamic Investment Pool' (Mudarabah based) - LCY & FCY pools are created to cater the needs of high net worth clients.
- The Islamic saving pools are created to cater the needs of high net worth clients / institutions.
- The Islamic equity pool is created to mainly cater the funding requirement of project / long term financing assets during non accrual period.
- The Hajj pool is created to give returns to Ministry of religious affairs deposits.
- The Treasury Mudarabah Pool is created to cater the liquidity requirement of the Bank.
- Pakistan Mortgage Refinance Company Musharakah Pool is created to promote expansion of affordable housing finance.
- Shari'ah Compliant Mudarabah Based Open Market Operations (OMO) Pool was created to enhance monetary policy transmission and improve management of market liquidity.
- Shari'ah Compliant Standing Ceiling Facility- Mudarabah based Financing Facility (MFF) Pool was created with a view to provide liquidity management framework for the Bank and enhance the effectiveness of monetary policy implementation. As per the guidelines provided by State Bank of Pakistan, MFF shall be available as a standing facility on overnight basis.
- The risk characteristics of each pool mainly depends on the asset and liability profile of each pool.

6.16.1 Profit / (loss) distribution to depositor's pool

Parameters used for allocation of profit, charging expenses and provisions etc. along with a brief description of their major components:

Gross income generated from relevant assets, calculated at the end of the month is first divided between FBL Islamic and investors / depositors in the ratio of FBL Islamic equity commingled in a pool on pro rata basis, and then amongst FBL Islamic and the depositors as per agreed mudarib fee and weightages declared before start of a month, respectively. All Mudarabah and Musharaka based deposits are fully invested in respective Pools to produce returns for them. In case where FBL Islamic is unable to utilise all funds available for investment, priority is given to the deposit account holders.

All remunerative accounts such as remunerative current accounts, saving accounts, investment certificates, etc. are opened on the basis of Mudarabah, Musharaka, Wakalah or a combination of Mudarabah and Musharaka. The return on these deposits is calculated on the basis of Profit and Loss sharing (PLS). Unless specified, all remunerative local currency and foreign currency deposits are taken as General Mudarabah and Musharaka pool.

Profit share is determined by using weightages and profit sharing ratio assigned to each category of deposit within a pool. These weightages and profit sharing ratios are declared by FBL Islamic in compliance with the requirements of the Shari'ah and the SBP.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

The allocation (of income and expenses to different pools) is based on pre-defined basis and accounting principles / standards. The direct expenses are charged to respective pool. The indirect expenses including the establishment cost are borne by FBL Islamic as Mudarib. The direct expenses charged to the pool include depreciation of Ijarah assets, cost of sales of inventories, insurance / takaful expenses of pool assets, stamp fee, documentation charges, brokerage fee for the purchase of securities / commodities, impairment / losses due to physical damages to specific assets in pools etc. Provisions against any non-performing assets of the pool are not passed on to the pool except on the actual loss / write-off of such non-performing asset and suspension of income against non-performing assets. The profit of the pool is shared between the members of the pool on pre-defined mechanism based on the weightages announced before the profit calculation period.

Particulars	2024		2023	
	Rupees '000	Percent	Rupees '000	Percent
- Mudarib share amount and percentage of distributable income	66,194,466	44.18	43,412,039	37.65
- Amount and percentage of Mudarib share transferred to depositors through Hiba	23,759,949	35.89	13,604,438	31.34
- Profit rate earned (annualised)	-	18.97	-	18.53
- Profit rate distributed (annualised)	-	11.58	-	11.33

6.17 Subordinated Sukuk

Subordinated Sukuk are initially recorded at the amount of proceeds received. Profit on subordinated Sukuk is charged to the unconsolidated profit and loss account over the period on an accrual basis and is recognised separately as part of other liabilities.

6.18 Revenue recognition and other items

- Profit on Murabaha (including Commodity Murabaha) and Musawammah is recognised on an accrual basis.
- Rentals on Ijarah contracts are recognised as income on an accrual basis.
- Profit on Service Ijarah is recognised on an accrual basis commencing from the date of confirmation of sale to its ultimate buyer.
- Profit on Diminishing Musharakah financing is recognised on an accrual basis.
- Profit on Running Musharakah financing is recognised on an accrual basis and is adjusted upon final declaration of profit by Musharakah partners.
- Profit on Istisna / Salam / Bai Salam / Tijarah transactions are recognised on an accrual basis commencing from time of sale of goods till the realisation of sale of proceeds by the Bank.
- Profit on Sukuk is recognised on an accrual basis. Where Sukuk (excluding held for trading securities) are purchased at a premium or discount, those premiums / discounts are amortised through the unconsolidated profit and loss account over the remaining maturity.
- Premium or discount on acquisition of debt investments is capitalised and amortised through the unconsolidated profit and loss account over the remaining period till maturity.
- Dividend income from investments is recognised when the Bank's right to receive the dividend is established.
- Gain or loss on disposal of property and equipment is taken to the unconsolidated profit and loss account in the period in which they arise.
- The Bank earns fee and commission income from a banking service to retail and corporate customer. Fee and commission income is recognised at an amount that reflects the consideration to which the Bank expects to be entitled in exchange for providing the services.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

The Bank recognises fees earned on transaction-based arrangements at a point in time when the Bank has provided the service to the customer. Unearned fee and commission are included under other liabilities.

The fees pertaining to banking service to retail and corporate customer are based on schedule of charges reviewed regularly by the Bank.

- Rent and other income is recognised on an accrual basis.
- Profits on Bai Muajjal lendings are recognised on straight line accrual basis.
- Profit suspended in compliance with the Prudential Regulations issued by the SBP is recognised on receipt basis. Profit on rescheduled / restructured financing and investments is recognised as permitted by the SBP.
- Subsidized financing (TERF), staff financing and modified financing classified at amortized cost, is recognized using the effective yield rate (EIR) method. If the financing is at below-market rates, it is initially recognized at fair value. Subsequently, profit income is recorded using EIR.

6.19 Proposed dividend and transfer between reserves

Dividends and appropriations to reserves, except appropriations which are required by the law, made subsequent to the reporting date are considered as non-adjusting events and are recorded in the unconsolidated financial statements in accordance with the requirements of International Accounting Standard (IAS) 10, 'Events after the reporting period' in the year in which they are approved / transfers are made.

6.20 Foreign currencies

(a) Foreign currency transactions

Foreign currency transactions are recorded in rupees at exchange rates prevailing on the date of transaction. Monetary assets, monetary liabilities and contingencies and commitments in foreign currencies except forward commitments (promises) are reported in Rupees at exchange rates prevalent on the reporting date.

Forward commitments other than those with the SBP relating to the foreign currency deposits are valued at forward rates applicable to the respective maturities of the relevant foreign exchange commitments. Forward commitments with the SBP relating to foreign currency deposit, are valued at spot rate prevailing at the reporting date. Exchange gains and losses are included in the current year profit and loss account.

Commitments for outstanding forward foreign exchange transactions are disclosed at the rates applicable at the reporting date. Contingent liabilities / commitments for letters of credit, and letters of guarantee denominated in foreign currencies are expressed in rupee terms at the exchange rates prevailing on the reporting date.

(b) Translation gains and losses

Translation gains and losses are included in the unconsolidated profit and loss account.

6.21 Commitments

Commitments for outstanding forward foreign exchange contracts are disclosed in the unconsolidated financial statements at committed amounts. Commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in rupee terms at the rates of exchange prevailing at the reporting date.

6.22 Acceptances

Acceptances comprise undertakings by the Bank to pay bills of exchange drawn on customers. The Bank expects most acceptances to be simultaneously settled with the reimbursement from the customers. Acceptances are accounted for in these unconsolidated statement of financial position both as assets and liabilities.

6.23 Earnings per share

The Bank presents basic and diluted Earnings Per Share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any.

6.24 Segment reporting

Operating segments are reported in a manner consistent with internal reporting provided to the Chief Operating decision maker. The Chief Executive Officer (CEO) has been identified as the Bank's Chief Operating decision maker.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

(a) Business Segments

(i) Retail banking

Retail banking provides services to small borrowers i.e. commercials, consumers, small enterprises, medium enterprises and agriculture sector. It includes financing, deposits, other transactions and balances with retail customers.

(ii) Corporate and investment banking

This includes strategic partnership with corporate entities to provide working capital financing, trade financing, cash management services, project finance, export finance, leasing, guarantees, bills of exchange, deposits and other short term and long term finance. Further, this includes investment banking activities such as mergers and acquisitions, underwriting, privatisation, securitisation, Initial Public Offerings (IPOs), secondary private placements, etc.

(iii) Treasury and equity capital market (ECM)

It includes fixed income, equity, foreign exchanges, funding, own position securities and placements.

(iv) Special asset management (SAM)

This includes recoveries from borrowers' accounts which became delinquent or have defaulted in their repayment obligations.

(v) Others

It includes functions which cannot be classified in any of the above segments.

(b) Geographical segment

The operations of the Bank are currently based only in Pakistan.

6.25 Provision of claims under guarantees

A provision for claim under guarantees is recognised when intimated and reasonable certainty exists that the Bank will settle the obligation. The charge to the unconsolidated profit and loss account is stated net of expected recoveries as the obligation is recognised in other liabilities.

6.26 Lease liability and right-of-use assets

At the inception of the contract, the Bank assesses whether a contract is, or contains, a lease. The Bank applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Bank recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. Right-of-use assets are depreciated on a straight-line basis over the lease term.

At the commencement date of the lease, the Bank recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The Bank determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. After the commencement date, the Bank reassesses the lease term if there is a significant event or change in circumstances that is within its control that affects its ability to exercise or not to exercise the option to renew or to terminate. The Bank cannot readily determine the profit rate implicit in the lease, therefore, it uses its incremental fund acceptance rate to measure lease liabilities.

6.27 Share capital

Ordinary shares are classified as equity and recognised at their face value. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

6.28 Reserves

Reserves being held by the Bank in these unconsolidated financial statements include the following;

- Non - distributable capital reserve - gain on bargain purchase option (note 3.2).
- Statutory reserve represents amount set aside as per the requirements of section 21 of the Banking Companies Ordinance, 1962.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

9.2.1 GoP Ijara Sukuks have tenure ranging from 1 to 10 years. The Bank's return on these instruments ranges from 6.36% to 23.08% per annum (2023: 6.36% to 23.71% per annum) with maturities from April 2025 to October 2034.

9.2.2 The Bank has invested in PKR and foreign currency denominated Mudarabah based pools maintained by the Islamic Naya Pakistan Certificate Company Limited (INPCCL), a special purpose vehicle formed by the Government of Pakistan. As at December 31, 2024, the Bank's investment in PKR, USD, EURO and GBP denominated pools amounted to Rs. 771.724 million (2023: Rs. 477.759 million), USD 4.719 million with PKR equivalent of Rs. 1,314.365 million (2023: Rs. 4,367.162 million), EURO 0.388 million with PKR equivalent of Rs.112.567 million (2023: Rs 177.522 million) and GBP 1.219 million with PKR equivalent of Rs. 426.197 million (2023: Rs. 680.593 million) respectively. The actual profit rates on these pools are calculated in line with the Islamic principle of Mudarabah and communicated to the Bank at the end of each month. The profit earned by the Bank on these investment pools during the year 17% for PKR denominated pool, 5.75% for USD denominated pool, 5.25% for GBP denominated pool and 4% for EURO denominated pool. These investments are perpetual in nature and have no fixed maturity.

9.2.3 These include Sukuks having tenures ranging from 3 to 11 years. The Bank's return on these instruments ranges from 13.32% to 18.71% per annum (2023: 21.14% to 24.01% per annum) with maturities up to December 2032.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

13.2.1 The cost of fully amortised intangible assets that are still in the Bank's use is as follows:

	Note	2024	2023
		-----Rupees '000-----	
Computer software		2,430,463	2,191,750
Customer relationship	13.2.2	1,185,532	1,099,722
		<u>3,615,995</u>	<u>3,291,472</u>

13.2.2 This represents an intangible asset (customer relationship) which comprises of core deposits which were recognised at the time of acquisition of ex-RBS Pakistan. These core deposits represent the funding benefit that would be available to the Bank on account of availability of funding through customers deposit rather than from the wholesale or interbank market. This benefit also considers the fact that the economic life time of these deposits is longer than their contractual life. Based on this assumption, this intangible asset had been valued using certain valuation techniques and is being amortised over the life expectancy of these deposits. As more fully explained in note 13.3 to these unconsolidated financial statements, the SBP allowed the Bank to adjust the amortisation charge arising on this intangible asset against non-distributable capital reserve. The remaining amortisation period of this intangible asset is ranging from 5 to 6 years.

13.3 Non-distributable capital reserve - gain on bargain purchase

As per the directive of the SBP through its letter BPRD (R&P-02)/625-99/2011/3744 dated March 28, 2011, gain arising on bargain purchase of Pakistan operations of Royal Bank of Scotland (ex-RBS Pakistan) was credited directly into equity as non-distributable capital reserve (NCR). The SBP allowed the Bank to adjust the amortisation of the intangible asset against the portion of reserve which arose on account of such asset. Accordingly, the Bank has adjusted amortisation of intangible asset amounting to Rs 52.650 million (2023: Rs. 68.968 million) (net of tax) from the non-distributable capital reserve.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

The non-banking assets acquired in satisfaction of claims by the Bank have been revalued by an independent professional valuer as at December 31, 2024. The revaluation was carried out by Joseph Lobo (Private) Limited on the basis of professional assessment of present market values. The above market values are based on desktop valuations. The SBP's Regulations for Debt Property Swap require the Bank to carry out a full scope valuation of non-banking assets after every three years.

	Note	2024	2023
-----Rupees '000-----			
14.1.1 Non-banking assets acquired in satisfaction of claims

14.3.1 Movement in credit loss allowance held against other assets

Opening balance		327,580	325,254
Impact of adopting IFRS 9 as at January 1, 2024		2,575	-
Restated balance as at January 1, 2024		<u>330,155</u>	<u>325,254</u>
Charge for the year		-	2,731
Reversals during the year		(3,002)	(405)
	33	<u>(3,002)</u>	<u>2,326</u>
Amounts written off		-	-
Closing balance		<u>327,153</u>	<u>327,580</u>

14.4 This amount represents deferred fair value loss arising from the restructuring of Pakistan International Airlines Corporation Limited (PIACL). SBP through its circular BPRD/BRD/PIAHCL/733688-2024 dated August 01, 2024 has allowed staggering of such fair value impact over a period of 6 years at rates of 5%, 10%, 15%, 20%, 25%, and 25% from year 1 to year 6, accordingly, the Bank has amortized 5% in the current year.

14.5 The amount represents the prepaid employment benefit recognized in connection with concessional Islamic financing facilities provided to employees. These facilities were initially recognized at fair value due to the adoption of IFRS 9 as applicable in Pakistan. The resultant benefit arising from these concessional facilities is subsequently accounted for under IAS 19 Employee Benefits. The prepaid employee benefit is amortized in a manner that reflects the concessional facilities' income recognition. The current year amortization of prepaid employee benefit asset amounts to Rs. 628.644 million.

16.1 In accordance with the Islamic export refinance scheme (IERS), the Bank has entered into musharaka agreements for financing with the SBP for extending export finance to the customers. The average profit rates on this facility range from 2% to 18% (2023: 3% to 18%) payable on quarterly basis with maturities upto 180 days from the date of grant. As per the agreements, the Bank has granted the SBP the right to recover the outstanding amounts from the Bank at the date of maturity of the finances by directly debiting the current account maintained by the Bank with the SBP.

16.2 In accordance with the Islamic financing facility for renewable energy, the Bank has entered into mudarabah agreements for financing with the SBP for extending renewable energy finance to customers. The average profit rates on this facility range from 1% to 3% (2023: 2% to 3%) payable on quarterly basis with maturities upto May 2033. As per the agreements, the Bank has granted the SBP the right to recover the outstanding amounts from the Bank at the date of maturity of the finances by directly debiting the current account maintained by the Bank with the SBP.

16.3 In accordance with the Islamic long term financing facility for plant and machinery, the Bank has entered into mudarabah agreements for financing with the SBP for extending islamic long term finance to the customers. The average profit rates on this facility range from 2% to 7% (2023: 3% to 18%) payable on quarterly basis with maturities upto December 2034. As per the agreements, the Bank has granted the SBP the right to recover the outstanding amounts from the Bank at the date of maturity of the finances by directly debiting the current account maintained by the Bank with the SBP.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

- 16.4** In accordance with the Islamic temporary economic refinance facility (ITERF), the Bank has entered into mudarabah agreements for financing with the SBP for extending finance to the customers. The average profit rate on this facility is 1% (2023: 1%) payable on quarterly basis with maturities upto December 2032. As per the agreements, the Bank has granted the SBP the right to recover the outstanding amounts from the Bank at the date of maturity of the finances by directly debiting the current account maintained by the Bank with the SBP.
- 16.5** In accordance with the Islamic refinance facility for combating COVID-19, the Bank has entered into mudarabah agreements for financing with the SBP for extending medical equipment finances to the customers. The average profit rate on this facility is 0% (2023: 0%) payable on quarterly basis with maturities upto June 2026. As per the agreements, the Bank has granted the SBP the right to recover the outstanding amounts from the Bank at the date of maturity of the finances by directly debiting the current account maintained by the Bank with the SBP.
- 16.6** These represent balances due to the SBP under scheme of Islamic financing facility for storage of agricultural produce (IFFSAP). The profit rate on this facility is 2% per annum (2023: 2%) payable on quarterly basis with maturity upto February 2029. As per the agreements, the Bank has granted the SBP the right to recover the outstanding amounts from the Bank at the date of maturity of the finances by directly debiting the current account maintained by the Bank with the SBP.
- 16.7** In accordance with rupee based discounting scheme under IERS, the Bank has entered into musharaka agreements for financing with the SBP for extending export finance to the customers. The average profit rates on this facility range from 0.5% to 2% (2023: 0.5% to 2%) payable on quarterly basis with maturities upto 180 days from the date of grant. As per the agreements, the Bank has granted the SBP the right to recover the outstanding amounts from the Bank at the date of maturity of the finances by directly debiting the current account maintained by the Bank with the SBP.
- 16.8** This represents borrowing from State Bank of Pakistan under Open Market Operation and Mudarabah based Financing Facility (MFF). The average profit rates on these borrowing ranges from 13.13% to 14% (2023: 22.10% to 23%) per annum having maturity in January 2025.
- 16.9** This represents borrowing from Pakistan Mortgage Refinance Company (PMRC). The average profit rate on this ranging 8.75% to 20.86% (2023: 8.75% to 20.86%) per annum having maturity in June 2026.
- 16.10** This represents Musharaka acceptance on profit and loss sharing basis. The expected rates on these deal ranges from 11.15% to 13.50% (2023: 21.70% to 22%) per annum having maturity in March 2025.
- 16.11** Details and nature of securities pledged as collateral against due to financial institution are given in note 9.3 to these unconsolidated financial statements.

Indemnity issued favouring the Honorable High Court in one of the cases		457,543	457,543
Tax liability of gain on bargain purchase on the acquisition of ex-RBS Pakistan	23.3.1	1,154,701	1,154,701
		<u>4,122,244</u>	<u>4,122,244</u>

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

23.3.1 Income tax assessments of the Bank have been finalised upto the tax year 2024 (accounting year ended December 31, 2023).

The department and the Bank has disagreement on a matter relating to taxability of gain on bargain purchase on the acquisition of ex-RBS Pakistan. The additional tax liability on the matter amounts to Rs. 1,154.701 million (December 31, 2023: Rs. 1,154.701 million). The Commissioner Inland Revenue (Appeals) [(CIR(A)] had deleted the said additional tax liability, however the income tax department had filed an appeal with the Appellate Tribunal Inland Revenue (ATIR) against the order of CIR(A). During the current year, the ATIR passed an order and maintained the decision of the CIR(A) in favour of the Bank that gain on bargain purchase is not taxable. Subsequently, the department has challenged the order in Honourable High Court of Sindh. However, the management of the Bank is confident that the matter will be decided in the Bank's favour and accordingly, no provision has been recorded in these unconsolidated financial statements in respect of this matter.

23.4 There are certain claims against the Bank not acknowledged as debt amounting to Rs 32,754 million (December 31, 2023: Rs 29,647 million). These mainly represent counter claims filed by the borrowers for restricting the Bank from disposal of assets (such as mortgaged / pledged assets kept as security), cases where the Bank was proforma defendant for defending its interest in the underlying collateral kept by it at the time of financing, certain cases filed by ex-employees of the Bank for damages sustained by them consequent to the termination from the Bank's employment and cases for damages towards opportunity losses suffered by the customers due to non-disbursements of running finance facility as per the agreed terms. The above also includes an amount of Rs 25,299 million (December 31, 2023: 25,299 million) in respect of a suit filed against the Bank for declaration, recovery of monies, release of securities, rendition of account and damages.

Based on legal advice and / or internal assessments, the management is confident that the above matters will be decided in the Bank's favour and accordingly no provision has been made in these unconsolidated financial statements.

23.5 Commitments to extend credits

The Bank makes commitments to extend credit (including to related parties) in the normal course of its business but these being revocable commitments do not attract any significant penalty or expense if the facilities are unilaterally withdrawn except for Rs. 5,358 million (2023: Rs. 3,430 million) which are irrevocable in nature.

24 DERIVATIVE INSTRUMENTS

Cross currency swaps (notional principal)

	2024	2023
	-----Rupees '000-----	
	964,082	1,678,515

Derivative instruments, such as forward rate agreements, cross currency swaps and FX options, are forward transactions that provide market making opportunities / hedge against the adverse movement of exchange rates. Derivatives business provides risk solutions for the existing and potential customers of the Bank. All derivative transactions are governed by "The Financial Derivatives Business Regulations" (FDBR) issued by the SBP.

37.1 In addition to the above, 1,466 (2023: 1,297) employees of outsourcing services companies were assigned to the Bank as at the end of the year to perform services other than guarding and janitorial services.

38 DEFINED BENEFIT PLAN

38.1 General description

The Bank operates an approved funded gratuity scheme for all its permanent employees and employees who are on contractual service in non-management cadre. The benefits under the gratuity schemes are payable on retirement at the age of 60 years or earlier cessation of service in lumpsum. The benefits are equal to one month's last drawn basic salary for each year of eligible service or part thereof. The minimum qualifying eligible service for gratuity is 1 year for employees who became members of the Funds before November 12, 2002. In the case of other members of the Funds the minimum qualifying eligible service is 5 years. The minimum qualifying eligible service for contractual employees not employed under the management cadre is 6 months. The latest actuarial valuation of the Bank's defined benefit plan, based on the Projected Unit Credit Actuarial Cost Method, was carried out as at December 31, 2024.

The balance of conventional sub-funds has been transferred to islamic sub-fund.

		2024	2023
Number of employees			
38.2 Number of employees under the scheme			
The number of employees covered under the following defined benefit scheme are:			
- Gratuity fund		<u>9,824</u>	<u>8,787</u>

38.3 Principal actuarial assumptions

The actuarial valuations were carried out as at December 31, 2024 using the following significant assumptions:

	2024	2023
-----% per annum-----		
Discount rate	12.25	16.00
Expected rate of salary increase	13.25	16.00

38.3.1 Assumptions regarding future mortality are set based on actuarial advice in accordance with published statistics and experience in Pakistan. The rates assumed are based on the adjusted SLIC 2001 - 2005 mortality tables.

Remeasurement of plan assets	<u>76,571</u>	<u>124,996</u>	<u>685</u>	<u>(41,910)</u>	<u>(15,343)</u>

38.11 Sensitivity analysis

The analysis based on a change in an assumption while holding all other assumptions constant. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the gratuity liability recognised within the statement of financial position. The increase / (decrease) in the present value of defined benefit obligations as a result of change in each assumption should be summarised as illustrated below:

	2024	2023
	-----Rupees '000-----	
1% increase in discount rate	<u>(193,444)</u>	<u>(131,397)</u>
1% decrease in discount rate	<u>222,389</u>	<u>149,748</u>
1% increase in expected rate of salary increase	<u>224,308</u>	<u>152,716</u>
1% decrease in expected rate of salary increase	<u>(198,665)</u>	<u>(136,223)</u>
1 year increase in expected life / withdrawal rate	<u>(59,824)</u>	<u>(43,853)</u>
1 year decrease in expected life / withdrawal rate	<u>53,475</u>	<u>39,198</u>

38.14 Expected charge for the next financial year		<u>522,769</u>

38.15 Maturity profile

The weighted average duration of the defined benefit obligation is 8.11 years.

38.16 Funding policy

The policy followed by the Bank in respect of the staff retirement benefit schemes is disclosed in note 6.14 of these unconsolidated financial statements.

38.17 The gratuity scheme exposes the Bank to the following risks:

Asset volatility

The Defined Benefit Gratuity Islamic Fund is invested in Ijarah Sukuk. The investment is almost 94.91% (Rs. 2,331 million) for Ijarah Sukuk. Islamic Fund has not such investment in any Government Bonds and Corporate Bonds hence the asset volatility risk is lower.

Changes in bond yields

There are two dimensions to the changes in Bond yields: first, as described above; second, the valuation of the gratuity Liability is discounted with reference to these bond yields. So any increase in Bond yields will lower the gratuity Liability and vice versa, but, it will also lower the asset values.

Inflation risk

The salary inflation is the major risk that the gratuity fund liability carries. In a general economic sense and in a longer view, there is a case that if bond yields increase, the change in salary inflation generally offsets the gains from the decrease in discounted gratuity liability. But viewed with the fact that asset values will also decrease, the salary inflation does, as an overall affect, increases the net liability of the Bank.

Life expectancy / withdrawal rate

The Gratuity is paid off at the maximum of age 60. The Life expectancy is in almost minimal range and is quite predictable in the ages when the employee is in the accredited employment of the Bank for the purpose of the Gratuity. Thus, the risk of life expectancy is almost negligible. However, had a post- retirement benefit been given by the Bank like monthly pension, post-retirement medical etc., this would have been a significant risk which would have been quite difficult to value even by using advance mortality improvement models.

The withdrawal risk is dependent upon the: benefit structure; age and retention profile of the staff; the valuation methodology; and long-term valuation assumptions. In this case, it is not a significant risk.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

Other risks

Though, not imminent and observable, over long term there are some risks that may crystallize. These includes:

- Retention risk – The risk that employee will not be motivated to continue the service or start working with the Bank if no market comparable retirement benefit is provided.
- Final Salary Risk – The risk, for defined benefit gratuity, that any disproportionate salary merit increases in later service years will give rise to multiplicative increase in the gratuity liability as such increase is applicable to all the past years of service.
- Model Risk – The defined benefit gratuity liability is usually actuarially valued each year. Further, the assets in the Gratuity Fund are also marked to market. This two-tier valuation gives rise to the model risk.
- Operational Risk related to a separate entity - Retirement benefits are funded through a separate trust fund which is a different legal entity than the Bank. Generally, the protocols, processes and conventions used throughout the Bank are not applicable or are not actively applied to the retirement benefit Funds. This gives rise to some specific operational risks.
- Compliance Risk – The risk that retirement benefits offered by the Bank does not comply with minimum statutory requirements.
- Legal/Political Risk – The risk that the legal/political environment changes and the Bank is required to offer additional or different retirement benefits than what the Bank projected.

39 DEFINED CONTRIBUTION PLAN

The Bank operates an approved funded contributory provident fund for all its permanent employees to which equal monthly contributions are made both by the Bank and the employees at the rate of 10% of the basic salary. The financial statements of the fund are separately prepared and are not included as part of these unconsolidated financial statements.

	2024	2023
	-----Rupees '000-----	
Contribution from the Bank	481,672	385,131
Contribution from the employees	481,672	385,131
	<u>963,344</u>	<u>770,262</u>

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

41 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified under held to collect model, is based on quoted market price. Quoted securities classified under held to collect model are carried at amortized cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

41.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

On-balance sheet financial instruments

Financial assets - measured at fair value

Investments

Federal Government securities

Shares

Non-Government debt securities

Financial assets - disclosed but not measured at fair value

Investments

Non-Government debt securities (note 9.7.1)

Non-financial assets - measured at fair value

Property and equipment (land and buildings) (note 11.2)

Non-banking assets acquired in satisfaction of claims (note 14.1)

Off-balance sheet financial instruments - measured at fair value

Forward purchase of foreign exchange

Forward sale of foreign exchange

Derivatives sales

Off-balance sheet financial instruments - measured at fair value

Forward purchase of foreign exchange	-	55,514,935	-	55,514,935
Forward sale of foreign exchange	-	9,610,511	-	9,610,511
Derivatives sales	-	1,678,515	-	1,678,515

The Bank's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date when the event or change in circumstances require the Bank to exercise such transfers.

Valuation techniques used in determination of fair values within level 2

Item	Valuation approach and input used
Ijara Sukuk	Fair values of GoP Ijara Sukuk are derived using the PKISRV rates announced by the Financial Markets Association of Pakistan (FMAP) through Reuters and GIS revaluation rates issued by PSX. These rates denote an average of quotes received from different pre-defined / approved dealers / brokers.
Unlisted ordinary shares	Break-up value is determined on the basis of the NAV of the company using the latest available financial statements.
Sukuk Certificates	Sukuk certificates are determined using the MUFAP or PSX rates.
Forward foreign exchange contracts	The valuation has been determined by interpolating the mark-to-market currency rates announced by the State Bank of Pakistan.
Derivative instruments	The Bank enters into derivative contracts with various counterparties. Derivatives that are valued using valuation techniques with market observable inputs are mainly cross currency swaps and forward foreign exchange contracts. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations.
Mutual funds	Units of mutual funds are valued using the net asset value (NAV) announced by the Mutual Funds Association of Pakistan (MUFAP).
Property and equipment (land and buildings)	Land and buildings and NBA are revalued by professionally qualified valuers of the Bank. The valuations, mentioned above, are conducted by the valuation experts appointed by the Bank which are also on the panel of the Pakistan Banks' Association (PBA). The valuation experts use a market based approach to arrive at the fair value of the Bank's properties. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable or similar properties. These values are adjusted to reflect the current condition of the properties.
Non-banking assets acquired in satisfaction of claims (NBAs)	

Notes to the Unconsolidated Financial Statements

RELATED PARTY TRANSACTIONS

The Bank has related party transactions with various parties including its parent, subsidiaries, associates, employee benefit plans and its directors and key management personnel.

The Bank enters into transactions with related parties in the ordinary course of business and on substantially the same terms as for comparable transactions with persons of similar standing. Contributions to and accruals in respect of staff retirement benefits and other benefit plans are made in accordance with the actuarial valuations / terms of the contribution plan. Remuneration to the executives / officers is determined in accordance with the terms of their appointment.

Details of transactions and balances with related parties as at the year end, other than those which have been disclosed elsewhere in these unconsolidated financial statements, are as follows:

[illegible]

44.1 Balances pertaining to parties that were related at the beginning of the period but ceased to be related during any part of the current period are not reflected as part of the closing balance. The same are accounted for through the movement presented above.

44.2 Details of outstanding investments in the subsidiary company and donations made during the year relating to related parties are given in notes 9 and 31.3 to these unconsolidated financial statements. Contributions to and accruals in respect of retirement benefit plans are made in accordance with the actuarial valuations / terms of the contribution plan (refer notes 38 and 39 to these unconsolidated financial statements for the details of the plans). Remuneration of the President and Chief Executive Officer, directors' fee, and certain related information are disclosed in note 40 to these unconsolidated financial statements. Such remuneration is determined in accordance with the terms of their employment. Details of shares held by the parent company are disclosed in note 21.2.1 to these unconsolidated financial statements. Details of assets held under trust arrangement on behalf of the related parties are given in note 43 to these unconsolidated financial statements.

45 CAPITAL ADEQUACY, LEVERAGE RATIO & LIQUIDITY REQUIREMENTS		
Minimum capital requirement (MCR):		
Paid-up capital (net of losses)	15,176,965	15,176,965
Capital adequacy ratio (CAR):		
Eligible common equity tier 1 (CET 1) capital	84,304,346	72,868,421
Eligible additional tier 1 (ADT 1) capital	-	-
Total eligible tier 1 capital	84,304,346	72,868,421
Eligible tier 2 capital	21,353,226	14,309,769
Total eligible capital (tier 1 + tier 2)	105,657,572	87,178,190
Risk weighted assets (RWAs):		
Credit risk	420,380,649	338,652,592
Market risk	73,324,362	55,101,145
Operational risk	145,242,197	105,584,800
Total	638,947,208	499,338,537
Common equity tier 1 capital adequacy ratio (in %)	13.19%	14.59%
Tier 1 Capital adequacy ratio (in %)	13.19%	14.59%
Total Capital adequacy ratio (in %)	16.54%	17.46%

Capital adequacy is regularly monitored by the Bank's management, employing techniques based on the guidelines developed by the Basel Committee and as per the requirements of the SBP. The required information is submitted to the SBP on a quarterly basis.

Since December 31, 2021, the SBP requires each bank or banking group to: (a) hold the minimum level of the paid-up capital of Rs 10 billion; (b) maintain a ratio of total regulatory capital to the risk-weighted assets at or above the required minimum level of 10% and (c) maintain common equity tier I (CET1) ratio and tier 1 ratio of 6% and 7.5% respectively.

An additional capital conservation buffer (CCB) of 1.5% (to be met from CET1) has to be maintained over and above the minimum required level.

The paid-up capital of the Bank for the year ended December 31, 2024, stood at Rs 15.177 billion (2023: Rs 15.177 billion). As at December 31, 2024, the Bank's CAR stood at 16.54% (December 31, 2023: 17.46%) whereas CET1 and Tier 1 ratios both stood at 13.21% (December 31, 2023: 14.59%).

The Bank is also in compliance with the capital conservation buffer requirements.

The Bank calculates capital requirement as per Basel III regulatory framework, using the following approaches:

Credit Risk	Standardised Approach
Market Risk	Standardised Approach
Operational Risk	Basic Indicator Approach

46 RISK MANAGEMENT

Risk management group (RMG) has been organised under the Chief Risk Officer (CRO). It has been authorised by the Board of Directors (BoD) to monitor the implementation of an integrated risk management framework across the Bank. As an ongoing exercise to integrate risk related functions, RMG has been expanded, strengthened and entrusted to monitor the risk areas across the organisation, including adoption and convergence towards regulatory and Basel guidelines on risk management.

The primary objective of this architecture is to inculcate risk management into the organisation flows to ensure that risks are timely and accurately identified and assessed, properly documented, approved and adequately monitored and managed in order to ensure that risk taking activities are in line with the guidelines approved by the BoD and to protect the interests of the Bank's depositors and shareholders.

The 'risk management framework' at the Bank encompasses:

- scope of risks to be managed;
- process, systems and procedures to manage risk; and
- roles and responsibilities of individuals involved in risk management.

The Bank has adopted an approach that gives an integrated view of the risks faced by the organisation. This calls for aligning strategic vision, policy objectives and business processes / procedures within the risk management framework. The management of risk is integrated with the Bank's management of capital and strategy. This ensures that risks taken in pursuit of the Bank's strategic objectives are consistent with the policies, translating into targeted shareholder return as well as the Bank's desired credit rating and risk appetite.

With this in view, the risk management framework endeavours to be a comprehensive and evolving set of guidelines to cater to changing business dynamics. The risk management framework includes:

- clearly defined risk management policies;
 - well constituted organisational structure; and
 - mechanism for ongoing review of all policies and procedures and risk exposures.
- The 'risk management framework' is built on the following elements:
- comprehensive risk governance; and
 - effective risk processes.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

The Bank has developed and implemented a governance and management structure, processes surrounding each risk area, including credit risk, market risk, liquidity risk, capital management, operational risk, environmental & social risk, Shari'ah non-compliance risk and information security risk.

The essential components which contribute in effective management of all these risks are as follows:

- active board / senior management strategic direction and centralised RMG oversight;
- sufficient policies, procedures and limits;
- adequate risk measurement, monitoring and management information systems; and
- comprehensive internal controls.

The Board of Directors (BoD) monitoring and oversight is facilitated through the Board Risk Management Committee (BRMC), comprising of directors including the President & CEO. It is appointed and authorised by the BoD to assist in the design, regular evaluation and timely updation of the risk management framework. The BRMC has further authorised management committees such as Country Credit Committee (CCC), Agriculture Credit Committee (ACC), Enterprise Risk Management Committee (ERMC) and Assets and Liabilities Committee (ALCO) to supervise risk management activities within their respective areas.

In order to have an effective and efficient risk assessment, and to closely align its functions with business, RMG has separate risk management functions for credit risk management, based on the specialised skill sets and required specific experience in various business segments. These functions comprise of corporate risk, CBSME, agri and retail risk management.

The common responsibilities of all credit risk management functions include:

- conduct a thorough and an independent due diligence of the proposed / existing exposures in the respective risk portfolios.
- work with compliance department of the Bank to ensure conformity to the relevant Government regulations, the SBP PRs as well as internal policies.
- work with relationship teams to structure exposures such that they mitigate key risks, cater to customer requirements, remain economical in terms of risk weighted assets / capital allocation to ensure adequate risk coverage.

The risk management architecture is further fostered by enterprise risk management, risk policy, analytics & ESG, information security function and an independent credit administration department.

The enterprise risk management function is responsible for managing and controlling market, operational and liquidity risks at an enterprise level and monitoring regulatory capital requirements of the Bank.

Credit administration department - independent from the Risk Management function - looks after the security, financing documentation, disbursement and post disbursement monitoring aspects of the credit portfolio.

Risk policy, analytics & ESG department serves as an independent check in the risk management function. It performs periodic review of all credit related portfolios (corporate, CBSME, retail, agri, SAM) and analyses portfolio compositions, risk rating distributions, emerging trends of NPLs, renewal status of Risk Approvals (RAs) as per policy and other policy related matters. It also formulates / updates credit policies (along with various limits prescribed therein) in line with regulatory environment, business strategy, the BoD approvals and the best practices.

Moreover, the Green Banking Office (GBO) has been consolidated under the Risk Policy, Analytics & ESG umbrella at FBL. Established in accordance with the State Bank of Pakistan's Green Banking Guidelines (Circular #08 of IH&SMEFD, dated October 09, 2017), the GBO operates within the Risk function to oversee the entity-wide implementation of Green Banking and ESG initiatives. This office is responsible for the day-to-day management of green banking activities at FBL.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

and supports the integration of ESG considerations into business decision-making. The GBO ensures the Bank's compliance with SBP's Green Banking Guidelines, FBL's Green Banking Policy, and any other relevant regulatory directives.

The information security risk function is responsible for information security risk identification, monitoring and reporting.

46.1 Credit risk

Credit risk is the identification of probability that a counterparty will cause a financial loss to the Bank due to its inability or unwillingness to meet its contractual obligation. This credit risk arises mainly from both direct financing activities as well as contingent liabilities.

The Bank's credit risk philosophy is based on the Bank's overall business strategy / direction as established by the Board. The Bank is committed to the appropriate level of due diligence to ensure that credit risks have been properly analysed, fully disclosed to the approving authorities, appropriately rated, appropriately structured, appropriately priced and documented.

The Bank deals with many different types of obligors/customers and financing structures across the corporate, commercial, SME, agriculture and retail segments. The Bank manages customer credit risk exposures within appropriate limits to ensure that it does not provide a disproportionate level of credit to a single customer or group of connected clients. The Bank follows aggregation principles – summing of credit risk limits to the same customer, or group of connected clients – to identify and manage effectively all significant credit risk exposures to a single customer within an individual business and, where appropriate, across other business segments.

The Bank has well-defined credit approval and review processes under which senior officers with the requisite credit background, critically scrutinise, advise and discuss associated risks and recommend / review / approve credit facilities and financing, through respective credit committees. Besides financial, industry and transaction analysis, in order to quantify risks of counterparty, the credit evaluation also includes risk rating system to evaluate risk rating of the customers which is then monitored on a portfolio basis to gauge the Bank's credit portfolio quality. To avoid risk concentration, counterparty limits, counterparty group limits and industry concentration limits are also established, monitored and assessed in the light of changing counterparty and market conditions.

With a view to develop and effectively manage a diversified credit portfolio within each business segment (as an integral part of the credit risk management process), the Bank has adopted the concept of an industry / sector-wise exposure concentration grid which dictates target market exposures.

As part of the Bank's portfolio strategy and planning activity, these industry concentration limits are continually overseen by the management against the Bank's approved exposures in these sectors and reviewed by the Board Risk Management Committee (BRMC) in its meetings with an aim to monitor the overall risk and to avoid high exposure to a single group or industry.

The Bank is regularly conducting credit portfolio reviews to assess early warning signs, with robust post disbursement credit review mechanism to identify obligors/customers most likely to be affected in the challenging business and economic environment. Bank is confident that it has adequate capacity to withstand challenges.

The Bank uses the Standardised Approach to calculate capital charge for credit risk as per Basel regulatory framework, with comprehensive approach for credit risk mitigation.

Stress testing for credit risk is carried out regularly to estimate the impact of increase in non performing financing and downward shift in these categories.

46.1.1 Segment by class of business

Credit Risk Management (CRM) Framework (non-individual portfolio) covers three business segments: corporate risk management, commercial banking and SME (including agri) risk management. Based on overall guidance provided by a recognised and established external consultant, in line with the global best practices while ensuring regulatory compliance and alleviation of any (perceived) conflict of interest, credit management process has been segregated into

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

two distinct categories:

- independent risk advice by risk management function.
- credit approvals by credit committee(s), while taking into consideration the business unit recommendations / approvals and independent risk advice.

With this segregation, the role of risk management function in credit approval process is focused to provide risk advice only, based on key risk parameters; whereas relevant credit committees are responsible for providing credit related approvals.

The common responsibilities of corporate risk management and commercial banking and SME (including agri) risk management include:

- conduct a thorough and an independent due diligence of the proposed / existing exposures in the respective risk portfolios.
- work with relationship teams to advise on structure of exposures such that they mitigate key risks, cater to customer requirements, remain economical in terms of risk weighted assets / capital allocation to ensure risk coverage.
- work with the independent credit risk review team (under internal audit) for effective and periodic review of the credit portfolio.

Retail risk management is responsible for managing the credit risk of consumer finance credit products, with credit facilities extended to individual (non-corporate) customers. The consumer finance function operates on a program approach, which are approved by the Country Credit Committee and subsequently by the BoD. The retail risk management provides its input on risk parameters in term of 'risk advice', at the time of approval / changes in product programs. The retail risk management also ensures that all the ongoing individual credit approvals are within pre-defined risk parameters as per the approved product programs.

46.1.2 Credit risk: general disclosures Basel specific

The Bank has adopted the standardised approach under Basel. According to the regulatory statement submitted under the standardised approach, the portfolio has been divided into claims on public sector entities in Pakistan (PSEs), claims on corporate (excluding equity exposure) and claims categorised as retail portfolio. Claims on corporate constitute 61.38% (2023: 59.45%) of the total credit risk weighted assets, 2.30% (2023: 1.27%) represents claims on PSEs and 14.86% (2023: 13.91%) exposure pertains to claims categorised as retail portfolio.

46.1.3 Credit risk: disclosures for portfolio subject to standardised approach

For domestic claims, external credit assessment institutions (ECAIs) recommended by the SBP, namely Pakistan Credit Rating Agency Limited (PACRA) and VIS Credit Rating Company Limited are used. For claims on foreign entities, ratings assigned by Standard and Poor, Fitch and Moody's are used. Exposures not rated by any of the aforementioned rating agencies are categorised as unrated.

Exposures	PACRA	VIS	Standard and Poor's	Moody's	Fitch
Corporate	✓	✓	-	-	-
Banks	✓	✓	✓	✓	✓
Sovereigns	-	-	✓	✓	✓
PSEs	✓	✓	-	-	-

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

The SBP's indicative mapping process as instructed in the SBP's circular "Minimum capital requirements for banks and DFIs" (indicated in table below) was used to map alpha numeric ratings of PACRA, VIS, S&P's, Moody's, Fitch ratings, and numeric scores of ECAs, to the SBP's rating grades.

Long term rating grades mapping

SBP rating	ECA scores	PACRA	VIS	S & P	Moody's	Fitch
1	0,1	AA- and above	AA- and above	AA- and above	Aa3 and above	AA- and above
2	2	A+ to A-	A+ to A-	A+ to A-	A1 to A3	A+ to A-
3	3	BBB+ to BBB-	BBB+ to BBB-	BBB+ to BBB-	Baa1 to Baa3	BBB+ to BBB-
4	4	BB+ to BB-	BB+ to BB-	BB+ to BB-	Ba1 to Ba3	BB+ to BB-

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

46.1.7 Concentration of Islamic financing and related assets - exposures

The Bank's top 10 exposures on the basis of total (funded and non-funded exposures) aggregated to Rs. 212,284 million (2023: Rs. 266,946 million) are as following:

	2024	2023
	-----Rupees '000-----	
Funded	179,748,973	261,026,933
Non-funded	32,534,820	5,919,270
Total exposure	212,283,793	266,946,203

The sanctioned limits against these top 10 exposures aggregated to Rs. 215,529 million (2023: Rs. 280,123 million).

There are no classified exposures under this category of advances.

46.1.9 Forward-looking information contained in ECL

The Bank's Expected Credit Loss (ECL) calculation incorporates forward-looking information by integrating macroeconomic variables to enhance the accuracy and reliability of credit risk estimates. The use of forward-looking data helps in better predicting potential credit losses under different economic conditions.

To estimate Probability of Default (PD) and Loss Given Default (LGD), the Bank utilizes historical and forecasted macroeconomic data. For ECL calculations, the Bank considers Gross Domestic Product (GDP) and Consumer Price Index (CPI) as the primary macroeconomic variables, with forecasted data sourced from the International Monetary Fund (IMF). The selection of these variables is based on their relevance and sensitivity to specific portfolios.

The Bank has developed three macroeconomic scenarios—Base, Best, and Worst—to reflect potential economic conditions. These scenarios have been assigned probability weightings of 60% for the Base scenario, 10% for the Best scenario, and 30% for the Worst scenario to ensure a comprehensive assessment of credit risk exposure.

As part of its forward-looking assessment, the Bank conducted a sensitivity analysis on macroeconomic indicators used in Expected Credit Loss (ECL) calculations. As of December 31, 2024, the Bank developed three scenarios—Base, Best, and Worst—based on a five-year forecast. A 10% change in macroeconomic variables (GDP and CPI) in the Base scenario was applied to assess the upside and downside impact on PD / ECL. The resulting variations across different segments are as follows:

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

Segment	Upwards	Downwards
Corporate/Commercial	-9.080%	10.293%
SME	-9.404%	10.344%
AGRI	-7.223%	7.699%
Consumer	-3.697%	3.838%

46.1.10 Sensitivity of ECL to Future Economic Conditions

The ECL are sensitive to judgements and assumption made regarding formulation of forward-looking scenarios and how much such scenarios are incorporated into calculations. The Bank performs sensitivity analysis on the ECL recognized on each of its segments.

The table below shows the loss allowance on each segment assuming each forward-looking scenario (e.g. Base, Best and Worst) were weighted 100% instead of applying scenario probability across the three scenarios.

	Total ECL as per FS	Base		Best		Worst	
		Total ECL after sensitivity analysis	Increase / decrease in %	Total ECL after sensitivity analysis	Increase / decrease in %	Total ECL after sensitivity analysis	Increase / decrease in %
Corporate / Commercial	2,270,705	1,593,831	-29.809%	580,320	-74.443%	4,187,915	84.432%
SME	77,959	59,789	-23.307%	24,454	-68.632%	132,136	69.494%
AGRI	82,331	66,440	-19.301%	30,433	-63.036%	131,413	59.615%
Consumer	510,137	431,526	-15.410%	246,050	-51.768%	755,386	48.075%

46.2 Market Risk

It is the risk that the value of on-balance sheet and off-balance sheet positions of the Bank will be adversely affected by movements in market rates or prices such as benchmark rates, deposit rates, foreign exchange rates, equity prices and / or commodity prices resulting in a loss to earnings and capital. Market risks arise generally from trading activities, open foreign currency positions, holding common equity and other products. All such instruments and transactions are exposed to general and specific market movements.

The Bank seeks to mitigate market risk by employing strategies that correlate price, rate and spread movements of its earning assets, liabilities and trading activities. Treasury front office, market risk management and treasury middle office perform market risk management activities within the Bank. The Bank has Enterprise Risk Management Committee which is responsible for recommending market risk policies and strategies for the Board approval and its subsequent implementation and review.

46.2.2 Foreign Exchange Risk

Foreign exchange risk / currency risk is the current or prospective risk to earnings and capital arising from adverse movements in currency exchange rates. It refers to the impact of adverse movements in currency exchange rates on the value of open foreign currency positions. Changes in currency rates affect the value of assets and liabilities denominated in foreign currencies and may affect revenues from foreign exchange dealing.

The Bank undertakes currency risk mostly to support its trade services and maintains overall foreign exchange risk position to the extent of statutory Foreign Exchange Exposure Limit (FEEL) prescribed by the SBP.

Exposure limits such as counterparty, gap, net open position, dealer and bucket-wise currency delta limits are in place in accordance with the Bank's approved policies in order to manage associated risk and concentration at the acceptable tolerance levels.

46.2.3 Equity position Risk

Equity position risk is the risk arising from unfavourable fluctuations in prices of shares in which the Bank carries positions. It is a risk to earnings or capital that results from adverse changes in the value of equity related portfolios of the Bank. Price risk associated with equities could be systematic or unsystematic. Systematic risk is due to sensitivity of portfolio's value to changes in overall level of equity prices, while unsystematic risk is associated with price volatility that is determined by the specific characteristics of the investee company.

The Bank's equity position is governed by position limits imposed by the SBP for overall investment and per scrip exposure. Additionally, there are internal limits set to manage overall earnings in the form of stop loss limits and maintain a diverse portfolio through sector concentration limits.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

Yield curve risk is the risk that a financial instrument will suffer either a decline in income or capital because future changes in prevailing profit rates of return impact assets more or less than they impact liabilities.

The profit rate risk of the Bank arises when there is a mismatch between contractual maturities, which are subject to profit rate adjustment within a specified period or re-pricing of on and off-balance sheet assets and liabilities. Risk is addressed by Asset and Liability Management Committee that reviews the profit rate dynamics at regular intervals and decides re-pricing of assets and liabilities to ensure that the spread of the Bank remains at an acceptable level.

Major sources of Profit rate risk are;

- i) differences between the timing of rate changes and the timing of cash flows (re-pricing risk);
- ii) changing rate relationships among different yield curves affecting the Bank's activities (basis risk);
- iii) changing rate relationships across the range of maturities (yield curve risk);
- iv) Profit-related options embedded in the Bank's products (options risk); and
- v) changes in marked-to-market value of financial instruments which occur when profit rate changes (price risk).

46.3 Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes or systems, human factors or from external events. The Bank's businesses are dependent on the ability to process a large number of transactions efficiently and accurately. Operational risks and losses originate from business / operational process failure, IT security failure, natural disasters, dependence on key suppliers, fraud, service quality compromises, regulatory non-compliance, loss of key staff and social and environmental impacts.

The operational risk management department is primarily responsible for the oversight of operational risk management across the Bank. The operational risk management framework of the Bank is governed by the operational risk management policy and procedures, while the implementation is supported by an operational risk management system and designated operational risk coordinators within different units across the Bank. The framework is in line with international best practices, flexible enough to implement in stages and permits the overall approach to evolve in response to organizational learning and future requirements.

The Bank has implemented an effective operational risk management framework for managing operational risk. Each department has processes and system controls in place to address operational risks within their area. Operational loss data is collected through a well defined program implemented across the Bank. Periodic workshops are conducted for risk and control self assessment and key risk exposures are identified and assessed against existing controls to evaluate improvement opportunities. Key risk indicators are also defined for monitoring of risk exposures. New products, systems, activities and processes are subject to comprehensive operational risk assessments, before implementation. Regular updates on operational risk status is presented to Enterprise Risk Management Committee (ERMC) and the Board of Directors through the Board Risk Management Committee (BRMC). Further, as part of Bank's ongoing commitment to enhance Bank's services and to ensure Bank-wide risk awareness culture, Operational Risk Management Department has also organized special workshops / class room trainings tailored for Pan Pakistan Branch Operations Team.

Operational risk-disclosures Basel II specific

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events.

The Bank is currently using basic indicator approach for calculating operational risk capital charge.

Under basic indicator approach the capital charge for operational risk is a fixed percentage (denoted alpha) of average positive annual gross income of the Bank over the past three years. Figures for any year in which annual gross income is negative or zero, should be excluded from both the numerator and denominator when calculating the average.

46.4 Shari'ah Non-Compliance Risk (SNCR)

Shari'ah Non-Compliance Risk (SNCR) is the financial and reputational risk that arises from a bank's failure to comply with the Shari'ah rules and principles prescribed by the State Bank of Pakistan and Shari'ah Board of the Bank. Managing Shari'ah non-compliance risk is vital for the establishment of an effective Shari'ah governance system.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

Shari'ah compliance is critical to an Islamic bank's operations and such compliance requirements must permeate throughout the organization and its products and activities.

Faysal Bank Limited (FBL) is fully aware of the importance and implication of Shari'ah non-compliance risk on its business and strategy and therefore, ensures Shari'ah compliance in its business activities & operations. FBL has also developed a comprehensive framework for Shari'ah Non-Compliance Risk management, which entails identification, assessment, monitoring / controlling and reporting of SNCR residing in the Bank.

46.5 Liquidity risk

Liquidity risk is the risk that the Bank will be unable to meet its payment obligations associated with its financial liabilities when they fall due and to replenish funds when they are withdrawn.

Liquidity risk management framework is governed by the liquidity risk management policy. The policy provides specific directives for measuring and managing liquidity risk identifies responsible personnel; and defines their respective roles and responsibilities relating to liquidity risk management.

The management of liquidity risk is accomplished through a formal structure which includes:

- Board of Directors (BoD)
- Board Risk Management Committee (BRMC)
- Asset and Liability Committee (ALCO)
- Enterprise Risk Management Committee (ERMC)
- Treasury
- Risk management (enterprise risk management)
- Finance

The BoD approves the liquidity risk management policy including risk limits and ensures, through quarterly reviews by the BRMC, that the Bank's liquidity risk is being managed prudently. The BRMC plays a strategic role in liquidity risk management by overseeing the liquidity risk profile of the Bank. ERMC defines the risk tolerance levels and setting risk limits for effective liquidity risk management. ALCO ensures adherence with policy requirements and risk limits so that the Bank remains sufficiently liquid at all times.

The market and liquidity risk under enterprise risk management function overseas liquidity risk. The Bank's Asset and Liability Committee manages the liquidity position on a continuous basis.

The Bank ensures to maintain a diversified portfolio of liquid assets and funding base. Sources of funding comprise of a good mix of core deposits. Concentration in deposit, especially large volume deposits, is closely monitored to anticipate any potential liquidity issues in case of their withdrawals.

Various tools and techniques are used to measure and monitor the possible liquidity risk. These include monitoring of different liquidity ratios like liquid assets to liquid liabilities, liquid assets to total deposits, large volume deposits to total deposits, financing to deposit, liquid assets to volatile funding; on a regular basis against defined limits. Further, liquidity gaps over different time bands, are also monitored through maturity profiling of assets and liabilities. The Bank also ensures that statutory cash and liquidity requirements are maintained at all times. In addition, the Bank has also implemented the SBP's Basel III liquidity standards for ensuring compliance with the requirements of LCR, NSFR and other monitoring tools.

The Bank performs liquidity stress testing on periodic basis in order to ensure sufficient liquidity is always available to meet financial obligations / commitments. Stress testing aims to quantify the potential impact of extreme yet plausible events or movements on the value of portfolio. Shocks include withdrawal of deposits, withdrawal of wholesale / large deposits, withdrawal of top deposits, etc. The results of liquidity stress testing are shared with relevant authorities / committees, on periodic basis.

Contingency funding plan (CFP) is a part of liquidity risk management policy of the Bank. CFP provides a set of several early warning indicators of a possible liquidity shortfall situation; describes the actions to be taken to manage it and identifies the roles and responsibilities of ALCO, CFP team or other relevant authorities.

46.5.2 Maturities of assets and liabilities - based on expected maturities of the assets and liabilities of the Bank

In line with the SBP BSD Circular Letter No. 02 and 03 of 2011 on "Maturity and Profit rate sensitivity gap reporting", deposit withdrawal pattern analysis on current and saving accounts (CASA) is conducted on at least ten years weekly data. The outliers (seasonal variations) are adjusted from data using fourth spread statistical methodology. The regression methodology is used to estimate deposits withdrawal pattern of both current and saving deposits. This methodology is in line with industry best practices and regulatory guidelines.

Notes to the Unconsolidated Financial Statements

For the year ended December 31, 2024

46.6 Derivative risk management

The Bank's derivatives risk management is performed under market risk management which is an independent unit reporting to the Chief Risk Officer. The risk management policies are governed by the regulatory and internal guidelines. The risk management department of the Bank reviews credit risk, market risk and other risks associated with the derivative transactions or related area of the activity and assigns limits within which the transactions / area of activity can be carried out. Furthermore, Banks' derivative portfolio is on run off basis due to conversion. Adherence to these limits is ensured through independent monitoring and control functions.

There are a number of risks undertaken by the Bank, which need to be monitored and assessed. The management of risks includes the following primary components:

- comprehensive risk measurement approach;
- detailed structure of limits, guidelines and other parameters used to govern risk taking; and
- strong management information system for controlling, monitoring and reporting risks.

Major risks associated with the derivative instruments are market risk, credit risk and liquidity risk. The Bank uses FIS-System to measure and manage these risks which provides end-to-end capability with respect to transaction life cycle.

Market risk

Market risk is the risk that the value of a derivative contract will be adversely affected by movements in equity prices, profit rates, currency exchange rates and commodity prices. The authority for approving policies, limits and periodic reviews rest with the Board of Directors. The critical measures used to manage market risks are profit rate delta and currency delta basis. These measures involve extreme shifts in a variety of parameters, such as FX rates, profit rates, equity prices, implied volatility levels and combinations of the above. These measures are calculated through the relevant systems.

Credit risk

Credit risk is the risk that a party to a derivative contract will fail to perform its obligation. There is a settlement risk associated with the derivative transactions. Settlement risk is monitored on a daily basis. Risk management department of the Bank sets the policies and limits for counterparty risk based on a pre-defined criteria linked with the internal risk rating of the customer.

Liquidity risk

Liquidity risk is managed as part of the overall liquidity risk of the Bank. The risk management policies related to liquidity risk are explained in note 46.5 to these unconsolidated financial statements.

47 DATE OF AUTHORISATION FOR ISSUE

These unconsolidated financial statements were authorised for issue on February 20, 2025 by the Board of Directors of the Bank.

48 GENERAL

Comparative information has been re-classified, re-arranged or additionally incorporated in these unconsolidated financial statements, wherever necessary, to facilitate comparison and to conform with changes in presentation in the current year.

49 NON-ADJUSTING EVENTS AFTER THE BALANCE SHEET DATE

The Board of Directors in its meeting held on February 20, 2025 has proposed a final cash dividend of Rs. 2.5 per share (25%) for the year ended December 31, 2024. This is in addition to Rs. 4.5 already paid during the year bringing the total dividend for the year to Rs. 7 per share (2023: Rs. 4). These unconsolidated financial statements for the year ended December 31, 2024 do not include the effect of this appropriation which will be accounted for subsequent to the year end.

Taxation	(27,860)	(21,600)	29.0%
Profit after tax	23,892	20,247	18.0%
Earnings per share (Rupees)	15.74	13.34	18.0%

The Group has maintained its growth trajectory, achieving excellent financial performance and unprecedented growth. Despite numerous challenges, the Group has consistently proven its resilience and strength, celebrating the milestone of reaching the highest-ever profit. As we reflect on our journey, we must first and foremost thank Allah (SWT) for His Blessings without which none of our achievements would have been possible. On a consolidated basis, the Group has achieved a record-breaking Profit Before Tax (PBT) of PKR 51.8 billion, 23.7% higher than PKR 41.8 billion in the last year. The increase in Profit After Tax (PAT) was, however, restricted to 18.0% at PKR 23.9 billion due to imposition of an excessive income tax of 5%, which raised the tax rate from 49% to 54%. The earnings per share rose to PKR 15.74, an increase from PKR 13.34 per share, a year ago.

FAML demonstrated continued improvement in performance, with Assets Under Management (AUMs) reaching PKR 246 billion as of December 31, 2024, reflecting 84% increase from PKR 134 billion last year. FAML made Profit After Tax of PKR 846 million during 2024 registering a 88% increase over last year.

FIECL has started its operations during the year and remained operative for 7 months in the financial year as the State Bank of Pakistan's pre-commencement requirements were completed by 16th of May 2024. The company earned Profit after Tax of PKR 31 million during 2024.

Credit Rating

VIS Credit Rating Company Limited (VIS) and Pakistan Credit Rating Agency Limited (PACRA) have re-affirmed the following entity ratings to Faysal Bank Ltd:

Long-Term	AA
Short-Term	A1+

PACRA has assigned a 'Stable' outlook, while VIS has upgraded the outlook to 'Positive'.

VIS has assigned Management Quality rating of AM1 to FAML in 2024. The rating signifies asset manager exhibiting very good management characteristics.

Holding Company

Ithmaar Bank B.S.C (closed), a banking entity regulated by the Central Bank of Bahrain, is the parent company holding directly and indirectly 66.78% (2023: 66.78%) of the Bank's shares. Ithmaar Bank B.S.C. (closed) is a wholly owned subsidiary of Ithmaar Holdings B.S.C. Dar Al-Maal Al-Islami Trust (DMIT) is the holding entity of Ithmaar Holding B.S.C. and the ultimate parent Company of the Bank. DMIT was formed by an indenture under the laws of the Commonwealth of The Bahamas for the purpose of conducting business affairs in conformity with Islamic law, principles, and traditions.

Dividend

The Board of Directors, in their meeting held on February 20, 2025, has recommended a final cash dividend of Rs 2.5 per share (25%) for the year ended December 31, 2024. This is in addition to interim cash dividends of Rs 4.5 already paid during the year bringing the total dividend for the year to Rs 7 per share (2023: Rs 4.0).

Other information

For other information kindly refer to the unconsolidated financial statements Directors' report.

Heartfelt Thanks: Acknowledging Our Pillars of Strength

On behalf of the Board and Management, we extend gratitude to our esteemed shareholders for their unwavering support. We are indebted to our customers who continue to trust us with their business. We would like to place on record our appreciation for the Government of Pakistan, the State Bank of Pakistan and the Securities and Exchange Commission of Pakistan for their continued support and guidance and for developing and strengthening the banking and financial services sector through continuous improvement in the regulatory and governance framework.

As always, we would also like to express sincere appreciation for the Shariah Board. We would also like to take this opportunity to recognize and commend the unwavering commitment and exceptional efforts extended by our employees in driving the growth of FBL. We extend our heartfelt thanks to them for their relentless dedication and hard work.

Approval

In compliance with the requirement of the Companies Act, 2017, this Directors' Report, with the recommendations of the Board Audit and Corporate Governance Committee, has been approved by the Directors in their meeting held on February 20, 2025 and signed by the Chief Executive Officer and a director.

Dated: February 20, 2025

Chairman / Director

بورڈ آف ڈائریکٹرز نے 20 فروری 2025 کو منعقد ہونے والے اجلاس میں 31 دسمبر 2024 کو اختتام پذیر سال کے لیے 2.5 فی شیئر 25% کے حتمی نقد منافع کی سفارش کی ہے۔ یہ سال کے دوران ادا کر دیے گئے 4.5 روپے کے علاوہ ہے، اس طرح سال کا کل ڈیویڈنڈ 7 روپے فی شیئر ہو گیا (2023: 4 روپے)۔

ہماری طاقت کے ستونوں کے لیے دلی اظہارِ تشکر

بورڈ اور انتظامیہ کی جانب سے، ہم اس موقع پر شیئر ہولڈرز کا شکریہ ادا کرتے ہیں کہ انہوں نے ہم پر غیر متزلزل اعتماد کیا ہے۔ ہم اپنے صارفین کے تہہ دل سے مشکور ہیں، جنہوں نے اپنے کاروبار اور پختہ یقین کے ساتھ ہم پر اعتماد کو مسلسل جاری رکھا۔ ہم ریگولیٹری اور گورننس فریم ورک میں مسلسل بہتری کے ذریعے بینکنگ اور فنانشل سروسز سیکٹر کے فروغ کے لیے ان کے مسلسل تعاون اور رہنمائی پر اپنے ریگولیٹرز اور حکومت پاکستان، بالخصوص اسٹیٹ بینک آف پاکستان اور سیکیورٹیز اینڈ ایکسچینج کمیشن آف پاکستان کے بھی شکرگزار ہیں۔

ہمیشہ کی طرح، ہم شریعہ بورڈ کے مشکور ہیں اور FBL گروپ کی ترقی کے لیے اپنے ملازمین کی کوششوں کو تسلیم کرتے ہیں اور ان کی انتھک لگن اور محنت کو دل سے سراہتے ہیں۔

منظوری

کمپنیز ایکٹ 2017 کے تقاضوں کے مطابق، بورڈ کی آڈٹ اور کارپوریٹ گورننس کمیٹی کی سفارش کے ساتھ ڈائریکٹرز کی اس رپورٹ کو ڈائریکٹرز نے 20 فروری 2025 کو ہونیوالے اپنے اجلاس میں منظور کیا اور اس پر چیف ایگزیکٹو آفیسر اور ڈائریکٹر نے دستخط کئے ہیں۔

چیئر مین / ڈائریکٹر

صدر اور سی ای او

کراچی

تاریخ: 20 فروری 2025

گروپ نے شاندار مالیاتی کارکردگی اور بے مثال ترقی حاصل کرتے ہوئے اپنی ترقی کی رفتار کو برقرار رکھا ہے۔ متعدد چیلنجوں کے باوجود، گروپ نے مسلسل اپنی چلک اور طاقت کو ثابت کیا ہے اور اب تک کے سب سے زیادہ منافع تک پہنچنے کے سنگ میل کا جشن منایا ہے۔ ہمیں سب سے پہلے اللہ جل شانہ کا شکر ادا کرنا چاہیے کہ اس کی نعمتوں کے بغیر ہماری کوئی بھی کامیابی ممکن نہ تھی۔ مجموعی بنیاد پر، گروپ نے 51.8 ارب روپے کا ریکارڈ قبل از ٹیکس منافع (PBT) حاصل کیا ہے، جو گزشتہ سال 41.8 ارب روپے سے 23.7 فیصد زیادہ ہے تاہم، منافع بعد از ٹیکس (PAT) میں اضافہ 18.0% تک محدود رہا، تاہم، بعد از ٹیکس منافع (PAT) میں اضافہ 23.9 ارب روپے تک محدود رہا کیونکہ 5% کے ضرورت سے زیادہ انکم ٹیکس کے نفاذ نے منفی اثر ڈالا، اور ٹیکس کی شرح کو 49% سے بڑھا کر 54% کر دیا۔ فی شیئر آمدنی 15.74 روپے ہو گئی جو ایک سال پہلے 13.34 روپے فی شیئر سے زیادہ ہے۔

FAML نے سال 31 دسمبر 2024 تک کارکردگی میں بہتری دکھائی اور ایسیٹ انڈر مینجمنٹ (AUMs) 246 بلین روپے تک پہنچ گئے جو گزشتہ سال 134 بلین روپے سے 84% اضافے کی عکاسی کرتا ہے۔ FAML نے 2024 کے دوران 846 بلین روپے کا بعد از ٹیکس منافع کمایا جو کہ سال 2024 کے دوران، گزشتہ سال کے مقابلے میں 88% کا اضافہ ریکارڈ کیا گیا۔

FIECL نے سال کے دوران اپنا کام شروع کیا ہے اور مالی سال میں 7 ماہ تک فعال رہا کیونکہ اسٹیٹ بینک آف پاکستان کی قبل از آغاز ضروریات 16 مئی 2024 تک پوری ہوئیں۔ کمپنی نے 2024 کے دوران 31 بلین روپے کا بعد از ٹیکس منافع کمایا۔

کریڈٹ ریٹنگ:

VIS کریڈٹ ریٹنگ کمپنی لمیٹڈ (VIS) اور پاکستان کریڈٹ ریٹنگ ایجنسی لمیٹڈ (PACRA) نے فیصل بینک لمیٹڈ کے لیے درج ذیل درجہ بندیوں کی دوبارہ تصدیق کی ہے:

طویل المدتی AA

قلیل المدتی A1+

PACRA نے درجہ بندیوں کو 'مستحکم' قرار دیا جبکہ VIS نے 'مثبت' آؤٹ لک کے ساتھ اپ گریڈ کیا ہے۔

VIS نے 2024 میں FAML کی مینجمنٹ کو الٹی ریٹنگ کو AM1 ریٹنگ سے نوازا ہے۔ یہ درجہ بندی نشانہ دہی کرتی ہے کہ اثاثہ منبج بہت اچھی انتظامی خصوصیات کا مظاہرہ کر رہا ہے۔

ہولڈنگ کمپنی

اتمار بینک بی۔ ایس۔ سی (کلونڈ)، جو کہ سینٹرل بینک آف بحرین کالاسنس یافتہ ادارہ ہے، جو بالواسطہ اور بلاواسطہ طور پر بینکنگ کے 66.78 فیصد (2023 میں 66.78 فیصد) حصص کے ساتھ بینک کا سربراہ ادارہ ہے۔ اتمار بینک بی۔ ایس۔ سی (کلونڈ)، اتمار ہولڈنگ بی۔ ایس۔ سی کی مکمل ملکیت کا ذیلی ادارہ ہے اور دارالمال الاسلامی ٹرسٹ (ڈی ایم آئی ٹی) فیصل بینک کا اعلیٰ ترین سربراہی ادارہ ہے۔ ڈی ایم آئی ٹی کا قیام کامن ویلتھ آف بہاماس کے قوانین کے تحت عمل میں آیا تا کہ اسلامی قوانین، اصولوں اور روایات کے مطابق کاروباری امور سرانجام دیئے جائیں۔

Independent Auditor's Report

To the members of Faysal Bank Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the annexed consolidated financial statements of **Faysal Bank Limited** and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at December 31, 2024, and the consolidated statement of profit and loss account and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion, consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at December 31, 2024 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of the Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the Key audit matters:

S.No.	Key Audit Matter	How the matter was addressed in our audit
1	Credit loss allowance against Islamic financing and related assets and off-balance sheet items: (Refer note 10 & 20.1 to the consolidated financial statements)	
	As at 31 December 2024, the Bank's Credit loss allowance against Islamic financing and related assets and off-balance sheet items amounted to Rs. 24,628 million and Rs. 190 million, respectively.	Our audit procedures, amongst others, included the following: <ul style="list-style-type: none">Performing risk assessment procedures over the credit loss allowance against Islamic financing and related assets and off-balance sheet exposure within the Bank's unconsolidated

S.No.	Key Audit Matter	How the matter was addressed in our audit
	<p>As per the BPRD Circular No. 07 of 2023, the Bank adopted requirements of IFRS 9 along with the Application Instructions issued by State Bank of Pakistan (SBP) (hereafter referred as “application instruction of IFRS 9”) from 1 January 2024 which requires the Bank to recognize Expected Credit Losses (ECL) on Islamic financing and related assets and off-balance sheet items. The estimation of ECL, involves judgement and complexity.</p> <p>The key areas which are subject to complexity and judgement in the estimation of ECL are:</p> <ul style="list-style-type: none"> Model estimations – judgmental modelling and assumption are used to estimate ECL which involves determining Probability of Default (PD), Loss Given Default (LGD), and Exposure at Default (EAD). Respective models assumptions are key driver of uncertainty, and are required in the application of these model for calculation of the ECL estimate. Economic scenarios – IFRS 9 requires the Bank to measure ECL on an unbiased forward-looking basis reflecting a range of future economic conditions. Complex Statistical methodology is applied in determining the forward-looking economic scenarios used as an input to calculate ECL, the associated scenario probability weightings, and the key economic variables that drive the scenarios. Qualitative criteria – the criteria selected to identify a SICR involves judgment and can lead to unreliable ECL recognized for certain portfolios. <p>In line with the application instructions of IFRS 9, the Bank must compare the ECL for Stage 3 with the provision determined under the Prudential Regulations (PR) issued by the SBP. The PR requires specific provisioning against the Islamic financing and related assets on the basis of time-based criteria which should be supplemented by a Bank’s subjective evaluation of credit worthiness of customers. The determination of provision, therefore, involves use of management’s judgement, on a case-to-case basis, taking into account factors such as the economic and business conditions, borrowers’</p>	<p>financial statement. As part of these risk assessment procedures, identifying the elements associated with risk of material misstatement on application including those arising from judgements over the estimation of ECL either due to, methods / models, assumptions or data.</p> <ul style="list-style-type: none"> Assessing the design, implementation and operating effectiveness of key controls established by the Group over measurement of ECL and provision calculated as per PR. We involved in-house specialist who assisted in the following: <ul style="list-style-type: none"> Evaluating the Group’s ECL model methodologies for compliance with application instructions of IFRS 9 Assessing the reasonableness of the Group’s methodology for determining the economic scenarios used and the probability weightings applied to them by independently validating and challenging the assumption, methodologies, and outputs of the models; Assessing the reasonableness of macro-economic variable and economic forecasts by comparing these to external sourced data extracted; and Performing independent testing of the Expected Credit Loss (ECL) allowance on a sample basis. Assessing the appropriateness of SICR criteria applied by the Group by ensuring that the SICR criteria and staging methodology are consistent with the application instructions of IFRS 9. Ensuring relevance and completeness of the key inputs into the ECL calculations with their respective sub-ledgers and general ledgers. Performing testing on sample basis over key inputs into the ECL calculations with their respective source documents. Performing sensitivity analysis on the key

S.No.	Key Audit Matter	How the matter was addressed in our audit
	<p>repayment behaviors and realizability of collateral held by the Bank.</p> <p>Because of the high degree of estimation uncertainty and complexity involved in the calculation of ECL we considered the area of ECL as a key audit matter.</p>	<p>assumption, that is probability weighted economic scenarios, to assess reasonableness and the risk of biasness by changing weights assigned to each economic scenario.</p> <ul style="list-style-type: none"> • In accordance with the PR, we sampled at least sixty percent of the total Islamic and financing assets outstanding exposure and performed credit reviews through the following substantive procedures: <ul style="list-style-type: none"> - verifying repayments of Islamic financing / profit installments and checked that non-performing Islamic Financing and related assets have been correctly classified and categorized based on the number of days overdue; - examining watch list accounts and, based on review of the individual facts and circumstances, discussions with management and our assessment of financial conditions of the borrowers, formed a judgement as to whether classification of these accounts as performing was appropriate; and - assessing the accuracy of specific provision made against non-performing Islamic financing and related assets in accordance with the criteria prescribed under the PRs by performing recalculation. • Assessing the appropriateness of ECL categorized as Stage 3 by performing a comparison of ECL computed, through the use of methodology and models with the provision required to be computed as required under the PR to ensure that an amount which is higher of the ECL and PR requirements is appropriately recognized for these stage 3 customers pursuant to the requirement of application instructions of IFRS 9. • Evaluating the adequacy of the financial statement disclosures, including disclosures of key assumptions, judgements and sensitivities.

Information Other than the Consolidated and Unconsolidated Financial Statements and Auditor's Reports Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated and unconsolidated financial statements and our auditor's reports thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan and the Companies Act, 2017 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Zeeshan Rashid.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

1 STATUS AND NATURE OF BUSINESS

1.1 The "Group" consists of:

- (i) Faysal Bank Limited - Holding Company
- (ii) Faysal Islami Currency Exchange Company (Private) Limited - Subsidiary Company
- (iii) Faysal Asset Management Limited - Subsidiary Company

1.1.1 Holding Company - Faysal Bank Limited

Faysal Bank Limited (the Bank or the Holding Company) was incorporated in Pakistan on October 3, 1994 as a public limited company under the provisions of the repealed Companies Ordinance, 1984 (now the Companies Act, 2017). Its shares are listed on the Pakistan Stock Exchange Limited. The Holding Company is engaged in Corporate, Commercial and Consumer banking activities. The Holding Company is operating through 855 branches (December 31, 2023: 722) including 2 sub-branches (December 31, 2023: 2).

The Registered Office of the Bank is located at Faysal House, ST-02, Shahrah-e-Faisal, Karachi.

Ithmaar Bank B.S.C (closed), a fully owned subsidiary of Ithmaar Holdings B.S.C is the parent company of the Bank, holding directly and indirectly 66.78% (2023: 66.78%) of the shareholding of the Bank. Dar Al-Maal Al-Islami Trust (DMIT), (ultimate parent of the Bank) is the holding company of Ithmaar Holdings B.S.C.

The State Bank of Pakistan has issued the Islamic Banking License No.BL(i) - 01 (2022) dated December 30, 2022 in the Bank's name, effective from January 1, 2023.

The Pakistan Credit Rating Agency Limited (PACRA) and VIS Credit Rating Company Limited have determined the Holding Company's long-term rating as 'AA' (December 31, 2023: 'AA') and the short term rating as 'A1+' (December 31, 2023: 'A1+') on June 24, 2024 and June 28, 2024 respectively.

1.1.2 Subsidiary Company - Faysal Islami Currency Exchange Company (Private) Limited

During the year, the Holding Company established a wholly owned subsidiary, Faysal Islami Currency Exchange Company (Private) Limited (FICEC). FICEC is a private limited company, incorporated in Pakistan with the objective of dealing in foreign exchange and facilitating remittances. The registered office of FICEC is at ST-02, Faysal House, Shahrah-e-Faisal, Karachi.

1.1.3 Subsidiary Company - Faysal Asset Management Limited

Faysal Asset Management Limited - Subsidiary

Percentage of holding	
2024	2023
99.99%	99.99%

Faysal Asset Management Limited (the Subsidiary Company / FAML) was incorporated in Pakistan under the provisions of the repealed Companies Ordinance, 1984 (now the Companies Act, 2017) on August 6, 2003 as an unlisted public limited company. The Subsidiary Company commenced its operations on November 14, 2003. The registered office of the Subsidiary Company is located at 7th Floor, West Wing, Faysal House, ST-02, Shahrah-e-Faisal, Karachi.

The Subsidiary Company is a Non-Banking Finance Company (NBFC), licensed to carry out asset management and investment advisory services under the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 and the Non-Banking Finance Companies and Notified Entities Regulations, 2008 (NBFC Regulations).

VIS Credit Rating Company Limited has assigned Asset Management rating of AM1 (December 31, 2023: AM++) on September 10, 2024.

2 BASIS OF PRESENTATION

- 2.1** The Holding Company provides financing mainly through Murabaha, Musawamah, Istisna and other Islamic modes as briefly explained in note 6.8 to these consolidated financial statements.

The purchases and sales arising under these arrangements are not reflected in these consolidated financial statement as such but are restricted to the amount of facility actually utilized and the appropriate portion of profit thereon. The income on such financing is recognized as accordance with the principles of Islamic Shari'ah. However income, if any, received which does not comply with the principles of Islamic Shari'ah, is recognised as charity payable if so directed by the Shari'ah Board of the Holding Company.

2.2 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Bank and the financial statements of the Subsidiary Companies from the date from which control of the Subsidiary Companies by the Group commences until the date on which control ceases. The financial statements of the Subsidiary Companies are incorporated on a line-by-line basis and the investment held by the Bank is eliminated against the corresponding share capital and pre-acquisition reserve of the Subsidiary Companies in the consolidated financial statements.

The financial statements of the Subsidiary Companies are prepared for the same reporting period as the Holding Company, using accounting policies that are generally consistent with those of the Holding Company.

Investments in associates are accounted for under the equity method of accounting and are initially recognised at cost, thereafter for the post acquisition change in the Group's share of net assets of the associates. The consolidated profit and loss account reflects the Group's share of the results of operations of the associate. These consolidated financial statements include the Group's share of income and expenses of associates from the date that significant influence commences until the date that such influence ceases. Non-controlling interest is that part of the net results of operations and of net assets of the subsidiary attributable to interests which are not owned by the Holding Company.

All material intra-group balances and transactions have been eliminated.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

3 STATEMENT OF COMPLIANCE

3.1 These consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for financial reporting. The accounting and reporting standards applicable in Pakistan for financial reporting comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Act, 2017;
- Provisions of, and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP).

Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

The State Bank of Pakistan (SBP) has adopted requirements of IFRS 9 along with the application instructions through BPRD Circular No. 07 of 2023, dated April 13, 2023, but deferred certain requirements. The requirement to carry unquoted securities at fair value has been deferred until January 1, 2025. Furthermore, Islamic banking institutions have been allowed to follow Islamic Financial Accounting Standards (IFAS) 1 & 2 where applicable and continue existing accounting practices for other Islamic products until further instructions. The impact of profit of financing in advance stage is Rs. 1,504 million excluding any Effective yield rate (EIR) effect as the Holding Company has received deferment of recording income and expense at EIR via letter from SBP till 31 December 2025. Consequently, these deferred requirements of IFRS 9 have not been considered in the preparation of these consolidated financial statements. Furthermore, the Holding Company is required to apply modification accounting retrospectively however it will be applied only on the financing modified on or after 1st January 2020 as allowed by SBP.

3.2 As per the directive of the SBP through its letter BPRD (R&P-02)/625-99/2011/3744 dated March 28, 2011, gain arising on bargain purchase of Pakistan operations of Royal Bank of Scotland (ex-RBS Pakistan) was credited directly into equity as Non-distributable Capital Reserve (NCR). The SBP allowed the Holding company to adjust the amortisation of intangible assets against the portion of reserve which arose on account of such assets identified as a result of such acquisition. Accordingly, during the year ended December 31, 2024, the Holding company has adjusted an amortisation of intangible assets net of tax amounting to Rs. 52.650 million (2023: Rs. 68.968 million) from the NCR.

3.3 The SBP vide its BPRD Circular No. 04 dated February 25, 2015 has clarified that the reporting requirements of IFAS-3, 'Profit and loss sharing on deposits' for Institutions offering Islamic Financial Services (IIFS) relating to annual, half yearly and quarterly financial statements would be notified by the SBP through issuance of specific instructions and uniform disclosure formats in consultation with IIFS. These reporting requirements have not been notified to date. Accordingly, the disclosure requirements under IFAS 3 have not been considered in these consolidated financial statements.

3.4 The SBP has deferred the applicability of International Accounting Standard (IAS) 40, 'Investment property' for Banking Companies through BSD Circular Letter No. 10 dated August 26, 2002 till further instructions. Further, the SECP has also deferred the applicability of International Financial Reporting Standard (IFRS) 7, 'Financial instruments: disclosures' through its S.R.O. 633(I)/2014 dated July 10, 2014. Accordingly, the requirements of these standards have not been considered in the preparation of these consolidated financial statements.

3.5 The SECP through S.R.O. 56(1)/2016 dated January 28, 2016, has directed that the requirements of IFRS 10, 'Consolidated financial statements' are not applicable in case of investments by companies in mutual funds established under Trust Deed structure. Accordingly, implications of IFRS 10 in respect of investment in mutual funds are not considered in these consolidated financial statements.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

3.6 Standards, interpretations of and amendments to the published accounting and reporting standards that are effective in the current year

As directed by SBP via BPRD Circular letter no. 7 of 2023 dated April 13, 2023 IFRS 9, (Financial Instruments) is effective in Pakistan for periods beginning on or after January 1, 2024. In addition, due to the application of IFRS 9, SBP vide BPRD Circular No. 02 dated February 9, 2023, has also amended the format of the annual consolidated financial statements. Details regarding the aforementioned adoption and amendment, including the impact thereof, are discussed in more detail in note 6.4 to these consolidated financial statements. Except for the above, there are certain other interpretations and amendments that are mandatory for the Holding Company's accounting periods beginning January 1, 2024. However, these are not considered to be relevant or do not have any significant effect on the Holding Company's operations and therefore have not been detailed in these consolidated financial statements.

3.7 Standards, interpretations of and amendments to the published accounting and reporting standards that are not yet effective

3.7.1 The following revised standards, amendments and interpretations with respect to the accounting and reporting standards would be effective from the dates mentioned below against the respective standards, amendments or interpretations:

Standards, interpretations or amendments	Effective date (annual periods beginning on or after)
- Amendments to IAS 21- Lack of Exchangeability	January 1, 2025
- IFRS S1 - General Requirements for Disclosure of Sustainability related Financial Information	January 1, 2025
- IFRS S2 - Climate-related Disclosures	January 1, 2025
- Amendments to IFRS 9 Financial Instruments	January 1, 2025
- Amendments to IFRS 10 and IAS 28 - Sale of contribution of asset between an investor and its associates or joint venture	not yet announced

The management of the Group is assessing the impact of the changes in the above mentioned standards on the consolidated financial statements.

3.7.2 As required under SBP Letter No. BPRD/LD-01/850/28853/2022-13054, the details of the net conventional funded portfolio as at December 31, 2024 are as follows:

	Note	Rupees in '000
Assets		
Investments		550,863
Financing - net		277,886
Liabilities		
Deposits and other accounts		2,239,386
Other liabilities	20	982,880

All efforts are being put in to convert or dispose-off the residual portfolio and appropriate monitoring mechanisms are in place. Quarterly progress report on the status of the residual portfolio is shared with the Holding's Company Board of Directors, the Shari'ah Board and the State Bank of Pakistan.

3.7.3 Profitability from residual (ring-fenced) non-Shari'ah compliant portfolio

In compliance with the principles of Shari'ah, the Shari'ah Board of the Holding Company has approved the "Conventional profitability cleansing framework" ('the Framework'). According to the Framework, any income accruing on the ring-fenced portfolio during the year, net-off attributable expenses and charges, is booked as charity payable under other liabilities. The conventional profitability is calculated in light of Shari'ah principles, the guidance of the Shari'ah Board and the understanding available as at the computation date, changes, if any, may be adjusted retrospectively.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

3.7.4 Critical accounting estimates and judgments

The preparation of consolidated financial statements in conformity with accounting and reporting standards as applicable in Pakistan requires the use of certain accounting estimates. It also requires the management to exercise judgement in the process of applying the Group's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. These estimates affect the reported amounts of assets, liabilities, income, and expenses. The areas where various assumptions and estimates are significant to the Group's financial statements or where judgement was exercised in the application of accounting policies are as follows:

- i) Business combinations (note 6.1);
- ii) Classification of investments (note 6.4.2 and 9);
- iii) Valuation of financial assets and liabilities as per IFRS 9, associates and joint ventures (note 6.4.2);
- iv) Measurement of the expected credit loss allowance (notes 6.4.10);
- v) Valuation and depreciation of property and equipment (note 6.9 and 11.2);
- vi) Taxation (note 6.11 and note 34);
- vii) Valuation of non-banking asset acquired in satisfaction of claims (note 6.12 and 14);
- viii) Valuation of defined benefit plan (note 6.14 and 38);
- ix) Valuation and depreciation of right-of-use assets and their related lease liability (note 6.26, 12 and 18).

Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

4 BASIS OF MEASUREMENT

These consolidated financial statements have been prepared under the historical cost convention except for certain property and equipment and non-banking assets acquired in satisfaction of claims which have been carried at revalued amounts, certain investments and derivative contracts which have been marked to market and are carried at fair value, obligations in respect of staff retirement benefits and lease liabilities which have been carried at present value and right-of-use assets which are initially measured at an amount equal to the corresponding lease liabilities (adjusted for any lease payments and costs as disclosed in details in note 6.26 to these consolidated financial statements) and depreciated over the respective lease terms.

5 FUNCTIONAL AND PRESENTATION CURRENCY

5.1 Items included in these consolidated financial statements are measured using the currency of the primary economic environment in which the Group operates. These consolidated financial statements are presented in Pakistani Rupees, which is the Group's functional and presentation currency.

5.2 Figures have been rounded off to the nearest thousand of rupees unless otherwise stated.

6 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies adopted in the preparation of these financial statements are consistent with those followed in the preparation of the consolidated financial statements for the year ended December 31, 2023, except as disclosed in note 6.4 and 6.5.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

6.1 Business Combinations

Business combinations are accounted for by applying the acquisition method. The cost of acquisition is measured as the fair value of assets given, equity instruments issued and the liabilities incurred or assumed as at the date of acquisition. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement, if any. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values as at the acquisition date. The excess of the consideration transferred over the fair value of the Group's share of identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the net assets acquired in the case of a bargain purchase, the difference is recognised directly in the consolidated profit and loss account. However, as more fully described in note 13.3 to these consolidated financial statements, the gain on bargain purchase arising on an acquisition made in 2010 has been recognised directly in equity as per the directives of the SBP.

Goodwill acquired in a business combination is measured, subsequent to initial recognition, at its cost less accumulated impairment losses, if any. Goodwill acquired in a business combination is tested for impairment annually or whenever there is an indication of impairment as per the requirements of International Accounting Standard (IAS) 36, 'Impairment of assets'. Impairment charge in respect of goodwill is recognised in the consolidated profit and loss account and is not subsequently reversed.

Acquisition of non-controlling interests (NCI) is measured at the proportionate share of the NCI in the fair value of the net assets acquired by the Group. The excess of the fair value of consideration transferred over the proportionate share of the NCI in the fair value of the net assets acquired is recognised in equity. (Referring to the 'Reserve arising on amalgamation').

6.2 Cash and cash equivalents

For the purpose of the consolidated cash flow statement, cash and cash equivalents comprise of cash in hand, balances with treasury banks, balances with other banks in current and deposit accounts and overdrawn nostro accounts.

6.3 Due to / Due from financial institutions

(a) Musharaka / Mudaraba placements

In Musharaka / Mudaraba, the Holding Company (or the counterparty financial institutions / the SBP) invests in the Shari'ah compliant business pools of the counterparty financial institutions / the SBP at the agreed profit and loss sharing ratio under musharaka agreements.

(b) Bai Muajjal

In Bai Muajjal, the Holding Company sells Shari'ah compliant instruments on credit to other financial institutions. The credit price is agreed at the time of sale and such proceeds are received at the end of the credit period. The difference between the sale and the credit price is recognised over the credit period and recorded as income. Bai Muajjal with Federal Government is classified as investment.

(c) Musharaka from the SBP under IERS

Under IERS, the Holding Company accepts funds from the SBP under Shirkat-ul-aqd to constitute a pool for investment in export refinance portfolio of the Holding Company under the guidelines issued by the SBP. The profit of the pool is shared as per the agreed weightages between the partners.

(d) Mudaraba investment from the SBP under various long term Islamic refinance schemes

Under various long term Islamic refinance schemes of the SBP, the Holding Company accept funds from the SBP which are received on Mudaraba basis for investment in general pool of the Holding Company. The profit of the pool is shared as per the announced profit sharing ratio of the pool and the weightages assigned to these investments.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

6.3.1 These are initially recognised at amount of funds disbursed / accepted (in case of Bai Muajjal, at sale price of the Sukuk net of deferred profit) and subsequently measured at amount receivable / payable under the contractual terms of the underlying agreement (in case of Bai Muajjal, at sale price of the Sukuk net of remaining deferred profit at reporting date, if any), except for Temporary Economic Refinance Facility (TERF) which are measured at amortized cost.

6.4 IFRS 9 - Financial Instruments (Applicable on or after January 1, 2024)

During the period, as directed by the SBP vide its BPRD Circular No. 07 of 2023 dated April 13, 2023, IFRS 9: 'Financial Instruments' (the Standard) as adopted by the SBP became applicable to the Holding Company.

BPRD Circular No. 03 of 2022 issued by SBP provides detailed instructions on implementation of IFRS 9 (the IFRS 9 Application Instructions) for ensuring smooth and consistent implementation of the standard across the banks. Furthermore, SBP vide its BPRD Circular Letter No. 16 of 2024 and SBP vide BPRD Circular Letter No. 01 of 2025 has made further amendments in the application instructions issued. All deferments made through these amendments are disclosed in statement of compliance.

The standard addresses recognition, classification, measurement and derecognition of financial assets and financial liabilities. The standard has also introduced a new impairment model for financial assets which requires recognition of impairment charge based on 'expected credit losses' (ECL) approach rather than 'incurred credit losses' approach as previously followed. The ECL has impact on all the assets of the Holding Company which are exposed to credit risk.

The Holding Company has adopted IFRS 9 in accordance with the IFRS 9 Application Instructions from January 1, 2024, using the modified retrospective approach and has not restated comparatives for the 2023 reporting period and the differences in carrying amount of financial assets and financial liabilities resulting from the adoption of IFRS 9 are recognised in retained earnings and reserves as at January 1, 2024, as permitted under the specific transitional provisions in the Standard.

Accordingly, the information presented for 2023 does not reflect the requirements of IFRS 9 and therefore is not comparable to the information presented for 2024 under IFRS 9.

Notes to the Consolidated Financial Statements

* This includes management overlay of Rs. 3,607,544 million in Stage 2 ECL.

- Certain equity securities are held by the Holding Company in separate portfolios and are managed with an objective of realising cash flows through sale. The Holding Company primarily focuses on fair value information and uses that information to assess the securities' performance and to make decisions. Certain asset-backed securities have contractual cash flows that are not SPPI. These assets are therefore measured at FVPL under IFRS 9. (AFS to FVPL).
- Certain debt securities are held by the Holding Company in separate portfolios to meet everyday liquidity needs. The Holding Company seeks to minimise the costs of managing these liquidity needs and therefore actively manages the return on the portfolio. That return consists of collecting contractual payments as well as gains and losses from the sale of financial assets. The investment strategy often results in sales activity that is significant in value. The Holding Company considers that under IFRS 9 these securities are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. Moreover, certain equity investments held by the Holding Company for strategic purposes have been designated under IFRS 9 as at FVOCI (AFS to FVOCI).
- Corporate debt securities that were previously classified as held-to-maturity are now classified at amortised cost. The Holding Company intends to hold the assets to maturity to collect contractual cash flows and these cash flows consist solely of payments of principal and profit on the principal amount outstanding. (HTM to AC).
- Islamic financing and related assets except for Temporary Economic Refinance Facility (TERF), staff financing and modified financing are stated at cost. Whereas, Temporary economic refinance scheme, staff financing and modified financing are stated at amortized cost.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

6.4.1 Impact on regulatory capital

In order to mitigate the impact of ECL models on capital, SBP has determined that it may be appropriate for the banks to introduce a transitional arrangement for the impact on regulatory capital from the application of ECL accounting. The transitional arrangement applies only to provisions for stage 1 and stage 2 financial assets. The transitional arrangement must adjust CET1 capital. Where there is a reduction in CET1 capital due to new provisions, net of tax effect, upon adoption of an ECL accounting model, the decline in CET1 capital (the “transitional adjustment amount”) must be partially included (i.e., added back) to CET1 capital over the “transition period” of five years.

Had IFRS 9 not been applied then estimated CAR would have been lower by 21 bps from 16.74% to 16.53%.

The Group has applied the transitional arrangement on Regulatory Capital. Had the transitional arrangement not been applied then CAR would have been higher by 22 bps from 16.74% to 16.96%.

The Holding Company has applied the transitional arrangement on Regulatory Capital. Had the transitional arrangement not been applied then Leverage Ratio would have been lower by 06 bps from 4.53% to 4.47%.

6.4.2 Classification and measurement

Under the new standard, classification and measurement of financial assets depends on how these are managed based on business model and their contractual cash flow characteristics. Financial assets that do not meet the Solely Payment of Principal and profit (SPPI) criteria are required to be measured at fair value through profit and loss (FVPL) regardless of the business model in which they are held.

Recognition and initial measurement

Debt securities issued are initially recorded when they are originated. All other financial assets and financial liabilities are initially recognised when the Holding Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at transaction price. The fair value of a financial asset on initial recognition is generally its transaction price. If the Holding Company determines that the fair value on initial recognition differs from the transaction price then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently, that difference is recognized in profit and loss account on an appropriate basis over the life of the asset but no later than when the valuation is wholly supported by observable market data, or the transaction is closed out. Islamic financing and related assets other than staff financing and Temporary Economic Refinance Facility (TERF) are initially measured at transaction price i.e., the amount of financing disbursed at disbursement date.

Classification of Financial Assets

On initial recognition, a financial asset is classified as either amortized cost, FVOCI, or FVPL where as Islamic financing and related assets except for staff financing, the Temporary Economic Refinance Facility (TERF), and modified financing, are carried at cost.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cashflows and selling financial assets; and

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

Islamic financing and related assets are carried at cost, net of expected credit loss allowances, except for Temporary Economic Refinance Facility (TERF), staff financing and modified financing, which are measured at amortized cost.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business models for managing financial assets, in which cases all affected financial assets are reclassified on the first day of the first reporting period following changes in the business model.

IFRS 9 allows entities to irrevocably designate, at initial recognition, a financial asset as measured at FVPL if doing so eliminates or significantly reduces any 'accounting mismatch' that would otherwise arise from measuring assets or liabilities or recognizing gains and losses on them on different basis. SBP instructions state that banks may apply the fair value option if, in addition to the IFRS 9 criterion, (a) it is consistent with a documented risk management strategy, and (b) fair values are reliable at inception and throughout life of the instrument.

Classification of Financial Liabilities

Financial liabilities are either classified as fair value through profit and loss account (FVPL), when they are held for trading purposes, or at amortized cost. Financial liabilities classified as FVPL are measured at fair value and all the fair value changes are recognized in profit and loss account. Financial liabilities classified at amortized cost are initially recorded at their fair value and subsequently measured using the effective yield rate method. Profit and foreign exchange gain and losses are recognised in profit and loss. Any gain or loss on derecognition is also recognised in profit and loss account.

6.4.3 Business model assessment

A financial asset is classified as either Held to collect, Held to collect and sale and Others based on Business model assessment. The Holding Company makes an assessment of the objective of a business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management. The assessment requires judgement based on facts and circumstances on the date of assessment. The assessment considers the policies and objectives for the portfolio of financial assets, risk affecting, performance evaluation, business manager's compensation and historical sales information.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

6.4.4 Assessment of whether contractual cash flows are solely payments of principal and profit (SPPI)

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Profit' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as profit margin.

The Holding Company assesses whether the contractual cash flows of a financial asset meet the Solely Payments of Principal and Profit (SPPI) criterion by examining the contractual terms. This includes checking for terms that could alter the amount and timings of cash flows, such as contingent events, leverage, or prepayment features, etc.

A prepayment feature aligns with SPPI if it mainly represents unpaid principal and profit, including reasonable compensation for early termination.

For fixed-rate financings with periodic profit rate resets, the Holding Company considers these SPPI-compliant as the revised rates reflect time value, credit risk, and other associated risks.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

6.4.5 Subsequent measurement

The following accounting policies apply to the subsequent measurement of financial assets:

Financial assets at FVPL	These assets are subsequently measured at fair value. Net gains and losses, including any profit or dividend income, are recognised in statement of profit or loss account.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective yield method. The amortised cost is reduced by impairment losses. Profit and impairment are recognised in statement of profit or loss account.
Debt investments at FVOCI	These assets are subsequently measured at fair value and is assessed for impairment under the new ECL model. Profit income is calculated using the effective yield method and includes amortization of premiums and accretion of discount and impairment are recognised in profit and loss account. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to consolidated statement of profit or loss account.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment, in which case they are adjusted from the carrying value of investment. Other net gains and losses are recognised in OCI and are never reclassified to consolidated statement of profit or loss account.
Unquoted Securities	Unquoted equity securities are valued at the lower of cost and break-up value. The break-up value of these securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements. The Holding Company may also use unaudited or management accounts to determine if any additional deficit needs to be charged.
Islamic financing and related assets at cost	Islamic financing and related assets are carried at cost, net of expected credit loss allowances, except for Temporary Economic Refinance Facility (TERF) and staff financing, modified financing which are carried at amortized cost, net of expected credit loss allowances.

6.4.6 Amortised cost and gross carrying amount

The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective yield method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance (or impairment allowance before 1 January 2024).

The 'gross carrying amount of a financial asset' is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

6.4.7 Calculation of profit income and expense

Income is recorded in accordance with IFAS 1 and IFAS 2. Furthermore, for other Islamic products income is recorded based on the contractual rate in accordance with the Shari'ah principles.

Profit expense on domestic financial liabilities (comprising deposits and borrowings) is recognized on an accrual basis in the period in which it is incurred, based on their contractual rates.

6.4.8 Derecognition

The Group derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or
- it transfers the rights to receive the contractual cash flows in a transaction in which either:
 - (a) substantially all of the risks and rewards of ownership of the financial asset are transferred; or
 - (b) the Holding Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognized), and the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognized in OCI is recognized in the profit and loss account, except that in case of the derecognition of equity securities held at FVOCI, cumulative gains or losses are transferred to unappropriated profit.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired. The Holding Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

6.4.9 Modification

Financial assets

The Group sometimes renegotiates or otherwise modifies the contractual cash flows of to its customers. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognized and a new financial asset is recognised at fair value plus any eligible transaction costs.

If cash flows are modified when the borrower is in financial difficulties, then the objective of the modification is usually to maximise recovery of the original contractual terms rather than to originate a new asset with substantially different terms. If the Group plans to modify a financial asset in a way that would result in forgiveness of cash flows, then it first considers whether a portion of the asset should be written off before the modification takes place. This approach impacts the result of the quantitative evaluation and means that the derecognition criteria are not usually met in such cases.

Where derecognition of financial assets is appropriate, the newly recognised residual financing are assessed to determine whether the assets should be classified as purchased or originated credit-impaired assets (POCI).

If the modification of a financial asset measured at amortised cost or FVOCI does not result in derecognition of the financial asset, then the Group first recalculates the gross carrying amount of the financial asset using the original effective yield rate of the asset and recognised the resulting adjustment as a modification gain or loss in profit and loss account.

If such a modification is carried out because of financial difficulties of the borrower then the gain or loss is presented together with impairment losses. In other cases, it is presented as profit income calculated using the effective yield rate method.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

Financial liabilities

The Group derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability recognised and consideration paid is recognised in profit and loss account.

If the modification of a financial liability is not accounted for as derecognition, then the amortised cost of the liability is recalculated by discounting the modified cash flows at the original effective yield rate and the resulting gain or loss is recognised in profit and loss account. For floating-rate financial liabilities, the original effective yield rate used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs and fees incurred are recognised as an adjustment to the carrying amount of the liability and amortised over the remaining term of the modified financial liability by re-computing the effective yield rate on the instrument.

6.4.10 Impairment

The impairment requirements apply to financial assets measured at amortized cost and FVOCI (other than equity instruments), lease receivables, and certain financing commitments and financial guarantee contracts. At initial recognition, an impairment allowance (or provision in the case of commitments and guarantees) is required for expected credit losses ('ECL') resulting from default events that are possible within the next 12 months ('12-month ECL'). In the event of a significant increase in credit risk, a provision is required for ECL resulting from all possible default events over the expected life of the financial instrument ('lifetime ECL').

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognized and ECL are measured as follows:

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective profit yield rate of the existing financial asset.

Financial assets where 12-month ECL is recognised are in 'Stage 1'; financial assets that are considered to have experienced a significant increase in credit risk are in 'Stage 2'; and financial assets for which there is objective evidence of impairment, so are considered to be in default or otherwise credit impaired, are in 'Stage 3'.

Non-Performing financial assets

At each reporting date, the Holding Company assesses whether financial assets carried at amortised cost and debt financial assets carried at FVOCI, and finance lease receivables are credit impaired (referred to as 'Stage 3 financial assets'). A financial asset is 'non-performing' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. This includes time based criteria and subjective evaluation of the credit worthiness of the borrower.

A financing that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a retail financing that is overdue for 90 days or more is considered credit-impaired even when the regulatory definition of default is different.

Under the IFRS 9 Application instructions, the Holding Company is not required to compute ECL on Government Securities and on Government guaranteed credit exposure in local currency. The Holding Company is required to calculate ECL on its non-performing financial assets as higher of provision under Prudential Regulations (PR) and ECL under IFRS 9.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

The Holding Company calculates the ECL against corporate, commercial & SME financing portfolios as higher of PR and ECL under IFRS 9 at borrower/facility level, whereas against the retail borrowers the Holding Company calculates the ECL at higher of PR and ECL under IFRS 9 at segment/product basis as instructed under Annexure-A of BPRD Circular no 16 of 2024.

ECL is the probability weighted estimate of expected cash shortfalls which is determined by multiplying the probability of default (PD) with the loss given default (LGD) with the expected exposure at the time of default (EAD). Based on the requirements of IFRS 9 and Application Instructions, the Holding Company has performed an ECL assessment considering the following key elements:

Probability of default:

The Probability of Default represents the likelihood that a counterparty will default within a specific timeframe, such as 12 months (12-month ECL for Stage 1) or the lifetime of the financial instrument (lifetime ECL for Stage 2). The Holding Company calculates PD on Islamic financing and related assets which is further bifurcated into retail and non retail portfolios. Following is the methodology through which non retail and retail PD are calculated:

Non-Retail PD:

The Holding Company utilizes its internal risk rating system to assign Obligor Risk Ratings (ORR) to borrowers. Holding Company has used a statistical method, for the estimation of TTC PDs associated with each of its Obligor Risk Rating (ORR).

Retail PD:

Holding Company has used the roll-rate method for retail portfolios based on its different risk characteristics and historical default trends. Holding Company has used historical data to estimate TTC PD for its retail segments.

Moreover, the Holding Company calculates Expected Credit Loss (ECL) on investments and balances with other Holding Companies by utilizing Probability of Default (PD) data, which tracks corporate credit rating transitions over time. This historical data helps to assess the likelihood of changes in creditworthiness and defaults.

Incorporation of forward-looking information:

Forward looking information is incorporated to convert TTC PD to Point in Time Probability of Default (PiT) PD. The Holding Company has estimated the PiT PDs in its PD Model. For this purpose, the Holding Company incorporated 5-year forecasts obtained from the Macro Economic Variable (MEV) database of the International Monetary Fund (IMF).

Exposure at Default (EAD):

The Holding Company has defined EAD for financial assets carried at an amortized cost equal to principal plus accrued profit at the default date. Each repayment date is assumed to be a default point in the model, and the ECL is calculated on the EAD at each repayment date and discounted at the effective yield rate to arrive at the discounted ECL under three scenarios, i.e, base, worst, and best-case scenarios. The unutilized exposures are multiplied with Credit Conversion Factors (CCFs) to compute the EAD of revolving facilities. For non revolving facilities, CCF is only applied to unutilized exposures when the Holding Company doesn't have unconditional right to revoke the undrawn portion. Additionally, cash and cash equivalent collateral the Holding Company holds against non-retail facilities are adjusted from the EAD, and ECL is calculated on the net amount. The Holding Company has developed CCF models for its revolving and non revolving facilities based on the historical utilization of credit limits which are currently being applied to the revolving portfolio.

Loss Given Default:

Loss Given Default (LGD) represents the forecasted economic loss in the event of default, calculated independently of credit quality and applied consistently across all stages. LGD is determined as the percentage of loss expected in case of borrower default, incorporating historical data, cash recovery experience (including settlements), costs and time of recoveries, collateral realizations, and recovery projections. For non-collateralized portfolios, the Holding Company estimates LGD based on actual recoveries from defaulted accounts over a historical period of 3-5 years prior to the

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

assessment date. Forward-looking information is incorporated into the LGD calculation to reflect the impact of macroeconomic factors on the expected recoveries.

Purchase or Originated Credit Impaired Financial Assets

Purchase or Originated Credit Impaired (POCI) financial assets are assets that are credit-impaired on initial recognition. Expected credit loss for these assets is not recognized in a separate loss provision on initial recognition, as the lifetime expected credit loss is inherent within the gross carrying amount of the instruments. Consequently, POCI assets do not carry an impairment allowance on initial recognition. The amount recognized as a loss allowance after initial recognition is equal to the changes in lifetime ECL since the initial recognition of the asset.

Presentation of allowance for Expected Credit Loss in the Statement of Financial Position

Loss allowances for ECL are presented in the statement of financial position as follows:

- Financial assets measured at amortized cost / cost: as a deduction from the gross carrying amount of the assets.
- Financing commitments and financial guarantee contracts: as a provision in Other Assets / Liabilities.
- where a financial instrument includes both a drawn and an undrawn component, and the Holding Company does not identify the ECL on the financing commitment component separately from those on the drawn component and instead presents a combined loss allowance for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as a provision.

6.4.11 Significant increase in credit risk (SICR)

A SICR is assessed in the context of an increase in the risk of a default occurring over the life of the financial instrument when compared to that expected at the time of initial recognition. It is not assessed in the context of an increase in the ECL. The Holding Company used several qualitative and quantitative measures in assessing SICR. Quantitative measures relate to deterioration of Obligor Risk Ratings (ORR) or where principal and / or profit payments are 60 days or more past due. Qualitative factors include unavailability of financial information and pending litigations. A financial asset is transitioned to a backward stage in line with SBP instructions.

6.4.12 Write-offs

Financial assets are written off (either partially or in full) when there is no reasonable expectation of recovering a financial asset in its entirety or a portion thereof. This is generally the case when the Holding Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. This assessment is carried out at the individual asset level.

Recoveries of amounts previously written off are included in 'impairment losses on financial instruments' in the statement of profit and loss account.

Financial assets that are written off could still be subject to enforcement activities in order to comply with the Holding Company's procedures for recovery of amounts due.

6.4.13 Off-setting

Financial assets and financial liabilities are set off and the net amount is reported in the consolidated financial statements only when the Holding Company has a legally enforceable right to set off and the Holding Company intends to either settle on a net basis, or to realise the assets and to settle the liabilities simultaneously. Income and expense items of such assets and liabilities are also offset and the net amount is reported in the consolidated financial statements only when permitted by the accounting and reporting standards as applicable in Pakistan.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

6.4.14 Governance, ownership and responsibilities

The Holding Company has adopted a governance framework requiring multiple functions to effectively work together to ensure input from all business lines. The Risk Department defines the staging criteria for the new impairment model and take ownership of all models, methodologies and the ECL calculation approach.

Additionally, the Risk department also take the ownership of the impact of ECL on Holding Company's capital. The Holding Company's Finance Division performs ECL calculation. As a result, the department then assess the financial impact, meet the financial reporting requirements and further monitor the impact on the financial ratios.

As per the Holding Company's policy, the Holding Company's Internal Audit function carries out periodic review of IFRS 9 methodology and impacts calculated by the Management.

6.4.15 Undrawn financing commitments and guarantees

Financial guarantees' are contracts that require the Holding Company to make specified payments to reimburse the holder for a loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument. 'financing commitments' are firm commitments to provide credit under pre-specified terms and conditions.

When estimating lifetime ECL for undrawn financing commitments, the Holding Company estimates the expected portion of the financing commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected cash flows if the financing are drawn down, based on a probability-weighting of the three scenarios.

6.4.16 Acceptances

Acceptances arise when the Holding Company is under an obligation to make payments against documents drawn under letters of credit. Acceptances specify the amount of money, the date, and the person to which the payment is due. After acceptance, the instrument becomes an unconditional liability (time draft) of the Holding Company and is therefore recognized as a financial liability in the statement of financial position with a corresponding contractual right of reimbursement from the customer recognized as a financial asset.

Acceptances have been considered within the scope of IFRS 9 - Financial Instruments for the purpose of calculation of expected credit loss and are valued at amortized cost and continued to be recognized as a financial liability in the statement of financial position with a contractual right of reimbursement from the customer as a financial asset.

6.4.17 Wa'ad / Promissory Contracts

Wa'ad / promissory contracts are initially recognized at fair value on the date on which the contract is entered into and are subsequently re-measured to fair value using appropriate valuation techniques. All Wa'ad / promissory contracts are carried as assets when fair value is positive and liability when fair value is negative. Any change in the fair value of Wa'ad / promissory contracts is taken to the profit and loss account.

6.5 Revised format of Annual financial statements

SBP through its BPRD Circular No. 02 dated February 9, 2023, has amended the format of annual financial statements of Banks. All Banks are required to prepare their annual financial statements on the revised format effective from accounting year starting from January 1, 2024. Accordingly, the Holding Company has prepared these annual financial statements on the new format prescribed by the SBP. The adoption of the new format contains additional disclosures and certain changes in the financial statements' presentation, primarily due to the implementation of IFRS 9 as applicable in Pakistan. However, the corresponding figures continue to be classified and disclosed in accordance with the previous financial accounting and reporting framework.

Adoption of revised financial statements format has also resulted in following material changes (due to which the corresponding presentations have also been changed):

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

- Right-of-use-assets (note 12) amounting to Rs 13,297.784 million (December 31, 2023: Rs 10,771.515 million) which were previously shown as part of fixed assets are now shown separately on the Consolidated statement of financial position.
- Lease liabilities (note 18) amounting to Rs 15,582.671 million (December 31, 2023: Rs 12,865.125 million) which were previously shown as part of other liabilities (note 19) are now shown separately on the Consolidated statement of financial position.

6.6 Investment in associates

Certain mutual funds are managed by Faysal Asset Management Limited (FAML), As stipulated under Regulation 38 of Non-Banking Finance Regulation, 2008, the Asset Management Company (AMC) is entrusted with fiduciary duties towards the unit holders of the funds. This fiduciary obligation requires AMC to act in the best interests of its unit holders, refraining from exploiting opportunities for its own benefit or that of its related parties, group companies, or employees, to the detriment of the unit holders.

In some cases, the holding of these investments is exceeding 50%. However due to the exemption provided through SRO 56(i) of 2016, for the purpose of determining subsidiary relation, the definition provided under Companies Act, 2017 is not considered rather the definition under IFRS 10 is used. As per IFRS 10, these are not considered subsidiary due to the legal trust structure of the entity the Group does not have the ability to affect returns through its power over the investee. Further, under this trust structure, the trusteeship is separate from the management, and the independent trustees play a key role in overseeing the activities of the AMC.

The Group has significant influence over mutual funds due to power to participate in the investee's policy-making processes via the FAML and investment in such mutual funds is considered as investment in associates.

Subsequent measurement of Associates

Investment in associates are accounted for using the equity method of accounting.

Impairment of Investment in associate

In respect of investment in associates, the Holding Company reviews their carrying values at each reporting date to assess whether there is an indication of impairment. The amount of impairment loss would be determined based on the higher of values in use and fair value less cost to sell. Impairment loss is recognised in the profit and loss account.

6.7 Investments (Applicable before January 1, 2024)

6.7.1 Classification

The Group classifies its investments as follows:

(a) Held for trading

These are securities, which are either acquired for the purpose of generating profit from short-term fluctuations in market prices, yield rate movements, or dealer's margin or are securities included in the portfolio in which a pattern of short-term profit making exists.

(b) Held to maturity

These are securities with fixed or determinable payments and maturity that the Holding Company has a positive intent and ability to hold to maturity.

(c) Available for sale

These are investments, other than those, in associates and subsidiaries, that do not fall under either held for trading or held to maturity categories.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

6.7.2 Initial recognition and measurement

All purchases and sales of investments that require delivery within the time frame established by the regulations or market convention are recognised at the trade date. Trade date is the date on which the Group commits to purchase or sell the investment.

Investments other than those classified as held for trading are initially recognised at fair value which includes transaction costs associated with the investments. Investments classified as 'held for trading' are initially recognised at fair value and transaction costs associated with the transactions are expensed through the profit and loss account.

Premium or discount on acquisition of investments is amortised through the profit and loss account over the remaining period till maturity using the effective yield rate method.

6.7.3 Subsequent measurement

Held for trading

These are measured at subsequent reporting dates at fair value. Any unrealised surplus / deficit arising on revaluation is taken into profit and loss account.

Held to maturity

These are measured at amortised cost using the effective yield rate method, less any impairment recognised to reflect irrecoverable amounts.

Available for sale

Quoted securities classified as available for sale investments are measured at subsequent reporting dates at fair value. Any surplus or deficit arising thereon is kept in a separate account shown in the statement of financial position within equity and is taken to the profit and loss account when realised upon disposal or when the investments are considered to be impaired.

Unquoted equity securities are valued at the lower of cost and break-up value. The break-up value of these securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements. The Holding Company may also use unaudited or management accounts to determine if any additional impairment needs to be charged beyond amounts already changed based on audited consolidated financial statements. Investments in other unquoted securities are valued at cost less impairment, if any.

6.7.4 Impairment

Available for sale and held to maturity investments

Impairment loss in respect of investments classified as available for sale and held to maturity is recognised based on management's assessment of objective evidence of impairment as a result of one or more events that may have an impact on the estimated future cash flows of the investments. A significant or prolonged decline in the fair value of a listed equity investment below its cost is also considered an objective evidence of impairment. The determination of significant or prolonged decline requires judgement.

Provision in the value of term finance certificates and sukuk certificates is made as per the requirements of the Prudential Regulations issued by the SBP. In case of impairment of available for sale securities, the cumulative loss that has been recognised in surplus / deficit on revaluation of securities on the statement of financial position within equity is removed therefrom and recognised in the profit and loss account.

6.8 Islamic financing and related assets

- 6.8.1** Financing is stated net of credit loss allowance and fair value adjustment. The amount of credit loss allowance is charged to the profit and loss account. Financing is written off in accordance with Holding Company policy by extinguishing them against the provision held. These write-offs / charge off do not, in any way, prejudice the Holding Company's right of

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

recovery from these customers. The Holding Company offers various Islamic financing products the details of which are as follows:

(a) Murabaha

In Murabaha transactions, the Holding Company purchases the goods and after taking the possession, sells them to the customer on cost plus profit basis either in a spot or credit transaction.

(b) Diminishing Musharaka

It is a form of partnership in which the Group and the customers create co-ownership in the assets by purchasing it jointly. The Group then rent out its share of the assets to the customer. Beside the payment of the rentals, the customers also purchase the assets from the Group in installments. Hence at the end of the tenure, customer become sole owner of the assets.

(c) Running Musharaka

In Running Musharakah financing, the Holding Company will enter into financing with the customer based on Shirkat-ul-Aqd (Business Partnership) in the customer's operating business. Under this mechanism the customer can withdraw and return funds to the Holding Company subject to its Running Musharakah Financing limit during the Musharakah period. At the end of each quarter / period the customer pays the provisional profit as per the desired profit rate which is subject to final settlement based on the relevant quarterly / half yearly / annual audited accounts of the customer.

(d) Ijarah

Ijarah is a contract whereby the owner of an asset (other than consumables) transfers its usufruct to another person for an agreed period and for an agreed consideration.

Ijarah assets are stated at cost less accumulated depreciation and impairment losses, if any. Depreciation is charged from the date of recognition of ijarah assets on a straight line basis over the period of Ijarah. Impairment of Ijarah assets is determined on the same basis as that of property and equipment.

Ijarah rental income is recognised on an accrual basis as and when the rental becomes due. Impairment of Ijarah rental is determined in accordance with the requirements of the Prudential Regulations and other directives issued by the SBP from time to time and charged to the profit and loss account.

In Service Ijarah financing, the Holding Company provides financing by acquiring certain agreed services from the customer. After the purchase of services, the Holding Company appoints the customer to sell these services in the market over a period and provide a sale confirmation of such sale. The profit is only accrued from the date of receipt of such confirmation.

(e) Istisna

Istisna is a mode of sale at an agreed price, whereby the buyer places an order to or cause to manufacture, assemble or construct anything to be delivered at a future date.

The funds disbursed under Istisna are recorded as 'Advance against Istisna'. On execution of goods receiving note and receipt of manufactured goods, the same are recorded in the statement of financial position as inventories of the Holding Company at cost price and after sale of goods by customer to its ultimate buyers, Istisna financing is recognised.

(f) Musawamah

In Musawamah financing, the Holding Company purchases the goods and after taking the possession, sells them to customer either in spot or credit transaction, without disclosing the cost.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

(g) Salam / Bai Salam

Salam / Bai Salam is a sale transaction where the seller undertakes to supply some specific goods to the buyer at a future date against an advance price fully paid on spot.

The funds disbursed under Salam / Bai Salam are recorded as advances against Salam / Bai Salam. On execution of goods receiving note and receipt of Salam / Bai Salam goods, the same are recorded in the statement of financial position as inventories of the Holding Company at cost price and after the sale of goods by customer to its ultimate buyers, Salam / Bai Salam financing is recognised.

(h) Tijarah

Tijarah is a financing mode under which Holding Company purchases finished goods from the customer / seller against spot payment and delivery. Thereafter, the Holding Company appoints customer as an agent to sell the Tijarah goods in the market.

The funds disbursed under Tijarah are recorded as advances against Tijarah. On execution of goods receiving note and receipt of Tijarah goods, the same are recorded in the consolidated statement of financial position as inventories of the Holding Company at cost price and after the sale of goods by customer to its ultimate buyers, Tijarah financing is recognised.

(i) Tawarruq

Tawarruq means "to sell a commodity at spot after its purchase on deferred basis to the party other than from whom it was purchased.

In practice "Tawarruq is an arrangement in which Holding Company sells a commodity at a higher price from its market value to the Customer on deferred payment at cost plus profit. The customer, then sells the commodity to a third party on cash with a purpose of having access to liquidity".

(j) Government grants (Applicable after January 1, 2024)

Government grants are recognized when there is reasonable assurance of receipt and compliance with attached conditions. Asset-related grants are either recorded as deferred income or deducted from the asset's carrying amount, while income grants are systematically recognized in profit or loss. In line with IAS 20, government financing at below-market rates are treated as grants, with the benefit measured as the difference between the financing fair value and the proceeds received. The State Bank of Pakistan (SBP) has introduced temporary refinancing schemes to provide economic relief, which qualify as government grants. These are accounted for by bifurcating the liability into a financial liability under IFRS 9, measured at fair value, and a deferred grant liability representing the benefit received. The deferred grant liability is recognized in consolidated statement of financial position, at inception is initially offset against the fair value loss on below market rate financing provided to customers. The remaining portion is subsequently amortized over the tenure of financing, aligning with the unwinding difference between SBP refinance and customer financing.

6.9 Property and equipment and depreciation

(a) Tangible assets

Property and equipment other than land and buildings are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Buildings are carried at revalued amount less any accumulated depreciation and subsequent impairment losses, if any. Land is carried at revalued amount less any subsequent impairment losses, if any.

Depreciation on property and equipment (excluding land which is not depreciated) is charged using the straight line method in accordance with the rates specified in note 11.2 to these consolidated financial statements after taking into account residual value, if significant. The asset's residual values and useful lives are reviewed and adjusted, if required, at each reporting date. Depreciation on additions is charged once the assets become available for use and it stops when the asset is disposed or it is fully depreciated.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

Subsequent costs are included in the asset's carrying amounts or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repair and maintenance expenditures are charged to the consolidated profit and loss account as and when incurred.

Land and buildings are revalued by professionally qualified valuers with sufficient regularity to ensure that the net carrying amount does not differ materially from their fair value.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains / losses on disposal of property and equipment, if any, are taken to the profit and loss account in the period in which these arise except that the related surplus on revaluation of property and equipment (net of deferred taxation) is transferred directly to unappropriated profit.

Surplus on revaluation of property and equipment (net of associated deferred tax) to the extent of the incremental depreciation charged on the related assets is transferred to unappropriated profit.

(b) Capital work-in-progress

Capital work-in-progress is stated at cost less accumulated impairment losses, if any. All expenditure connected with specific assets incurred during installation and construction period are carried under this head. These are transferred to specific assets as and when assets become available for use.

(c) Intangible assets

Intangible assets having definite lives are stated at cost less accumulated amortisation and accumulated impairment losses, if any. The intangible assets include directly attributable costs that are capitalised as part of the intangible asset. Amortisation, except for customer relationship, is charged by applying the straight-line method over the useful lives of the assets. Amortisation is calculated so as to write-off the assets over their expected economic lives at rates specified in note 13 to these consolidated financial statements. Amortisation is charged from when the asset is available for use and stops when the asset is disposed or its fully amortized. The intangible asset comprising customer relationship is being amortised over the life expectancy of the deposits. The residual values and useful lives of intangible assets are reviewed and adjusted, if appropriate, at each reporting date.

Subsequent costs are included in the asset's carrying amounts or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Intangible assets having an indefinite useful life are stated at acquisition cost less accumulated impairment losses, if any.

Gains and losses on disposals, if any, are taken to the profit and loss account in the period in which these arise.

6.10 Impairment

The carrying amounts of assets are reviewed at each reporting date for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be recoverable. If any such indication exists, and where the carrying value exceeds the estimated recoverable amount, assets are written down to their recoverable amount, except in the case of an intangible asset with an indefinite useful life or an intangible asset not yet available for use and goodwill acquired in a business combination for which impairment is tested annually irrespective of whether there is any indication of impairment. The resulting impairment loss is taken to the profit and loss account except for impairment loss on revalued assets, which is adjusted against related revaluation surplus to the extent that the impairment loss does not exceed the surplus on revaluation of asset.

An impairment loss is reversed except for impairment loss relating to goodwill, if there has been a change in the estimate used to determine the recoverable amount. Such reversals are only made to the extent that the asset's carrying amount does not exceed the amount that would have been determined if no impairment loss had been recognised.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

6.11 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the consolidated profit and loss account except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current

Provision for current taxation is based on taxable income for the year. Tax charge for the current year is determined in accordance with the prevailing laws for taxation. The charge for the current tax is calculated using tax rates enacted or substantively enacted at the reporting date.

Prior

The charge / reversals for prior years represent adjustments to the tax charge / reversals for prior years, arising from assessments, changes in estimates, and retrospectively applied changes to the law, made during the current year.

Deferred

Deferred tax is recognised using the balance sheet liability method on all temporary differences between the carrying amounts of assets and liabilities used for financial reporting purposes and amounts used for taxation purposes. In addition, the Group also records deferred tax asset on available tax losses. Deferred tax is calculated using the rates that are expected to apply to the period when the differences reverse based on tax rates that have been enacted or substantively enacted at the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax asset is reduced to the extent that it is no longer probable that the related tax benefits will be realised.

The carrying amount of the deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised.

6.12 Assets acquired in satisfaction of claims

Non-Banking assets acquired in satisfaction of claims are carried at revalued amounts less accumulated depreciation and accumulated impairment, if any. These assets are revalued by professionally qualified valuers with sufficient regularity to ensure that their net carrying values do not differ materially from their fair values. Legal fee, transfer costs and direct costs of acquiring title to the non-banking assets are charged to the consolidated profit and loss account and these are not capitalised as part of non-banking assets. A surplus arising on revaluation of non-banking assets acquired in satisfaction of claims is credited to the 'surplus on revaluation of assets' account. Any deficit arising on revaluation is first set off against the surplus account for that particular non-banking asset, if any, or if no surplus exists, is charged to the consolidated profit and loss account. These assets are disclosed in other assets as specified by the SBP.

Surplus on revaluation of non-banking assets (net of associated deferred tax) to the extent of the incremental depreciation charged on the related assets is transferred to unappropriated profit.

6.13 Provisions and contingent assets and liabilities

Provisions are recognised when the Group has a legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimates.

Contingent assets are not recognised and are also not disclosed unless an inflow of economic benefits is probable. Contingent liabilities are not recognised and are disclosed unless the probability of an outflow of resources embodying economic benefits is remote.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

6.14 Staff retirement benefits

a) Defined contribution plan

The Holding Company and the FAML both operate a contributory provident fund for all its permanent employees to which equal monthly contributions at the rate of 10 percent of basic salary are made both by the Holding Company, FAML and the employees.

b) Defined benefit plan

The Holding Company operates an approved funded gratuity plan for all its permanent eligible employees and eligible employees who are on contractual service and are employed under non-management cadre. The FAML also operates a funded gratuity plan for all permanent eligible employees who have completed the specified minimum qualifying period of service. Contributions are made by each company to the respective funds on the basis of actuarial recommendations.

The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

Projected Unit Credit Method is used for the actuarial valuation.

Amounts arising as a result of 'Remeasurements', representing the actuarial gains and losses and the differences between the actual investment returns and the return implied by the net profit cost are recognised in the consolidated statement of financial position immediately, with a charge or credit to consolidated other comprehensive income in the periods in which these occur.

Staff retirement benefits are payable to staff on completion of prescribed qualifying period of service under these schemes.

6.15 Deposits and other accounts

Deposits are generated on the basis of two modes i.e. Qard and Mudaraba.

Deposits taken on Qard basis are classified as 'Current accounts' (non-remunerative) and deposits generated on Mudaraba basis are classified as 'Savings deposits' and 'Term deposits'. No profit or loss is passed on to current account depositors, however the funds of current accounts are treated as equity of the Holding Company for the purpose of profit calculation. Usually no restriction on withdrawals or number of transactions in current and savings accounts. In case of term deposits, pre-mature withdrawals can be made as per approved terms only.

Profits realised in investment pools are distributed in pre-agreed profit-sharing ratio between Rab-ul-Maal and Mudarib. Rab-ul-Maal share is distributed among depositors according to weightages assigned at the inception of profit calculation period.

Profits are distributed from the pool such that the depositors (remunerative) only bear the risk of assets in the pool during the profit calculation period. In case of loss in a pool during the profit calculation period, the loss is distributed among the depositors (remunerative) according to their ratio of investments.

Pools are created at the Holding Company discretion and the Holding Company can add, remove or transfer an asset to any other pool in the interests of the deposit holders.

6.16 Pool management

The Group has maintained the following pools:

- i. 'General Pool' for local and foreign currency deposits;
- ii. 'Islamic Export Refinance Pool';

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

- iii. 'Interbank Company Treasury Musharaka Pool' ;
- iv. 'Islamic Investment Pool' (Mudarabah based) - LCY & FCY;
- v. 'Islamic Saving Pool' (Mudarabah based);
- vi. 'Islamic Equity Pool';
- vii. 'Hajj Pool';
- viii. 'Treasury Mudarabah Pool';
- ix. 'Pakistan Mortgage Refinance Company Musharakah Pool';
- x. 'Open Market Operation'; and
- xi. 'Mudarabah based Financing Facility'

Key features and risk & reward characteristics of all pools

- The 'General Pool' for both local and foreign currency is catered for all FBL Islamic depositors and provide profit / loss based on Mudarabah and Musharaka.
- The Islamic Export Refinance Pool caters the 'Islamic Export Refinance' requirements based on the guidelines issued by the SBP.
- The 'Interbank Treasury Musharaka Pool' is to provide Shari'ah compliant mechanism for Interbank Money Market transactions and manage the liquidity position of FBL Islamic statement of financial position by creating individual pools against each FBL Islamic money market deals.
- The 'Islamic Investment Pool' (Mudarabah based) - LCY & FCY pools are created to cater the needs of high net worth clients.
- The Islamic saving pools are created to cater the needs of high net worth clients / institutions.
- The Islamic equity pool is created to mainly cater the funding requirement of project / long term financing assets during non accrual period.
- The Hajj pool is created to give returns to Ministry of religious affairs deposits.
- The Treasury Mudarabah Pool is created to cater the liquidity requirement of the Holding Company.
- Pakistan Mortgage Refinance Company Musharakah Pool is created to promote expansion of affordable housing finance.
- Shari'ah Compliant Mudarabah Based Open Market Operations (OMO) Pool was created to enhance monetary policy transmission and improve management of market liquidity.
- Shari'ah Compliant Standing Ceiling Facility- Mudarabah based Financing Facility (MFF) Pool was created with a view to provide liquidity management framework for the Holding Company and enhance the effectiveness of monetary policy implementation. As per the guidelines provided by State Holding Company of Pakistan, MFF shall be available as a standing facility on overnight basis.
- The risk characteristics of each pool mainly depends on the asset and liability profile of each pool.

6.16.1 Profit / (loss) distribution to depositor's pool

Parameters used for allocation of profit, charging expenses and provisions etc. along with a brief description of their major components:

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

Gross income generated from relevant assets, calculated at the end of the month is first divided between FBL Islamic and investors / depositors in the ratio of FBL Islamic equity commingled in a pool on pro rata basis, and then amongst FBL Islamic and the depositors as per agreed mudarib fee and weightages declared before start of a month, respectively. All Mudarabah and Musharaka based deposits are fully invested in respective Pools to produce returns for them. In case where FBL Islamic is unable to utilise all funds available for investment, priority is given to the deposit account holders.

All remunerative accounts such as remunerative current accounts, saving accounts, investment certificates, etc. are opened on the basis of Mudarabah, Musharaka, Wakalah or a combination of Mudarabah and Musharaka. The return on these deposits is calculated on the basis of Profit and Loss sharing (PLS). Unless specified, all remunerative local currency and foreign currency deposits are taken as General Mudarabah and Musharaka pool.

Profit share is determined by using weightages and profit sharing ratio assigned to each category of deposit within a pool. These weightages and profit sharing ratios are declared by FBL Islamic in compliance with the requirements of the Shari'ah and the SBP.

The allocation (of income and expenses to different pools) is based on pre-defined basis and accounting principles / standards. The direct expenses are charged to respective pool. The indirect expenses including the establishment cost are borne by FBL Islamic as Mudarib. The direct expenses charged to the pool include depreciation of Ijarah assets, cost of sales of inventories, insurance / takaful expenses of pool assets, stamp fee, documentation charges, brokerage fee for the purchase of securities / commodities, impairment / losses due to physical damages to specific assets in pools etc. Provisions against any non-performing assets of the pool are not passed on to the pool except on the actual loss / write-off of such non-performing asset and suspension of income against non-performing assets. The profit of the pool is shared between the members of the pool on pre-defined mechanism based on the weightages announced before the profit calculation period.

Particulars	2024		2023	
	Rupees '000	Percent	Rupees '000	Percent
- Mudarib share amount and percentage of distributable income	66,194,466	44.18	43,412,039	37.65
- Amount and percentage of Mudarib share transferred to depositors through Hiba	23,759,949	35.89	13,604,438	31.34
- Profit rate earned (annualised)	-	18.97	-	18.53
- Profit rate distributed (annualised)	-	11.58	-	11.33

6.17 Subordinated Sukuk

Subordinated sukuk are initially recorded at the amount of proceeds received. Profit on subordinated sukuk is charged to the consolidated profit and loss account over the period on an accrual basis and is recognised separately as part of other liabilities.

6.18 Revenue recognition and other items

- Profit on Murabaha (including Commodity Murabaha) and Musawammah is recognised on an accrual basis.
- Rentals on Ijarah contracts are recognised as income on an accrual basis.
- Profit on Service Ijarah is recognised on an accrual basis commencing from the date of confirmation of sale to its ultimate buyer.
- Profit on Diminishing Musharakah financing is recognised on an accrual basis.
- Profit on Running Musharakah financing is recognised on an accrual basis and is adjusted upon final declaration of profit by Musharakah partners.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

- Profit on Istisna / Salam / Bai Salam / Tijarah transactions are recognised on an accrual basis commencing from time of sale of goods till the realisation of sale of proceeds by the Holding Company.
- Profit on Sukuk is recognised on an accrual basis. Where Sukuk (excluding held for trading securities) are purchased at a premium or discount, those premiums / discounts are amortised through the consolidated profit and loss account over the remaining maturity.
- Premium or discount on acquisition of debt investments is capitalised and amortised through the consolidated profit and loss account over the remaining period till maturity.
- Dividend income from investments is recognised when the Holding Company's right to receive the dividend is established.
- The Group earns fee and commission income from services to retail and corporate customer. Fee and commission income is recognised at an amount that reflects the consideration to which the Holding Company expects to be entitled in exchange for providing the services.
- The Holding Company recognises fees earned on transaction-based arrangements at a point in time when the Holding Company has provided the service to the customer. Unearned fee and commission are included under other liabilities.
- Rent and other income is recognised on an accrual basis.
- Profits on Bai Muajjal lendings are recognised on straight line accrual basis.
- Profit suspended in compliance with the Prudential Regulations issued by the SBP is recognised on receipt basis. Profit on rescheduled / restructured financing and investments is recognised as permitted by the SBP.
- Gain or loss on disposal of property and equipment is taken to the consolidated profit and loss account in the period in which they arise.
- Subsidized financing (TERF), staff financing and modified financing classified at amortized cost, is recognized using the effective yield rate (EIR) method. If the financing is at below-market rates, it is initially recognized at fair value. Subsequently, profit income is recorded using EIR.

6.19 Proposed dividend and transfer between reserves

Dividends and appropriations to reserves, except appropriations which are required by the law, made subsequent to the reporting date are considered as non-adjusting events and are recorded in the consolidated financial statements in accordance with the requirements of International Accounting Standard (IAS) 10, 'Events after the reporting period' in the year in which they are approved / transfers are made.

6.20 Foreign currencies

(a) Foreign currency transactions

Foreign currency transactions are recorded in rupees at exchange rates prevailing on the date of transaction. Monetary assets, monetary liabilities and contingencies and commitments in foreign currencies except forward commitments (promises) are reported in Rupees at exchange rates prevalent on the reporting date.

Forward commitments other than those with the SBP related to the foreign currency deposits are valued at forward rates applicable to the respective maturities of the relevant foreign exchange commitments. Forward commitments with the SBP relating to foreign currency deposit, are valued at spot rate prevailing at the reporting date. Exchange gains and losses are included in the current year profit and loss account.

Commitments for outstanding forward foreign exchange transactions are disclosed at the rates applicable at the reporting date. Contingent liabilities / commitments for letters of credit, and letters of guarantee denominated in foreign currencies are expressed in rupee terms at the exchange rates prevailing on the reporting date.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

(b) Translation gains and losses

Translation gains and losses are included in the consolidated profit and loss account.

6.21 Commitments

Commitments for outstanding forward foreign exchange contracts are disclosed in the consolidated financial statements at committed amounts. Commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in rupee terms at the rates of exchange prevailing at the reporting date.

6.22 Acceptances

Acceptances comprise undertakings by the Group to pay bills of exchange drawn on customers. The Group expects most acceptances to be simultaneously settled with the reimbursement from the customers. Acceptances are accounted for in these consolidated statement of financial position both as assets and liabilities.

6.23 Earnings per share

The Group presents basic and diluted Earnings Per Share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit attributable to ordinary shareholders of the Holding Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any.

6.24 Segment reporting

Operating segments are reported in a manner consistent with internal reporting provided to the Chief Operating decision maker. The Chief Executive Officer (CEO) has been identified as the Holding Company's Chief Operating decision maker.

(a) Business Segments

(i) Retail banking

Retail banking provides services to small customers i.e. commercials, consumers, small enterprises, medium enterprises and agriculture sector. It includes financing, deposits, other transactions and balances with retail customers.

(ii) Corporate and investment banking

This includes strategic partnership with corporate entities to provide working capital financing, trade financing, cash management services, project finance, export finance, leasing, guarantees, bills of exchange, deposits and other short term and long term finance. Further, this includes investment banking activities such as mergers and acquisitions, underwriting, privatisation, securitisation, Initial Public Offerings (IPOs), secondary private placements, etc.

(iii) Treasury and equity capital market (ECM)

It includes fixed income, equity, foreign exchanges, funding, own position securities and placements.

(iv) Special asset management (SAM)

This includes recoveries from borrowers' accounts which became delinquent or have defaulted in their obligations.

(v) Others

It includes functions which cannot be classified in any of the above segments.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

(b) Geographical segment

The operations of the Group are currently based only in Pakistan.

6.25 Provision of claims under guarantees

A provision for claim under guarantees is recognised when intimated and reasonable certainty exists that the Group will settle the obligation. The charge to the consolidated profit and loss account is stated net of expected recoveries as the obligation is recognised in other liabilities.

6.26 Lease liability and right-of-use assets

At the inception of the contract, the Group assesses whether a contract is, or contains, a lease. The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. Right-of-use assets are depreciated on a straight-line basis over the lease term.

At the commencement date of the lease, the Holding Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The Holding Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. After the commencement date, the Bank reassesses the lease term if there is a significant event or change in circumstances that is within its control that affects its ability to exercise or not to exercise the option to renew or to terminate. The Holding Company cannot readily determine the profit rate implicit in the lease, therefore, it uses its incremental fund acceptance rate to measure lease liabilities.

6.27 Share capital

Ordinary shares are classified as equity and recognised at their face value. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

6.28 Reserves

Reserves being held by the Group in these consolidated financial statements include the following;

- Non-distributable capital reserve - gain on bargain purchase option (note 3.2).
- Statutory reserve represents amount set aside as per the requirements of section 21 of the banking Ordinance, 1962.

-------------	-------------	-----------	-------------

9.2.1 GoP Ijarah Sukuks have tenure ranging from 1 to 10 years. The Group's return on these instruments ranges from 6.36% to 23.08% per annum (2023: 6.36% to 23.71% per annum) with maturities from April 2025 to October 2034.

9.2.2 The Holding company has invested in PKR and foreign currency denominated Mudarabah based pools maintained by the Islamic Naya Pakistan Certificate Company Limited (INPCCL), a special purpose vehicle formed by the Government of Pakistan. As at December 31, 2024, the Holding company's investment in PKR, USD, EURO and GBP denominated pools amounted to Rs. 771.724 million (2023: Rs. 477.759 million), USD 4.719 million with PKR equivalent of Rs 1,314.365 million (2023: Rs. 4,367.162 million), EURO 0.388 million with PKR equivalent of Rs.112.567 million (2023: Rs

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

177.522 million) and GBP 1.219 million with PKR equivalent of Rs. 426.197 million (2023: Rs. 680.593 million) respectively. The actual profit rates on these pools are calculated in line with the Islamic principle of Mudarabah and communicated to the Holding company at the end of each month. The profit earned by the Holding company on these investment pools during the year 17% for PKR denominated pool, 5.75% for USD denominated pool, 5.25% for GBP denominated pool and 4% for EURO denominated pool. These investments are perpetual in nature and have no fixed maturity.

9.2.3 These include Sukuks having tenures ranging from 3 to 11 years. The Group's return on these instruments ranges from 13.32% to 18.71% per annum (2023: 21.14% to 24.01% per annum) with maturities up to December 2032.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

13.2.1 The cost of fully amortised intangible assets that are still in the Group's use is as follows:

	Note	2024	2023
		-----Rupees '000-----	
Computer software		2,448,787	2,210,074
Customer relationship	13.2.2	1,185,532	1,099,722
		<u>3,634,319</u>	<u>3,309,796</u>

13.2.2 This represents an intangible asset (customer relationship) which comprises of core deposits which were recognised at the time of acquisition of ex-RBS Pakistan. These core deposits represent the funding benefit that would be available to the Holding Company on account of availability of funding through deposit customers rather than from the wholesale or interbank market. This benefit also considers the fact that the economic life time of these deposits is longer than their contractual life. Based on this assumption, this intangible asset had been valued using certain valuation techniques and is being amortised over the life expectancy of these deposits. As more fully explained in note 13.3 to these consolidated financial statements, the SBP allowed the Holding Company to adjust the amortisation charge arising on this intangible asset against non-distributable capital reserve. The remaining amortisation period of this intangible asset is ranging from 5 to 6 years.

13.3 Non-distributable capital reserve - gain on bargain purchase

As per the directive of the SBP through its letter BPRD (R&P-02)/625-99/2011/3744 dated March 28, 2011, gain arising on bargain purchase of Pakistan operations of Royal Bank of Scotland (ex-RBS Pakistan) was credited directly into equity as non-distributable capital reserve (NCR). The SBP allowed the Group to adjust the amortisation of the intangible asset against the portion of reserve which arose on account of such asset. Accordingly, the Group has adjusted amortisation of intangible asset amounting to Rs 52.650 million (2023: Rs. 68.968 million) (net of tax) from the non-distributable capital reserve.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

The non-banking assets acquired in satisfaction of claims by the Holding Company have been revalued by an independent professional valuer as at December 31, 2024. The revaluation was carried out by Joseph Lobo (Private) Limited on the basis of professional assessment of present market values. The above market values are based on desktop valuations. The SBP's Regulations for Debt Property Swap require the Holding Company to carry out a full scope valuation of non-banking assets after every three years.

	Note	2024	2023
-----Rupees '000-----			
14.1.1 Non-banking assets acquired in satisfaction of claims

	33	(3,002)	2,326
Closing balance		<u>328,536</u>	<u>328,963</u>

14.4 This amount represents deferred fair value loss arising from the restructuring of Pakistan International Airlines Corporation Limited (PIACL). SBP through its circular BPRD/BRD/PIAHCL/733688-2024 dated August 01, 2024 has allowed staggering of such fair value impact over a period of 6 years at rates of 5%, 10%, 15%, 20%, 25%, and 25% from year 1 to year 6, accordingly, the Holding Company has amortized 5% in the current year.

14.5 The amount represents the prepaid employment benefit recognized in connection with concessional Islamic financing facilities provided to employees. These facilities were initially recognized at fair value due to the adoption of IFRS 9 as applicable in Pakistan. The resultant benefit arising from these concessional facilities is subsequently accounted for under IAS 19 Employee Benefits. The prepaid employee benefit is amortized in a manner that reflects the concessional facilities' income recognition. The current year amortization of prepaid employee benefit asset amounts to Rs. 628.644 million.

16.1 In accordance with the Islamic export refinance scheme (IERS), the Holding Company has entered into musharaka agreements for financing with the SBP for extending export finance to the customers. The average profit rates on this facility range from 2% to 18% (2023: 3% to 18%) payable on quarterly basis with maturities upto 180 days from the date of grant. As per the agreements, the Holding Company has granted the SBP the right to recover the outstanding amounts from the Holding Company at the date of maturity of the finances by directly debiting the current account maintained by the Holding Company with the SBP.

16.2 In accordance with the Islamic financing facility for renewable energy, the Holding Company has entered into mudarabah agreements for financing with the SBP for extending renewable energy finance to customers. The average profit rates on this facility range from 1% to 3% (2023: 2% to 3%) payable on quarterly basis with maturities upto May 2033. As per the agreements, the Holding Company has granted the SBP the right to recover the outstanding amounts from the Holding Company at the date of maturity of the finances by directly debiting the current account maintained by the Holding Company with the SBP.

16.3 In accordance with the Islamic long term financing facility for plant and machinery, the Holding Company has entered into mudarabah agreements for financing with the SBP for extending Islamic long term finance to the customers. The average profit rates on this facility range from 2% to 17% (2023: 3% to 18%) payable on quarterly basis with maturities upto December 2034. As per the agreements, the Holding Company has granted the SBP the right to recover the outstanding amounts from the Holding Company at the date of maturity of the finances by directly debiting the current account maintained by the Holding Company with the SBP.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

- 16.4** In accordance with the Islamic temporary economic refinance facility (ITERF), the Holding Company has entered into mudarabah agreements for financing with the SBP for extending finance to the customers. The average profit rate on this facility is 1% (2023: 1%) payable on quarterly basis with maturities upto December 2032. As per the agreements, the Holding Company has granted the SBP the right to recover the outstanding amounts from the Holding Company at the date of maturity of the finances by directly debiting the current account maintained by the Holding Company with the SBP.
- 16.5** In accordance with the Islamic refinance facility for combating COVID-19, the Holding Company has entered into mudarabah agreements for financing with the SBP for extending medical equipment finances to the customers. The average profit rate on this facility is 0% (2023: 0%) payable on quarterly basis with maturities upto June 2026. As per the agreements, the Holding Company has granted the SBP the right to recover the outstanding amounts from the Holding Company at the date of maturity of the finances by directly debiting the current account maintained by the Holding Company with the SBP.
- 16.6** These represent balances due to the SBP under scheme of Islamic financing facility for storage of agricultural produce (IFFSAP). The profit rate on this facility is 2% per annum (2023: 2%) payable on quarterly basis with maturity upto February 2029. As per the agreements, the Holding Company has granted the SBP the right to recover the outstanding amounts from the Holding Company at the date of maturity of the finances by directly debiting the current account maintained by the Holding Company with the SBP.
- 16.7** In accordance with rupee based discounting scheme under IERS, the Holding Company has entered into musharaka agreements for financing with the SBP for extending export finance to the customers. The average profit rates on this facility range from 0.5% to 2% (2023: 0.5% to 2%) payable on quarterly basis with maturities upto 180 days from the date of grant. As per the agreements, the Holding Company has granted the SBP the right to recover the outstanding amounts from the Holding Company at the date of maturity of the finances by directly debiting the current account maintained by the Holding Company with the SBP.
- 16.8** This represents borrowing from State Bank of Pakistan under Open Market Operation and Mudarabah based Financing Facility (MFF). The average profit rates on these borrowing ranges from 13.13% to 14% (2023: 22.10% to 23%) per annum having maturity in January 2025.
- 16.9** This represents borrowing from Pakistan Mortgage Refinance Company (PMRC). The average profit rate on this ranging 8.75% to 20.86% (2023: 8.75% to 20.86%) per annum having maturity in June 2026.
- 16.10** This represents Musharaka acceptance on profit and loss sharing basis. The expected rates on these deal ranges from 11.15% to 13.50% (2023: 21.70% to 22%) per annum having maturity in March 2025.
- 16.11** Details and nature of securities pledged as collateral against due to financial institution are given in note 9.3 to these consolidated financial statements.

Suit filed by a customer for recovery of alleged losses suffered which is pending in the Honourable High Court of Sindh. The Bank's legal advisors are confident that the Bank has a strong case		2,510,000	2,510,000
Indemnity issued favouring the Honorable High Court in one of the cases		457,543	457,543
Tax liability of gain on bargain purchase on the acquisition of ex-RBS Pakistan	23.3.3	1,154,701	1,154,701
		<u>4,122,244</u>	<u>4,122,244</u>

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

23.3.2 Income tax assessments of the Holding Company have been finalised upto the tax year 2024 (accounting year ended December 31, 2023).

23.3.3 The department and the Holding Company has disagreement on a matter relating to taxability of gain on bargain purchase on the acquisition of ex-RBS Pakistan. The additional tax liability on the matter amounts to Rs. 1,154.701 million (December 31, 2023: Rs. 1,154.701 million). The Commissioner Inland Revenue (Appeals) [(CIR(A)] had deleted the said additional tax liability, however the income tax department had filed an appeal with the Appellate Tribunal Inland Revenue (ATIR) against the order of CIR(A). During the current year the ATIR passed an order and maintained the decision of the CIR(A) in favour of the Holding Company that gain on bargain purchase is not taxable. Subsequently, the department has challenged the order in Honourable High Court of Sindh. However, the management of the Holding Company is confident that the matter will be decided in the Holding Company's favour and accordingly, no provision has been recorded in these consolidated financial statements in respect of this matter.

23.3.4 There are certain claims against the Holding Company not acknowledged as debt amounting to Rs 32,754 million (December 31, 2023: Rs 29,647 million). These mainly represent counter claims filed by the borrowers for restricting the Holding Company from disposal of assets (such as mortgaged / pledged assets kept as security), cases where the Holding Company was proforma defendant for defending its interest in the underlying collateral kept by it at the time of financing, certain cases filed by ex-employees of the Holding Company for damages sustained by them consequent to the termination from the Holding Company's employment and cases for damages towards opportunity losses suffered by the customers due to non-disbursements of running finance facility as per the agreed terms. The above also includes an amount of Rs 25,299 million (December 31, 2023: 25,299 million) in respect of a suit filed against the Holding Company for declaration, recovery of monies, release of securities, rendition of account and damages.

Based on legal advice and / or internal assessments, the management is confident that the above matters will be decided in the Holding Company's favour and accordingly no provision has been made in these consolidated financial statements.

23.3.5 Faysal Asset Management Limited

23.3.6 The income tax returns of the FAML for the tax years 2004 to 2022 (financial year ended June 30, 2004 to December 31, 2021) have been filed and are deemed to have been assessed under the Income Tax Ordinance, 2001, unless selected by the taxation authorities for audit purposes. The tax year 2005 (financial year ended June 30, 2005) had been selected by the taxation authorities for audit purpose. The tax authorities passed an order under section 221 of the Income Tax Ordinance, 2001, whereby they determined an additional liability of Rs. 912,711 for the tax year 2005 on account of apportionment of expenses and disallowance of certain expenses. The FAML paid Rs. 414,360 out of total determined liability and filed an appeal against the order before the Commissioner Appeals, the proceedings of which are underway. The remaining tax liability on these matters is Rs. 498,351. The management of the FAML is confident that the decision in respect of these matters will be decided in the FAML's favour and accordingly no provision for the above has been made in these consolidated financial statements in respect of this liability.

23.3.7 The income tax department has issued orders and show cause notices under section 221 of the Income Tax Ordinance, 2001 for recovery of Workers Welfare Fund (WWF) aggregating to Rs 0.818 million in respect of tax years 2008 and 2013. The details of orders and show cause along with the management actions are listed below:

Tax years	Order / show cause references	Status	WWF demand
			Rupees '000
2008	Order u/s 221 dated June 30, 2014	Appeal pending before the Commissioner Appeals	315
2013	Show cause u/s 221 dated May 7, 2014	Showcause notice has been responded to	503
			818

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

The management is of the view that WWF was not applicable for tax year 2008. In tax year 2013, subsequent to clarification decision by the SHC, the management has not admitted WWF charge in the annual return of income. The management of the FAML is confident that the decision in respect of these matters will be decided in the FAML's favour and accordingly no provision for the above has been made in these consolidated financial statements in respect of this liability.

23.3.8 The Punjab Revenue Authority issued show cause notice No.PRA/AM/61/2205/ dated March 12, 2014 to Faysal Asset Management Limited requiring the FAML to obtain registration / enrolment and to pay sales tax amounting to Rs. 6,055,110 from July 2013 to March 2014 under the Punjab Sales Tax on Services Act, 2012 with effect from May 22, 2013 on management fee earned in Punjab.

In respect of this, the FAML, jointly with other Asset Management Companies together with their respective collective investment schemes through their trustees, has filed a petition on July 8, 2014 in the SHC challenging the above notice. The Court has ordered suspension of the show cause notice till the next hearing of appeal in their order dated July 10, 2014. The next date of hearing has not yet been decided. The management of the FAML is confident that the decision in respect of these matters will be decided in the FAML's favour and accordingly no provision for the above has been made in these consolidated financial statements in respect of this liability.

23.3.9 During the year ended December 31, 2020, the audit of the tax year 2013 (financial tax year ended June 30, 2013) was completed by the taxation authorities. The tax authorities have passed an order under section 122(5A) of the Income Tax Ordinance, 2001, whereby they have determined an additional liability of Rs. 4,964,364 for the tax year 2013 on account of apportionment of expenses, salary expenses and hardware and software expense. The management filed an appeal before the Commissioner Inland Revenue (Appeals) [CIR(A)] on the grounds of disallowances made by the Additional Commissioner Inland Revenue. The CIR(A) remanded back a few expenses while ordered against various other expenses for which the FAML has decided to appeal before the Appellate Tribunal Inland Revenue (ATIR). The management of the FAML is confident that the decision in respect of these matters will be decided in the FAML's favour and accordingly no provision for the above has been made in these consolidated financial statements in respect of this liability.

23.3.10 During the year ended December 31, 2020, the audit of the tax year 2014 (financial tax year ended June 30, 2014) was completed by the taxation authorities. The tax authorities have passed an order under section 122(5A) of the Income Tax Ordinance, 2001, whereby they have determined an additional liability of Rs. 2,672,863 for the tax year 2014 on account of apportionment of expenses, time barred payables, expenses claimed on provisional basis, salary expenses, marketing and advertising expenses, brokerage and commission expenses, legal and professional charges and hardware and software expenses. The management had decided to file an appeal before the Commissioner Inland Revenue (Appeals) [CIR(A)] on the grounds of disallowances made by the Additional Commissioner Inland Revenue. During the year ended December 31, 2021 the CIR(A) issued an order whereby the earlier order passed by the tax authorities under section 122(5A) of the Income Tax Ordinance, 2001, was annulled on the basis of being time barred, and consequentially the demand for additional liability was relinquished. The management decided to file an appeal before the Appellate Tribunal Inland Revenue (ATIR) to contest the order passed by DCIR. The management of the FAML is confident that the decision in respect of these matters will be decided in the FAML's favour and accordingly no provision for the above has been made in these consolidated financial statements in respect of this liability.

23.4 Commitments to extend credits

The Group makes commitments to extend credit (including to related parties) in the normal course of its business but these being revocable commitments do not attract any significant penalty or expense if the facilities are unilaterally withdrawn except for Rs. 5,358 million (2023: Rs. 3,430 million) which are irrevocable in nature.

24 DERIVATIVE INSTRUMENTS

Cross currency swaps (notional principal)

	2024	2023
	-----Rupees '000-----	
	964,082	1,678,515

Derivative instruments, such as forward rate agreements, cross currency swaps and FX options, are forward transactions that provide market making opportunities / hedge against the adverse movement of exchange rates. Derivatives business provides risk solutions for the existing and potential customers of the Holding Company. All derivative transactions are governed by "The Financial Derivatives Business Regulations" (FDBR) issued by the SBP.

38 DEFINED BENEFIT PLAN

38.1 The Holding Company

38.1.1 General description

The Bank operates an approved funded gratuity scheme for all its permanent employees and employees who are on contractual service in non-management cadre. The benefits under the gratuity schemes are payable on retirement at the age of 60 years or earlier cessation of service in lumpsum. The benefits are equal to one month's last drawn basic salary for each year of eligible service or part thereof. The minimum qualifying eligible service for gratuity is 1 year for employees who became members of the Funds before November 12, 2002. In the case of other members of the Funds the minimum qualifying eligible service is 5 years. The minimum qualifying eligible service for contractual employees not employed under the management cadre is 6 months. The latest actuarial valuation of the Bank's defined benefit plan, based on the Projected Unit Credit Actuarial Cost Method, was carried out as at December 31, 2024.

The balance of conventional sub-funds has been transferred to islamic sub-fund.

	2024	2023
Number of employees		
38.1.2 Number of employees under the scheme		
The number of employees covered under the following defined benefit scheme are:		
- Gratuity fund	<u>9,824</u>	<u>8,787</u>

38.1.3 Principal actuarial assumptions

The actuarial valuations were carried out as at December 31, 2024 using the following significant assumptions:

	2024	2023
-----% per annum-----		
Discount rate	12.25	16.00
Expected rate of salary increase	13.25	16.00

Assumptions regarding future mortality are set based on actuarial advice in accordance with published statistics and experience in Pakistan. The rates assumed are based on the adjusted SLIC 2001 - 2005 mortality tables.

Remeasurement of plan assets	<u>76,571</u>	<u>124,996</u>	<u>685</u>	<u>(41,910)</u>	<u>(15,343)</u>

38.1.11 Sensitivity analysis

The analysis based on a change in an assumption while holding all other assumptions constant. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the gratuity liability recognised within the statement of financial position. The increase / (decrease) in the present value of defined benefit obligations as a result of change in each assumption should be summarised as illustrated below:

	2024	2023
	-----Rupees '000-----	
1% increase in discount rate	<u>(193,444)</u>	<u>(131,397)</u>
1% decrease in discount rate	<u>222,389</u>	<u>149,748</u>
1% increase in expected rate of salary increase	<u>224,308</u>	<u>152,716</u>
1% decrease in expected rate of salary increase	<u>(198,665)</u>	<u>(136,223)</u>
1 year increase in expected life / withdrawal rate	<u>(59,824)</u>	<u>(43,853)</u>
1 year decrease in expected life / withdrawal rate	<u>53,475</u>	<u>39,198</u>

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

Over 5 years	65,934,673	91,220,959
Total	68,455,926	93,348,037

2025
- Rupees '000 -

38.1.13 Expected contributions to be paid to the scheme in the next financial year

522,769

38.1.14 Expected charge for the next financial year

522,769

38.1.15 Maturity profile

The weighted average duration of the defined benefit obligation is 8.11 years.

38.1.16 Funding policy

The policy followed by the Bank in respect of the staff retirement benefit schemes is disclosed in note 6.14 of these consolidated financial statements.

38.1.17 The gratuity scheme exposes the Bank to the following risks:

Asset volatility

The Defined Benefit Gratuity Islamic Fund is invested in Ijarah Sukuk. The investment is almost 94.91% (Rs. 2,331 million) for Ijarah Sukuk. Islamic Fund has not such investment in any Government Bonds and Corporate Bonds hence the asset volatility risk is lower.

Changes in bond yields

There are two dimensions to the changes in Bond yields: first, as described above; second, the valuation of the gratuity Liability is discounted with reference to these bond yields. So any increase in Bond yields will lower the gratuity Liability and vice versa, but, it will also lower the asset values.

Inflation risk

The salary inflation is the major risk that the gratuity fund liability carries. In a general economic sense and in a longer view, there is a case that if bond yields increase, the change in salary inflation generally offsets the gains from the decrease in discounted gratuity liability. But viewed with the fact that asset values will also decrease, the salary inflation does, as an overall affect, increases the net liability of the Bank.

Life expectancy / withdrawal rate

The Gratuity is paid off at the maximum of age 60. The Life expectancy is in almost minimal range and is quite predictable in the ages when the employee is in the accredited employment of the Bank for the purpose of the Gratuity. Thus, the risk of life expectancy is almost negligible. However, had a post- retirement benefit been given by the Bank like monthly pension, post-retirement medical etc., this would have been a significant risk which would have been quite difficult to value even by using advance mortality improvement models.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

The withdrawal risk is dependent upon the: benefit structure; age and retention profile of the staff; the valuation methodology; and long-term valuation assumptions. In this case, it is not a significant risk.

Other risks

Though, not imminent and observable, over long term there are some risks that may crystallize. This includes:

- Retention risk – The risk that employee will not be motivated to continue the service or start working with the Bank if no market comparable retirement benefit is provided.
- Final Salary Risk – The risk, for defined benefit gratuity, that any disproportionate salary merit increases in later service years will give rise to multiplicative increase in the gratuity liability as such increase is applicable to all the past years of service.
- Model Risk – The defined benefit gratuity liability is usually actuarially valued each year. Further, the assets in the Gratuity Fund are also marked to market. This two-tier valuation gives rise to the model risk.
- Operational Risk related to a separate entity - Retirement benefits are funded through a separate trust fund which is a different legal entity than the Bank. Generally, the protocols, processes and conventions used throughout the Bank are not applicable or are not actively applied to the retirement benefit Funds. This gives rise to some specific operational risks.
- Compliance Risk – The risk that retirement benefits offered by the Bank does not comply with minimum statutory requirements.
- Legal/Political Risk – The risk that the legal/political environment changes and the Bank is required to offer additional or different retirement benefits than what the Bank projected.

39 DEFINED BENEFIT PLANS AND DEFINED CONTRIBUTION PLANS OF SUBSIDIARY

39.1 Faysal Asset Management Limited

39.1.1 DEFINED BENEFIT PLAN

The Company operates an approved funded defined benefit gratuity scheme for all its permanent employees. The gratuity fund is governed under the Trusts Act, 1882, Trust Deed and Rules of Fund, Companies Act, 2017, the Income Tax Ordinance, 2001 and the Income Tax Rules, 2002. Responsibility for governance of plan, including investment decisions and contribution schedule lie with Board of Trustees of the Fund. The latest actuarial valuation of the fund was carried out at December 31, 2024.

The gratuity scheme exposes the entity to the following risks:

Mortality risks

The risk that the actual mortality experience is different. The effect depends on the beneficiaries' service / age, distribution and the benefit.

Investment risks

The risk of the investment underperforming and not being sufficient to meet the liabilities. This is managed by formulating proper investment plan in consultation with investment advisors of the Fund.

Risk of insufficiency of assets

This is managed by making regular contribution to the Fund as advised by the actuary.

Final salary risks

The risk that the final salary at the time of cessation of service is higher than what was assumed. Since the benefit is calculated on the final salary, the benefit amount increases similarly.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

Withdrawal risks

The risk of higher or lower withdrawal experience than assumed. The final effect could go either way depending on the beneficiaries' service / age distribution and the benefit.

	2024	2023
39.1.2 Principal actuarial assumptions		
(a) Discount factor used (% per annum)	12.25%	15.50%
(b) Expected rate of salary increase (% per annum)	12.25%	15.50%
(c) Normal retirement age (years)	60	60

39.1.3 The amount recognised in the statement of financial position are determined as follows:

Note	2024	2023
	-----Rupees '000-----	
Present value of defined benefit obligation	75,046	48,265
Fair value of plan assets	(63,651)	(47,003)
39.1.5	<u>11,395</u>	<u>1,262</u>

39.1.4 Plan assets consist of the following:

Investments in mutual funds	13,984	36,406
Balances with banks	49,667	10,598
	<u>63,651</u>	<u>47,004</u>

39.1.5 The movement in the net defined benefit obligation over the year / period is as follows:

	2024		
	Defined benefit obligation	Fair value of plan assets	Total
	----- Rupees '000 -----		
At January 1	48,265	(47,003)	1,262

39.1.6 Analysis of present value of defined benefit obligation

Split by type of members

- (i) Active employees

75,046	48,265
--------	--------

Split by vested / non-vested

- (i) Vested benefits
(ii) Non-vested benefits

71,212	46,284
3,834	1,981
75,046	48,265

Split by cadre of members

- (i) Management

75,046	48,265
--------	--------

Split by benefits earned to date

- (i) Present value of guaranteed benefits
(ii) Present value of benefits attributable to future increase in salary

35,210	19,358
39,836	28,907
75,046	48,265

39.1.7 Cost recognised in profit and loss

- Current service cost
Net profit cost

15,529	14,206
196	311
15,725	14,517

Re-measurements recognised in OCI during the year

- Loss on obligation - experience adjustment
Return on plan assets over profit income

6,882	5,992
4,643	(215)
11,525	5,777

39.1.8 The plan assets and defined benefit obligation are based in Pakistan.

39.1.9 Assumptions regarding future mortality are set based on actuarial advice in accordance with published statistics and experience in Pakistan. The rates assumed are based on the adjusted SLIC 2001 - 2005 mortality tables with one year age set back for male members and SLIC 2001 - 2005 mortality tables with four year age set back for female members.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

39.1.10 The sensitivities of the defined benefit obligation to changes in the weighted principal assumptions are as under:

	Impact on defined benefit obligation - increase / (decrease)		
	Change in assumption	Increase in assumption	Decrease in assumption
	----- Rupees '000-----		
Discount rate	1%	(6)	7
Salary increase rate	1%	6	(6)

The above sensitivities analysis are based on a change in an assumption while holding all other assumptions constant. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied when calculating the gratuity liability recognised in the statement of financial position.

39.1.11 The weighted average duration of the defined benefit obligation is 8.10 years (2023: 8.13 years).

39.1.12 Expected maturity analysis of undiscounted defined benefit obligation for the gratuity scheme is as follows:

	Less than a year	Between 1-2 years	Between 2-5 years	Over 5 years
	----- Rupees '000-----			
At December 31, 2024	7,996	10,165	34,048	121,527
At December 31, 2023	4,829	11,780	34,048	81,558

	December 31, 2024	December 31, 2023	December 31, 2022	December 31, 2021	December 31, 2020
	----- Rupees '000-----				
Defined benefit obligation	75,046	48,265	41,215	26,540	14,760
Fair value of plan assets	(63,651)	(47,003)	(39,070)	(16,736)	(16,898)
Deficit / (surplus)	11,395	1,262	2,145	9,804	(2,138)
Remeasurements of plan liabilities	(6,882)	(5,992)	(3,090)	(3,585)	(1,054)
Remeasurements of plan assets	(4,643)	215	697	(1,085)	(355)

40 DEFINED CONTRIBUTION PLAN

The Group operates an approved funded contributory provident fund for all its permanent employees to which equal monthly contributions are made both by the Group and the employees at the rate of 10% of the basic salary. The financial statements of the fund are separately prepared and are not included as part of these consolidated financial statements.

42 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified under held to collect model, is based on quoted market price. Quoted securities classified under held to collect model are carried at amortized cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available consolidated financial statements.

The fair value of unquoted debt securities, fixed term financing, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

42.1 Fair value of financial assets

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

On-balance sheet financial instruments

Financial assets - measured at fair value

Investments

Federal Government securities	-	610,499,249	-	610,499,249
Shares / Units of mutual funds	12,847,653	67,686	-	12,915,339
Non-Government debt securities	-	47,881,091	-	47,881,091

Financial assets - disclosed but not measured at fair value

Investments

Federal Government securities	-	154,335	-	154,335
Non-Government debt securities (note 10.7.1)	-	6,818,118	-	6,818,118

Non-financial assets - measured at fair value

Property and equipment (land and buildings) (note 11.2)	-	21,457,524	-	21,457,524
Non-banking assets acquired in satisfaction of claims (note 14.1)	-	3,116,825	-	3,116,825

Off-balance sheet financial instruments - measured at fair value

Forward purchase of foreign exchange	-	53,913,508	-	53,913,508
Forward sale of foreign exchange	-	25,677,767	-	25,677,767
Derivatives sales	-	982,880	-	982,880

2024			
Level 1	Level 2	Level 3	Total

----- Rupees '000-----

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

On-balance sheet financial instruments

2023			
Level 1	Level 2	Level 3	Total

----- Rupees '000-----

Financial assets - measured at fair value

Investments

Federal Government securities	-	524,145,204	-	524,145,204
Shares / Units of mutual funds	9,166,261	107,539	-	9,273,800
Non-Government debt securities (note 10.7.1)	-	49,770,265	-	49,770,265

Financial assets - disclosed but not measured at fair value

Investments

Non-Government debt securities (note 10.7.1)	-	6,779,489	-	6,779,489
--	---	-----------	---	-----------

Non-financial assets - measured at fair value

Property and equipment (land and buildings)	-	17,871,529	-	17,871,529
Non-banking assets acquired in satisfaction of claims	-	2,667,420	-	2,667,420

Off-balance sheet financial instruments - measured at fair value

Forward purchase of foreign exchange	-	55,514,935	-	55,514,935
Forward sale of foreign exchange	-	6,264,654	-	6,264,654
Derivatives sales	-	1,678,515	-	1,678,515

The Group's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date when the event or change in circumstances require the Group to exercise such transfers.

Valuation techniques used in determination of fair values within level 2

Item	Valuation approach and input used
Ijarah Sukuk	Fair values of GoP Ijarah Sukuk are derived using the PKISRV rates announced by the Financial Markets Association of Pakistan (FMAP) through Reuters and GIS revaluation rates issued by PSX. These rates denote an average of quotes received from different pre-defined / approved dealers / brokers.
Unlisted ordinary shares	Break-up value is determined on the basis of the Net Asset Value (NAV) of the company using the latest available financial statements.
Sukuk Certificates	Fair values of Sukuk certificates are determined using the MUFAP or PSX rates.
Forward foreign exchange contracts	The valuation has been determined by interpolating the mark-to-market currency rates announced by the State Bank of Pakistan.
Derivative instruments	The Holding Company enters into derivative contracts with various counterparties. Derivatives that are valued using valuation techniques with market observable inputs are mainly cross currency swaps and forward foreign exchange contracts. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations.
Mutual funds	Units of mutual funds are valued using the Net Asset Value (NAV) announced by the Mutual Funds Association of Pakistan (MUFAP).
Property and equipment (land and buildings)	Land and buildings and NBA are revalued by professionally qualified valuers of the Holding Company. The valuations, mentioned above, are conducted by the valuation experts appointed by the Holding Company which are also on the panel of the Pakistan Banks' Association (PBA). The valuation experts use a market based approach to arrive at the fair value of the Holding Company's properties. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable or similar properties. These values are adjusted to reflect the current condition of the properties
Non-banking assets acquired in satisfaction of claims (NBAs)	

Notes to the Consolidated Financial Statements

The Group has related party transactions with its parent, associates, employee benefit plans and its directors and key management personnel.

The Group enters into transactions with related parties in the ordinary course of business and on substantially the same terms as for comparable transactions with persons of similar standing. Contributions to and accruals in respect of staff retirement benefits and other benefit plans are made in accordance with the actuarial valuations / terms of the contribution plan. Remuneration to the executives / officers is determined in accordance with the terms of their appointment.

Details of transactions with related parties as at the year end, other than those which have been disclosed elsewhere in these consolidated financial statements are as follows:

Common equity tier 1 capital adequacy ratio (in %)	13.39%	14.68%
Tier 1 Capital adequacy ratio (in %)	13.39%	14.68%
Total Capital adequacy ratio (in %)	16.74%	17.54%

Capital adequacy is regularly monitored by the Group's management, employing techniques based on the guidelines developed by the Basel Committee and as per the requirements of the SBP. The required information is submitted to the SBP on a quarterly basis.

Since December 31, 2023, the SBP requires each bank or banking group to: (a) hold the minimum level of the paid-up capital of Rs 10 billion; (b) maintain a ratio of total regulatory capital to the risk-weighted assets at or above the required minimum level of 10% and (c) maintain common equity tier I (CET1) ratio and tier 1 ratio of 6% and 7.5% respectively.

An additional capital conservation buffer (CCB) of 1.5% (to be met from CET1) has to be maintained over and above the minimum required level.

The paid-up capital of the Group for the year ended December 31, 2024, stood at Rs 15.177 billion (2023: Rs 15.177 billion). As at December 31, 2024, the Bank's CAR stood at 16.74% (December 31, 2023: 17.54%) whereas CET1 and Tier 1 ratios both stood at 13.39% (December 31, 2023: 14.68%).

The Group is also in compliance with the conservation buffer requirements.

The Group calculates capital requirement as per Basel III regulatory framework, using the following approaches:

Credit Risk	Standardised Approach
Market Risk	Standardised Approach
Operational Risk	Basic Indicator Approach

47 RISK MANAGEMENT

Risk management group (RMG) has been organised under the Chief Risk Officer (CRO). It has been authorised by the Board of Directors (BoD) to monitor the implementation of an integrated risk management framework across the Holding Company. As an ongoing exercise to integrate risk related functions, RMG has been expanded, strengthened and entrusted to monitor the risk areas across the organisation, including adoption and convergence towards regulatory and Basel guidelines on risk management.

The primary objective of this architecture is to inculcate risk management into the organisation flows to ensure that risks are timely and accurately identified and assessed, properly documented, approved and adequately monitored and managed in order to ensure that risk taking activities are in line with the guidelines approved by the BoD and to protect the interests of the Bank's depositors and shareholders.

The 'risk management framework' at the Group encompasses:

- scope of risks to be managed;
- process, systems and procedures to manage risk; and
- roles and responsibilities of individuals involved in risk management.

The Group has adopted an approach that gives an integrated view of the risks faced by the organisation. This calls for aligning strategic vision, policy objectives and business processes / procedures within the risk management framework. The management of risk is integrated with the Group's management of capital and strategy. This ensures that risks taken in pursuit of the Group's strategic objectives are consistent with the policies, translating into targeted shareholder return as well as the Group's desired credit rating and risk appetite.

With this in view, the risk management framework endeavours to be a comprehensive and evolving set of guidelines to cater to changing business dynamics. The risk management framework includes:

- clearly defined risk management policies;
- well constituted organisational structure; and
- mechanism for ongoing review of all policies and procedures and risk exposures.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

The 'risk management framework' is built on the following elements:

- comprehensive risk governance; and
- effective risk processes.

The Group has developed and implemented a governance and management structure, processes surrounding each risk area, including credit risk, market risk, liquidity risk, capital management, operational risk, environmental, social risk, shari'ah non-compliance and information security risk.

The essential components which contribute in effective management of all these risks are as follows:

- active board / senior management strategic direction and centralised RMG oversight;
- sufficient policies, procedures and limits;
- adequate risk measurement, monitoring and management information systems; and
- comprehensive internal controls.

The Board of Directors (BoD) monitoring and oversight is facilitated through the Board Risk Management Committee (BRMC), comprising of directors including the President & CEO. It is appointed and authorised by the BoD to assist in the design, regular evaluation and timely updation of the risk management framework. The BRMC has further authorised management committees such as Country Credit Committee (CCC), Agriculture Credit Committee (ACC), Enterprise Risk Management Committee (ERMC) and Assets and Liabilities Committee (ALCO) to supervise risk management activities within their respective areas.

In order to have an effective and efficient risk assessment, and to closely align its functions with business, RMG has separate risk management functions for credit risk management, based on the specialised skill sets and required specific experience in various business segments. These functions comprise of corporate risk, CBSME, agri and retail risk management.

The common responsibilities of all credit risk management functions include:

- conduct a thorough and an independent due diligence of the proposed / existing exposures in the respective risk portfolios.
- work with compliance department of the Holding Company to ensure conformity to the relevant Government regulations, the SBP PRs as well as internal policies.
- work with relationship teams to structure exposures such that they mitigate key risks, cater to customer requirements, remain economical in terms of risk weighted assets / capital allocation to ensure adequate risk coverage.

The risk management architecture is further fostered by enterprise risk management, Risk Policy, Analytics & ESG, information security function and an independent credit administration department.

The enterprise risk management function is responsible for managing and controlling market, operational and liquidity risks at an enterprise level and monitoring regulatory capital requirements of the Group.

Credit administration department - independent from the Risk Management function - looks after the security, financing documentation, disbursement and post disbursement monitoring aspects of the credit portfolio.

Risk Policy, analytics & ESG department serves as an independent check in the risk management function. It performs periodic review of all credit related portfolios (corporate, CBSME, retail, agri, SAM) and analyses portfolio compositions, risk rating distributions, emerging trends of NPLs, renewal status of Risk Approvals (RAs) as per policy and other policy related matters. It also formulates / updates credit policies (along with various limits prescribed therein) in line with regulatory environment, business strategy, the BoD approvals and the best practices.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

Moreover, the Green Banking Office (GBO) has been consolidated under the Risk Policy, Analytics & ESG umbrella at Group. Established in accordance with the State Bank of Pakistan's Green Banking Guidelines (Circular #08 of IH&SMEFD, dated October 09, 2017), the GBO operates within the Risk function to oversee the entity-wide implementation of Green Banking and ESG initiatives. This office is responsible for the day-to-day management of green banking activities at Group and supports the integration of ESG considerations into business decision-making. The GBO ensures the Group's compliance with SBP's Green Banking Guidelines, Group's Green Banking Policy, and any other relevant regulatory directives.

The information security risk function is responsible for information security risk identification, monitoring and reporting.

47.1 Credit risk

Credit risk is the identification of probability that a counterparty will cause a financial loss to the Group due to its inability or unwillingness to meet its contractual obligation. This credit risk arises mainly from both direct financing activities as well as contingent liabilities.

The Group's credit risk philosophy is based on the Group's overall business strategy / direction as established by the Board. The Group is committed to the appropriate level of due diligence to ensure that credit risks have been properly analysed, fully disclosed to the approving authorities, appropriately rated, appropriately structured, appropriately priced and documented.

The Group deals with many different types of obligors/borrowers and financing structures across the corporate, commercial, SME, agriculture and retail segments. The Group manages customer credit risk exposures within appropriate limits to ensure that it does not provide a disproportionate level of credit to a single borrower or group of connected clients. The Group follows aggregation principles – summing of credit risk limits to the same borrower, or group of connected clients – to identify and manage effectively all significant credit risk exposures to a single borrower within an individual business and, where appropriate, across other business segments.

The Group has well-defined credit approval and review processes under which senior officers with the requisite credit background, critically scrutinise, advise and discuss associated risks and recommend / review / approve credit facilities and financing, through respective credit committees. Besides financial, industry and transaction analysis, in order to quantify risks of counterparty, the credit evaluation also includes risk rating system to evaluate risk rating of the customers which is then monitored on a portfolio basis to gauge the Group's credit portfolio quality. To avoid risk concentration, counterparty limits, counterparty group limits and industry concentration limits are also established, monitored and assessed in the light of changing counterparty and market conditions.

With a view to develop and effectively manage a diversified credit portfolio within each business segment (as an integral part of the credit risk management process), the Group has adopted the concept of an industry / sector-wise exposure concentration grid which dictates target market exposures.

As part of the Group's portfolio strategy and planning activity, these industry concentration limits are continually overseen by the management against the Group's approved exposures in these sectors and reviewed by the Board Risk Management Committee (BRMC) in its meetings with an aim to monitor the overall risk and to avoid high exposure to a single group or industry.

The Group is regularly conducting credit portfolio reviews to assess early warning signs, with robust post disbursement credit review mechanism to identify obligors/customers most likely to be affected in the challenging business and economic environment. The Group is confident that it has adequate capacity to withstand Challenges.

The Group uses the Standardised Approach to calculate capital charge for credit risk as per Basel regulatory framework, with comprehensive approach for credit risk mitigation.

Stress testing for credit risk is carried out regularly to estimate the impact of increase in non performing financing and downward shift in these categories.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

47.1.1 Segment by class of business

Credit Risk Management (CRM) Framework (non-individual portfolio) covers three business segments: corporate risk management, commercial Grouping and SME (including agri) risk management. Based on overall guidance provided by a recognised and established external consultant, in line with the global best practices while ensuring regulatory compliance and alleviation of any (perceived) conflict of interest, credit management process has been segregated into two distinct categories:

- independent risk advice by risk management function.
- credit approvals by credit committee(s), while taking into consideration the business unit recommendations / approvals and independent risk advice.

With this segregation, the role of risk management function in credit approval process is focused to provide risk advice only, based on key risk parameters; whereas relevant credit committees are responsible for providing credit related approvals.

The common responsibilities of corporate risk management and commercial banking and SME (including agri) risk management include:

- conduct a thorough and an independent due diligence of the proposed / existing exposures in the respective risk portfolios.
- work with relationship teams to advise on structure of exposures such that they mitigate key risks, cater to borrower requirements, remain economical in terms of risk weighted assets / capital allocation to ensure risk coverage.
- work with the independent credit risk review team (under internal audit) for effective and periodic review of the credit portfolio.

Retail risk management is responsible for managing the credit risk of consumer finance credit products, with credit facilities extended to individual (non-corporate) borrower. The consumer finance function operates on a program approach, which are approved by the Country Credit Committee and subsequently by the BoD. The retail risk management provides its input on risk parameters in term of 'risk advice', at the time of approval / changes in product programs. The retail risk management also ensures that all the ongoing individual credit approvals are within pre-defined risk parameters as per the approved product programs.

47.1.2 Credit risk: general disclosures Basel specific

The Group has adopted the standardised approach under Basel. According to the regulatory statement submitted under the standardised approach, the portfolio has been divided into claims on public sector entities in Pakistan (PSEs), claims on corporate (excluding equity exposure) and claims categorised as retail portfolio. Claims on corporate constitute 62.04% (2023: 59.83%) of the total credit risk weighted assets, 2.33% (2023: 1.27%) represents claims on PSEs and 15.04% (2023: 13.99%) exposure pertains to claims categorised as retail portfolio.

47.1.3 Credit risk: disclosures for portfolio subject to standardised approach

For domestic claims, external credit assessment institutions (ECAIs) recommended by the SBP, namely Pakistan Credit Rating Agency Limited (PACRA) and VIS Credit Rating Company Limited are used. For claims on foreign entities, ratings assigned by Standard and Poor, Fitch and Moody's are used. Exposures not rated by any of the aforementioned rating agencies are categorised as unrated.

Exposures	PACRA	VIS	Standard and Poor's	Moody's	Fitch
Corporate	✓	✓	-	-	-
Banks	✓	✓	✓	✓	✓
Sovereigns	-	-	✓	✓	✓
PSEs	✓	✓	-	-	-

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

The SBP's indicative mapping process as instructed in the SBP's circular "Minimum capital requirements for banks and DFIs" (indicated in table below) was used to map alpha numeric ratings of PACRA, VIS, S&P's, Moody's, Fitch ratings, and numeric scores of ECAs, to the SBP's rating grades.

Long term rating grades mapping

SBP rating	ECA scores	PACRA	VIS	S & P	Moody's	Fitch
1	0,1	AA- and above	AA- and above	AA- and above	Aa3 and above	AA- and above

47.1.9 Forward-looking information contained in ECL

The Holding Company's Expected Credit Loss (ECL) calculation incorporates forward-looking information by integrating macroeconomic variables to enhance the accuracy and reliability of credit risk estimates. The use of forward-looking data helps in better predicting potential credit losses under different economic conditions.

To estimate Probability of Default (PD) and Loss Given Default (LGD), the Holding Company utilizes historical and forecasted macroeconomic data. For ECL calculations, the Holding Company considers Gross Domestic Product (GDP) and Consumer Price Index (CPI) as the primary macroeconomic variables, with forecasted data sourced from the International Monetary Fund (IMF). The selection of these variables is based on their relevance and sensitivity to specific portfolios.

The Holding Company has developed three macroeconomic scenarios—Base, Best, and Worst—to reflect potential economic conditions. These scenarios have been assigned probability weightings of 60% for the Base scenario, 10% for the Best scenario, and 30% for the Worst scenario to ensure a comprehensive assessment of credit risk exposure.

As part of its forward-looking assessment, the Holding Company conducted a sensitivity analysis on macroeconomic indicators used in Expected Credit Loss (ECL) calculations. As of December 31, 2024, the Holding Company developed three scenarios—Base, Best, and Worst—based on a five-year forecast. A 10% change in macroeconomic variables (GDP and CPI) in the Base scenario was applied to assess the upside and downside impact on PD / ECL. The resulting variations across different segments are as follows:

Segment	Upwards	Downwards
Corporate/Commercial	-9.080%	10.293%
SME	-9.404%	10.344%
AGRI	-7.223%	7.699%
Consumer	-3.697%	3.838%

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

47.1.10 Sensitivity of ECL to Future Economic Conditions

The ECL are sensitive to judgements and assumption made regarding formulation of forward-looking scenarios and how much such scenarios are incorporated into calculations. The Group performs sensitivity analysis on the ECL recognized on each of its segments.

The table below shows the loss allowance on each segment assuming each forward-looking scenario (e.g. Base, Best and Worst) were weighted 100% instead of applying scenario probability across the three scenarios.

	Total ECL as per FS	Base		Best		Worst	
		Total ECL after sensitivity analysis	Increase / decrease in %	Total ECL after sensitivity analysis	Increase / decrease in %	Total ECL after sensitivity analysis	Increase / decrease in %
Corporate / Commercial	2,270,705	1,593,831	-29.809%	580,320	-74.443%	4,187,915	84.432%

AGRI	82,331	66,440	-19.302%	30,433	-63.036%	131,413	59.615%
Consumer	510,137	431,526	-15.410%	246,050	-51.768%	755,386	48.075%

47.2 Market Risk

It is the risk that the value of on-balance sheet and off-balance sheet positions of the Group will be adversely affected by movements in market rates or prices such as benchmark rates, deposit rates, foreign exchange rates, equity prices and / or commodity prices resulting in a loss to earnings and capital. Market risks arise generally from trading activities, open foreign currency positions, holding common equity and other products. All such instruments and transactions are exposed to general and specific market movements.

The Group seeks to mitigate market risk by employing strategies that correlate price, rate and spread movements of its earning assets, liabilities and trading activities. Treasury front office, market risk management and treasury middle office perform market risk management activities within the Group. The Group has Enterprise Risk Management Committee which is responsible for recommending market risk policies and strategies for the Board approval and its subsequent implementation and review.

47.2.2 Foreign Exchange Risk

Foreign exchange risk / currency risk is the current or prospective risk to earnings and capital arising from adverse movements in currency exchange rates. It refers to the impact of adverse movements in currency exchange rates on the value of open foreign currency positions. Changes in currency rates affect the value of assets and liabilities denominated in foreign currencies and may affect revenues from foreign exchange dealing.

The Group undertakes currency risk mostly to support its trade services and maintains overall foreign exchange risk position to the extent of statutory Foreign Exchange Exposure Limit (FEEL) prescribed by the SBP.

Exposure limits such as counterparty, gap, net open position, dealer and bucket-wise currency delta limits are in place in accordance with the Bank's approved policies in order to manage associated risk and concentration at the acceptable tolerance levels.

47.2.3 Equity Position Risk

Equity position risk is the risk arising from unfavourable fluctuations in prices of shares in which the Group carries positions. It is a risk to earnings or capital that results from adverse changes in the value of equity related portfolios of the Group. Price risk associated with equities could be systematic or unsystematic. Systematic risk is due to sensitivity of portfolio's value to changes in overall level of equity prices, while unsystematic risk is associated with price volatility that is determined by the specific characteristics of the investee company.

The Group's equity position is governed by position limits imposed by the SBP for overall investment and per scrip exposure. Additionally, there are internal limits set to manage overall earnings in the form of stop loss limits and maintain a diverse portfolio through sector concentration limits.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

Yield curve risk is the risk that a financial instrument will suffer either a decline in income or capital because future changes in prevailing profit rates impact assets more or less than they impact liabilities.

The profit rate risk of the Group arises when there is a mismatch between contractual maturities, which are subject to profit rate adjustment within a specified period or re-pricing of on and off-balance sheet assets and liabilities. Risk is addressed by Asset and Liability Management Committee that reviews the profit rate dynamics at regular intervals and decides re-pricing of assets and liabilities to ensure that the spread of the Group remains at an acceptable level.

Major sources of profit rate risk are;

- i) differences between the timing of rate changes and the timing of cash flows (re-pricing risk);
- ii) changing rate relationships among different yield curves affecting the Group's activities (basis risk);
- iii) changing rate relationships across the range of maturities (yield curve risk);
- iv) profit-related options embedded in the Group's products (options risk); and
- v) changes in marked-to-market value of financial instruments which occur when profit changes (price risk).

47.3 Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes or systems, human factors or from external events. The Group businesses are dependent on the ability to process a large number of transactions efficiently and accurately. Operational risks and losses originate from business / operational process failure, IT security failure, natural disasters, dependence on key suppliers, fraud, service quality compromises, regulatory non-compliance, loss of key staff and social and environmental impacts.

The operational risk management function is primarily responsible for the oversight of operational risk management across the Group. The operational risk management framework of the Group is governed by the operational risk management policy and procedures, while the implementation is supported by an operational risk management system and designated operational risk coordinators within different units across the Group. The framework is in line with international best practices, flexible enough to implement in stages and permits the overall approach to evolve in response to organizational learning and future requirements.

The Group has implemented an effective operational risk management framework for managing operational risk. Each department has processes and system controls in place to address operational risks within their area. Operational loss data is collected through a well defined program implemented across the Group. Periodic workshops are conducted for risk and control self assessment and key risk exposures are identified and assessed against existing controls to evaluate improvement opportunities. Key risk indicators are also defined for monitoring of risk exposures. New products, systems, activities and processes are subject to comprehensive operational risk assessments, before implementation. Regular updates on operational risk status is presented to Enterprise Risk Management Committee (ERMC) and the Board of Directors through the Board Risk Management Committee (BRMC). Further, as part of Group's ongoing commitment to enhance Group's services and to ensure Group-wide risk awareness culture, Operational Risk Management Department has also organized special workshops / class room trainings tailored for Pan Pakistan Branch Operations Team.

Operational risk-disclosures Basel II specific

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events.

The Group is currently using basic indicator approach for calculating operational risk capital charge.

Under basic indicator approach the capital charge for operational risk is a fixed percentage (denoted alpha) of average positive annual gross income of the Group over the past three years. Figures for any year in which annual gross income is negative or zero, should be excluded from both the numerator and denominator when calculating the average.

47.4 Shari'ah Non-Compliance Risk (SNCR)

Shari'ah Non-Compliance Risk (SNCR) is the financial and reputational risk that arises from a Group's failure to comply with the Shari'ah rules and principles prescribed by the State Bank of Pakistan and Shari'ah Board of the Group. Managing Shari'ah non-compliance risk is vital for the establishment of an effective Shari'ah governance system. Shari'ah compliance is critical to an Islamic Group's operations and such compliance requirements must permeate

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

throughout the organization and its products and activities.

Group is fully aware of the importance and implication of Shari'ah non-compliance risk on its business and strategy and therefore, ensures Shari'ah compliance in its business activities & operations. Group has also developed a comprehensive framework for Shari'ah Non-Compliance Risk management, which entails identification, assessment, monitoring / controlling and reporting of SNCR residing in the Group.

47.5 Liquidity risk

Liquidity risk is the risk that the Group will be unable to meet its payment obligations associated with its financial liabilities when they fall due and to replenish funds when they are withdrawn.

Liquidity risk management framework is governed by the liquidity risk management policy. The policy provides specific directives for measuring and managing liquidity risk identifies responsible personnel; and defines their respective roles and responsibilities relating to liquidity risk management.

The management of liquidity risk is accomplished through a formal structure which includes:

- Board of Directors (BoD)
- Board Risk Management Committee (BRMC)
- Asset and Liability Committee (ALCO)
- Enterprise Risk Management Committee (ERMC)
- Treasury
- Risk management (enterprise risk management)
- Finance

The BoD approves the liquidity risk management policy including risk limits and ensures, through quarterly reviews by the BRMC, that the Group's liquidity risk is being managed prudently. The BRMC plays a strategic role in liquidity risk management by overseeing the liquidity risk profile of the Group. ERMC defines the risk tolerance levels and setting risk limits for effective liquidity risk management. ALCO ensures adherence with policy requirements and risk limits so that the Group remains sufficiently liquid at all times.

The market and liquidity risk under enterprise risk management function overseas liquidity risk. The Group's Asset and Liability Committee manages the liquidity position on a continuous basis.

The Group ensures to maintain a diversified portfolio of liquid assets and funding base. Sources of funding comprise of a good mix of core deposits. Concentration in deposit, especially large volume deposits, is closely monitored to anticipate any potential liquidity issues in case of their withdrawals.

Various tools and techniques are used to measure and monitor the possible liquidity risk. These include monitoring of different liquidity ratios like liquid assets to liquid liabilities, liquid assets to total deposits, large volume deposits to total deposits, financing to deposit, liquid assets to volatile funding; on a regular basis against defined limits. Further, liquidity gaps over different time bands, are also monitored through maturity profiling of assets and liabilities. The Group also ensures that statutory cash and liquidity requirements are maintained at all times. In addition, the Group has also implemented the SBP's Basel III liquidity standards for ensuring compliance with the requirements of LCR, NSFR and other monitoring tools.

The Group performs liquidity stress testing on periodic basis in order to ensure sufficient liquidity is always available to meet financial obligations / commitments. Stress testing aims to quantify the potential impact of extreme yet plausible events or movements on the value of portfolio. Shocks include withdrawal of deposits, withdrawal of wholesale / large deposits, withdrawal of top deposits, etc. The results of liquidity stress testing are shared with relevant authorities / committees, on periodic basis.

Contingency funding plan (CFP) is a part of liquidity risk management policy of the Group. CFP provides a set of several early warning indicators of a possible liquidity shortfall situation; describes the actions to be taken to manage it and identifies the roles and responsibilities of ALCO, CFP team or other relevant authorities.

In line with the SBP BSD Circular Letter No. 02 and 03 of 2011 on “Maturity and Profit rate sensitivity gap reporting”, deposit withdrawal pattern analysis on current and saving accounts (CASA) is conducted on at least ten years weekly data. The outliers (seasonal variations) are adjusted from data using fourth spread statistical methodology. The regression methodology is used to estimated deposits withdrawal pattern of both current and saving deposits. This methodology is in line with industry best practices and regulatory guidelines.

Total equity attributable to the equity holders of the Bank

Non-controlling interest

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

47.6 Derivative risk management

The Group's derivatives risk management is performed under market risk management which is an independent unit reporting to the Chief Risk Officer. The risk management policies are governed by the regulatory and internal guidelines. The risk management department of the Group reviews credit risk, market risk and other risks associated with the derivative transactions or related area of the activity and assigns limits within which the transactions / area of activity can be carried out. Furthermore, Group's derivative portfolio is on run off basis due to conversion. Adherence to these limits is ensured through independent monitoring and control functions.

There are a number of risks undertaken by the Group, which need to be monitored and assessed. The management of risks includes the following primary components:

- comprehensive risk measurement approach;
- detailed structure of limits, guidelines and other parameters used to govern risk taking; and
- strong management information system for controlling, monitoring and reporting risks.

Major risks associated with the derivative instruments are market risk, credit risk and liquidity risk. The Group uses FIS-System to measure and manage these risks which provides end-to-end capability with respect to transaction life cycle.

Market risk

Market risk is the risk that the value of a derivative contract will be adversely affected by movements in equity prices, profit rates, currency exchange rates and commodity prices. The authority for approving policies, limits and periodic reviews rest with the Board of Directors. The critical measures used to manage market risks are profit rate delta and currency delta basis. These measures involve extreme shifts in a variety of parameters, such as FX rates, profit rates, equity prices, implied volatility levels and combinations of the above. These measures are calculated through the relevant systems.

Credit risk

Credit risk is the risk that a party to a derivative contract will fail to perform its obligation. There is a settlement risk associated with the derivative transactions. Settlement risk is monitored on a daily basis. Risk management department of the Group sets the policies and limits for counterparty risk based on a pre-defined criteria linked with the internal risk rating of the borrower.

Liquidity risk

Liquidity risk is managed as part of the overall liquidity risk of the Group. The risk management policies related to liquidity risk are explained in note 47.5 to these consolidated financial statements.

48 DATE OF AUTHORISATION FOR ISSUE

These consolidated financial statements were authorised for issue on February 20, 2025 by the Board of Directors of the Group.

49 GENERAL

Comparative information has been re-classified, re-arranged or additionally incorporated in these consolidated financial statements, wherever necessary, to facilitate comparison and to conform with changes in presentation in the current year.

Notes to the Consolidated Financial Statements

For the year ended December 31, 2024

50 NON-ADJUSTING EVENTS AFTER THE BALANCE SHEET DATE

The Board of Directors of the Holding Company in its meeting held on February 20, 2025 has proposed a final cash dividend of Rs. 2.5 per share (25%) for the year ended December 31, 2024. This is in addition to Rs. 4.5 already paid during the year bringing the total dividend for the year to Rs. 7 per share (2023: Rs. 4). These consolidated financial statements for the year ended December 31, 2024 do not include the effect of this appropriation which will be accounted for subsequent to the year end.

Consumer Grievances Handling Mechanism

With the vision to 'Be the leading Islamic Bank in Pakistan', Faysal Bank believes in making continuous efforts towards enhancing Customer Experience across all touchpoints, such as but not limited to; branch banking, contact center, and digital channels. It is our differentiating edge to proactively anticipate our customers' needs and wants, and modify our model accordingly, to provide service going way above-and-beyond the customary

Faysal Bank believes in providing an impeccable experience to customers throughout the lifecycle: As part of our service excellence mandate, we have established pillars of visibility, accountability, customer feedback and grievance handling, which enable us to better empathize with the raw customer experience and put our efforts towards continuously enhancing it.

It is our priority to ensure that the Bank's conduct with its customers is fair and transparent, imparting awareness for informed decisions, in conformity with the excellence of committed standards. We have been consistently investing in state-of-art technology to further improve the Service Delivery & Digital Experience, and enable provisions to gauge key internal performance, where critical processes are measured, via a thorough optimization cycle.

To meet our pledge of rendering the best-in-class service, we have implemented the following initiatives resulting in optimal customer experience:

Consumer Protection Policy:

To increasingly consolidate customer centricity in the culture and dynamics of Faysal Bank, we have framed an extensive consumer protection policy, which outlines comprehensive guidelines for customer management throughout the customer journey and product lifecycle.

Voice of Customer Program:

The in-house Voice of Customer (VoC) programme enables us to capture customers' feedback, requirements and expectations via surveys and other strategic initiatives. The programme gathers customer feedback on all available customer touchpoints to capture customers' satisfaction level on the Bank's services/products/processes/digital offerings/brand equity/lifestyle, through telephonic interviews of our valued customers.

Service Standards Monitoring Spectrum:

The Bank has a robust process monitoring platform that spans across various products, channels including but not limited to Digital Channels, Branch Banking, Consumer Finance, Centralized Operations and support segments with an aim to identify gaps resulting in high turnaround times while driving efforts to meet our committed service standards.

Knowledge Initiatives:

Our knowledge enhancement programme is focused on increasing our staff awareness levels on products, processes, and customer handling techniques. To strengthen the best service mind-set, not only do we take the contemporary approach, but we also utilise mediums such as Service Snippets, Infograms, Online Portal, etc.

Process Optimization:

Process Optimization at Customer Experience, keeps in lens, all the facts and figures emanating from Complaint Management Unit, and the platforms mentioned above. Process optimization also yields strategies and plans to continuously evolve and improve the experience for our customers.

Complaint Management Unit:

The automated Complaint Resolution mechanism at Faysal Bank ensures due diligent complaint closures, while maintaining high FTC (Fair Treatment of Customers) standards.

In 2024, the Bank directly received a total of 106,647 complaints which were resolved in an average time of 4 working days. In addition, we at Faysal Bank conduct thorough root cause analysis to facilitate / drive continuous improvement in tandem with the business, and product management teams, via various avenues as elaborated above.

Customer Satisfaction Surveys:

At Faysal Bank, we conduct Customer Satisfaction Surveys from renowned vendors in order to get a validated external view on the customer experience aspect of various product suites.

Market Competition Scan:

With the resolve to understand the key drivers behind industry's best practices, both locally and internationally, Faysal Bank continuously carries out competitive scans on various service standards and process journeys.

Video Mystery Shopping Program:

We have a robust and unique Video Mystery Shopping Program (VMSP) which is conducted by an external, independent agency through concealed recording devices and objectively captures the realities of a customer's experience. Especially designed to capture a range of aesthetics and customer interactive elements, with the objective of identifying weak areas and to validate strengths.

This programme is a testament to our customer commitment where the Bank continuously seeks ways to improve the customer experience with a 360-degree view.

Karachi dated: March 3, 2025

By the order of the Board

Aurangzeb Amin

Company Secretary & Head of Legal

Notes:

1. The Share Transfer Books of the Bank shall remain closed from **March 19, 2025, to March 25, 2025** (both days inclusive). Transfer received at the Share Registrar of the Bank, by the close of business on March 18, 2025, will be treated in time.

2. A member entitled to attend and vote at the Meeting may appoint another person as per his/her proxy to attend and vote for him/her provided that a corporation may appoint as its proxy a person who is not a member but is duly authorized by the corporation. Proxies must be received at the Registered Office of the Bank not later than 10:00 a.m. on March 23, 2025.

3. Participation in the AGM through Video link:

The General Meeting is being conducted as per guidelines circulated by SECP following arrangements have also been made by the Bank to facilitate the maximum participation of the shareholders in the AGM through video link facility, either in-person or through appointed proxies:

The shareholders interested to participate through video link are requested to please provide below information at Email: cdcsr@cdcsrsl.com and WhatsApp No. **0321-8200864** at the earliest but not later than close of business on March 24, 2025.

Full Name of shareholder / Proxy Holder	Company	CNIC Number	Folio / CDC A/c No.	Email ID	Mobile Phone No.
	Faysal Bank Limited				

Please note that video link and login credentials will be shared with only those members / designated proxies whose e-mail and other required information are received in required time as mentioned above.

- a) Video-link for the meeting will be sent to members at their email addresses provided enabling them to attend the meeting on the given date and time.
 - b) Login facility will be opened thirty (30) minutes before the meeting time to enable the participants to join the meeting after the identification process. Shareholders will be able to log in and participate in the meeting proceedings through their devices after completing all the formalities required for the identification and verification of the shareholders.
 - c) Shareholders may send their comments and suggestions relating to the agenda items of the AGM at least two (2) working days before the meeting, at the given email address cdcsr@cdcsrsl.com WhatsApp on 0321-8200864. Shareholders are requested to mention their full name, CNIC # and Folio/CDC Account # for this purpose.
 - d) Shareholders are encouraged to participate in the meeting to consolidate their attendance and participation through proxies.
4. CDC Account Holders will further have to follow the under mentioned guidelines as laid down in Circular 1 dated January 26, 2000, issued by the Securities and Exchange Commission of Pakistan.

A. For attending the Meeting:

- i) In case of individuals, the account holder or sub-account holder and/or the person whose securities are in group account and their registration detail are uploaded as per the regulations, shall authenticate his/her identity by showing his/her original Computerized National Identity Card (CNIC) or original passport at the time of attending the Meeting.
- ii) In case of corporate entity, the Board of Directors' resolution/power of attorney with specimen signature of the nominee shall be produced (unless it has been provided earlier) at the time of Meeting.

B. For appointing proxies:

- i) In case of individuals, the account holder or sub-account holder and /or the person whose securities are in group account and their registration details are uploaded as per the regulations, shall submit the proxy form as per the above requirement.
- ii) The proxy form shall be witnessed by two persons whose names, addresses and CNIC numbers shall be mentioned on the form.
- iii) Attested copies of CNIC or the passport of the beneficial owners and the proxy shall be furnished with the proxy form.
- iv) The proxy shall produce his/her original CINC or original passport at the time of the Meeting.
- v) In case of corporate entity, the Board of Directors' resolution/power of attorney with specimen signature shall be submitted (unless it has been provided earlier) along with proxy form to the Company.

5. Members are required to timely notify any change in their address to their respective Participants (if shares are held electronically) or to the Share Registrar of the Bank (if shares are held in physical form) M/s. CDC Share Registrar Services Limited, CDC House, 99-B, Block-B, S.M.C.H.S., Main Shahrah-e-Faisal, Karachi.

6. Mandatory Requirement for Provision of IBAN and Valid CNIC for payment of Cash Dividend through Electronically:

In compliance with requirements of Companies Act, 2017 and the Companies (Distribution of Dividends) Regulations, 2017, the Company shall withhold dividend of those shareholders who have not yet provided correct and complete bank account details including valid IBAN of their respective bank accounts.

In order to receive cash dividend(s) withheld by the Bank as stated above, shareholders are requested to contact their Share Registrar at the above given address or their respective Participant / Investor Account Services of Central Depository Company of Pakistan (as the case may be) along with legible copy of their respective valid CNIC and provide their complete and correct bank account details including valid IBAN.

The Shareholders holding Pakistan Origin Card and have updated the same in records or Shareholders who have mentioned their passport numbers will receive the dividends subsequent to the initial payment run through Central Depository System.

It is also important to note that system errors or non-response on part of a shareholder's designated bank may also delay the dividend payment and in case of such delays shareholders are requested to contact the Company's Share Registrar.

Completion and correction of record:

Members are required to timely notify any change in their address to their respective Participants (if shares are held electronically) or to the Share Registrar of the Bank (if shares are held in physical form) M/s. CDC Share Registrar Services Limited, CDC House, 99-B, Block-B, S.M.C.H.S., Main Shahrah-e-Faisal, Karachi.

7. Deduction of Withholding Tax:

Please note that the withholding tax will be deducted at the following rate based on "Active Taxpayer List" (ATL) available at FBR website:

- | | |
|--|------|
| 1. Persons appearing in Active Taxpayers List: | 15% |
| 2. Persons not appearing in Active Taxpayers List: | 30%. |

Further, in case of joint shareholders, tax will be deducted as per their ratio/share (if any) intimated by the same to the Bank's Share Registrar, otherwise their shareholding treated as equal.

8. Requirement of Valid Tax Exemption Certificate for Claim of Exemption U/S 150 of the Income Tax Ordinance 2001:

If the FBL is available with valid exemption certificate issued u/s 159 of Income Tax Ordinance, 2001 or has filed a petition against the FBR for acquiring exemption certificate, in any relevant court, a copy of valid exemption certificate or certified true copy of the Stay Order of Honorable Court along with latest Court proceedings (if any) would be required latest by March 18, 2025 in lieu of valid exemption certificate for non-deducting of withholding tax. In case of non-availability of the same or Court Order, tax shall be deducted accordingly.

9. Deduction of Zakat on Dividend issue:

The Zakat will be deducted from the dividends at source at the rate of 2.5% of the paid-up value of the shares (Rs. 10/- each) under Zakat and Ushr Laws and will be deposited within the prescribed period with the relevant authority. Please submit your Zakat Declaration Form (CZ 50) under Zakat and Ushr Ordinance 1980 & Rule 4 of Zakat (Deduction & Refund) Rules, 1981 to the Bank's Share Registrar. Shareholders who hold shares with participants / CDC are advised to provide the above Forms through the concerned brokers / CDC.

10. Availability of Audited Financial Statements on Company's Website

The Company has placed the Audited Annual Financial Statements for the year ended December 31, 2024 along with Auditor's and Director's Reports thereon on its website: www.faysalbank.com

11. Transmission of Financial Statements

The Securities and Exchange Commission of Pakistan vide SRO No. 389(1) / 2023 dated March 21, 2023, has allowed listed companies to circulate their Annual Audited Financial Statements, (i.e., annual audited Balance Sheet and Profit & Loss accounts, Auditors Report and Directors' Report) along with the notice of 30th AGM to be held on March 25, 2025, to its shareholders, through QR code and web link (as mentioned above).

However, hard copy of the same will be provided on demand and members desiring to avail this facility may provide the requisite information to the Company Share Registrar, M/s. CDC Share Registrar Services Limited, CDC House, 99-B, Block-B, S.M.C.H.S., Main Shahrah-e-Faisal, Karachi. Further, the financial statements along with the notice of AGM may also be circulated through email by the Bank's registrar. Please note that the required documents will be send to the members on their registered email address only.

12. Deposit / Conversion of Physical Shares into Book-Entry Form:

The Securities and Exchange Commission of Pakistan ("SECP") through its letter No. CSD/ED/Misc./2016-639-640 dated March 26, 2021 has advised listed companies to adhere with the provision of the Section 72 of the Companies Act, 2017 (the "Act") requiring all the existing companies to replace shares issued by them in physical form with shares into Book-Entry form in a manner as may be specified and from the date notified by the SECP but not exceeding four (04) years from the date of the promulgation of the Act. Considering the aforesaid directive, FBL has also published a request on dated May 28, 2021 to ensure compliance with requirement of the Act and advised to open Investor Account directly with the Central Depository Company of Pakistan Limited ("CDC") or CDC-Sub-Account with any of the TREC Holder registered with Pakistan Stock Exchange Limited to place their physical shares into Book-Entry form. It will not only to secure the compliance of relevant rules and regulations but will also speed up the process of disbursement of entitlement to the respective shareholders.

13. Claiming of Unclaimed / Unpaid Dividends and Share Certificates:

In compliance of Section 244 of the companies Act 2017, the Bank has already requested through individual letters to shareholders who have not yet claimed their outstanding cash dividends/ bonus shares, Shareholders are once again requested to lodge their claims for cash dividends, right /bonus shares kept with the Share Registrar and Transfer Agent of the Bank. On the address given above.

14. Registration on CDC's e-Services Web Portal:

Central Depository Company (CDC) has developed Centralized Cash Dividend Register (CCDR), an e-Services web portal which contains details pertinent to cash dividend paid, unpaid or withheld by listed companies. The CCDR will help to maintain history of dividends paid to shareholder by listed companies and access of all such information will be provided to the respective shareholders. The web portal will facilitate shareholders of listed companies in retrieving detail of cash dividends from CCDR and using the same for their record purposes. Shareholders may access CCDR via <https://csp.cdcaccess.com.pk> in addition, the Dividend / Zakat & Tax Deduction Report can also be obtained directly from Participant (Stock Broker) which has been provided to them on their CDS terminals. Moreover, shareholders may also receive copy of this report on their registered email addresses.
